SOUND OF SILENCE This is another of our exposes and is a wider aspect of the From Russia with Love 4 show. It goes much deeper into a certain topic covered within that show, and reveals more of the players involved, the depths of which they will stoop to and levels of evil they all too frivolously used. Some will say why focus on evil and that is a valid question, but these topics have to be covered to avoid the future generations being corrupted with this type of thinking and practices. For too long topics like this has remained largely hidden, although covered in some alt media circles it is often lost in the plethora of bs, or their figures down graded, and so does not come to a wider audience or attention. Our shows now go far and wide despite their attempts to down grade or interfere with our show and social media pages. This document will reveal much and will be interspersed with my own knowledge and input for greater clarity. In From Russia with Love 4 we touched on Margaret Sanger and the eugenics program, this show will go deeper into and will likely create a second show to touch on some wider aspects contained within this show. This was the precursor to the carnage of child trafficking and other child abuses, many around the world are hearing now for the first time. These happenstances are not new as you will find out, and has been running in the background of all who listen to this show, your whole lifetime. Often people mistake that evil is a more modern day thing and oh how things have gotten worse, wrong thinking, it was always this bad you just never heard of it. Some may feel this is a past event and not as prevalent today, but once you connect the dots to modern day happenstance, it becomes a very clear event and warning. The names change but the programs remain, understanding the depth of it allows you to see through their illusion games, designed to fool us all. The file is called The Brotherhood of Death, and was long before Project Paperclip although they were involved in it later, but was certainly nothing to do with Project Blue Book or Blue Beam as recently mentioned on a certain show, accuracy of information is important.

WHAT'S THIS LIFE FOR

Human guinea pigs: Years before Henry Kissinger and Brent Scowcroft made population reduction the official foreign policy of the United States Government, the Rockefeller brothers, most especially John D Rockefeller III, or JDR III as he was affectionately known, were busy experimenting on human guinea pigs.

In the 1950's, brother Nelson Rockefeller was occupied with exploiting the cheap, non-union labor of Puerto Ricans in the New York garment center sweatshops, flying them into New York at cheap rates on the family's Eastern Airlines shuttle. He was also engaged in setting up cheap labor manufacturing directly on the island, far away from

prying US health and industrial safety regulators, under a government program named Operation Bootstrap.

At the time, Nelson was Under Secretary of the Department of Health, Education, and Welfare and a shadowy and highly influential figure in the Eisenhower Administration.

In Nelson's version of Operation Bootstrap, the boots were owned by the Rockefeller family and their business friends. The only straps were those used by sweatshop owners on the island to force a higher level of productivity.

While Nelson was thus busy encouraging the spirit of free enterprise among Puerto Ricans, brother John D. III, was running human experiments in mass sterilization on the poorer citizens of Puerto Rico. Puerto Rico was an unfortunate island whose sovereignty got lost somewhere in the shuffle of American diplomacy. It was a de facto US colony, with ultimate legal control decided far away in Washington, making it an ideal experiment station. It is my belief that Puerto Rico is actually a defacto Crown colony and why the Crown established the IRS there. Through his newly founded Population Council, JDR III first ran some of the experiments in population reduction, which would later become global State Department policy under Henry Kissinger's NSSM 200.

National Security Study Memorandum 200: Implications of Worldwide Population Growth for U.S. Security and Overseas Interests was completed on December 10, 1974 by the United States National Security Council under the direction of Henry Kissinger. It was adopted as official US policy by US President Gerald Ford in November 1975. That term National Security again rears it's head, people have to understand when the term National Security is used, it is not for yours or the countries safety, but to cover up agency and think tank programs and crimes. JDR III made Puerto Rico into a huge laboratory, to test his ideas on mass population control beginning in the 1950's. By 1965, an estimated 35% of Puerto Rico's women of childbearing age had been permanently sterilized, according to a study made that year by the island's Public Health Department. The Rockefeller Population Council, and the US Government Department of Health Education and Welfare—where brother Nelson was Under-Secretary—packaged the sterilization campaign. They used the spurious argument that it would protect women's health and stabilize incomes if there were fewer mouths to feed.

