

THI-SHOW TRANSCRIPT 2019-10-27

Today starts out another of my series From Russia with Love in 3 parts what will unfold after these 3 will be a clearer understanding and path for all peoples, once the illusions of this world is seen, absorbed, processed and then a desire to move forward on our path, not theirs. People really like these shows, why? because the frequency of fog and lies is being dropped and a new path emerges. WE ARE ALL MADE OF STARS The implications of this piece and the second and third parts of this show are wide ranging, and will involve several pieces of my work I have put together, plus supporting information from others, more of the dots will be connected, and if you have absorbed the previous episodes of this series, plus some of the op-ed pieces I have done in the shows, a clearer picture begins to emerge. This will be dot connecting on a massive scale, and the term of upsetting the apple cart will apply here, to encompasses much of From Russia with Love 1 through 7, and adds much deeper layers to it, as the never ending rabbit hole goes deeper, wider and higher than you all imagined. Upsetting the apple cart means to ruin a plan or event, and this series does that when you connect it altogether, if you leave the apple cart untouched, it begins to rot the fruit, the fruit was us, they are the cart, that cart is losing it's wheels and is a bit rickety today, these three parts plus From Russia with Love 9 will disassemble the cart, which is the framework of the dark forces, This one involves astro-astrology, moon worship, occultism, demonism all under the hospices of Hebrew or Jewish religion, Hinduism and several other organizations. Part 2 will reveal the umbrella they are fall under, Part 3 will add more and connect more of the dots and is a summary of it all, setting the stage for FRWL 9. Also it brings in the Saturn moon matrix, what is the eclipse, vril role in it all, yin and yang explanations, Solomon, temples and sacrifices, dark magic, India and it's deities, but first we will go into a summary of From Russia with Love 1 through 7 as a recap, as parts of 8a tonight, 8b and 8c to follow, will connect dots back to the previous episodes on a massive scale.

From Russia with Love 1 brought in the URS, Aryans, the Kali Ma, the sub grey race, the night of the Svarog, the Vedic texts which are nothing to do with India, the Kosheys, who are the dark forces and the 3 moons in our skies, the fake Bolshevik takeover of Russian done by the priest class, known as Cohen or Khan, the lost continent of Da' Arya later known as Hyperborea, space craft travel on this world, the stargates and the celestial needles, the 4 palaces, now known as the constellations, the four gardens of Eden, who are and were the isRAelites, who was the Lord. In Part 2 we heard about the real genocide that took place of the Russian people, not the Zionist based only narrative, how

the URS tried to use genetics to cure the Kali Ma peoples, how the URS taught the Rus and Aryan populations how to be a higher form of human, the fash destroyer weapon used on this planet, the war of Antlantis, not Atlantis, we heard of the original Jerusalem not being in Israel, but Russia called Urusalem, we heard about Radomir and Mary Magdelene, both had blue eyes, and Mary had the blonde hair as well, meaning they were Rus/Aryan not Middle Eastern. Part 3 brought us how all of societies main functions to protect or serve the people are corrupted, the exodus to Egypt, The Cult of Ra in Egypt and the exodus out of there into Europe, where they quickly went through the Houses and Churches, the rise of the cat cult, Cleopatra, Mark Anthony and Julius Caesar, we learned genealogy of the Jews out of India and the Istan countries, lots of word magic and mistranslations, how the exodus not only went East, but North as well and created the Ashkenazi line from Noah, who was not one of us, but one of the Annunaki line, we learned of Solomon, Hebrew, Temples and ritual sacrifice, what the six pointed star really means, there was no letter J 2000 years ago, Ba'al, proved the modern day Israelite country, tradition, narrative and characters all came out of Egypt, Marduk who played Ra, Moloch the child sacrificer, represented by an owl, as the Egyptian word for owl is Moloch or Molech, the Sanhedrin, The Talmud, why all roads lead to Rome and their role in the subversion of humanity. Part 4 showed how the Israelite Cult of Ra formerly the Kali Ma peoples, took over the Houses of Europe and the names involved in it, particularly the Rothschild's families, how they took over the courts, banking, finance and governments, who really owned the slave ships ran under the banner of Dutch and British East India Tea Corporation, eugenics, the reverse psychology program of white supremacy, new age fakery, planned parenthood, how the white race in the 1920's represented 30%+ of the world demographics, now down to 12% and falling, the setting of the stage of the takeover of America, the massacre of the indigenous people in America in 1921 in Tulsa, how the term Indian, came not from America, but from India itself, who are the KKK and their connection to the Democrats of not only America but the Nazis in Germany, and no Nazi does not mean German, it is National Zionism, Zionism is a part of the cult and has no real country, how the African slave traded their own people, long before Europeans arrived, how 98% of people who call themselves African American, are actually indigenous Americans, not African. The takeover of Germany done by same Zionists that ransacked, destroyed and murdered near 90M Russians, fake Templars, fake Founding fathers, we asked were the Germans duped? if Germany was all about the white race, why did they attack Poland, the Slavic or Russian peoples? We heard how there was two attempts by Hitler to get all the Jews out of the camps, and the Rothschild's and Begin refused, we heard how the Rothschild's along with

Lord Balfour went about creating the future Jewish state, we heard of where the two worst plagues on this planet originated in India and Egypt, cohen cidence? Part 5 brought us the fake Melchizedek line, who were The Cathars, the Lord being Anu the reptile Draco King, the mark of the Nefilim, which is scaly skin, ascended masters are not from the sky but us after developing on a soul level, what is a god, it is based on people or beings developing their soul level, not some fake entity coming down from the sky in a fiery chariot, none of them developed themselves and so tried to piggy back on humanity. We learned of the Kalergi plan of the Zionists, we learned of The Protocols of the Elders of Zion, which paid stooges and scholars have gone to great lengths to deny it is was real, me thinks they doth protest too much, for it not to be real, plus the fact that so much of that narrative has played out. We went through Hebrew terms and traditions, fake calendars, fake holydays all based on paganism, how the Hebrews accepted the bribes and seducements of the Lord (Anu) just as the Australian, New Zealand tribes did 16.5K years ago, and sold humanity out. We then learned of the fake religion based on some non existent Egyptian plates given to him by an angel, that mysteriously disappeared including some of the incriminating text, and morphed into a child abusing and sacrificial cult, known as Mormonism, replete with all the old Egyptian symbolism, the temple, the altar, the sacrifice, and the Cult of Ra. We went into word magic Hebrew style, the role of the Crown in their Temple gates, church, knights and BAR, and how they forced the Magna Carta on King John and sold out all British subjects, not freed them as some alt media people believe. How Adam and Lilith were not human, but their creation via genetics, how the popular Vulcan sign in Star Trek is a Hebrew Kabbalah secret sign, the life longevity of the biblical characters Noah, Abraham, Adam and Enoch, why? because they were one of them, not one of us. We learned of the moon cult, paganism all wrapped into it, the rise of Zionism from the 1600's onwards, the role of New York and this cult, Cleopatra's needle, all about Cult of Ra, sacrificial and sexual deviancy practices all originating out of New York, financial and global skullduggery via The Federal Reserve, Wall Street and the UN all out of New York, and the rise of the now common term in THI shows of born in, born to, New York and Jewish parents. How Joachim and Boaz turned into Osiris with the twin towers tragedy on 9/11, how and why New York is dubbed Gotham and the rise of the Dark Elves, portrayed as a super hero in Batman, but it and they are not our friends, far from it. We learned that the Hitler youth song Tomorrow belongs to me, was written by two Jewish people, which sounds crazy to many people, not when you connect the dots it's not, same program, same cult. We ended part 5 with the role of AIPAC in and on proceedings in this country, a political driver of politics and policies in favour of the Zionist state known as is RA el, Isis ra and el means

