Tonight we bring you From Russia with Love part 8B it encompasses 8A and leads us to a new and greater understanding of what we face and faced, their corridors of power with the closed doors to learning, our now opening to more and more people each day, take the right hand path and away from the temptations of the dark, let us not walk in the shadow of death, but integrate our shadows into the light. In many ways this series is ground breaking and this particular show is a World Inclusive, not exclusive, the shadow of the dark will be no more cast on humanity, providing we do the work and the right things.

This whole series has threw up a raft of names of organizations involved in this dark force worship of death and destruction. Many of these names started out with good intentions but have been corrupted so badly now, we need to start again going forward with better choices of what we do and what we follow. Here are a list of some of the name operating under the banner: Ra, Kali Ma, Lilith, Rahu, Ketu, Hinduism, Buddhism, Tibet and the Dalai Lama, Mithras, Communism, Socialism, Kabbalism, Zionist, Democrat, Capitalism, Kosheys, Kosher, Sufis, Jihadists, Egyptology, Pharaohs, Lords, Reptilians, Draco, Serpents, CIA, P2 lodge, 5 eyes, KGB, Mossad, GCHQ, OSS, Solomon, Melchizedek, Jewish, Hebrew, Houses of Europe, Greece, Rome, Cat holic church, Mormons, Amish, Yahweh, Cabal, Illuminati, bloodline families, Sisterhood of the Rose, Scarlet Sisterhood, The Order, Dragon groups, Zidomasons, Freemasons, Scottish Rite, Paganism, Wiccan, World Government, Luciferian's, Satanists, worshippers of Set, Vrill or SSp, SS being the operative word. All of those names come under the banner of one group which the rest of the show will cover in great detail. This is the dark force cult that is the umbrella, of which all the afore mentioned names operate under, whether knowingly or not, all are connected to this one group, carefully hidden and darkness personified, that group is under the title Memento Mori - which means remember you must die, ironic given these dark forces have done everything to gain immortality. Recently we did an intel piece and said I would reveal in this show who were removed, Several thousand near 3/4 of a million of a certain group on this planet were deleted permanently this week, following a request to the Council which was agreed upon, suffice to say the world is better off without them, utter hybrids. Very few it was found of them to be human, all were removed, a number totaling 768K. The group is known as the Order of the Black Sun, this is their philosophy and their manifesto.

BLACK HOLE SUN

The Dark Side disciple should keep certain symbols at hand—black suns, skulls, black robes, etc.—as reminders that he will die. Indeed, these symbols are a reminder that everything in existence—ourselves, our friends and families, our tribes, our races, our civilizations, our species, our planet, our sun, our galaxy, our entire universe—is doomed to destruction. As the ancient Chinese sages said, when asked for a saying that is true in all times and places: “this, too, shall pass”. Nothing in this world is eternal. The fate of everything is Darkness. Nothing can escape its destiny in the Void of the Black Sun. Unlike the modern Lightsider who lives in denial and mortal fear of this reality, the Darksider embraces it, takes dark inspiration from it, reminds himself of it often and pays tribute to it, by his devotion to symbols of death such as the Black Sun. Thus do we revive the ancient tradition of “memento mori”—the practice of keeping death imagery at hand as a reminder of our mortality—common since ancient times but forgotten in the modern age. We use these symbols not simply as gloomy reminders, but to glorify the power of death, universal destruction and ourselves as dead men walking under the Black Sun, we also use them as a challenge to ourselves, to always strive to achieve immortality and defeat death before it defeats us. The key is the term dead men walking, and is giving a heads up to the dark infested spirit world, we covered in the last show, and several others.

The world is dying. WERE ALL GOING TO DIE AGAIN The first Terrible Truth of our creed is the understanding that the formed world is dying, and is indeed doomed, to the materialistic modern mind, steeped in White Sunnite notions like “progress” and “saving the world”, this may be the most terrifying truth of all. But it has not always been so, in many metaphysical traditions throughout history there has been a belief in an “apocalypse” or an “end of days”: a moment when humanity perishes, the world is destroyed, the gods die, time itself comes to an end and the universe is abolished, yes as promoted by disciples of this cult, known as Prophets, they were not prophecies they brought forth, they were trying to bring forth by wordspell magic their plans, not prophecies. This is the Armageddon they speak of where only one group of people are saved, the Hebrew people, the chosen ones, on judgement day their folly will be all laid to bare, having passed over their karma onto all other people, via their atonement day, it will all come home to roost. This idea is a manifestation of Black Sun consciousness, which has recurred in such forms as the biblical Book of Revelation, the Islamic Day of Judgment, the Norse Ragnarök, the Hindu Shiva dance, and the Aztec Fifth Sun, even modern science now posits that the cosmos is dissolving, and will eventually go dark and return to the Void, modern science is wrapped into this cult also, don't go along with their

belief, no more grants, is how it works. This piece also shows how they invaded and infested every culture and tribal group. The first written testament of the philosophy, symbology, sorcery and ideology of Kâmûd-Dûn ("the Shadow Path"), the foundational book of Borzûm-Gâzûl—Order of the Black Sun—which encompasses all other Orders and ideologies propagated previously by the Dark Lords, so there they are telling you, they are the umbrella for all the other organizations operating under this cult of darkness. This book documents the manifestations of the Black Sun's power in our thoughts, our lives, and the world at large, it is a first written testament of the philosophy, symbology, sorcery and ideology of Kâmûd-Dûn ("the Shadow Path"), as conceived and practiced at our Black Sanctum. As the founders of this Order, we record these thoughts so that others may know why it came into existence, and what its "terrible truths" consist of. We offer this book not as idle philosophy or mysticism, but as a call to re-examine reality and your place within it, it comes from the endarkened minds of two who have had close encounters with the Black Sun's power and returned as darker, stranger beings, with a message for others. For we have walked under the Shadow for many years, and wish to convey some of what we have learned to those who would follow in our footsteps. You are not supposed to walk under or ignore your shadow sides, but integrate them. In a world of Shadow-blind sleepers, may this book awaken a chosen few, open their Third Eyes to the Black Sun and bring them under its Shadow, ah the shadow work and inner work some in the alt media stated wasn't necessary, what this is stating is, those that don't integrate their shadows, become more and more susceptible to the dark, oops. May it inspire them to join the ranks of our invisible Empire, and leave behind the White Sunlit world of illusions forever, may the Black Sun burn a hole in your mind as it has ours, giving you the eyes to see a new path, and the strength to walk it onward, forever, into the infinite Darkness. Borzûm-râk âm chod! (Black Sun power to you!) One Empire, One Brotherhood.

Black Sunnites are a loose brotherhood of sects, cells and clans known as Circles, ah the Klans spelt with a K, circles are the covens, each of which maintains its independence, but agrees to share its knowledge, resources and give assistance to members of allied Circles. Collectively, these Circles form a secret society that takes the Black Sun as its Source, and gives its allegiance to the Black Sun Empire, Circles that wish to enter into Black Sunnite Society must take the Gûmûk-Gromât ("Unity Oath") to signify their allegiance to the Order of the Black Sun. In the Black Tongue of Borgâl, this oath reads: Gûm Kârzath, Gûm Gâzûl { One Empire, One Brotherhood } Every Circle that belongs to our Brotherhood should display this oath in their Sanctum. Written vertically in our

Hârzad script, it looks like this: By this Unity Oath, every band of Black Sunnites and every territory they control, are united in a larger Brotherhood and Empire. In the video below, Circle leader Dred Nightstalker paints the “One Empire, One Brotherhood” slogan on a canvas for his Sanctum wall:

Elite Initiation The Order seeks to initiate the elites of White Sunnite society into Black Sunnism rather than recruit the masses, this is not only more discreet, it gains us powerful agents, who can advance our interests from within the houses of our metaphysical opposition, this is no different to the Black Indians under the Kali Ma 5-7K years ago, who were imbued with voodoo, being told to mix with the white race to enhance their voodoo magic powers. The targeting of such elites is one of the dark arts of the advanced Black Sunnite, who is trained in many methods of personal persuasion, seduction and manipulation to advance our cause, once an elite target has been fully exposed to our initiation process, he should give his allegiance fully to the Order and abandon any vestigial loyalties to his old ideals. This is the seducement program we have been speaking about in our shows, too many fell for it via wealth, fame and or titles of self importance. Thus we pursue the “Illuminati methodology”: subversion from above; establishment of powerful cabals that operate outside the reach of the ruling system, while exercising leverage over it, these cabals can then subtly promote the agenda of the Shadow Council, while sabotaging White Sunnite initiatives from within. In extreme cases, they may be called upon to incite wars and revolutions, crash economies or stage false-flag events to destabilize White Sunnite regimes.