Poor Puerto Rican peasant women were encouraged to give birth in sanitary new US-built hospitals, where doctors were under orders to sterilize mothers after two children by tying their tubes, usually without the mother's being aware of what was being done. By 1965, Puerto Rico was a world leader in at least one category, it had the highest percentage of sterilized women in the world, India lagged badly in comparison, with a

mere 3%. It made a difference when the Rockefeller family could control the process directly without government meddling, sounds like the National Security act that to me.

‘second only to control of atomic weapons ...’

John D. III’s forced sterilization was no radical departure for the family, the Rockefellers had long regarded Puerto Rico as a convenient human laboratory. In 1931, the Rockefeller Institute for Medical Research, later renamed the Rockefeller University, financed the cancer experiments of Dr. Cornelius Rhoads in Puerto Rico.

Rhoads was no ordinary scientist, it later came out that Rhoads had deliberately infected his subjects with cancer cells to see what would happen, and eight of his subjects died. Rhoads like many of the Jewish scientists we mentioned in a previous show, was also involved in the Nuclear energy commission, involved in developing chemical weapons for the Army and he referred to his patients as "experimental 'animals'." He wrote: "If they don’t develop something they certainly have the constitutions of oxen." - all very Talmudic that is it not? The Rockefeller Institute pathologist, Rhoads, complained in November 1931, ‘Porto Ricans are beyond doubt the dirtiest, laziest, most degenerate and thievish race of men ever inhabiting this sphere. What the island needs is not public health work, but a tidal wave or something to totally exterminate the population. I have done my best to further the process of extermination by killing off 8...’ Initially written in a confidential letter to a fellow researcher, Rhoads's boast of killing Puerto Ricans appeared in Time magazine in February 1932 after Pedro Albizu Campos, leader of the Puerto Rican Nationalist Party, gained possession of the letter and publicized its contents.

Rather than being tried for murder, the Rockefeller Institute scientist was asked to establish the US Army Biological Warfare facilities in Maryland, Utah and also Panama, and was later named to the US Atomic Energy Commission, where radiation experiments were secretly conducted on prisoners, hospital patients and US soldiers.

In 1961, more than a decade before his policies were to become enshrined in NSSM 200, JDR III gave the Second McDougall Lecture to the United Nations Food and Agriculture Organization. Rockefeller told the listeners, ‘To my mind, population growth is second only to control of atomic weapons as the paramount problem of the day.’ He spoke of a ‘cold inevitability, a certainty that is mathematical, that gives the problems posed by too-rapid population growth a somber and chilling caste indeed.’ The ‘grim fact’ of population growth, he warned, ‘cuts across all the basic needs of mankind and...frustrates man's achievement of his higher needs.’

Now you know why I warn of the whole medical industry, it is all tied into the control system just like the police. Neither by and large are there to look after us, only the system. Yet recently they have been declared heroes by the equally corrupt media, did anyone ask why they would do that? As clearly they don't value the basic levels doctors and nurses too much given their pay levels. They are setting the public up for the future vaccines, come to our heroes and have your injections, be nice to our heroes, respect our heroes they are saving your lives with the vaccines. The heroes is a public psychology stunt, nothing more and nothing less.

Rockefeller eugenics support:

JDR III grew up surrounded by eugenicists and race theorists, Malthusians, at the Rockefeller Foundation such as Frederick Osborn, Henry Fairchild and Alan Gregg. But lets look more closely at who or what is Malthusian. It derives from the political and economic thought of the Reverend Thomas Robert Malthus, (priest class again) as laid out in his 1798 writings, *An Essay on the Principle of Population*. Who would have thought eugenics would be written about that far back in time? 222 years ago. Now Reverend Thomas Robert Malthus lived in Britain, and yet he was talking about this in a time period when the total population of England and Wales was around 3 to 3.5 Million, so clearly not over populated at that time. But was he the original speaker of that topic? actually no and here is what I found out, Mr. Malthus I suspect was a latter day plagiarizer. Hong Liangji (Chinese: 1746–1809), was a Chinese scholar, statesman, political theorist, and philosopher. He was most famous for his critical essay to the Jiaqing Emperor, which resulted in his banishment to Yili in Xinjiang. In modern times, he is best remembered for his essay *Zhi Ping Pian*, "On Governance and Well-being of the Empire" on population growth and its sociopolitical consequence, in which he raised many of the same issues that were raised by Malthus writing during the same period in England. Hong's time experienced one of the fastest expansions of population in Chinese history. With the promotion of New World crops such as corn, the Chinese population tripled from 100 million (1651–1661) to 300 million (1790). The population boom resulted in a series of socioeconomic problems, and caused concerns among the Mandarins. In 1791, Qianlong Emperor expressed his worry to the court officials that the resources might not be able to support the growing population. Two years later, meaning in 1793 Hong published *Zhi Ping Pian*, the 26th essay of his anthology *Opinions*. Which means Malthus did the 100th monkey effect, or he received the Hong Liangji book and then wrote an English version, a few years later in 1798. So in essence the origin of eugenics itself came from China, over 230 years ago now. The question is to how and why did the Chinese population explode to that level in the 1700's? what spurred that level of growth? was their interference in that process? perhaps the promotion or introduction of corn was a clue? connect the dots. Malthus died suddenly of heart disease on 23 December 1834 at his father-in-law's house, and he was buried in Bath Abbey. His