god, secret cells dotted all over America pretending to be a charity of some sorts, but essentially have bought for and paid virtually every politician, they along with lesser known group known as J street have done far more damage in this coup of America, than most people realize, all done by this cult. Part 6 we went back to Russia of how the Rothschild's clan and Zidomasons stole everything from Russia, and it was the stolen funds from Russia, that Americans enjoyed their prosperity from since WW1. The role of the Swiss, the fake Russian names that were all actually Jewish, how Leo Wanta and his Langley 2 counterparts with Reagan looted everything out of Russia again following the end of the fake cold war, and the alleged fall of communism, Communism was created by the Zionists, not Russians, Chinese or any other country. How successive so called Russian leaders from WW1 were all Zionists looting the country and murdering the people, how Ray C Dam another of the Rothschild's appointed Langley operatives tried to steal the global accounts via the OITC, with other Langley based clowns like Keenan, Keith Scott, Winston ShROUT also playing roles in global theft and control attempts, along with World Bank fraudster Karen Hudes. Part 7 brought in the OSS, which is SS, which became CIA and NSA, all under the banner of 5 eyes, which went to 9 eyes, which went to no eyes, courtesy of the work of the Trust. From the role of the OSS, to cryptography which led to the creation of the NSA, Enigma machines, the whole structure, their roles and purpose of each division of the OSS. How they went about subverting peoples, governments, created wars, assassination programs, their role in communications of how they control every form of communication on the planet. How the CIA and National security act which was created to not protect Americans or the country, but cover up agency led crimes and operations, clandestine money making programs, black budgets and operations, plus loot countries and their people. All the early CIA leaders were all linked with the OSS, then came the Bushes, Cheney's and the Black Dragon groups, all were traitors to the country and the people. We learned of the P2 Lodge, known as Pro pagan da due, we learned of several CIA off shoot splinter groups like Robert David Steele and his aptly named company called OSS, how they used all the so called stars for their operations, how they controlled the media, how their scripts is the news, we found out how Lennon, Elvis, Metallica and Carl Jung all where used by the CIA as spies or operatives. How they deal with people who were their assets, and suddenly became disposable, either by throwing them in jail under false charges, or just taking them out, or using their MK Ultra tactics to get their former assets to commit suicides by triggering mechanisms attached to the mind control program. Who was involved in the JFK assassination, the cypher program, the black chamber using a New York commercial code company to spy on all communications, and how the British used the Post Office for

datamining as far back as the 1920's. How the CIA in 1970's was spending \$1B a year on propaganda alone, and also since the 1940's they have been in every college or university profiling everyone and recruiting students for their various programs, the foreign national student exchange program is also ran by the CIA and The Vatican. We ended part 7 with the exposure of the Tavistock Institute, also connected to the CIA and OSS, their mind control programs, that roped in MK Ultra tactics on the people of interest, they also used and created in some cases the stars of the time, The Beatles and Rolling Stones were a product of Tavistock, also hip hop and rap. We ended that show with a question, The question remains if all this fighting for freedom and getting rid of dictators, despots, Communists, tyrants that has gone on for last 100 years, with them all now out of the way, why hasn't our lives improved one iota? It hasn't because the real tyrants are still in our midst is why, and perhaps the leading figures killed, where not the problem after all? Just the ones that killed them. This show and the next two shows lined up will bring it all home, this is 8 and the loop, this will create the umbrella with which all the names we have referenced in the previous shows from Kali Ma to the Cult of Ra, Jewish, Hebrew and the various agencies operate under, From Russia with Love 9 soon to follow, will make you understand more of how it all worked and who were the players, or in real terms the pawns in the game. SATELLITE THE SUN, THE MOON AND ASTRONOMY

Modern day science still struggles to make sense of the world around us, information is often denied if it sways off the official path as it were, none moreso than when astronomy comes into the picture. A plethora of misinformation from flat earth, to distances, how everything is so far away, when actually it's not, science cant or won't explain of why when you go into the sky and space which is closer to the sun, it gets colder, not warmer. There is a reason the Cat holic church closed down the school teaching program in the 14th century, when Astronomy was the lead subject taught, and dismissed it as fake science, and yet curiously today, they control most of the world's telescopes, including one by the aptly named title, for them anyway, called Lucifer. The so called holy church based on morals, principles and worship of god, calling their telescope by the devilish name Lucifer, does that make sense to anyone, it will if you have followed this series. Solar eclipses make no sense, the moon makes no sense, all the elites and witchcraft people all do occult rituals on the cycles of the moon. The Hebrew/Jewish peoples, India and other corrupted tribal groups all following the moon cult, in the mythologies and even more modern day calculations and observances, of the frequency spike during full moon, that sends many people around the world, into various bizarre and extreme

behavior patterns, there is a reason for the term lunatic for unbalanced people, perhaps the breakdown of that word makes things more clear, luna meaning moon, tic means parasite. The moon cycle created, what are deemed the myths of werewolves, they, those entities are not myths, but reality based, there is still whole family lines around the world which contain that genetic default. The wolf realm is the first realm some people encounter with travel abilities, and no it is not good, despite several Native American cultures adopting it as their animal totem, like the astral realm it has become corrupted and a trap. The next realm along is the circus realm and why people fear clowns and mirrors, the hall of mirrors anyone? All of Marduk's meetings, the Bilderberg's, the Club of Rome, the UN and other secret society meetings, financial meetings, the delivery of the fabled, non existent, non deliverable RV, was all done or happening on the lunar cycle. The circle of nine cult, the people inside the Vatican, Bohemian Grove, the Denver cult, Hell Fire caves and various others around the world, all did their rituals, sexual deviancy often with children, sacrificed and tortured children again on the moon cycle. Modern witches all do their spells and rituals, all pulled along with the new age program, which was all set up in 1880's by the likes of Blavatsky and others. Some think Blavatsky, Steiner and Law of One talks about good things, yes it does, like the Cat Holic church, but there is a hidden hook, that too many go to far down the fishing line before being able to see it. People get trapped by the word spells of love and light, unity consciousness, mother nature, all of which is nice to hear and make it actionable, but there is the hidden element to it, oblivious to the naive amongst us. The Law of One peddled by David Wilcock, all about Ra, the harvesting and murdering humanity entity, which is all told in one story that is written on Cleopatra's needle in New York, throw in the fact that channeling is all done by technology trickery, largely to people who have been in the MK Ultra programs, and you are left listening to what you want to hear, not what you need to hear. In the world of witchcraft, it is all about moon goddess names and titles with them people, as any quick internet search on their groups will show you, modern witchcraft is the practice of paganism and Wicca, again a group who partook in the moon worship and sacrifice rituals, including at Stonehenge. Islam is another of the moon cults, hence the crescent moon as their symbol, Moon worship has been practiced in Arabia since 2000 BC. The crescent moon is the most common symbol of this pagan moon worship as far back as 2000 BC, long before Mohammad, there was a god named Hubal who was Lord of the Kabah, this Hubal was a moon god. Each local pagan Arab tribe, would refer to their own local tribal pagan god as "al-ilah", "al-ilah" was later shortened to Allah when Muhammad began promoting his new religion in 610 AD. So what this tells us is, the root of Islam is paganism moon rituals, mired in with witchcraft

and the dance with the demons and djinns via their dark magic, they can protest but we are light witches all they like, both light and dark use the djinns to perform their spells and magic. These people practice the Ouija board, again dancing with the dark, again bringing in the corrupted spirit world, the same applies with ayuasca or peyote ceremonies, most of the shaman or sham men have no idea what they are getting the participants into, all in the name of spirituality they say, all in the name of making money is my reply, with dire consequences in some cases. So why all the moon worship? well this goes back to From Russia with Love part 1, and the worship of the Kali Ma, known as the dark mother, which is the moon and the female representation of the moon is Lilith, who was the real partner of Adam, not Eve, all depictions of Lilith are half human and half serpent, perhaps it confirms, it was she, Lilith the talking snake, that was in the garden of Eden, not Eve as described. Of course this week we have the ultimate in dark entertainment, that rolls the children around the world of dancing with the dark, and Halloween. Takes place at night as it is moon related again, it is the night the dark elements in our society call in the dead spirits and djinns for a night of celebration, using spells and incantations, and even uses children to act out on it. Nowadays it has turned into a money marketing scheme, but the hidden dark intentions behind, should not be lost in the plethora of pumpkins, masks, costumes and candy. Original called All Hallows Eve and was pagan in origin, until the Catholic church Christianized it into Halloween, they did the same with Easter festival, again pagan in origin as worship of the goddess Ostara, the Catholic church changed it in the 8th Century and morphed it into the Jesus story. All hallows eve, all hail Eve, except Eve was Lilith, half woman, half serpent, Lilith is often envisioned as a dangerous demon of the night, who is sexually wanton, and who steals babies in the darkness, worshipped by the Hebrews via the Talmud, and is it possible there is reference to her in the Lords prayer, Hallow'ed be thy name. Our current moon is not even a natural object, like Phobos the death star, it's orbital spin is unnatural in comparison to very other moon in the solar system, the same side always faces the Earth, that is not a natural orbit, that is something that was placed and positioned there, Native American folklore say the moon arrived here sometime around 11-12K years ago. It is a hollow satellite station, as NASA proved when they fired a missile at it, and it rang like a bell for quite a while. Populated by various off world entities over time and still to this day, although unlike in the past is not interfering with here and us anymore, and why NASA never returned to the moon since 1970's. It was linked in a frequency based relay of mind control system with Saturn, known as the Saturn/Moon matrix, until events in the past 5 years ended that technology and program of interference. The solar eclipse, creates awe and fear around the world depending on the culture, having witnessed the last