Secrecy The Founders designed the Order to be a secretive, discreet cult rather than a publicity-seeking cultural movement, precisely to avoid problems with White Sunnite backlash, our creed is not for everyone, and doesn’t need to be known or followed by all. We do not subscribe to the ideals of openness, universalism and egalitarianism espoused by White Sunnites, and do not use their methods, Black Sunnites meet, communicate, train and operate discreetly. We transmit our dark truths to those who are worthy of them, and leave the rest to sleep in their White Sun dream-worlds. Here is a saying that summarizes our viewpoint on this matter: Black Sunnites are the hidden followers of dark truths, not the open propagators of white lies, Black Sunnites are sometimes called Vrågum-Borchâgorz (“Hidden Dark Truthers”) for this reason, in a Black Sun-dominated universe, ruled by hostile forces and threatened by White Sunnite crusades, hidden is how we must be and shall remain.

Seeing the Shadow World Becoming a Black Sun Seer (Borzûm-Gurûzâth) means learning to unsee the light of the White Sun, that blinds most beings to the existence of the formless, Shadow World, for the White Sunlight only illuminates forms (chanz)—those objects, ideas, words and social constructs we can conceive of, speak about and interact with. We say that the White Sun is the Source (Tozg) which fills our minds with models of the world—our mundane sensory awareness, theories, philosophies, ideologies, religions, languages and cultures. To the White Sunnite, these constructs are all that one should be concerned about; anything outside of the White Sunlit World is illusory, delusional, insignificant or evil. This is what I speak about when I say people must see, see with quotation marks, all can see with the right application, not just the dark, seeing with no quotation marks is not believing as they have told you, seeing with quotation marks is. To the White Sunnite, “the map is the territory”, outside of which he has no interest in venturing. To the Black Sunnite, this situation is inverted, the map is not the extent of our world, but a “placid island of ignorance in the midst of black seas of infinity”, to use H. P. Lovecraft’s lovely phrase. It is the black seas beyond the borders of the map that are of interest, and toward which the Black Sunnite seeker sets sail, and it is the White Sunlit forms which are illusory, delusional, insignificant or evil—signifying as they do, only the extent of our mental limitations and cultural conditioning. This is telling you the map is the boundary, it's not that is the illusion, those that stay in the map are boxing themselves in, open the box and walk through the doors. To discover a greater reality, the Black Sunnite looks into the shadows of the White Sunlit World—and of his own mind, here we are speaking about the metaphysical concept of Vor-Thûlz (“Two Worlds”): the White Sunlit, formed world of Mâlzamagum-Thûl (“White Lit World”), and the unlit, formless realm of Kâmûd-Thûl (“Shadow World”), ah they recognize the two worlds also, they think they are the only one who can see both sides, their arrogance was their downfall. The White Sunlit World is where almost all beings spend almost all of their time; the Shadow World is where only a few mystics, magicians, madmen and prophets dare to venture, but this dichotomy of the Two Worlds is an ancient metaphysical idea that appears in many traditions; below are some other descriptions of the Two Worlds from other traditions that show how universal this idea is: Castaneda’s Tonal and Nagual, Plato’s Cave and world outside the Cave, Hinduism’s Vyaktam and Avyaktam, Shopenhauer’s world as Representation and Will, Buddhism’s Taizokai (Womb World) and Kongokai (Diamond Realm), Kabbalism’s Ohr (Divine Light) and Ein Sof (the Infinite), Goedel’s Provable and Unprovable theorems of mathematical logic, Taoism’s Ten Thousand Things and the Tao, Kenneth Grant’s Universe A and Universe B, Huxley’s ordinary mind and Mind at Large, Islam’s Seen and Unseen

worlds, Shamanism's World and Otherworld, Kant's Phenomenon and Noumenon, Lovecraft's "placid island of ignorance" and "black seas of infinity", Quantum Physics' Observables and Wave Function. Our notion of Two Worlds is thus in general agreement with many other traditions, and is not particularly radical or strange, what is radical and strange are the dominant ideologies of this age of "Enlightenment", which posit a world that is only knowable through reason, language and sensory input, and which deprecate or deny the existence and power of any other world, interesting they use the term enlightenment, like everything else they work both sides, like war, boogeyman and savior, yin and yang, they are both and all, or were, that dominance is waning fast now. It is this pervasive delusion that the Black Sun Seer must see through, but to do so requires a great deal of "unlearning" and "unseeing", for the mental constructs most of us have been conditioned with, in this culture, are designed to draw our attention only to the White Sunlit World, leaving us totally blind to the existence of the Shadow World. And this is why the perception of the Shadow World usually comes as such a shock and feels like such a cataclysm, it rends apart our conditioned inner landscape, like an unidentified mental object and an intrusion from an alien world that threatens to destroy our own. It is this perception that we symbolize by the Black Sun: a portal to an incomprehensible outer dimension that we didn't previously suspect existed, suddenly opening before us, threatening to devour our inner space like a black hole devours outer space, what these clowns don't know is, the other side of a black hole is a white hole into a different time/space, this is what science calls the big bang, it is not a big bang at all, but an infusion of light, particles and matter infused onto a new canvas, imagination does the rest. This perception is what the initiated Black Sun Seer signifies, by putting a black spot on his forehead between his eyes, marking him as one of those rare beings who has opened his Third Eye (Zwot-Grâl) to the existence of the Shadow World and now "walks under a Black Sun", and which culture replicates the dark spot on the forehead? India, they have no idea what they are inferring, mark of the beast? Borgâl ("Black Tongue") is the magickal language used by the Dark Lords' Order, to invoke Force into themselves and command the external world. With this language, our Order shall rename all things in this world, thus imposing our thought-forms upon it and thereby conquering it, that's where the name changes come from, mistranslations and changes in vowels, replacing c with K, and changing other letters like word to wyrd, which we have covered extensively in this series. Borgâl shall also be our secret tongue, used to identify other members of our kind, and separate ourselves from the Light Siders and mundanes of this world, those who choose to learn Borgâl are a self-selecting elite, founders of a new cult, heralds of a new order and propagators of a new magickal regime. This is a nod to their secret

handshakes, hand signs, yes you Mr. Spock with your Hebrew Kabbalah mind control symbols, bizarre rituals in freemasonic order and code. The words and concepts contained herein should be studied and mastered, by using them in conversation with other Black Sunnites, reciting the sayings and mantras described in this book (and others you create), and writing in the Hârzad script, known as the secret script of the Gatekeepers called Hârzad around the perimeter, invoking the name of the Lord of this World, this symbol is used in the Gatekeepers' Inner Sanctum to summon the Devil Himself. One of their paths to destruction is void meditation and as just mentioned chanting mantras, still feel those internet mass meditations reciting mantras is a good idea? As for the 144k that is another Jewish Hebrew terminology, and the Bible defines a special Seal for the 144,000 (12,000 from each of the 12 tribes of Israel) who lead the re-unification of Israel in the last days. What is this Seal? Revelation 14:1 tells us it is "in" the forehead of the 144k, and it is the name YHWH written on their forehead: where have we just heard of the mark on the forehead, this perception is what the initiated Black Sun Seer signifies, by putting a black spot on his forehead between his eyes, just like the Indian people following the Kali Ma and the Dark Lords Shiva and Vishnu, is it Cobra with a C, or Kobra with a K. Not suggesting at this point Cobra is dark, but should you choose to continue his moon goddesses, meditation with mantras, 144k Yahweh followers once knowing the facts, then people have a choice to make themselves, either way it does not look good or augur well for those following these dark occult practices. Ignorance now is a choice. Mass meditation, chanting mantras whilst opening the third eye, which is a portal, and following their scriptures of the 144K dark demons is a recipe for disaster and actually feeding energy to the Order of the Black Sun. I'm sorry if that upsets people, but we have had enough of their hidden dark agendas and being duped as working for the light, but actually we are enhancing the dark.

The Dark Lords The Dark Lords are the leaders of, an intergalactic order of Black Magicians dedicated to establishing the Evil Empire in our time, in their many books, they explore the implications of a universe ruled by the Dark Force, Vi Diaboli and the Black Sun—for the individual seeker, cults of the Dark Side and civilization as a whole. From their Black Temple, they are unlocking the secrets of magick and masterminding a new Order, a new age and a new regime of power, merging metaphysical currents such as Sithism, Satanism, Black Sunnism, Diabolism and Dark Taoism, they are bringing all Dark Side sects on this planet under the shadow of their Black Magocracy. In this Age of Endarkenment, let the Dark Lords be your guides—beneath the Black Sun, beyond the Ninth Gate and into the depths of your own Shadow-mind, as they say in their Black

Tongue: Thûl âsh urnûk (the world is ours)! Ha Ha you thought wrong you will reside in your dark shadow world with all the ignorant and the bots of this world, and we will reside in the higher frequency plane of this world, eventually immigration will be from your world into ours, and you can stick your dark sun world right where you talk out of, your asses. The Lords oh dear riddled throughout the religious books in all cultures, all where dark, but the people sought external idols, not internal and paid a heavy price. The black magicians are the Kosheys mentioned in FRWL 1 & 2, Koshey became Kosher in physical manifestation.