portrait, and descriptions by contemporaries, present him as tall and good-looking, but with a cleft lip and palate. The irony is under the more modern day version of eugenics, he with that affliction would have been cast asunder as an inferior, by his own program.

For John D. III, it seemed only natural that he and others of his 'class' should decide which elements of the human species survived, in order that they could have 'life as we want it to be.' Sounds like the Rothschild's who said to Kim, "you are ruining our way of lives" indeed because you are psychopaths, with no respect for life except their own. They saw it as being a bit like culling herds of sheep for the best of breed, hmm herds of sheep being shown towards the gate, topical recently due to the new age elements of the alt media all awaiting the coming of Lion's Gate. Lion's gate was also called sheep gate - just saying, and the gate is July 27th to August 12th, not just the double numeric value of 8.

The logic of human life for the family was simple: supply and demand. As Jameson Taylor expressed it, For Rockefeller, the proper care of sheep...requires nothing more than an equalization of supply with demand. If supply—i.e. food, water and space—cannot meet demand, supply must be increased and demand must be decreased, the Rockefeller Foundation has used this two pronged approach to great effect. The supply shortage has been addressed by...advanced medical practices and increased crop yields. The demand problem has been solved by culling the herd via birth control and abortion. The problem with that theory is, we produce enough food each year to feed 3-4 planets, yet allow over 1/2 of the planet to go starving. As for the over population conspiracy theory, every single person can have a 1000 sq ft piece of land to themselves and all fit in the state of Texas. The only over populated place on the planet, would be Epstein island if we housed all the pedophiles there.

For most Americans and for most of the world, the idea that the leading policy circles of the United States Government, acting on the behest of some of its wealthiest families and most influential universities, would deliberately promote the mass covert sterilization of entire population groups was too far-fetched to accept. That ignorance has cost many people their lives, the love of the Government over the love of the people is staggering here in this country, running under the banner of patriotism, which is a fancy word for fascism. They both have the same principles, love your country no matter what it's Military or Government does. By the way the Governments are not acting on the behest of wealthy families and Universities, as the Government as ran by both and certain agencies here.

Few realized that individuals with names such as Rockefeller, Harriman, banker J.P. Morgan Jr., Mary Duke Biddle of the tobacco family, Cleveland Dodge, John Harvey Kellogg from the breakfast cereal fortune, Clarence Gamble of Proctor & Gamble, yes

the families that brought you the Thrive movement were eugenics based amongst other dubious experiments they were involved in. All were quietly funding eugenics, most as members of the American Eugenics Society, and financing experiments in forced sterilization of 'inferior people' and various forms of population control as early as World War I. Their counterparts in the English Eugenics Society at the time included a British Chancellor of the Exchequer, Winston Churchill, economist John Maynard Keynes, Arthur Lord Balfour and Julian Huxley, who went on to be the first head of UNESCO after the war.

Most ordinary citizens simply didn't appreciate who was running such things, and how they really viewed the majority of mankind behind all their noble rhetoric of democracy and development. Ah Lord Balfour along with his buddy Lionel Rothschild was also involved in creating the fake country, known today as Israel, were they could further demonstrate their eugenics and killing machine tactics in the Middle East.