one in America, and one in the UK in 1999, although the UK was heavily masked with clouds, and some of the American one also. The biggest issue I and others have is nobody sees the moon, before or after the eclipse, science and media dismiss it all so frivolously, and the topic is largely then left alone, but the great question remains is, why don't we see the moon? Well we see it going across the sun Thomas, no you see an object going across the sun, and because you are told it is the moon, doesn't mean it is correct, why cant you even see the features on the moon as it is eclipsing? the light is focused on the far side, not the Earth facing side. According to Vedic Astronomy, the most ancient, and said to be the most accurate system of astronomy on the planet, solar eclipses are not caused by the moon coming in front of the Sun as astronomers believe, rather the moon is described as being further away than the Sun, and what happens at the time of a solar eclipse is, our moon goes behind the Sun, and a dark planet call Rahu comes between the Sun and the Earth. Ra of course is the title of the fake solar god, that comes under the banner as the son of god, son spelt son instead of sun, played by Marduk and Anu in the past, plus some of the Egyptian pharaohs, pharaoh means great house, so you now where the terms the House of Bavaria or Saxe or Angin comes from now, all out of Egypt. Hu in Sumerian means serpent, in Sankrit it means Dragon, so Rahu could well mean Ra is the head serpent or dragon. Of course, because we have been conditioned to believe as fact, the structure of the universe, as it has been taught to us since childhood, we find it very difficult to accept such a thing, but how can the teachers or book be wrong people would argue, because they were taught wrong also, it only takes two generations to do a 180 on any narrative, all the Aryans are white supremacists narrative is a prime example. But it only requires a little thought and observation to see, that actually the so called 'modern' scientific idea is incompatible with their observations, and the timeless Vedic knowledge is compatible with clear observations. Look at the moon on a full-moon night, it is shining so brightly that it lights up the whole surface of the Earth, on a full moon night you can very clearly see everything, of course it is not as bright as the sunshine, but essentially everything is very clearly visible. If you were to view the earth from space on a full moon night it would not be dark, it would be illuminated by the moonshine, and all the features of the earth would be clearly visible. As there is 'moonshine' there must also be 'earthshine', much of the earth is covered by water which is a good reflector of sunlight, in fact most of the scientists say that earthshine is much brighter than moonshine, and we know the earth is enormous in comparison to the size of the moon, the moon is around 27% the size of Earth by comparison. So if the moonshine can completely illuminate this earth on a full moon night, then it would make sense, the earthshine can completely illuminate the moon. The earthshine bombarding the moon at

the time of a total solar eclipse, would be at almost fifty times brighter than the moonshine on the earth, on a full moon night. If Western astronomers are correct, the solar eclipse would be the perfect time to see the moon illuminated by earthshine, the shadow created which causes the solar eclipse on earth is, according to NASA, at most 167 miles wide. So if you were sitting on the moon during a solar eclipse, you would see an extremely bright earth planet, with a dark circle of only 167 miles wide, this is not enough to diminish the earthshine in any significant way. Why is the circle only 167 miles wide, when the moon is covering the whole sun as observed? does that make sense? When the sun tracks across our planet it is in a giant wave motion, like an upside down U, that covers an area of sunlight from California or the West Coast to the extreme West of India, a total of 8490 miles, so surely a total eclipse, would plunge that same area in darkness, not a 167 mile region of totality. So even though the sun is behind the moon, the full force of the sunshine is hitting the earth and reflecting off the blue oceans and reflecting off the land also, so the moon is completely illuminated by earthshine, even though the sun is directly behind it, the problem is you can't see the moon, both approaching the sun or leaving it after the eclipse. Now if Western astronomers were correct, if you were in that 167 mile wide path of the total eclipse of the sun when the sun was completely covered, you would of course see the sky become black, and then you could see the stars. But if the sun was covered by the moon you would be able to see the moon quite clearly, in front of the sun, illuminated by the earthshine, it would not be as bright as the full moon, but the earthshine would certainly illuminate the surface of the moon, so we could clearly see it and clearly make out the features on the moon's surface. But this does not happen... During a solar eclipse the sun goes completely black, and even though the sunlight is blocked out and the sky goes black, one can not detect the moon at all, it is just black, no moon. We should be able to see the features on the moon, as it is being bathed in brilliant earthshine... The sun should disappear and we should see the stars and in the place of the sun we should see the moon, illuminated by the earthshine. But we don't see this. So what does that mean? what it means is, it is not the moon causing the solar eclipses, as stated from the Vedas, that what causes solar eclipses is a dark planet, currently unknown in the Western world, except in occultic circles, which hides in the shadow of the moon. But scientists would have discovered this by now, it was only 80 years ago they discovered Pluto as the ninth planet, not eighth as they put out in the mainstream, before that was Ceres, which is rarely mentioned, like the dwarf planet Eris said to be discovered in 2005. Rahu is relatively close to us, around about the same distance as we think the moon is, but it is completely black, it does not reflect light at all, so even though there is plenty of earthshine falling on Rahu, because it

is a black planet none of that light will be reflected back, so we would see the sun simply blacked out in the sky on a full eclipse, which is exactly what we do see. Science tells you the moon is roughly 250K miles away, some calculations suggests it is around 3000 miles away, all I know on some days it looks a lot closer than is being made out. I suspect this dark planet Rahu also has elements of cloaking attached to it, people have seen the evidence of such on Youtube videos of the moon rippling, it makes no sense that people can see the moon on opposite sides of the world at the same time, is Rahu if visible at certain times, it is likely a projection image and so possibly a copy of our moon? So this is absolute proof that the assumption of Western astronomers, that solar eclipses are caused by the moon coming between the earth and the sun is wrong, because if that was the case we would be able to see the moon during the full eclipse of the sun as it would be bathed in bright earthshine.... WHOLE OF THE MOON

Rahu is one of the nine major astronomical bodies (navagraha) in Indian texts, which are not Indian at all, but Vedic and Rus texts. So what are the Navagraha are: Surya (Ravi) the Sun, Chandra (Soma) the Moon, Mangala (Mangal) Mars, Budha (Budh) Mercury, Dev Guru (Brihaspati) Jupiter, Shukra Venus, Shani Saturn, Rahu Solar Eclipse, Ketu Lunar Eclipse, curiously in these texts there is no reference to the three outer planets, Uranus, Neptune or Pluto. Unlike the other eight, Rahu is a shadow entity, the one that causes the eclipses, and is also known as the king of meteors, hmm the rock throwers, one has to ask the question if it was this planet that wiped out the dinosaurs? one also has to ask the question were the occupants of this planet responsible for the flood also. Rahu represents the ascension of the moon in its processional orbit around the earth. Rahu is usually paired with Ketu, the time of day considered to be under the influence of Rahu is called Rāhu kāla and is considered inauspicious, kala is a derivative of Kali, which means dark. As per Vedic astrology Rahu and Ketu have an orbital cycle of 18 years, and are always 180 degrees from each other orbitally (as well as in the birth charts), this is the original yin and yang. sun (light) moon (dark), 180 degrees each, with the moon completing the circle, or moon binding the circle, could be described as the dark version of the holy trinity. This coincides with the processional orbit of moon, or the 18 year rotational cycle of the lunar ascending and descending nodes on the earth's ecliptic plane. This also corresponds to a saros, a period of approximately 223 synodic months (approximately 6585.3211 days, or 18 years, 11 days, 8 hours), that can be used to predict eclipses of the Sun and Moon. What is a saros, saros is a period of time based on the lunar cycle, it contains Three periodicities related to the lunar orbit, the synodic month, the draconic month, and the anomalistic month coincide almost perfectly each saros