Dawn of the Black Sun—A First Revelation Dark Lord Kârzathor first began to perceive the Black Sun strongly some time in 2010 of the old calendar—more than a year before the declaration of Imperial Year One, two years before 12/21/12 and seven years before the Black Sunrise event, which was the solar eclipse in America in August 2017. This is why certain people were drawn to attend that event, some to harness power, others to counteract it, the latter prevailed. At that time, he began to write a series of essays to express the dark sense of inspiration that his newfound awareness had stirred in his soul, and put him on the Black Sun Path. This was his first essay. A great Darkness is falling over mankind, for the Shadow of the Black Sun is dawning anew upon the world. The age we are entering is going to shatter the minds, of all believers in religions of progress and benevolent gods, yet for those forward-thinking reactionaries who can adapt to a transformed world, it will be an age of unprecedented opportunity. To survive and thrive in the new dark age, you will first need to de-condition yourself from a lifetime of cultural programming, which has implanted insidious memes, like “progress”, “justice,” “equality” and “liberty” deep within your mind. Those are the memes of another age, born of a brief orgy of fossil-fueled indulgence and progressive hubris that has no future, stupid as well as arrogant, it's not fossil fuels dipshits. In the Aeon of the Black Sun, you must relearn the hard wisdom of your ancestors and the answer to the “Riddle of Steel”, like Conan the Barbarian, you must reclaim your right to be sinister, and to take what you want by right of conquest and superior will. For in the Black Sun Aeon, the weak of will shall perish and the meek shall simply die, in the Black Sun Aeon, there will be no valid governing principle save superior power. In the Black Sun Aeon, there will be no universal brotherhood of man—only warring races, tribes, nations and Orders without end, that Aeon ended in 2012 whether they like that or not, their timeline is over, and more and more now are being exposed and exposing themselves, their dark mirror magic is failing, and their hidden masks are peeling off and being exposed to the light, like cockroaches, they don't like the light, and why it is important you all shine your light like

beacons. For a bittersweet taste of the new dark age, watch the original Conan movie, and read the works of the Black Sun visionary, Robert E. Howard, here was a man who understood the dark and timeless truths of human nature, and brought them viscerally to life to the delight of denizens, of our ever so ignorant “Age of Enlightenment.” When the Shadow of the Black Sun falls, everything you have been conditioned to believe about man, civilization and the cosmos by the religions and philosophers of the Light, will be revealed as pure fabrication, ah the inversion mirror tactic they use well, accuse others of doing what they did, you will see it repeatedly in their narrative. Modern man will be forced to relearn what ancient people never forgot: that nature, including man, is cruel, capricious, diabolical and adversarial, at its core yes I agree but this group and all the other names it goes by kind of stacked the decks of bullshittery, violence and scarcity, and yes we will relearn not their ways and false his story, but chart a path of a better world with our story, theirs failed, never forget that. Progress-mongers who thought man had neutered nature, and turned the corner on the old evils forever will find themselves psychically defenseless, and morally bankrupt in the new dark age. By the same token, those who have been marginalized today by White Sun civilization’s gatekeepers—the myriad militants, extremists, fanatics and cultists whose voices are becoming a cacophony too shrill to ignore—will find in the fall of the Shadow their finest hour, as you can see they were lied to also, you have reigned in the dark period for thousands of years, and still failed to take us and prosper, we never gave up, you just became arrogant, that is and was your downfall, along with believing all the Dark Order lies spread out over centuries. As a poet once said in a rather different context, “the first one now will later be last, for the times they are a-changin’”, if you speak this way to true believers still stuck in the old Aeon, you will be dismissed as a madman—a deranged misanthrope in the mold of a Nietzsche, Lovecraft or Hitler. But in reality such men were dark prophets with more insight into the human condition than any Abrahamic holy man, now that doom is at our doorstep and the Shadow looms over us all, their revelations are as religion for a new endarkened age, the Abrahamic cult was another one of their creations. So let us sing to the prophets of darkness, the dark universe itself and the dark places within our souls, as the world is once again eclipsed by Shadow, and the Black Sun armies march as in days of old. An age of peace and progress has ended; an age of war and survival has begun, may you have good fighting and good fortune in the Aeon of the Black Sun! The age of peace and progress ended haha these people are delusional, we have been in the age of war and survival under the zodiac of Ophiucus, that period is ending, and a new one will emerge. None so blind than those who not only can't, but

won't see, delusion of grandeur, self importance has run rancid through their vessels, like a virus in a petrie dish.

This next portion it discusses the principles, morals or lack of and guideline these Dark Forces operate by, called The Nine Maxims of Borzûm-Dûn, The Nine Maxims of Borzûm-Dûn—the Black Sun Path—form the basic creed of all Black Sunnites, they are the guiding principles that every member of the Order should internalize and live by. In this post we discuss the first three Maxims: 1. Remember that this world and everything in it will die. 2. Know that nothing is true and everything is permitted. 3. Seek unlimited power and conquest.

Maxim One: Memento Mori The Black Sun is a memento mori—a reminder that we will die, Indeed, it is a reminder that everything in existence—ourselves, our friends and families, our tribes, our races, our civilizations, our species, our planet, our sun, our galaxy, our entire universe—is doomed to destruction, and some people in our group accuse this show of being negative lol Death is a rebirth, a new beginning, not the end that is the remit of these dark forces and their Houses of religious programming known as churches, who have made the people fear death. As the ancient Chinese sages said, when asked for a saying that is true in all times and places: “this, too, shall pass”, nothing in this world is eternal, the fate of everything is Darkness, nothing can escape its destiny in the Void of the Black Sun. Unlike the modern White Sunnite who lives in denial and mortal fear of this reality, the Black Sunnite embraces it, takes dark inspiration from it, reminds himself of it often and pays tribute to it by his devotion to the Borzûm symbol. Like this show has stated all along, everything has been inverted, everybody has been lied to, including these delusion half wits. Thus do we revive the ancient tradition of “memento mori”—the practice of keeping death imagery at hand such as skulls, bones and graves as a reminder of our mortality, common since ancient times but forgotten in the modern age, I guess they forget about one of their disciple groups called Skull and Bones then? We use the symbol of the Black Sun for a similar purpose, but a different slant than the White Sunnites, to glorify the power of death, universal destruction, and ourselves as dead men walking under the Black Sun, well they got one thing right, dead men walking, tick tock.

Maxim Two: Nihilism Philosophically, we are nihilists, we believe that all moral philosophies are collections of words and concepts, which are negated by the reality of a Black Sun-dominated universe. The inevitable extinction of life, the death of the stars, the

diffusion of the galaxies, the disintegration of matter, and the return of this 'verse to the Void from whence it came, all undermine the authority of any values, morals or laws of which we can conceive. Just as a black hole is a "divide-by-zero error" in the equations of cosmology, the Black Sun is a divide-by-zero error in the reasoning of the moral philosophers. Perhaps someone forgot to tell them, energy cannot be destroyed only transformed, as for the out dated Black hole theory it only consumes, that is for the realms of science fiction, because the other side of a black hole, there is a white hole, oops, that signifies the white hole is in another Universe and so expansion continues, essentially the material is entering a different time/space and frequency zone. Nor is the logic of theology any better, since no gods of light show themselves, nor answer our pleas for guidance, they were there but your vision was so poor, due to being blind by your own delusion, control freak behavior and festering malignancy within you, we regrouped and fought back, and your time now is very short. Therefore we deny all false, man-made gods, and dub whatever negative transcendent principle remains the "Black Sun", such Borzûmik nihilism is, in our view, the freest of all philosophies, and the most tenable position to take in a universe such as this one.

Maxim Three: Power Ah the power freaks, you seek domain and power, not because you are strong, but because you are collectively weak, only the weakest control others, people of strength would not do that. Black Sunnites could be described as power-worshippers or fascists, we believe that we live in a Darwinian universe, fascists, all other ist and isms and Darwinism they created for their weakness based control system, in which might makes right, the strong dominate the weak and only the fittest survive. We believe that the strongest individuals, tribes and empires will naturally prevail over weaker collectives, and this should be encouraged. We believe that every individual should strive for inner development and empowerment, and that every collective is measured by the personal power of its individuals. We understand that there is no cosmic reward for pursuing any ideal of "justice", "liberty", or "equality" that denies the realities of the Borzûmik Vrâthûl ("Black Sunnish Universe"). We believe that all political ideologies not rooted in nihilistic Black Sun philosophy are arbitrary, transient delusions, our politics is the politics of destruction of all false ideologies, hopes and creeds, and the elevation of will, vitality and power as the supreme political expressions of human nature in this hostile universe. In Borzûmik ideology, the emphasis is on the will and imagination, not on reason, reality or morality, because only the former, can fill the void of existence in a Black Sun-dominated cosmos. We seek to master and mold the universe to our liking according to our Borzûmik inspiration, not according to the dictates of some

false god of light or bogus moralism. Liberated and endarkened, each of us is a potential Emperor and conqueror of the world, who may attract legions of followers who wish to share in our conquests. Unlimited power! Unlimited conquest! Unlimited triumphs of the will! Let this be the credo of the Black Sunnite sorcerer and anti-philosopher! Staggering rhetoric with all the extra tools the Dark has or had, no limitation on the rules the Dark had, more dark energy than light energy, the fractal virus, trickery in the physical and non physical realms, and an endless supply of demons to do your dirty work, and yet you still failed to break this version of man or the vessel, ooh that must hurt, hope you like lemons, but then you are used to being bitter. You took the easy path, you took the lies and the seductions, you took away whole galaxies, solar systems and planets, but just to remind you, you didn't take us, our path may have been a long one for victory, but now that time has come.