Combating 'The human cancer'

The population and related food policies of the US Government of the early 1970's emanated from the halls of the Rockefeller Foundation, from their Population Council and the Rockefeller Brothers Fund, and from a handful of similarly well-endowed private foundations, such as the Ford Foundation and the Carnegie Foundation. The true history of those organizations was carefully buried behind a façade of philanthropy, yes they were but were uncovered in our From Russia with Love series. In reality, these tax-exempt foundations served as vehicles for, the advancement and domination of powerful elite families, at the expense of the welfare of most American citizens and of most of mankind.

One man served as head of the Medical Division of the Rockefeller Foundation for more than 34 years, his name was Alan Gregg. An all-but unknown person to the outside world, it is likely that, in his 34 years at the Medical Division of the Rockefeller Foundation, Gregg wielded more influence over life and death on the planet than Josef Stalin and Adolf Hitler combined. He was Vice President of the Foundation on his retirement in 1956, and his ideology pervaded the institute decades after, it was an ideology of Malthusian brutality and racist finality.

Gregg once wrote in an article for a scientific journal on population, 'There is an alarming parallel between the growth of a cancer in the body of an organism, and the growth of human population in the earth ecological economy.' Gregg then asserted that

‘cancerous growths demand food, but so far as I know, they have never been cured by getting it...The analogies can be found in our plundered planet.’

This was a formulation which translated as, ‘people pollute, so eliminate pollution by eliminating people...’ Gregg then went on, in a paper commissioned by one of the most eminent scientific journals in the US, to observe, ‘how nearly the slums of our great cities resemble the necrosis of tumors.’ And this ‘raised the whimsical query: Which is the more offensive to decency and beauty, slums or the fetid detritus of a growing tumor?’

The real cancer is these same people who advocate such criminally insane policies. All these elite families and their offspring have in some way or other looted and controlled every single resource on this planet, yet blame the people? Oil, Nuclear power and weapons, Military, clearing forests, inhabiting many of the inaccessible islands for their criminal enterprises, private planes, private cities, vast underground bases, fracking and several other earth harvest and damaging enterprises, all operated by them. All whilst denying better and more efficient technologies to be released to the public, like the 1927 cancer cure.

The Rockefellers’ darker secrets

The role of the Rockefeller Foundation in the US and global population policy was not accidental, nor was it a minor aspect of the mission of the institution, it was at the very heart of it. This population policy role held the key to understanding the later engagement of the Foundation in the revolution in biotechnology and plant genetics.

In 1913, the founder of the Standard Oil trust, John D. Rockefeller Sr., was advised to hide his wealth behind a tax-exempt foundation. That year Congress had passed the first federal income tax, and the Rockefeller family and other wealthy Americans such as steel magnate, Andrew Carnegie, were enraged at what they deemed illegal theft of justly-earned gains. Oh my pay tax on my millions and billions of dollars, who ever heard of such absurdity, I know lets tax all the people who hardly have any money shall we. As Carnegie put it at the time, ‘Wealth passing through the hands of the few can be made a much more potent force for the elevation of our race (sic) than if distributed in small sums to the people themselves.’ In so many words, money should only belong to the very wealthy, as only they know best how to use it. The sheer arrogance of these bloodline families is staggering, that all people are there at their behest and benefit, and they can enslave them or kill them in a blink of eye without a shred of empathy or basic human sensibilities. This all goes back to the training each child within their family lines, all are highly educated and they do stand out with their wording and vocabulary above the masses, that can often make other people not understand the basics of what they are saying. They are tortured at birth to adopt to the program, their parents are involved in it,

presented with handlers to replace their parents incase any love bond comes into their being, love is a weakness you see. All while they are being tortured and abused they are told they are special, they are above all the masses and should always look down and frown upon them. Dismissive and arrogance becomes their forte and they often struggle to adapt within the masses.

The newly-established Rockefeller Foundation's stated mission was, 'to promote the wellbeing of mankind throughout the world.' haha our wellbeing oh dear, that is about as much of a misnomer as the term intelligence agents. It went without saying that the foundation alone, and the Rockefeller family, would decide just what 'promoting the wellbeing of mankind' entailed.