cycle. Synodic means council of the church, so it's the priest class again, so prevalent in Egypt, priest also means cohen spelt a C or with a K, Khan also means priest, hence Genghis Khan was from the priest class, who attacked the Rus and Aryans, connecting the dots now? Anomalistic is suggestive of something being irregular, also known as anomalistic year which is 365 days 6 hours 13 minutes and 48 seconds, the extra bits are why we have a leap year, draconic months oh my, I don't I need to say anymore on that term. Rahu rules the zodiac sign of Aquarius together with Shani, which is Saturn which is Setan aka Satan, perhaps the dawning of the age of Aquarius is not as good as many thought, another new age program exposed and failed. Astronomically, Rahu and Ketu denote the points of intersection of the paths of the Sun, and the Moon as they move on the celestial sphere, therefore, Rahu and Ketu are respectively called the north and the south lunar nodes. The fact that eclipses occur when the Sun and the Moon are at one of these points, gives rise to the old understanding of swallowing of the Sun and the Moon by the snake, Rahu is responsible for causing the Eclipse of the Sun, Hu in Sumerian is serpent, as it stated the swallowing of the Sun and Moon by the snake, this makes more sense, Ra is the serpent, is what that object called Rahu is stating. One of the issues I have about astrology in the modern day, is that it can't be accurate because one Constellation has been left out, we have 12 but one is missing, same as 12 chakras and one hidden on the planet, 12 crystal skulls but 13th completes it, 12+1, with the one hidden has been a major pondering of mine for the last decade. If you add back in the 13th zodiac sign Ophiucus, then most of the whole current mode of understanding astrology needs to go into the shredder, in my opinion, as charts and alignments would go askew with the 13th zodiac put back in. So, what is it about Ophiucus and why has it been left out? perhaps there is a possible connection to Rahu, Melchizedek, Noah, Sham, Ham, Indian gods and many others of the more noted names of the past in the books and scriptures, all where said to have the mark of nefilim, born with a coat of armor, which was scaly skin, Rahu is the serpent with that in mind, lets look at Ophiucus shall we. Ophiucus known as the serpent bearer, the constellation is said to consist of two planets—one covered in fiery molten lava and the other consisting of a large swamp, fire and water, is the yin and yang. Ophiuchans had a natural affinity for snakes, and there was a special species of serpent, the Zawinder, House Ophiuchus had the greatest diversity in the Zodiac—people's skin, hair, and eye color spanned the full range of the spectrum, yet, upon entering their teens, Ophiuchans developed scaly skin, that is said would protect them from various creatures' bites and the natural elements. The Ophiucus sign is represented by a fight between man and serpent, what if we have been in the age of Ophiucus and not Capricorn? given this world's current and recent past, has been the

battle for control of this planet, between man and the serpent or the reptile species. The zodiacal sign after Ophiucus is Sagittarius, what if we are going into Sagittarius next and not Aquarius? One of my night travels around 4 years ago, I got into a discussion with an entity of where we were heading, I disagreed with what I was being told, and I turned around and said no, we are going to Sagittarius, didn't make much sense back then, but with this piece, perhaps it does now. Rāhu is mentioned explicitly in Buddhist mythology, in a pair of scriptures from the Samyutta Nikaya of the Pali Canon, in the Candima Sutta and the Suriya Sutta, Rahu attacks Surya the Sun deity, and Chandra the Moon deity, no surprise the moon deity Chandra is the name of NASA's xray observatory, before being compelled to release them by their recitation of a brief stanza, stanza means poem, conveying their reverence for the Buddha. The Buddha responds by enjoining Rāhu to release them, which Rāhu does rather than have his "head split into seven pieces". The verses recited by the two celestial deities and the Buddha, have since been incorporated into Buddhist liturgy, as protective verses recited by monks as prayers of protection, but they are not protective, it is holding the dark. Rahu attacks Surya, Rahu the serpent attacks Surya was the original Vedic solar deity the protector, and was replaced in Indian and Hindu history with the fake solar deities Vishnu and Shiva, both of them are the dark forces and fake Lords. The whole of India's religious culture and in particular Hinduism is riddled with the references to snakes, the Nagas in particular as associated with Vishnu, Bhairav and Mahakala and the worst of them all Shiva, there is a reason Shiva is placed at the entrance of the collider known as CERN, its an egregore guarding the gate to the underworld, along with a plethora of non physical plane ninjas, who we will cover later. So Rahu was in fear of being turned into the seven headed serpent, that entity is depicted throughout their temple called Angkor Wat, wonder of the world indeed. Nagas were cast into the underworld, and the entrance of which is marked by ant hills it is said, how interesting the ant people were guarding the entrance, I suspect is what is being stated here, Ant people are different from the Mantids. According to the Hindu Scriptures, Naga live in the Netherworld called Naga-Loka or Patala-Loka with unimaginable richness, suggesting they were guarding or guardians of the treasures, of what is now known as the Trust, so it went from the Naga serpents to the Dragon serpents, neither looked after it well, and this why it is important that we do. When the Naga were over populated on the earth, Brahma, the Creator, it is said banished them to the underworld. Naga are the children of Kashyap Rishi who married Brahma 13 daughters, their mother's name is Kudra, Kashyap is also the father of gods, demons and animals. Snakes are Lord Shiva's garland, anklets and armllets, Hindu gods like Bhairav and Mahakala are protected and decorated by snakes, the thousand-headed Naga called

Ananta protects Goddess Kali, ah the Kali Ma the dark mother, who I believe is Lilith, represented as moon goddess, as half woman, half serpent. hmm. Like Lord Vishnu, many gods rest on Naga or are protected by Naga, Naga guard the Hindu temples and shrines, the Naga are depicted on the doors, windows and the walls of the temples, Naga are also the seat of the deity. The piece I did recently ties in well with this on, what is human? and we gave the 3 names of hu, in Sumeria Hu means serpents, in Sanskrit it means dragon, also pronounced dracon and so linked to Draco, but not the main Draco but the Hydra Draco, who are the more dragon like species, and in some case worse than the Draco. If we have been in Ophiucus constellation as speculated earlier, perhaps this next bit will lean further towards that theory, in Ophiucus tradition the name for guardian is master, master is a control based term, in Sagittarius the term for guardian, is guardian, a guardian is the keeper, the protector, big difference. This world largely unknown but to the very few on this planet, has for many thousands of years been a battle between human and serpent or reptile species, the zodiacal sign depict certain things like Aries the ram, Cancer the crab, Libra has the justice scales, which is not justice scales actually, but is related to more Egyptian symbology of Ma'at and Thoth weighing peoples hearts, I suspect not for justice, but more in the line of trade and genetics if you ask me. Speaking of Egypt as the pyramids are another symbol of their buildings, not ours, pharaoh means the great house, and what all the mythologies are stating via the zodiacal game playing is, the houses of the sky known as zodiacs were conquered by the serpent bearer, and the houses of the sky then came down to Earth, the twelve conquered Houses or Zodiacs were then brought down to Earth, and the great house of the Pharaoh was born, which was then transferred as a takeover to Europe via the Houses, like House of Bavaria, Orange, Saxe, Gotha, Coburg etc, it's all in the symbology and mythology once you connect the dots. The narrative of the so called Israel tribes also speaks of the twelve plus one, and hidden tribe of Israel, matches the 12 zodiacs plus one, zodiacs are called houses, and the original for Israel, was not the country of, but the house of Israel. Annunaki known as those of royal blood, and also known by the term, those who from heaven to the Earth came is an added clue and in support of that analysis, the house of Ophiucus came down to Earth, known as the serpent bearers. The depiction for Ophiucus is of a man fighting a snake, and I think this is a depiction of what has been playing out in the current zodiacal time/space, it is the choice of hu serpent man or hu man us, the master reign ends and the guardians returns, that is why back in 2016 humanity, not Rahumanity won the right to be sole guardians of this planet, via the peace treaty. THE SNAKE

This next section will strip away more myths of the new age movement, that we covered in an earlier FRWL 4 show, that show was important to grasp of what went on from around 1880's through 1925 time, Planned Parenthood, Eugenics, Federal Reserve life force energy harvesting system, destruction of Russia, and the new age program, done by the likes of Blavatsky, Steiner et al, Albert Pike plans of three World wars, and the likes of Crowley and co. bringing forth the dark magician path. Because of their access to looking glass technology, they knew religion would start to fail, particularly in the west and so provided a new program to fall into, remember there was a hippie movement in 1860 and 70's, think tanks take advantage of that to write new traps for the people. New age is a deliberate side track from one controlling system religion, to another fake spiritualism, all wrapped up in a nice package of lets all sing Kumbaya, which is about calling in the Lord, the lord of the book is Anu, the Draconic reptile king. The whole of new age is riddled with falsehoods, goddess this and angel that, and so called light magic, which is dark in essence, as you are calling in the djinns to do the magic, and those entities are far from light, in my opinion all magic is dark, it is lazy technology being used again, when if you develop the self on a soul level, gain mastery over the self, you have a treasure of abilities, not magic, awaiting you. Tantra and Yoga, which are the esoteric practices in Hinduism, philosophize about the serpent power inside human body, this serpent is called Kundalini, depicted as a coiled snake, it would be evoked by mysterious yogic practices or tantric rituals. When this serpent power is awakened, ignoramus humans are said to be liberated from worldly vices, the literal meaning of Kundalini is coiled Naga, Naga is the snake, oh dear. If you look at the mythological pictures, you will find Mahavir sitting with a five headed cobra behind him, or Lord Vishnu is sitting in meditation and there is a cobra behind him. Another Lord from Anu to Vishnu both had the scaly skin, but lets look at the description for Lord, remember the Ophiucus term for guardian was master, Lord is an appellation for a person or deity who has authority, control, or power over others acting like a ruler, a chief, or a master, oh my. Lord is a master, chief or ruler, does those descriptions resembling anything like, what the creator source would act like? Think different, the Lord in the books is not god, it is fake idolatory worship of entities who self appointed themselves as better than anyone else, like pharaohs. Even in the pictures of Rishis, you will find a cobra with its hood open at the back, in this description of the Hindu meditation practice you will see the discrepancies. Their description of what happens when you are sitting in meditation, what is happening? Your consciousness is getting alert, opened and awakened, as though in your back ground there is a thousand headed cobra, Cobra signifies alertness, how many of you feel a lot of alertness in the back of your head during meditation? A sort of