Next portion we will get into the caste system these dark forces operate under called. The Four Spiritual Castes Is it a coincidence if you type in caste system, you arrive with India, where this more modern day war originated, the answer is no, India was the ground zero for the modern way of light and dark, and no that doesn't mean we have to denigrate all Indian people either, all peoples and beings have been played as pawns in this insidious demonic dance of the dark, but I am asking the people of India, like the Jewish people to see through their religions and what passes off as culture, as a grand lie and correct it. Black Sunnites divide human beings into four spiritual castes, based on their inner trajectory and destiny as it relates to the Black Sun, study and know these four castes well, as they are central to the Black Sunnite ordering of society.

The Shadow-Blind (Kâmûd-Wikithk) The first caste are the most mundane White Sunnites, who live their lives oblivious to the Black Sun's power, and to its very existence. They orbit spiritually around the White Sun, blissfully unaware or willfully ignorant that there is a Shadow Sun drawing all life toward it, destroying them and devouring the universe. These beings are called the Kâmûd-Wikithk, or the Shadow-Blind. In the Black Sunnite hierarchy, the Shadow-Blind are viewed with disdain, being little more than unawakened apes, who lack all potential for Black Sunnite work, Because they are so numerous, we don't generally bother them, preferring to avoid their kind as a wise wolf avoids the main body of the elk herd. They avoid because they are weak and scared of our power, if that person is empowered, why can't they handle the frequency of those empowered? the Shadow Sun drawing all life toward it, destroying them and

devouring the universe, the Harvesters. I hope you understand the mirror concept better now, with their term Shadow blind.

Passersby (Hânzurdyogâthk) The second caste are those who, due to some inner crisis or dark awakening, approach the Black Sun briefly at some point in their lives. They pass by the secret star like a spacecraft passing near a planet, feeling its pull with fascination but moving on, their trajectory only temporarily altered. These are the Hânzurdyogâthk, or Passersby. A Passerby might develop a morbid fascination with death, be tempted by “the Devil”, adopt a gothic aesthetic, dabble in dark occultism, become a coffee-shop nihilist or a “doomer”, join a militia or gang, or have suicidal or homicidal thoughts. These are common signs that the Black Sun has pulled them toward it, and begun to exert its dark power upon their mind and soul, because Passersby show some inclination to Borzûmik ways, Black Sunnites may target them for recruitment into our society. Though they are usually only dabblers who soon return to White Sunnite ways, while they are in that phase they can sometimes be recruited as Black Agents and made use of, in some cases they can be guided deeper into the Shadow, becoming dedicated votaries of the Black Sun. This would be better described as the mind controlled seducement program, where they entice people in with fame and fortune, or wrap people into dark occultism via witchcraft on the premise they are doing good, no witches are doing good, that is the illusion they gave you, no matter what your intentions are, it is the fishing techniques where they reel you in, you don't see the hook until it is too late.

Orbiters (Zhikurâthk) The third caste are those who are more profoundly attracted to the Black Sun, becoming drawn into a long-term orbit around it. We call these the Zhikurâthk, or Orbiters. Orbiters are permanently transformed beings, for their proximity to the Shadow Sun means they constantly feel its pull and perceive its Vril, Vril energy can be used for light and dark purposes, the Vril energy is what powered the Vitmanas and Vitmaras space craft we had here 110K years ago. They are the lay followers and lower-level Black Sunnite initiates, whose lives revolve around the Black Sun's power in some way. Orbiters are a rare breed, perhaps one in a hundred or rarer, they can be found in many guises—artist, religious devotee, soldier, philosopher, politician, criminal, businessman, terrorist, etc.—but they all have an inward dedication to a dark path and a dark power, it is the desire for power through being weak is what wraps these people into the sewer. Most in this caste aren't consciously aware that they are beholden to the Black Sun, they may use some other name for their source of allegiance, such as “God”, “Satan” “Allah”, “death”, the “dark force in nature” or “power”, or simply follow

their source instinctively without giving it a name. To identify an Orbiter, look for one who has a focused life, an inner strength, and a certain disturbing or sinister nature, the ability to spot such beings takes experience and intuition, the more advanced you are in the caste hierarchy the more easily you will be able to spot them. This also works on the frequency an individual puts out, like attracts like, we mentioned this recently about a certain other FB group, and some members expressed disbelief or disappointment certain people joined that hate group, it's not a surprise, their masks wore off and they joined their level, that is where those people are in terms of development of the self. Orbiters are not typically found among the wild criminals, drug addicts and dregs of society, in fact they are often upstanding and successful citizens who keep their dark allegiances very private. Our challenge as Black Sunnites is to locate such beings and recruit them into our Order, by awakening them to the true source and nature of their path, at the same time, we must groom our own Orbiters, in the form of Black Agents, Acolytes and Black Knights of the Order.

The Shadow-Bound (Kâmûd-Nârkitk) The fourth caste are the rarest of beings, those who pass entirely into the Black Sun, immersing themselves in its Shadow, and leaving the White Sunnite world behind forever. These are the Shadow-Lords and the Black Emperor, who have made the Zambrân-Zath ("Lightless Realm") their permanent abode and kingdom, we call those who have entered fully into the Shadow's embrace the Kâmûd-Nârkitk—the Shadow-Bound. There you have it, they are telling you the value of shadow work, those shadows that are not integrated are like a beacon in their world, something they can capture you by, and like Solomon did, Testaments and Covenants have the same meaning to bind, they have something to bind or bound you by, from that there is little to no chance of escape, as next sentence states. The Shadow-Bound can be compared to denizens inside a black hole, from which nothing escapes and no light is emitted, they are trapped spiritually within the horizon of the Black Sun, with no hope of rescue, and no way to communicate with those outside the sphere of pure Shadow. To study under a Shadow-Lord, one must enter the Black Sun oneself, becoming just as trapped in the lightless realm in the process, thus the quest for Shadow-Lordship is a one-way journey into the spiritual Void—or into the realm of the living dead. Essentially those people or beings are trapped in the Astral Realm and also those in the Underworld, as mentioned with the Nagas, earlier in the show. Few people will ever encounter a Shadow-Bound being, they are one in a million or more, at this stage of the Order's development, we can count their number on the fingers of one hand with digits to spare. We have met many in our battles, they all reside at what they thought was the top of the

tree, they were wrong about that also. It seems that precious few have the commitment, the dark gift and the independent spirit necessary to complete the Black Sun Path and reach Shadow-Lordship in this age, no it is only the few because the light fought back and decimated your numbers, and too few are believing your bullshit anymore. But those who do will join the ruling caste of the Black Sun Order, to whom all other castes defer, the Draco Reptilian hierarchy and caste system all in one sentence, our highest task as an Order is to groom select beings to become future Shadow-Lords themselves, thus ensuring the continued survival and power of our Brotherhood. The shadow bound, to bind like covenant, testament and religaire which translate into religion, which means to bind.

This next part brings in the Chinese, Japanese and Tibetan monks elements of the Order called, The Legend of the Black Sun Scroll { This story was published in Black Ninja Handbook—a manual for Black Sunnites who choose to walk the Ninja or Shadow Warrior path under the Black Sun. } In modern times, many important historical Ninjutsu scrolls have come out of the shadows of private family collections, and been made available to scholars or published in book form for the first time. But there is one scroll that has yet to surface, though it still exists as a dim legend and a dark vision in the minds of the few who have heard of it, we speak of the legend of the Black Sun Scroll. A document which describes the darkest arts of Black Ninjutsu, much as the Shoninki and the Bansenshukai describe the ways of White Ninjutsu. The Black Sun Scroll is said to contain the secret lore of a Ninja clan that originated as an Akuto, one of the “evil bands” of thieves and bandits who terrorized ancient Japan, this is likely the origin of the modern group known as The Yakuza, the meaning of the word Yakuza is, the extreme path. It is said that some six hundred years ago, this band came under the influence of a mad Buddhist monk named Kano, an adept of the Mikkyo sect who had also trained with Yamabushi mountain mystics, and the fanatical Sohei sect of warrior-monks, and you all thought the monks of Tibet or elsewhere where about peace and harmony, another illusion smashed. Kano was obsessed with a vision of the Kuro no Hi, the Black Sun, which he alone was apparently capable of perceiving. By his perception of the dark energies emanating from this invisible sun, the monk believed he had been given magickal powers and prophetic abilities, but most people just thought he was mad, they were right. Expelled from the orthodox Buddhist orders for his erratic nature, Kano wandered the wilds of Japan, a desperate man who resorted to begging and petty criminality to survive. That was when he came in contact with a band of thieves and mercenaries, who, equally outcast and despised by conventional society, took him as their