From its inception, the Rockefeller Foundation was focused on culling the herd, or systematically reducing populations of 'inferior' breeds. It was the likes of the Rockefeller Foundation that spawned the Clinton family version, hello Haiti anyone, replace Puerto Rico with Haiti and you have the exact same program. Bearing in mind Bill Clinton is said to be the bastard offspring grandson of John D Rockefeller himself. All whilst they and all other bloodlines corrupted their own gene pool by having family based sexual intercourse and relationships, all for one purpose, so they stay in control. Hey I have a bright idea lets all screw our sisters and mothers so we can rule the world, all very "Egyptian" that to me, and they think the masses are the problem? One of the first Rockefeller Foundation grants was to the Social Science Research Council for study of birth control techniques in 1923, that was with Margaret Sanger. In 1936, the foundation created and endowed the first Office of Population Research at Princeton University, headed by Eugenics Society member Frank Notestein, to study the political aspects of population change.

From its founding onwards, the philosophy of the Rockefeller Foundation was to deal with 'causes rather than symptoms.' Clearly one of the 'causes' of world problems, as the family saw it, was the persistent tendency of the human species, at least the less wealthy portion of it, to reproduce and multiply itself. Ignoring the fact that all male royals and elite bloodlines family members, were given a plethora of prostitutes to sleep with all carefully selected from around the world, with the desire to produce offspring and then send that child to the country of the origin of the prostitute, to then raise up those children, who miraculously end up heads of state or countries, or CEO's of their companies. Hello House of Saud group and his 146 children. All very Egyptian and Annunaki that to me. An increasing number of people in the world meant, a greater potential to cause trouble and to demand a bigger slice of the Big Pie of Life, which the Rockefellers and their wealthy friends regarded exclusively as their 'God-given' right.

Back in 1894, when the family's oil fortune was in its early days, JDR III's father, John D., Junior, wrote an essay as a student at Brown University entitled, 'The Dangers to America Arising from Unrestricted Immigration.' In it he wrote about immigrants, then mostly from Italy, Ireland and the rest of Europe, calling them, 'the scum of foreign cities, the vagabond, the tramp, the pauper, and the indolent...ignorant and hardly better than beasts.'

"then mostly from Italy, Ireland and the rest of Europe" oh really? I state in mock horror, because his story has told us all along that only the black people were the forced immigrants. SECRETS AND LIES

'The Best of Breed'-- Eugenics and the 'Master Race' One of the first philanthropic projects undertaken by the Rockefeller Foundation in the 1920's was to fund the American Eugenics Society, and the Eugenics Record Office at Cold Spring Harbor, New York where by 1917, John D. Rockefeller had become the office's second largest supporter after the Harriman family.

Eugenics was a pseudo-science. The word was first coined in England in 1883 by Charles Darwin's cousin, Francis Galton, and it was founded on Darwin's 1859 work, the Origin of Species. Darwin had imposed what he termed, 'the application of the theories of Malthus to the entire vegetable and animal kingdom.' Malthus, who shortly before his death had repudiated his own theory of population, asserted in his 1798 tract, 'Essay on the Principles of Population,' that populations tend to expand geometrically while food supply grew only arithmetically, leading to periodic famine and death to eliminate the 'surplus' populations..

During the latter 19th Century, an explosion of population in Europe and North America was accompanied, thanks to the application of science and technological improvements, by rising living standards and increased food supply, thus discrediting Malthusianism as a serious science. However, by the 1920's, Rockefeller, Carnegie and other vastly wealthy Americans embraced a Malthusian notion of what came to be called, 'social Darwinism,' which justified their accumulation of vast fortunes with the argument that it, was a kind of divine proof of their superior species' survival traits over less fortunate mortals. The great question is who funded them? Where and how did they acquire their greater knowledge base? Who helped these bloodlines attain their status and their ultimate reign as proxy control of the planet agents. The answer is the Trust and Marduk and his Annunaki bloodline family, of which the Rothschild's is the closest in terms of DNA to that reptile group. The reason I say proxy agents is, all these bloodline families were duped by the simple method of seducements, of greed, fame and wealth, then when the Trustee had collected all the planet's assets, he cut them all off. The Rothschild who said all those who followed the RV were jackasses, perhaps doesn't realize that all bloodline

family members were the actual jackasses, who were duped on a massive scale. Self importance is not and will never be a virtue Mr. Rothschild.