wakefulness! So the cobra is a symbol of the energy that raises and opens up, energy which is alert and at the same time restfulness. It is not that there was really a cobra at the back of their head, it is a symbol of wakefulness in the deep state of rest, and that is meditation totally restful, wanting nothing, doing nothing, being nothing and being open, like the hood of a cobra, alert without any effort. I don't know what type of meditation they are doing over there, but in my experience when I was consciously doing meditation with the usual method of sit down in quiet space, or with some meditation music, I now do it subconsciously whilst doing every day things, remember it is a frequency zone you are accessing, if memory stores that frequency, you can drop into meditation mode, whilst walking and have your eyes open. The one thing you don't get in meditation is alertness, unless you are in defense mode at that same time, you are drifting into the ether, all light and airy, one thing you are not is alert. It is all in the symbolism, when Indian people with the flute call on a cobra to perform the cobra, uses its body like two legs squatting, and the lifts up its torso and the head is on alert, that position is what they have taught man to replicate during meditation, sit in squat position and head upright and slightly forward, replicating the cobra, stimulating and simulating the Kundalini, which is the coiled snake, getting the picture now? There are two types of descriptions for this, in one they talk about a Cobra, and in another they talk about a flower, it is like a thousand-petaled lotus, blossoming on the top of the head on the crown chakra. So back to Surya the original solar deity, in Greece he was known as Apollo, who regularly visited Da'Arya also known as Hyperborea, who were replaced by fake gods like Ra, Vishnu and Shiva, and what does Surya in the many statues depicted in India hold in both hands? the lotus flower, not the snake. So summing up this part Hinduism, along with Buddhism and the Tibetan monk practices are all symbolizing the snake serpent cult, Vishnu, Shiva and other deities within that culture of the embodiment of the snake Naga, Naga the underworld group represented as hell in the scriptures, that part is at least correct. False hidden hand worship with cloaked practices said to be to help man, but actually reinforces domain over man, by giving your energy away to these serpent harvesters. Hidden devious elements wrapped in a nice package, of what is described as enlightenment via a created new age program, all carefully choreographed into a descent, not into enlightenment, but a cloaked descent into the dark. New age is not what people think they are signing up to, it is another one of their carefully disguised traps, their version of enlightenment is about as illuminating as the Illuminati, and I hope the people of India take note of this piece, it is not to denigrate you or your country, but to make you realize that your culture, passed down generation to generation is damaging you and us badly, there is a reason 7000 of you die each day in India, it's called sacrifice, all going to

the gods again, like in the Kali Ma time. The Rus tried to teach you with the Vedic texts, they are not Indian texts, they are Rus, as is the Mahabharata, people of India please wake up, and stop the harvesting of your people, all done in honor of your fake gods.

Rahu is found in the Puranic genre of mythology, puranic means ancient or old, which means it superceded Indian culture, perhaps this next part will confirm that, and where it came from. Puranic includes diverse topics such as cosmogony, cosmology, genealogies of gods, goddesses, kings, heroes, sages, and demigods, folk tales, pilgrimages, temples, medicine, astronomy, grammar, mineralogy, humor, love stories, as well as theology and philosophy, Cosmogony is any model concerning the origin of either the cosmos or universe. The Hindu Puranas are anonymous texts and likely the work of many authors over the centuries, or so they state, a bit like the word dog, it is stated to have no origin, but in the world ran by cat and serpent cults, I guess the dog doesn't fit. The Puranas do not enjoy the authority of a scripture in Hinduism, but are considered a Smriti, Smriti means that which is remembered, Smriti is a derivative secondary work, and is considered less authoritative than Sruti in Hinduism, the Vedas, Mahabharata are considered under this term, which means it came from someone or somewhere else, funny how they can never remember the author, or where words derived from in their history isn't it. There are 18 Maha Puranas (Great Puranas) and 18 Upa Puranas (Minor Puranas), now where have the terms great and minor been referenced previously? the great bear and Ursa Minor, the Urs, that is why they won't reveal the authors, the Urs represent man, Hindu culture wants to represent the snake serpent man, just like the Catholic church. For those new and wondering why I say Catholic, check out FRWL 3 for a full description of that, it is all connected through each part of this series. The tale begins in the remotest periods of prehistoric time, when the gods and asuras churned the Milk Ocean to extract from it the Amrita, the elixir of immortality, Rāhu was present at that time and overcome with pride. The Milk Ocean is described as the 5th of 7 oceans, it surrounds the continent known as Krauncha, this continent and oceans is described as being around the Himalayas. The gods and the asuras did the churning, asuras are demons, in real terms djinns, this was a common goal of these fake gods all seeking immortality, to continue their dominance over other species, it is covered well about the reptile species in both Jupiter Ascending movie and the Dark Crystal series. There are bodies of water dotted around the world that still contain many beneficial healing properties, that will prolong your lifespan and health, but I'm not sure on immortality, I am not sure immortality is a good goal to be striving for anyway, death is your reconnection to Source, it is not the end, it is a new beginning. To churn the ocean they

used the Serpent, Vasuki, for their churning-string, for a churning pole they use Mount Mandara placed on the back of a Great Tortoise – the Kurma Avatar of Vishnu, the avatar of Vishnu, ya see clones and or walk ins, which means an entity taking over a vessel in here have been around a long time. As the gods and demons churned the sea, a terrible poison issued out of its depths which enveloped the universe, the devas and asuras approach Shiva, who took the poison into his throat and swallowed it. Shocked by his act, Goddess Parvati strangled his neck, and hence managed to stop it in his neck and prevent it from spreading, however, the poison was so potent that it changed the colour of his neck to blue, thereby earning him the name of Neelakanta (blue-throated one), better than blue chicken I suppose, but all the depictions of the Indian gods, all have blue faces, this is the sign that all of them were poisoned, and paid for their dark intentions. Maybe the key to that episode is you have to be of the right frequency to be able to consume that elixir? they clearly were not and subsequently were poisoned, one mans pleasure is another mans pain. When the Amrita finally emerged along with several other treasures, the devas and asuras fought over it, however Vishnu in the form of Mohini the enchantress manages, man to woman avatar, to lure the asuras into handing over the Amrita to her, which she then distributes to the devas. A deva is described as not as a female, but a male deity in Hindu, it means heavenly or divine, female version is devi, another example of the cross gender meaning being played out by think tank social engineering bodies, female personalities are known as devas, which is the male version. If you want evidence of these out of India deities spreading to Rome via Egypt, Vishnu, Brahma and Shiva are known as the Holy Trinity, oops. Sri as in Sri Lanka which is a breakaway country of India and follows the same deities, Sri means "to cook, boil, to burn, diffuse light" in light of the sacrifices to the Kali Ma, that kind of fits, but it is also used as a polite form of address as in Mister or Missus, hi Mister or Missus Jones I want to cook, boil or burn you, somehow doesn't sound to polite to me, it also means veneration of a deity known as Lakshmi, who was the consort of Vishnu, depicted as having four arms, which maybe suggestive of an Avatar or walk in. Svarbhanu, an asura, disguises himself as a deva and tries to drink some Amrita himself, Surya (the sun-god) and Chandra (the moon-god) alert Vishnu to this deception, Vishnu then decapitates Svarbhanu just as he is about to swallow the nectar, leaving his head and beheaded part of body immortal, later the head part is known as Rahu and the tail or torso part is known as Ketu. A bas-relief at the temple of Angkor Wat in Cambodia includes a depiction of devas and asuras working together, to stir up the Ocean of Milk in an attempt to free the precious objects lost within, Angkor Wat as nice that building is, it does not represent us,

but them and their temples of sacrifice again, in essence that building represents the Naga serpents triumph over man.