spiritual leader. Together, this unlikely band evolved into a bizarre cult, led by an inspired madman, who gave them an ideology that elevated their activities above common criminality, and mercenary terrorism to apocalyptic holy war. For Kano saw the cult's activity in cosmic terms, he taught that the "White Sun" of the present age was dying, a "Black Sun" would soon rise that would cast the world into war and darkness, and the chaos the cult spread was the will of the "Dark Tao". In time, the cult settled down in a remote mountain village in Koka province, there, they constructed a temple known as Kuronohiji—Black Sun Temple—where Kano conducted services for the cultists. Another reference of all evil practices being ran out of a Temple, like Solomon and Herod, and notice more of the names all beginning with a K again. He also began to record the cult's lore and his prophetic and magickal insights in secret scrolls, magik spelt with K instead of C or with both is a common practice of these dark occultists. Thus was born the Black Sun Scroll of legend, By this time, the cult had become a skilled band of mercenaries who conducted night raids, arson, theft and assassination for any warlord who would hire them. Thus, they became one of the earliest and most notorious clans of shinobi-no-mono, stealers in Ninja. Ninja a person trained in ancient Japanese martial arts and employed especially for espionage and assassinations, so in essence a mercenary group. After years of this way of life, the Black Sun Clan, as they became known, made many powerful enemies and were eventually targeted for destruction. It seems that their decisive offense was propagating their heretical religion, which Kano was now calling "Black Sun Zen", "Black Shinto" or "Dark Taoism". This religion produced a breed of apocalyptic religious terrorist-shinobi, that terrified even the powerful warlords who employed them. Finally, with the prodding of several religious authorities, a powerful Koka Daimyo decided the time had come to wipe out the Black Sun Clan and end their fanatical cult forever. Soon, a large force of samurai descended upon the Clan's village, joined by an army of Sohei fighting monks who saw it as their religious duty to wipe out the heretical evil-doers. This is eerily reminiscent of wars in Iraq and Afghanistan, how the west gave them weapons and funds to fight Iran and Russia, then they decided these people have gone too far now and we must eliminate them. Thus, according to the legend, the Kuro no Hi Temple and village were burned down by the Daimyo's men and all its members were put to the sword. The evil scrolls which the Temple was said to contain also went up in flames, and with them some of the darkest flights of the human imagination and blackest magick ever conceived. Ah the ancient books burnt by fire, I am sure we have heard that before, repeated many time throughout their history, a common theme, but history and times proves that to be a lie, time and time again. But the legend also states that Kano's scrolls weren't all destroyed on that violent and fiery night, the

most sacred of his scrolls, Kuro no Hi no Maki, the Black Sun Scroll was stolen out of the village by the Clan's swiftest Ninja, and taken to a place of safekeeping, and there you have it. The final prophecy of Kano, it is said, was that the Black Sun Scroll would one day be rediscovered, its revelations proven true, and the cult of the Shinobi no Kuro no Hi, the Black Sun Ninjas born anew. Whether any of this is true we cannot say, since the fate of the scroll is still unknown, however, we will note that shortly after the destruction of Kuronohiji Temple, Japan was plunged into its "Sengoku" or "warring-states" period. A dark age of war and chaos that lasted for more than a century, thus, in that respect Kano was prophetic, though it remains to be seen whether the Black Sun Scroll will resurface and its cult of Black Sun Ninjas will live again, all those dark powers and magic and yet you can't find your own book after a few hundred years? not very powerful are you, the light has found and studied many ancient books in that time, read by the ones who attained higher soul development.

Next having shown their takeover of India, China, Japan and other parts of Asia, we now turn to the Middle East to find there dark forces, the first one is called: The Black Sufis The Black Sufis are an order of dark mystics that is said to have its origins in "pre-sand Egypt," so before the fash destroyer weapon was used then. There is evidence to suggest that the Black Sufis have been covertly manipulating events in the Middle East for millennia. Abdul Alhazred is said to have been a high-ranking Black Sufi before he went mad, and revealed some of the cult's secrets by publishing the Kitab Al-Azif (aka "the Necronomicon"), so seeing the light is called going mad by these people, all about inversion and the mirror again. Another suspected Black Sufi was the 14th dynasty Egyptian high priest Nephren-ka, who formed the Brotherhood of the Black Pharaoh as a cult dedicated to Nyarlotetep, ah we are back to Egypt again and the Cult of Ra. In modern times, there is speculation that the rise of Nazism was influenced by the Black Sufis, via Baron Rudolf von Sebottendorff, who studied Sufism extensively in Turkey before World War I. Rudolf von Sebottendorf was the alias of Adam Alfred Rudolf Glauer who also occasionally used another alias, Erwin Torre, those name changes again all so familiar, Glauer was deeply influenced by Sufi mysticism, other Eastern philosophies, and in particular, the writings of Madame Blavatsky. He used Blavatsky's The Secret Doctrine to launch his own recreation of ancient Germanic myth, ah Blavatsky another name that came up earlier in this series, who played a part in creating the New Age bs program, see how it all connects now? After the war, Sebottendorff would found the occult Thule Society as well as the German Worker's Party, that Thule society was another inversion they made, like with Vrtil, which was soon renamed the

National Socialist German Workers' Party by one Adolf Hitler. Members of the Thule Society included Rudolf Hess, did you know Hess wasn't even born in Germany, ironically or not he was born in Alexandria, Egypt, oddly enough Sebottendorf worked in Egypt, oh the cohen cidences, bit like the OSS recruitments is it not? Dietrich Eckart, and Alfred Rosenberg who has Jewish ancestry, were the other two protagonists. Thule agents infiltrated armed formations of the Communist Party in Munich and plotted to destroy the party, hatching plans to kidnap the party's leader, Kurt Eisner, I wonder if related to Michael Eisner of Disney fame, who is another of the born in and born to brigade, and launching an attack against Munich's Communist government on April 30, 1919, remember the Communist party were the same Zionist dark forces that destroyed Russia around the same time, this was a hostile takeover of Russia and Germany. If Donald Trump attacked a Communist Party in America today, he would be cast as an American hero, would he not? courtesy of the MSM media narrative, significantly Adolf Hitler was not a member of the Thule Society. You want another dot connector that ties this all in? you see Rudolf von Sebottendorff was a Freemason, but more interestingly he was a Sufi of the Bektashi order - after his conversion to Islam. This piece adds more to my theory that Hitler was not in the inner circle, or the driver of the so called Nazi group, and was added into this group of dark forces, possibly unaware of what he had got himself into. A Western religious scholar specializing in esoteric Sufi sects, has recently uncovered evidence suggesting that Islam was manufactured by the Black Sufis, as a front for an abysmal cosmic religion, Islam like Israel, Is is Isis, lam means to make an escape or go into hiding, is it possible Islam just means Isis went into hiding? He believes the Kaaba stone is really a fragment of a "star stone" that fell in the Arabian desert in prehistoric times, and first brought the knowledge of the Outer Gods to Earth. Legend has it that a humble Arab shepherd saw the Kaaba stone fall from space, while tending his camels in a remote corner of Rub-al-Khali ("Empty Quarter"), drawn irresistibly to the meteorite, the shepherd dragged his stubborn herd across a wadi and came upon the star-stone, still shimmering with the heat of impact. The shepherd became a changed man after his encounter with the strange stone, his family and friends began to fear him as a powerful black magician, who seemed able to know their thoughts and control their minds, have terrifying knowledge of the cosmos, and foresee strange future events beyond their imagining. The Kaaba stone something beginning with a K that is connected to the dark forces, this stone is from Sirius star group as I understand it, and is the corner stone of the Mecca, this does not bring enlightenment, but is looshing the energy of the Muslims who attend or pray to it. The Mecca is at the center of a bowl shaped arena, the followers when close to the Mecca are ask to go in a counterclockwise swirling pattern, this creates

the vortex or portal to harness the energy, below the Mecca was also the Ark of Gabriel, until recently, there are 7 Arks in total, none are in the control of Dark Forces. Mecca means a place to which many people are attracted to. This shepherd, a prehistoric Arab sorcerer unknown to the mundane world, would become the founder and prophet of a lineage of sorcerers that would come to be called the Black Sufi order. The greatest secret of the Black Sufis is their conviction that the god called “Allah” is really an extra-dimensional entity whom the prophet Lovecraft called Azathoth: the formless, gibbering idiot god who reigns amidst the black spirals of uttermost chaos in a dark hyper-dimension known as the Antiverse, also known as the Daemon Sultan, or the Primal Chaos, ah that word primal crops up again, I guess now we have all the evidence on that person in alt media who delivers that narrative. This has given the sect its heretical secret slogan: Azathoth akbar! (Azathoth is greater) The Black Sufis believe that cosmic conditions are coming right again, to allow a greater intrusion of the Outer Gods’ power into our universe, they thought wrong. They are therefore rousing Muslims into a worldwide apocalyptic frenzy, in an effort to usher in the Age of Return and bring the whole planet under “Xothic” theocratic rule. In fact, the “Islamic revival” of recent times was largely orchestrated by the Black Sufis, via occult influence on organizations like the Muslim Brotherhood; the Muslims who march to their tune are really marching themselves, and all of mankind, toward certain doom. The head of the Muslim Brotherhood is Barack Hussein Obama, which sounds like Saddam Hussein and Osama Bin Laden rolled into one giant piss take, it is not a coincidence, his real name is Barry Soetero, and another example of the name change crew, all too prevalent in this series.