A related major Rockefeller Foundation project in the 1920's was the financing of Margaret Sanger's Planned Parenthood Federation of America, initially known as the American Birth Control League. A racist association promoting eugenics in the form of population control and forced sterilization, under the guise of rational 'family planning.' She wrote: "Birth control is thus the entering wedge for the Eugenic educator ... the unbalance between the birth rate of the 'unfit' and the 'fit' is admittedly the greatest present menace to civilization ...'

Sanger, portrayed as a selfless woman of charity, was in reality a committed eugenicist, an outright race supremacist, who remained a Rockefeller family intimate until her death. She railed against 'inferior classes' and was obsessed with 'how to limit and discourage the over-fertility (sic) of the mentally and physically defective.'

The irony is she was born in Ireland and throughout Europe and particularly in the UK have been frowned upon as the lesser group. Classed as group of people with lower intelligence, unhygienic in some circles in Europe the Irish were labeled the Blacks of Europe and yet she goes to America, New York of all places and then spouts that crap, the irony is, had she stayed in Ireland of that time, she would have been classed as one of the undesirables. The common misconception when labeling it as a racist policy is that, it is all done against one color, well the Puerto Rican story earlier disproves that. The idea that is a program run by whites only, is pure propaganda as Jews are not whites, and many of these programs have been ran by Jewish based peoples, who even used it against their own so called people.

As it was defined by its sponsors, eugenics was the study of improving the 'quality' of the human species, while reducing the quantity of 'inferior beings,' or as Sanger put it, the 'qualitative factor over the quantitative factor...in dealing with the great masses of humanity.' The title page of the Eugenics Review, the journal of the Eugenics Education Society, carried the original definition of British eugenics founder, Francis Galton, Darwin's cousin, who defined eugenics as 'the science of improvement of the human race germ plasm through better breeding. What utter rubbish, you establish an improvement of the species by better teaching them, not educating them with lies and utter rubbish. Eugenics is the study of agencies under social control that may improve or impair the racial qualities of future generations, whether physically or mentally.'

In her 1922 book, *The Pivot of Civilization*, Sanger wrote, 'Birth control...is really the greatest and most truly eugenic program.' Sanger was appreciated in international circles for her population control zeal. In 1933, the head of the Nazi Physicians' Association,

Reichsärzteführer, Dr. Gerhard Wagner, praised Sanger for her stringent racial policies, asking fellow Germans to follow her model.

Contrary to popular belief, the idea of a Nordic master race was not solely a Nazi Germany fantasy. It had its early roots in the United States of America going back to the early years of the 20th Century.

The President of the prestigious Stanford University in California, David Starr Jordan, promoted the idea of 'race and blood' in his 1902 book, 'Blood of a Nation.' He claimed that poverty was an inherited genetic trait, as was talent, education had no influence; you either 'had it' or you didn't.

Mr. Jordan was a member of the Bohemian Grove club - just saying.

Two years later, in 1904 Andrew Carnegie's Carnegie Institute had founded the major laboratory at Cold Spring Harbor, the Eugenics Record Office on wealthy Long Island, outside New York City, where millions of index cards on the bloodlines of ordinary Americans were gathered, to plan the possible removal of entire bloodlines deemed inferior. The Master race issue all carefully crafted as a white only exercise and yet it clearly wasn't, and was introduced by the same people who believe they are the Master Race, the Hebrew Zionist. The same peoples and thinking patterns who ran the SS in Germany, were the same Zionist based peoples who ransacked Russia twenty years earlier under the Bolshevik revolution. Whilst I don't believe in religion for this comparison it is useful to get people to understand this Master Race issue. Nowhere is in the predominantly white race religion called Christianity, does it state about Master Races and Christians being over and above anyone else. Whilst the Talmud doctrine states they are gods chosen people, everyone else is an animal, a goyim, a beast and a slave, go and check it yourself. The real so called Master Race was these Jewish based Zionists, who then passed a program onto the very people they have spent so much time in trying to eliminate, going back at least 110K years, the whites. Why? because the descendants of the white race were always their greatest enemies to their dark forces program, I may produce more evidence of that in a future show.