Still think Indian culture is about enlightenment, perhaps this next passage will make you rethink that notion, this describes the ceremony for the Nectar, stated to be elixir of immortality, but appears to all intents and purposes to not. According to Tantras of Chakravarti, and Tantras of Vajravārāhī, a ceremony needs to be hold for melting and blessing the inner offering Nectar, the Five Nectar needs to be arranged in four directions: yellow excrement in the east, green bone marrow in the north, white semen in the west and red blood in the south, blue urine is placed in the center. Four Nectar should come from wise monks and the ova should be collected from the first menstruation of a blessed woman, the Five Meats are arranged similarly, meat of black bull in the southeast, the meat of the blue dog in the southwest, the meat of the white elephant in the northwest, the meat of the green horse in the northeast, and the meat of a red human corpse in the center. After the ceremony, these ingredients will transform into an one taste (ekarasa) elixir, which bestows bliss, vitality, immortality and wisdom, the nectar does not actually offer true immortality, instead, by partaking it, the devas were able to attain a higher level of knowledge and power, which they had lost due to the curse of Sage Durvasa, Durvasa is Rishi mentioned earlier. Following this event, Rahu head of the snake, and Ketu tail of the snake were given the responsibility to influence the lives of the humans on Earth. The north and south nodes of Earth Rahu and Ketu are the yin and yang symbol, remember I mentioned recently there was three parts to yin and yang not two, as most people miss the circle around the yin and the yang, what is the circle representing is the great question, the answer is, it is the Earth being ruled by Rahu and Ketu the serpent beings. Yin and yang are not balanced another illusion played on the masses by the dark dominated East, both are dark, one of them needed to be light for balance. This elixir may well be seeded or encoded for only the higher initiates in soul development, a bit like how the treasure vaults were set up, only 5 people on this planet can gain access to those vaults, everyone else dies, could this elixir react in the same way, these people were not higher soul developed beings, they cheated by self appointing themselves as important deities and gods, a real god would have been able to drink the elixir. Ketu Sanskrit: is the descending (i.e 'south') lunar node in Vedic, or Hindu astrology. According to some accounts in Hindu mythology, Ketu belongs to Jaimini Gotra, whereas Rahu is from Paiteenasa gotra, and hence both are totally different entities with distinct characteristics but are two parts of a common body. Ketu is generally referred to as a "shadow" planet, it is believed to have a tremendous impact on human

lives and also the whole creation, in some special circumstances it helps someone achieve the zenith of fame, fame, like image and idol all has the root word of mirror, the inversion, Ketu is often depicted with a gem or star on his head signifying a mystery light. As per Vedic astrology Rahu and Ketu have an orbital cycle of 18 years and are always 180 degrees from each other orbitally (as well as in the birth charts), this coincides with the precessional orbit of moon, or the 18 year rotational cycle of the lunar ascending and descending nodes on the earth's ecliptic plane, Ketu rules the Scorpio zodiac sign together with Mangala, which means moon, Scorpio is the house before Ophiucus, seeing the picture now? Often Ketu is misunderstood as Uranus during Sanskrit to English translation, however, Uranus is only barely visible to the naked eye and its discovery is attributed to the use of telescopes, except the symbol of Ketu is an U, which could explain why linked with Uranus. In Hindu astrology Ketu represents karmic collections both good and bad, spirituality and supernatural influences, Ketu signifies the spiritual process of the refinement of materialization to spirit, and is considered both malefic and benefic, as it causes sorrow and loss, and yet at the same time turns the individual to God, problem is which god, it is certainly not source. In other words, it causes material loss in order to force a more spiritual outlook in the person, Ketu is a karaka or indicator of intelligence, wisdom, non-attachment, fantasy, penetrating insight, derangement, and psychic abilities. Ketu is believed to bring prosperity to the devotee's family, ah the seducement program again, follow the dark and riches will be bestowed on you, but those riches come at a great cost. It is said that it removes the effects of snakebite and illness arising out of poisons, he grants good health, wealth and cattle to his devotees, Ketu is the lord of three nakshatras or lunar mansions: Ashvini, Magha and Mula, interesting term Mula, which is a UK slang for money, but has another meaning in South America as it is a term for smuggling drugs via the stomach, the hidden dangers within is symbolic in my opinion. Ketu is considered responsible for moksha, sannyasa, self-realization, gnana, described as a wavering nature, restlessness, the endocrine system and slender physique, hmm the endocrine system and the symbolic links to that going on, on this planet currently via adrenochrome harvesting. As for gnana, Gnana yogis cannot afford to believe or identify themselves with anything, people who walk the path of gnana are people whose intellect is such that, they are not willing to believe anything, nor do they disbelieve anything, sleepers or bots then. The people who come under the influence of Ketu can achieve great heights, most of them spiritual it is said, but if it is anything like the spiritual methods of Hindu, Buddha and Tibet, I think I will give that a miss if I was you. Rahu, being a karmic planet would show the necessity and urge, to work on a specific area of life, where there had been ignorance in the past life, to balance

the apparent dissatisfaction one has to go that extra mile, to provide a satisfactory settlement in the present lifetime. Ruler of Ketu: According to the most popular astrology text Ketu is related to Matsya, Exaltation and Debilitation: This has been a debatable point in astrology, as per BPHS Ketu is exalted in the sign of Scorpio and debilitated in Taurus, however, many astrologers have disputed this and most modern astrologers now seem to agree that Ketu is exalted in Sagittarius and debilitated in Gemini, so both Rahu and Ketu are in the sign of Scorpio as referenced earlier. This stands to logic as Ketu is a torso and a prominent part of Sagittarius is big horse torso attached to a male upper body. Negative Significations: While Ketu is considered malefic and has been mostly associated with negative things, most people consider it a difficult planet as it brings lot of troubles on the material plane, it often brings a sense of detachment, losses, mindlessness, wandering, and confusion in one's life, welcome to Earth Ketu Positive Significations: There is a much deeper side to Ketu and it has been called the most spiritual of all planets, Ketu has been considered the planet of enlightenment and liberation, As the one who has "lost his head (worldly senses)" Being a personification of renunciation (torso without a head who needs nothing). Ketu the ascetic that wants to go beyond the mundane life and achieve the final liberation. You will not achieve that by dancing and cavorting with the dark, dark is to be observed, not absorbed, by observing you learn lesson of how not to be or act. DANCING IN THE DARK

In one of my earlier shows I mentioned the torus pattern over Earth and shaped like an egg timer, at the center in any system like that is called the void, the singularity, you are neither up or down the vortex. The void to many has many dark connotations, a place of total darkness, but dark energy is only energy that hasn't been manifested into form or matter yet, it's the blank slate, a place of choice, it is a place of nothing for those with no imagination, but those with imagination can create from the blank slate. We spoke about the east and west gates positioned in the center of the two cones of the vortex, as the place where all the choices and actions are made, east for progression, west for stagnated beings and a chance to do it again, with better results and outcomes for the next cycle. Having established with this show the North and South nodes are corrupted with the dark Rahu and Ketu, the East was the main battlefield of the past with India and China playing key roles in blocking up or darkening the eastern gate, having done so they corrupted the west gate and it's peoples, with their dark occult practices, passed off as love, light and empowering, when in reality this series has shown, it was clearly not, the dark magician tricksters, pulled a massive stunt on the whole planet. One of the tricks I believed they used to trap us in the past is, the sun rose in the West and set in the East, another of their

inversion programs, the double coned vortex itself looks like an egg timer, which funny enough it says the sands of time pass through, or the hour glass, hour is a heads up to Horus. If you are descending down the vortex through the singularity and to the lower vortex, east would be on the left, west on the right, but what if the cycle is completed and the egg timer is upside down on the next cycle, east would now be on the right, and west on the left, maybe this describes the pole shift? or more accurately explains the loop. For those new, this planet has been in a mobius loop trap of 78K years, 6 periods of 13K years, this cycle that loop trap ends. The mobius loop symbol another one if their inversions, dotted around as sigils in new age as peace and various other appearing beneficial aspects, then in 1970's they told you what it was, as it became the symbol of recycling, what they don't tell you is, what was being recycled was us. This next transition phase will be more definable as more people and beings, have peeled back the layers of deceit and are ready to go forward, those that have the light go east, the same as the sun now rises in the east goes dark in the west, choice use your light and create, or have none and set with the sun, essentially those of you who go west, as the sun goes dark and subsequently sets, Set being the operative word, those are going with the entity known as Set, the left hand path. The SET ting Sun reSETs your timeline, or you define your own. This is not a physical transition as I understand it, is a metaphysical transition, although it may become a physical if things get to dangerous here, as a protective measure for this species.