The Black Sun Jihad Untold millions of years ago, a civilization in another galaxy went through a period of intellectual “Enlightenment” much like our own, in which science and rationality triumphed over ancient traditions of religiosity and mysticism. But soon after this came the “Endarkenment”, a period of cultural disillusionment characterized by cosmicist artists, nihilist philosophers and mystics of the Void. For them, the universe revealed by science turned out to be too strange, indifferent and doomed to be reconciled with notions of progress or cosmic benevolence. Thus was born the Black Sunnite movement, a quasi-religious cult founded by endarkened intellectuals, who looked at reality unsentimentally and concluded that life, consciousness and the universe itself were abominations that should not even exist, did or does anyone ask who made them source to decide what is valid or not, the sheer arrogance of the entities, I am reluctant to call them people, knows no bounds it seems. Soon after this revelation the Black Sunnites launched the Black Sun Jihad, the holy war to eradicate all life in the cosmos, by

launching self-replicating planet-killing machines into space in all directions. The machines constructed a kind of Dyson sphere, or shell, around each star, blotting out its light long enough to freeze the solar system to death. In this way, the Black Sun Armada sterilized their entire home galaxy of life long ago, and are approaching ours as we speak, any day now, perhaps, their doomsday machines will arrive, and soon after our sun will go black, and our planet will die, forever. Wrong again their weapons of that nature are no longer in their hands, and will not be returning to them either.

The next section reveals the philosophies and former plots and wars this is the: The Dark Universe In the beginning, there was Darkness: the Zambrân-Zath (Lightless Realm), infinite, eternal, black, the Dâr, then came the Light: finite, fleeting, blinding, the Lie, yes it is blinding to them as they are weak and cannot handle the higher vibration frequency of the light, this is why everyone must work on themselves and light up their beacon. But the deeper reality of Dark Energy remained, an echo of the primordial Void, the Vril of the primal Black Sun, permeating and dominating the visible universe. Dark Energy is what gives a Dark Lord his power, it is an energy field created by all matter in the Void, it surrounds us and penetrates us and it drives the galaxies apart, the key for the light is to reverse that back into balance, using our own powers. Remember, Black Sunnites: in each galaxy of this 'verse, lies a vast black hole at the center, a lightless nexus around which the stars orbit, a portal into the Dâr Dimension or Zâmbrân-Zath, and it is the destiny of our kind, the endarkened race, to build great civilizations and starships, so that we may ascend to the stars, penetrate the galaxies and enter these black gateways to infinity, you were able to do that in your own Universe, but through your own stupidity, decided to enter this Universe as a power quest, you failed and will face the consequences of such actions. In this way, our kind will escape the lies and limitations of a universe of Light, and enter the eternal Darkness of the Dâr, this is true immortality, this is ultimate Endarkenment. Dar, sounds all too similar to Da'at the Kabbalah tree of death or da'at. The Light that birthed this universe was a fleeting whim, the galaxies are growing dim, the Darkness will forever more ascend, yes because you are ass ended masters of your own demise. The cosmos is going black, the stars are fleeing fast, as they ride the dark flow into the infinite void, for them it is, not for us. Dark Energy is life, intelligence and will, prime mover of matter, you and me, our origin and our final destiny. Zâl âshâl Borûk (Let there be Darkness)...

Black Sun Over Atlantis (Atlantean Revelations, Part 1) { Dark Lord Kârzathor has been receiving visions of the ancient civilization known as Atlantis for several years. These he

transcribes in a private book called Tranzathik Sârudâtz (“Atlantean Revelations”). He has kept these visions to himself while he processes what he has learned, but here, for the first time, he reveals a small fragment of this knowledge. As you will see, these revelations are key to understanding what motivates the Black Sun Order and their Black Temple project. } During the later years of Atlantean civilization, certain Vrîl-sensitive mystics and artists began to speak of a “Black Sun” rising over their lands, and an apocalyptic future approaching. These mystics adopted symbols of the Black Sun such as those shown below, which they wore on their clothing, painted on their Temples and tattooed on their very flesh. At first, this strange cult was ignored, or laughed at, by the satisfied citizens of the Atlantean Kingdom, after all, Atlantis had known prosperity, security and glory for as long as anyone could remember, and was in no danger of falling into darkness, initially like the arrival of the Draco it all went well, then headed south. Surely the Atlanteans had won the favor of their gods—which they honored dutifully in their Temples to the White Sun, the moon, the stars and the spirits of nature, however, fewer laughed at the “Black Sunnites” when a series of misfortunes befell Atlantis not long after their appearance, earthquakes, volcanoes and tsunamis rocked the Kingdom, wars against outland barbarians went badly, sea raiders harassed coastal towns with impunity, distrust, fear and hatred began to divide the people, once-noble leaders grew greedy and corrupt, yes by the same dark forces. It seemed that a Black Sun had indeed risen over the lands of the White Sun, and a golden age of civilization was drawing to a close, amidst this chaos and unrest, the Black Sun cult began to rapidly gain influence, and its sinister black temples began to appear, first in remote regions, then in the cities, as conditions grew more dire and the cult became more brazen. The cult soon developed into a powerful religious order, known as Borzûm-Gâzûl (Black Sun Order) in the ancient Atlantean dialect of Borgâl, this led to a great schism in Atlantean civilization, as the old dominant religion of White Sun worship was now challenged by an insurgent, apocalyptic sect of those who were said to “walk under the Black Sun”. The two opposing sects thenceforth became known as the Mâlzûmorz (White Sunnites) and the Borzûmorz (Black Sunnites), respectively. Eventually, the entire population of Atlantis would be split by this great religious divide, the White Atlanteans (Mâl-Tranzathîn) being those who favored the older White Sun religion, with its creed of peace, progress, and a benevolent cosmos that shone down its favors upon the people of Atlantis like the rays of the sun. The Black Atlanteans (Bor-Tranzathîn) being those who sided with the newer Black Sun sect, with its creed of conflict, conquest and a hostile cosmos that would destroy Atlantis, and all things in the fires of the Black Sun. The White Atlanteans were guided by the Mâlzûm-Gâzûl (White Sun Order), the priesthood who practiced what we

would call today “white magick”, while the Black Atlanteans were guided by the Borzûm-Gâzûl (Black Sun Order), who practiced black magick. The Borzûm-Gâzûl’s power was centered in their Black Temples (Borzâkshodz), which took many forms but were noted for their twin black obelisks, inscribed with letters of the Hârzad script, and their black altars upon which Black Templars made sacrificial offerings to their Black Sun. At the peak of its power, the Order built vast pyramidal black stone temples, upon which their black-robed priests conducted sacrificial rites during eclipses, and exhorted their congregations to success in battle. For the Order was by now firing up their followers’ imaginations with visions of imperial greatness, and preparing them spiritually for great wars to come, the Order’s ruling Shadow Council knew by then that war was necessary. First to crush the White Sunnites in the homeland and consolidate their theocratic power, then to expand the Atlantean Kingdom across the seas, and establish a greater Black Sun Empire (Borzûm-Kârzath). The key to it all would be evoking a great Vrilstorm, a nexus of Black Sun energy centered in the Black Temples, which would sweep away the old order, and inspire the Atlanteans to untold heights of glory. Thus the stage was set for an apocalyptic showdown between the White Atlantean and Black Atlantean factions, which would decide the fate of the greatest civilization of the antediluvian world, and echo down through the ages to our own time.

Two-Sun Philosophy The Dark Lords of the Order of the Black Sun hold to a worldview they call Vorzûm-Zovrâd (Two-Sun Philosophy). According to this philosophy, there are two primary metaphysical “Suns”, the Black Sun (Borzûm) and the White Sun (Mâlzûm), which influence the human Will and guide our destinies. The Black Sun is the source of Borvril the “dark energy” that compels men to conquer, fear, hate, destroy, die, follow dark gods and celebrate the darker aspects of existence. The White Sun is the source of Mâlvril—the “Light” spoken of in many religions, associated with love, life, healing, peace, benevolent gods and the “sunny side of life”. While the Dark Lords believe in the existence of both Suns, they consider the Black Sun to be dominant in this ‘verse, as shown by the fact that the stars evolve into black holes, all life dies, everything crumbles into dust and the entire universe is going dark. Since Borvril is stronger than Mâlvril in this life, they have chosen to cultivate it more than the weaker White Sun energy, this is what makes them Dark Lords and not Light Lords! The Dark Lords also speak of two ‘Temples’ associated with the Two Suns: the Black Sun Temple and the White Sun Temple, these are not physical Temples, but abstract, metaphysical places, the Black Lodge and White Lodge spoken of in Theosophical and occult circles, where the followers of the Two Suns are said to congregate. Religions throughout history have

recognized the reality of the Two-Sun duality, that there are two metaphysical poles which influence the human will, and indeed all things, the Taoists called these poles Yin and the Yang, the Zoroastrians named them Ahura Mazda, god of light, and Ahriman, god of darkness. This is describing Rahu and Ketu but both were dark. Ahura Mazda the god of light it is said, but was also known as the Lord, Zoroaster is said to have had a vision at the Daytia river, he met the angel Vohu Mana. The entity asked Zoroaster who he was and what was the most important thing in his life. To which Zoroaster answered that he wanted most of all to be righteous, pure and wise. By this answer, he was granted a vision of Ahura Mazda and his archangels, oh dear, all very Moses that to me, from whom he learned the principles that would lead to the religion known late as Zoroastrianism, Ahura Mazda was worshipped among deities like Mithra, an older god turned archangel in Zoroastrianism, Mithras the Pagan christ, born on December 25th, yeah right. So an angel came down which led to the creation of Zoroastrian religion, remember the creation of Mormonism was done by said angel coming down and giving Joseph Smith, Egyptian plates. Religion they only practice on the planet that can do or say the most bizarre conspiracy theories ever, and have only the few to question the unsanity of it all. Does anyone ever ask why these so called gods don't come down from the sky and create a new religion in this time epoch? The Manicheans spoke of the world as a battleground of light and darkness, the Christians call them God and the Devil, Gnostics and Luciferians speak of the "light-bringer", enemy of the dark "demiurge" who rules this world, the fictional Jedi and Sith have their "light side" and "dark side" of the Force, and so on. The Dark Lords also hold to an Aeonic worldview, that there are metaphysical ages, or Aeons, dominated by Black Sun consciousness, and others ruled by the White Sun, which is similar to the Night of the Svarog and the Day of the Svarog, said to last a period of 1000 years, the Day of the Svarog started in 1996, which is why dark forces poured in the gate in the Congo and war raged there. The point is the dark are not content on the sharing or balance of light and dark anything, and set about to invert the light, that which is presented as light, but is actually dark. They believe the world is now entering a very dark Black Sun Aeon (Borzûm-Odun), they believe wrong, but they also believe this process can be influenced by human will, thus, when Black Templars conduct rituals invoking the Black Sun and do other deeds, they are hastening the dawn of a Black Sun Aeon, it may have been black and white Templars or freemasons at the beginning, but all relative to freemasonry now is dark, whether members are aware of that or not. It should be noted that while the Dark Lords favor the Borvril of the Black Sun, they do not deny the power of the Mâlvril of the White Sun, they simply see the White Sun as a weaker, fleeting emanation within the all-encompassing primordial

Darkness. If it was so weaker as they suggest, why do and have they attacked it so often? invert it, cheat, deceive and lie, why would you do that to a supposed weaker opponent? the answer is the light is not weaker, but stronger, the path of the light is a more stronger and arduous path, anyone can be dark it is the easy path. As Lord Kârzathor put it, “The Light that birthed this universe was a fleeting whim; the galaxies are growing dim, the Darkness will forever more ascend.” Thus, the Dark Lords build Temples to the superior power of the Black Sun, all temples are dark based, and I mean all, and internalize its Darkness within themselves, this process is what they call Endarkenment (Zhamboragûl).

Surviving White Sunnite Regimes So they speak of the light being weak in one sentence then talk about surviving the light in another, almost as contradictory as religions. In every age there are outbreaks of White Sunnite fanaticism that threaten to suffocate the world in clouds of delusion, sickness, moralism and white light tyranny. We have seen the cults of monotheism, rationalism, democratism, communism, progressivism and other creeds attempt to impose their tyrannies of “good” upon societies for centuries, this is inverted diversion words at it's finest, for it is they who created all those isms in the first place. It is conceivable that a new form of White Sunnism could soon emerge, that incorporates new technologies of propaganda and control, to create Orwell's proverbial “boot stamping on the human face forever”, haha using words like propaganda, which is pro pagan da that one of their subsidiary disciple clowns created, the CIA. Even if this does not occur, we know that the tenets of Black Sunnism are simply too harsh, and disturbing for most societies to tolerate for long. Eventually, history shows that the elites and/or the masses are going to turn on our kind and make us into scapegoats, rather than face their own Shadows and admit the dark truths of Borzûm-Dûn. There they go again using their own created hidden meaning words like scapegoat, it is a Hebrew ritual sacrifice term. What is the Order's strategy to survive under White Sunnite regimes, subvert their control systems and thwart their priesthoods? Yet again priesthoods are their own people, the Cohens or Khans, both means priest class, here are several stratagems we will employ.

Black Agents The Order maintains a network of informants, operatives and recruiters who are non-Initiates, but are sympathizers with our cause, these are the Black Agents, or Borfâzâthk. Under White Sunnite regimes, they can reduce our risk of exposure, and extend our reach by acting as extra eyes, ears and hands of the Order without being directly connected to us. A Black Agent might act as a courier, transmitting messages between Black Sunnites when direct communication is too risky, he might keep an eye

out for hostile parties, tip us off to potential recruits, acquire necessary materials, spread rumors, create diversions, etc, he may do this work voluntarily, or as a paid mercenary, as the case may be. One of the important skills of the Black Sunnite adept is the ability to recruit Black Agents wherever one goes, in such a way that one reveals little about one's own involvement with the Order. The Black Sunnite must learn to recognize individuals who are shadow-minded, disgruntled, corruptible or otherwise inclined to Borzûmik ways. He may appeal to whatever meme or ideology is most appropriate to the situation, for example, if the target shows signs of being an occultist, present yourself as a learned black magician, if he is inclined to criminality, adopt the persona of a powerful gangster, if he is politically extreme, make it known that you represent a radical political faction, etc. Here again, skills of persuasion and manipulation, along with espionage and security, are vital to the Black Sunnite initiate and are taught from the outset. So having presented themselves as stronger and we are weak, they sneak around using stealth tactics and subversion, with secret handshakes and code words, why would you go to those lengths if you are the supposed stronger group? Clearly you are not, only the weak wish to control others, basically out of fear, fear as the dark know all too well, is a weakness to be played upon. If they as strong as they say, why do they have a whole manifesto of how to disempower, corrupt or destroy people as this next section shows, New Age people will not like this section.

This next section lays out their path to inner destruction, mirrors a lot of what I have said in previous shows, including some items people didn't believe what I was saying, as the saying goes, oops. The Path of Inner Destruction Psychologically, the Black Sun Path is largely a process of cutting away the conditioning and propaganda that accumulate, in the minds of every civilized person from birth, of deconstructing the disempowering memes, that have been implanted in your mind, by a culture that has a different agenda from our own, of immunizing yourself against the lies of a White Sunnite society that would enslave your will, and reduce you to a sleeper and a slave, there is the inverted words again, sleeper and slave. We call this process the Path of Inner Destruction (Dûn ur Zhamâtonûk), here are six tools the Dark Lords have found most useful on their own paths of inner destruction, and made central to the Black Sunnite praxis.

Void Meditation (Dâr-Tazhâr) Is the meditation practice used by Black Sunnites to awaken Black Sun perception and the Shadow-Mind, It is similar to the Zen Buddhist practice of zazen, which is said to be the technique that led to the Buddha's awakening, thus proving the Buddha practice went dark. In Dâr-tazhâr, one simply quiets the mind

and follows the breath, in an effort to experience pure Void awareness, thoughts and perceptions are allowed to come and go without dwelling upon them, attention is always returned inward, to the breath. In our praxis, we may perform this meditation in the classic seated “lotus”, “half-lotus” or cross-legged position, like the snake, or it may be done while walking, running, performing martial arts or any other simple activity. The Dark Lords find Void meditation to be of great benefit in separating their beings from their thoughts, senses, habits and personalities, giving them enhanced awareness of and control over them, Void meditation deconditions the mind, allowing you to tune out the inner chatter of thoughts and urges that are constantly battling for your conscious attention. Void meditation gives you a foundation in unconditioned awareness, to realize that you are not your thoughts, and your thoughts are not you, actually they are for the light, it is only the dark who have been manipulated by walk in possessions, who hear others voices. It also clarifies perceptions and disciplines the mind, which is beneficial when engaging in focused thought or activity of any kind. At a metaphysical level, Void meditation can peel away the illusory and fleeting perceptions of the White Sun-lit material world, revealing the fact that one is immersed in the deeper Void of the Dâr—the primordial Black Sun, for all these reasons, Dâr-tazhâr is the basic practice of all disciples of the Black Sun Path, and should be performed daily. Which is exactly what the Tibetan, Hindu, Buddhist, Tao and Jainism do, throw in the Muslim world and their pray up to 7 times a day, and it is one whole looshfest.