Have you noticed right through this show and in previous episodes the amount of words that start off with the letter K, the dark occultist change the words and spellings to represent the letter K, magic spelt with a c is switched to a K, mystic the same, witches connected to the moon goddess aspect are very prevalent in this practice, it is both indicative and a symbol of worshipping the dark mother and serpent race. Lets look at some of the names just in this show Cohen became Khan, Kali Ma the dark mother another moon goddess, Julius Caesar, represented at a later time period by the term Kaiser, Lord of the Kabah the moon god, Kudra, Kashyap is also the father of gods, demons and animals, interesting he is the father of the animals, this is related to the introduction to the tribal people of animal totems, which has not served them well to date. Kumbaya and Kundalini, cobra spelt with a C, but there is a version with a K that is all so indicative, the 'Kobra Cult', 'Cult of Kobra', or sometimes just 'Kobra' is a secret criminal religious sect that began in India, its origins are shrouded in the mists of time, not no more it is not, whether it is a coincidence or not the alt media personality Cobra, seems to be connected with an awful lot of moon goddesses, does he not? In modern day Jewish

tradition they speak of a sacrifice ceremony with letter K, no surprise, This sacrifice made by Noah was a Korban Olah (a sacrifice that goes up), a tribute to God that was entirely burnt on the altar. The mystery Himilayan region with an ocean Krauncha, now known of course with another K word, Kashmir, we are both travelers of time and space, indeed. Kurma the Avatar of Vishnu, Ketu known as tail of the snake, what was once part of India now a separate country, Kandy Ceylon now known as Sri Lanka, the word Kommunism and Kapitalism now spelt with a C, but was originally spelt with a K, and still does in Germanic countries. Then we go to the rogue elements in China, who operate on behalf of the Black Dragons called the Koumintang, Dragon groups are all operated by the serpent reptiles at the top end. Another group who emerged out of communism created by the Zionists, not Russians or Chinese under the banner of Social Democrats, which is in Germany and also Sri Lanka, found it's way over to America in 1865, called the KKK, Ku Klux Klan, Antifa shares the same logos as the German Nazi Party political name. Zionists have a book and run dark agenda progams, that is a mirror version of the real tree of life called the Kabbalah, you also have in Jewish and Amish cultures they are one and the same group is why, called Kosher. Is it a coincidence when the sub gray race where thrown out of the Garden of Eden to Egypt, that two countries on that path now have K names Kazakhstan and Kyrgyzstan, India alone has 31 towns or cities beginning with the letter K. Back to India again, the capital city of India is Calcutta spelt with a C, not no more it's not it is now Kolkata. Then we go back to FRWL 1 and the star wars fight between light and dark forces involving Urs and other against the dark forces known as, the Kosheys, Koshey became Kosher in my opinion.

Given the greater details you have now on Noah perhaps you will now grasp more of a recent piece I did, which I will repeat now, with added pieces to it, this was a speech by a Jewish Rabbi, made last month. On September 25, the 5,780th anniversary of the day on which Jewish tradition holds the world was created, the Sanhedrin is holding a conference for the emerging Organization of 70 Nations, the conference will culminate in an animal sacrifice made by representatives of the nations on the Mount of Olives in which they will renew the covenant made by Noah upon leaving the Ark, the Ark was not a ship on the water, but a ship in the sky, he and his merry band of chimeras. The conference will begin on Wednesday evening, September 25, the 25th day of the Hebrew month of Elul at the Jerusalem Gate Hotel and continue until Friday, September 27, lectures and discussions will focus on the Noahide obligations incumbent upon all of mankind, also discussed will be the universal economic, cultural and educational topics that should be the focus of such an organization. A major focus will also be the

establishment of an international court based on Bible principles, (uh oh based on who's bible?) God established the borders of the world based on the 70 children of Israel (really so god drew lines on a map to divide people did he?) who went down to Egypt and the 70 nations that came out from Noah. The concept of 70 nations also appears in reference to the 70 oxen offered in the Temple throughout Sukkot (the feast of the tabernacles) which the Talmud (Sukkah 55b) teaches are for the merit of the 70 nations. (what are these 70 nations, when we were told God only chose one in all the books? is god planning globalist expansion programs?) The first day of the conference will end with a joint prayer by all the participants. Rabbi Yeshayahu Hollander, the Sanhedrin's Foreign Minister has been tasked with composing the unique prayer for the special occasion. "Religion is a difficult word," Rabbi Hollander said. "An individual does not need a religion to relate to God. (good start and take note of that statement, because I am certain our recent theme of contradictions will unfold shortly) Adam did not need religion to speak to God.(because Adam was created by the gods is why, Adamu which means slave, was a genetic creation of the serpent people) Religion is an activity that a community does together, (unless someone has a different religion, then it is lets fight over whose god is better, fantastic community building that - not.) Nations were established with Noah (I thought he said it was established by god? does that mean Noah is god now?) and then there became a need for religion. (here we go) We need to come together as distinct nations and religions." "A nation has the attributes that define it but it also needs a religion,"(and there you have it all in one paragraph, you don't need religion and now you do) Rabbi Hollander said, suggesting that the United Nations lacked this attribute. "An organization of nations necessarily needs to be religious, 70 nations under God, but not any specific common religion." (is he suggesting a reduction of nations under the banner of the UN? now the UN is being exposed and collapsing, in comes the even darker replacement, of which all countries must be approved by Israel) The ceremony will renew the covenant made between mankind and God at that time. (which god are you referring to? we never made any covenant, dark forces did that and like Solomon, bound us into it. Covenant which like the word testament, means to bind, why would god bind us? bind us like the sacrificial offerings before being put in the fire, is that what he is saying? or is it covenant or ant coven?) "I now establish My covenant with you and your offspring to come, and with every living thing that is with you—birds, cattle, and every wild beast as well (when you consider in the Talmud non Jewish are declared beasts, in the Black Law dictionary humans means monster, and education means training of animals)—all that have come out of the ark, every living thing on earth. I will maintain My covenant with you: never again shall all flesh be cut off by the waters

of a flood, (I guess they just save that for the sacrifices, as all flesh is cut off) and never again shall there be a flood to destroy the earth.” (given it was the so called Gods who delivered the flood, essentially what they are saying is, as long as you stay bound to their undeterminable god and his covenant, we won't drown you again), part of that statement was made from Genesis 9:9-11, ya think the 9-11 part is a coincidence? it's not, it is one of their pagan ritual sacrifice dates. This sacrifice made by Noah was a Korban Olah (a sacrifice that goes up), a tribute to God that was entirely burnt on the altar. “Just as Noah was not Jewish but was a servant of God, this ceremony is a declaration that mankind is serving Hashem (God, literally, ‘the name’),”(Hashem is the new name along with Jehovah, Yahweh, tetragrammaton, Noah, Adonia, all too common of name changes amongst the people who follow this cult, Mileikowsky becomes Netanyahu, Lenin was Ulyanov, Bauer became Bayer both of which are Rothschild, which is a title not a name, same as Moses, a title not a name) Rabbi Weiss explained, the altar must be built and the sacrifice made, by someone from the nations who keeps the seven Noahide laws. It is still unclear he said “This is a religious act but not for any specific religion,” (why do we need an altar, which means sacrifice? surely we have developed sufficiently to see through that illusion that we must kill animals or people as a sacrifice to the gods?) He went on with this gem of contradictions, feels like a Cosmic Voice show to me, “This is a meta-religion, not a global religion, which is inherent in every person and expressed in his own way, the world needs to return to religion, rejecting religion, rejecting God, is a sickness that is afflicting the world.” (so having said we don't need a religion, now he says we do, using the term meta which means about, after, beyond and amongst, like meta data which means data about data, so meta religion means religion about religion, does that make any sense? but its not a global religion, well it cant be as he stated it was only for 70 nations, when there are 209, what happens to the 139 nations not deemed adequate enough for this new meta religion?) These ceremonies are stated as sacrifices to atone their own sins, says Rabbi Weiss, but why is a poor animal or child in some cases as covered in FRWL series, responsible for the Hebrew Jewish cult crimes or sins? does anyone sit down think and ask, why are others made to end their lives because of the misdemeanors of ourselves? The same applies to the whole Jesus narrative, he died for our sins they say, why did Jesus get sacrificed when he didn't commit the crimes or sins? does that make any sense whatsoever? I wonder what would happen if THI created a religion and all members declared their sins, and offered up the Rothschild's family as the sacrifice, whether people would think that was acceptable, most would say that it's not, and yet this whole religion is based on that very concept, and is lost to most people, including the Jewish. It's called scapegoating, you do realize where the term scapegoat came into

existence, it is a Jewish sacrifice term. The ceremony is called korban olah, korban means to draw close, olah means holocaust, holocaust means religious sacrifice by fire, so korban olah means to draw close the holocaust. The nascent Sanhedrin released a declaration to the 70 nations for Hanukkah, to be read at a ceremony in Jerusalem on the last day of the holiday, the ceremony will include the consecration of a stone altar prepared for use in the Third Temple. The declaration is intended as an invitation to the nations to participate in the Temple and to receive its blessings, oh dear sacrificing animals and children now is declared as a blessing FSS, every temple around the world is a sacrifice center for these dark magician psychopaths, whether these people are aware of it or not, they need to learn and learn fast. MY SACRIFICE

Here is what occurred when previous Temple was built under the much revered King Solomon, Solomon sold humanity out. During the building of the 2nd temple, he decided to use what we now call The Demons to build it, real name Djinn, he was given a ring that worked magic, but he didn't believe it, and he used a child to cast the spell that summons forth each demon spirit one by one, nice chap he was using a child as a guinea pig to test if it worked, for further details of the event and the roles and the specific types of interference each demon exhibited and carried out, read the full text of The Testament of Solomon. There is that word again testament, has same meaning as covenant, to bind, Old or New testament is new boss same as the old boss, and we were all bound by demons, due to this cult. As each one was summoned forward, the ring was thrown at the chest of each demon and that bound them to here, and Solomon put them to work on building the temple, this was a catastrophic mistake, and why I warn of the dangers of magic (light or dark, they both come with a price or consequences that are not conducive). Warning for those that use magic, a message, you are not performing the magic yourself, you are calling in the non physical dark spirits to do the magic for you, once they are here they wreak havoc, on you and everyone else. The covens and witches holding hands circle creates the portal to bring the djinns in from the underworld, djinns reside with the Nagas, the serpent people, if you are involved in witchcraft please quit it or any group associated with it, like Wiccan. Lets have a look at Wiccan and compare to earlier mentions, Pagan based, has goddesses, rituals on a full moon, worship the horned god which is the Baphomet, another chimera half man half goat, here is a list of gods and goddesses a Wiccan worships the Germanic Eostre, which is Ostara and the real reason for the celebration known as Easter, Catholic church changed the name in 8th century and wrapped the Jesus story into it, next one the Hindu goddess Kali, oh dear the dark mother again Kali Ma, and Catholic Virgin Mary, which is another fake story,

immaculate conception deary me, each as manifestations of one supreme Goddess and likewise, the Celtic Cernunnos, another chimera half man half elk, the ancient Greek Dionysus, the goddess of wine, and the clincher and dot connector the Judeo-Christian Yahweh as aspects of a single, archetypal god. And if that wasn't enough about Wiccans to show their path of darkness, they also partake in one of the 5 hooks, sex, by performing sex rituals, other traditions wear robes with cords tied around the waist, a bit like the red or black robed priests in the Vatican or even normal street clothes. In certain traditions, ritualized sex magic is performed in the form of the Great Rite, whereby a High Priest and High Priestess invoke the God and Goddess to possess them, before performing sexual intercourse to raise magical energy for use in spellwork. The group known as Mystik with a K, Mountain is not without similarities here it seems, dark based witch craft, as a patchwork quilt running through the echo chamber, is multifaceted and broad, yet simplistic once the main basic pattern is identified. In nearly all cases it is instead performed "in token", thereby merely symbolically, yeah right we know different, the symbolized version they state is by using the athame, which is knife to symbolize the penis and the chalice to symbolize the womb, just like Washington DC with the monument symbolizing the Osiris penis and next to the Oval Office which is the womb. Rite as in Scottish Rite who were instrumental in the lay out of Washington, a rite has three main meanings, rites of passage, generally changing an individual's social status, communal rites, whether of worship, where a community comes together to worship, such as Jewish synagogue or Mass, both of which are indicative, and the final clincher, rites of personal devotion, where an individual worships, including prayer and pilgrimages such as the Muslim Hajj, which is the Mecca ceremony.

Many of you have heard of the Ring of Solomon, that still exists and is worn by the Rothschild's at this time, no surprise there is there, quite frankly I'm getting sick of speaking or hearing that name, time it was banished in my opinion, but whilst Rothschild's and their extended family network achieved wealth, assets and power, all courtesy of the Hapsburg family, it all came at a very heavy price for them and their family members, a darkened soul incapable of love or compassion, essentially Rothschild's are Rumpelstiltskin, for those who have watched the series Once upon a time, will understand that better. Look we all need the dark, as they provide the lessons to those not following that path, but the heavy swing of darkness here and other places throughout this universe, tilted way beyond balance. It is rumored that this universe was created by a source being who wanted only light, if that is correct, that experiment has failed badly, the dark came in with what is known as the fractal virus, and began to

corrupt everything, other entities then took advantage both humanoid and none human looking, and the whole Universe tilted badly to the dark in the region of 83%, this is why I speak of the 45-55 balance, a 5% correction either way can easily be fixed, 33% in this case has taken many thousands if not millions of years to correct. Those of the light, need the dark to provide an opposite to enable you to recognize which path you are on, it's the dance of life, as we contain both the ability to be an angel and a demon, it is about which path you choose, and is only yours to make, but with this type of imbalance, it was more a case of the path open to you, that looked all lovely and light, but was actually a seducement into the darkness. For further details of the Solomon stuff check out my show Demons and Magic, it's on the must listen to list. In the next installment of this series we will reveal the real hidden hand of all the names and organizations, that has been brought up in this series, it will be even more packed than this show, connect more dots than previous shows and open the Pandora box, once and for all. As this series has shown, it is all in the words when people take the time to look into it, etymology study will bring many of you great benefits, connects more dots and a deeper understanding. The written word has been abused badly over the last 600 or so years of our history, distorted into a subset of reality, called illusion, perpetuated at that time by the Roman church, that marched through towns destroying their history, oral teachings and written, destroyed or looted ancient treasures and artifacts the world over, declared science as pseudo subject, until they rewrote it into a program that fits their narrative Mistranslations, vowels changed, names changed, religious denominations hidden, countries ransacked, cultures and ancient practices destroyed, America a prime example, Columbus himself was funded by the Roman Church, they don't tell you that in school, doesn't fit their narrative. They use meme sentences to push home their narrative like Columbus founded America, yet how many ask the question are they stating America never existed prior to Columbus? seriously, that is as bad as the world started 6k years ago out of the biblical books, but the bible can't be wrong it is said, yes tell that to the talking snake, I am sure it will be an interesting conversation. Look I am not here to trash all portions of religion, be it Hinduism, Buddhism, Jainism or new age, all of them have messages within them, that are apart of what we are trying to achieve going forward. Messages of peace, harmony, love your fellow man, love nature and the planet, compassion, empathy, thou shall not steal, murder or harm, all very valid exercises and lifestyles to live by, but here is the kicker, all those just mentioned are our own basic elements, of what it means to be a human, since when did we need books, churches, the priest class, pharaohs, fake gods or angels to tell us or guilt us into doing that, with a program? We didn't and that is the hook, the program that they have employed to harvest our energy, and take us away from

what is human, take away our inherent right and connection to source, take away from us as beings of light, and used as batteries to enhance the dark forces. The religious program of all denominations, all of them stem from the one server, the rest are just terminals and reference points for divisive programs, something that resembles good just like the poisoned chalice, but has far darker intentions. Why are we still following ancient gods, and not creating our own gods? People will say you can't do that they are divine beings, wrong, that was the illusion, every soul has the potential to be divine, infact a species cannot thrive without developing it's own kind, we are not developing, we are in devolution, due to these hierarchical freaks. The real definition of a god is anything being who evolves onto a higher soul developmental level, that is open to all living beings, not these select few, who clearly never developed anywhere near higher soul level, otherwise they wouldn't be asking you to sacrifice people or animals or worship them, a true god or higher soul developed being does not ask to be worshipped or honored, they elevate those who haven't reached that status yet, big difference. People ask why these dark or bad people don't appear to have karma in this lifetime at least, all those religions mentioned earlier have what is called a day of atonement, remember what the Rabbi said earlier? These ceremonies are stated as sacrifices to atone their own sins, says Rabbi Weiss, so in other words they are passing their karma onto the rest of the people, who don't follow their gods. Now do you understand the power of words, ceremonies and the appeal of sacrifices these people do? It's word magic, spells and incantations again, perpetuated by dark occults and witches, all of which dance with the demons, better known as Djinn, the Djinn who are there to push the dark agenda, it is their role in creation. It is the trap and also the balance in nature, but all of these religious programs have tipped the balance of nature on this planet, and sent many spiralling into the left hand path of the dark, and all have a responsibility to correct that, and that is what these shows are all about, having knowledge is one thing, acting upon it is another. The question remains is, with over 2/3 of the planet wrapped into a religion or other, a figure which was higher in the last 600 years, why has this planet with all it's good religious intentions as they say, has this planet always been in an mess, turmoil, divisive, nasty and warlike? Question 2, why is a high percentage of those deemed atheist, have a lower violence or divisive streak? Question 3, why are children brought up in a non religious way, more altruistic? What does the answers to those questions tell you? I am not asking you to think logic, an example of logic, which is a science that deals with the formal principles of reason. If a visitor walks in the house with wet hair, it is logical for one to assume that it is raining outside, that was an assumption, assumption is not fact or truth, and like most of our knowledge, language, logic or reasoning, it is heavily flawed, because their system of lies

relies on us believing the assumption, not the fact or truth. So I am asking you to think realistic, what is real, and what is the illusion, like the mirror which is an likeness of an image, not the image, the real image is viewed in the third person. The lies and illusions will be no more, the curtain of darkness and deception, will be pulled back and the light will shine through on an unprecedented level, nowhere to run and nowhere to hide after that episode. NOWHERE TO RUN OR HIDE