Psychedelic Drugs (Hûzbârukâth-Lûmz) Psychedelic drugs, or hûzbârukâth-lûmz (mind-opener drugs), are the most dangerous candy you can take, because they decondition you from your culture’s values and cause you to start questioning the rules of the game. Under strong psychedelics, your entire subjective reality changes, and you begin to ask, which is real, the psychedelic state or the sober one? Your normal thought patterns are disrupted, your doors of perception are opened, and your mind becomes more susceptible to deprogramming and reprogramming. But don’t worry; psychedelics won’t turn you into some insipid preacher of peace and love if that is not your nature, in fact, psychedelics may be the fastest route to discovering your dark inner nature, oops. The Dark Lords know of no more powerful deconditioning experience than psychedelic drugs, but they caution against using them recklessly or recreationally, the proper use of these substances is the way they have been used for millennia throughout the world, by a special class of shamans and priests who take them under the guidance of masters, as a means of initiation and mystical awakening to the mysteries of existence which lie beyond the bounds of culture-bound reality, shamans and priest classes giving out dark

enhancing drugs, oh dear, something else that was stated in our show, that some didn't like to hear, well there is your evidence from the horses mouth as it were. This is how we use them in our Order, disciples on the path to Dark Lordship may be expected to take psychedelics during special rituals, as part of their initiation into the mysteries of the Black Sun and the Dark Universe.

Nature Immersion (Zhumor-Gyâdozât) A straightforward method of deconstructing your cultural programming, and experiencing the raw power of the Dark Tao, is to step outside the world of human culture and immerse yourself in nature. In Borgâl, this practice is called zhumor-gyâdozât (“nature immersion”), backpacking trips into the mountains are favored by the Dark Lords, but longer stays are even more powerful if you have the necessary survival skills, yes the mountains were the dark reside in the underworld. In nature, one becomes attuned to natural rhythms and energies which are difficult to convey to those, who spend their entire lives in the artificial world of culture, jobs, laws, technology and mass media. When you find the domesticated ways of White Sunnite civilization sapping your power or deranging your mind, there is no better way to revitalize yourself than to step into the wilderness and tap into the raw Vrill of billions of untamed beings engaged in the struggle for life and death, perhaps with this piece it confirms of my warnings surrounding grounding? you decide. They have or in some cases had Vrill machines corrupting the soil from below.

Memetics (Hûzchorgazâr) Memetics is the science of infectious ideas, symbols and behaviors called memes. When you plant a “mind virus” (hûzchorgaz) or “thought bomb” (hûzdârg) in someone’s head that drives them mad or alters their behavior, you are practicing memetics (hûzchorgazâr). oh dear the bloody cat memes that are everywhere. Every Dark Lord is a memomancer (hûzchorgazâth), who uses memes to transform himself, other people and entire societies. When you begin to think of your thoughts as infections, which use minds as carriers and have a life of their own, including a desire to grow and reproduce, you develop an objectivity toward them that is most empowering. Combined with the other tools of inner destruction discussed here, memetics becomes a tool for re-engineering your entire personality and the personalities of others. Note that memetics includes much of what is traditionally called “magick” or “sorcery”, which are mostly techniques of psychological manipulation via memes, perhaps my favorite mewe gif will now become a bit more popular after that piece.

Logic (Kurzât-Kûm) Logic consists of the laws of thought, in Borgâl we call it kurzât-kûm (“thought-law”). Black Sunnites may be driven by irrationality, intuition, passion or a type of faith, but we must also acknowledge the tremendous power of logical thought. When you must think consciously, you should use logic to avoid false conclusions, make good decisions and think clearly, there is an expression, that which can be destroyed by the truth should be, and logic is a most powerful tool for destroying untruths, this is a common technique used by alt media agency based personalities, use a portion of the truth and then surround it with bullshittery, using logic and mind melding tactics. The blade of logic cuts through much of the cruft of subjective existence, getting one closer to the dark truths about the nature of reality that no Borzûmik being can afford to deny. As stated in the last show, logic is based on assumption, assumption is not fact or truth.

Conflict (Kyotûk) Conflict (kyotûk) is the means by which the Black Sunnite adept tests what he has learned, discards failed ideas and keeps himself from becoming complacent or “falling asleep” in a White Sunnite environment. Conflict is a reflection of the natural order, in which all life struggles endlessly for supremacy, and thereby renews itself and grows stronger, yes the repeating loop program. We fight because it is how we prove the power of our philosophy, our passion and our Path, we fight to test every idea on the field of battle, rather than accepting it at face value. Black Sunnites are not glorifiers of peace like the followers of White Sunnite creeds, we understand that war has a vital place in the scheme of things, and can be a most potent means of awakening latent abilities and spiritual power within oneself.

Together, the above six tools can be used to deconstruct any idea, dispel any delusion, immunize against any memetic virus, optimize one’s mental functioning and maximize one’s inner power. Use Void meditation to become aware of your memes, then use logic to decide which memes are beneficial (symbionts) and which are harmful (parasites or viruses). Use psychedelics to blow the doors of perception wide open, and put yourself in touch with larger mythic streams of consciousness, immerse yourself in nature to connect to the raw life energy and the Dark Tao of evolution. Use memetics as a way to think objectively about your own mental ecosystem and cultural programming. Use logic to decide which memes to implant, which to retain and which to reject. Use conflict as the final test, to determine which memes are fit enough to survive, and which must die. Be warned, however, de-conditioning using these tools of inner destruction is risky business! One not only risks one’s sanity, but one may begin to find conditioned existence within White Sunnite society difficult to bear, and start looking for a way out. This can mean

becoming a hermit, a radical, a madman or a suicide, or some combination of these, but it can also mean becoming a prophet, a visionary, a man of power and an awakened being, so for Black Sunnite would-be Dark Lords the risks are necessary. The choice whether or not to take these “red pills” and see how deep the rabbit hole goes, or to take the “blue pill” of conditioned existence and go back to sleep is of course yours, their inverted words and programs again of conflict and illusion of choice, blue or red pill, the red pill being LSD, and they have already told you of the path of psychedelics is the path to darkness, LSD is the drug of choice for the MK Ultra program also, the answer to the question of red or blue pill is, neither, that is your choice, not the selections they gave you.

Preservation The first task of the Order under a White Sunnite regime is to ensure its continuity. This means continuing to recruit Initiates, train Acolytes, and appoint Black Knights, Shadow-Lords and Black Emperors, it means the Shadow Council will continue to meet and make decrees, even if there are only a few members in a given era. It means adding to the Order’s lore and passing it down to the next in the chain of transmission, it means teaching Initiates the Black Tongue and speaking it among ourselves. It means conducting rites at Black Temples and training at Black Sanctums, the Order can continue to do all these things, under even the most hostile White Sunnite regime, but we must be extra clever and discreet. If totalitarian technology is used to try to root us out and shut us down, we will harness our own technologies, “hack” the hostile systems or return to the time-tested methods of more primitive ages, ah the rock throwers via meteorites or the flood generators. If mobs are mobilized against us, we will mobilize our own counter-mobs or move out their way, if propaganda is used to demonize us, we will demonize the demonizers and deconstruct their propaganda. If our temples are attacked, we will defend them and build new, better-hidden ones. If all else fails, we will simply disappear into the shadows, using the methods of stealth at which we excel, where we will wait and work until the age changes and the environment, becomes more hospitable to our kind. Black Sunnites are patient, because we are an Order that thinks and operates across centuries and ages. The key in every age is to preserve our lineage, transmit our knowledge, train our wills, accumulate Vril and stay firm in our (dis)belief according to our Way. If we do this, nothing the White Sunnites throw at us can ever defeat us! or so they thought.

They thought wrong on many levels this time period, their arrogance, their symbolism, their codes and secret clubs, clans and lodges, this time got stripped bare and thrust into

the light. They cannot withstand the light on equal terms, and why they use stealth, devious and underhand tactics to fulfil their aims. These people like the Draco, Parents, Covens etc have been lied to also, their whole belief structure is more bollox than religion or our own belief systems. State they want death to everything, then their fake gods who follow this cult spend Aeons seeking out immortality elixirs, utter delusional. Their whole existence is about keeping everything hidden, then they speak in forked tongue as they are the power, of what? hide and seek championships. If they are all so powerful, why are we still here after 2012? Despite your attempts at a timeline cheat through to 2016, why are we still here after that also? Your big event in 2017 the great Rahu solar eclipse, again failed, the return of the silver lady, which crosses our paths again next month, will not save you either, infact you are that lost in your own illusions now, you didn't even recognize her last time. You do Mercury or is it mercurial, fickle and volatile is kind of apt, you stagnated thinking you were all so far ahead of us, but you taught us well and we learned quicker than you thought possible, like I said your arrogance supersedes, encompasses and ultimately consumed you. Your dark cult that infected and inverted everything was signified in your hidden agenda song in the lyrics, Black hole sun won't you come and wash away the rain, no we came and washed your reign spelt REIGN. Your gods and malevolent ET's will not save you this time, despite your several and increased sacrificial rituals, they have by and large seen through your deceptions. The event horizon in sight now will bring down the curtain of your darkness, and the light of the few will shine brighter than you can imagine, our time has come and theirs has ended. The winds of change are blowing through their valleys of the shadows of death, we will fear no evil, we will conquer evil for you are with me; your support and your courage, they comfort me and us.