The land for the institute was donated by railroad magnate, E. H. Harriman, a firm supporter of eugenics. This was eugenics, American elite style, and it was said naturally, if the ideal was tall, blond, blue-eyed Nordic types, that meant dark-skinned Asians, Indians, blacks, Hispanics and others, including the sick and retarded, were deemed inferior to the eugenics goal of 'best of breed.'

Except that is the media myth as evidenced in the From Russia with Love series.

The aim of the index card project was to map the inferior bloodlines, and subject them to lifelong segregation and sterilization to ‘kill their bloodlines.’ The sponsors were out to eliminate those they deemed ‘unfit.’ As early as 1911, Carnegie was funding an American Breeder’s Association study on the ‘Best Practical Means for Cutting off the Defective Germ-Plasm in the Human Population.’

One of the largest and most significant financial contributors for various eugenics projects soon became the Rockefeller Foundation. It poured hundreds of thousands of dollars into various eugenics and population projects, from the American Eugenics Society to Cold Spring Harbor, to the American Breeder’s Association.

One of the more prominent members of the American Eugenics Society in the early 1920’s was Dr. Paul Bowman Popenoe, a US Army venereal disease specialist from World War I, who wrote a textbook entitled, ‘Applied Eugenics.’ In sum, Popenoe said, ‘The first method which presents itself is execution ... Its value in keeping up the standard of the race should not be underestimated.’ He went on to eloquently advocate the ‘destruction of the individual by some adverse feature of the environment, such as excessive cold, or bacteria or by bodily deficiency.’ In his book, Popenoe spoke of estimated five million Americans who would, at one point or another, end up in mental hospitals, and of ‘five million more who are so deficient intellectually with less than 70% average intelligence, as to be in many cases, liabilities rather than assets to the race.’ The book was aimed at a select, elite readership. Where did that figure come from, was that a preconceived idea of these psychopaths? It was an example of what the eugenics movement termed ‘negative eugenics’—the systematic elimination of ‘inferior’ beings, whether mentally inferior, physically handicapped or racially non-white.

Popenoe’s radical approach was a bit too controversial for some, but by 1927, in *Buck vs. Bell*, the US Supreme Court, in a decision by Justice Oliver Wendell Holmes, ruled that the forced sterilization program of the State of Virginia was Constitutional. In his written decision, Holmes wrote, ‘It is better for all the world, if instead of waiting to execute degenerate offspring for crime, or to let them starve for their imbecility, society can prevent those who are manifestly unfit from continuing their kind . . . Three generations of imbeciles are enough.’ Holmes, one of the most influential Supreme Court justices, was also one of its most outspoken racists. Whilst this is almost always deemed to be against people of color or non whites, in the 1920 Census, the American white population comprised of 90%, with 95M out of a population of 106M. Are we led to believe this depopulation program was only for the other 11M? or were they actually determined to eliminate large portions of the whites? If this eugenics program was only about the colored races, why did they allow immigration of so many of them to America? But then they had land grab ideologies back then, corral people onto foreign lands, let them takeover the native peoples and land, then they acquire it all for their empires of deceit,

just like the illegal Jewish settlements is it not? why? because it is the same people running the same program for thousands of years. In 1922, the ageing Holmes wrote to British economist and Labour Party leading figure, Harold J. Laski, 'As I have said, no doubt often, it seems to me that all society rests on the death of men. If you don't kill 'em one way you kill 'em another—or prevent their being born. Is not the present time an illustration of Malthus?' The statement could have served as the guiding slogan of the Rockefeller Foundation eugenics efforts.

This 1927 Supreme Court decision opened the floodgates for thousands of American citizens to be coercively sterilized, or otherwise persecuted as subhuman. That led to the deliberate act known as the Great Depression, which didn't kill enough, and so World War 2 was created, by these same psychopaths. One Illinois mental hospital in Lincoln fed new patients milk from known tubercular cows, in the conviction that a genetically strong human specimen would be immune. The State of California was the eugenics model state. Under its sweeping eugenics law, passed in 1909, all feebleminded or other mental patients were sterilized before discharge, and any criminal found guilty of any crime three times could be sterilized at the discretion of a consulting physician. California sterilized some 9,782 individuals, mostly women classified as 'bad girls,' many of whom had been forced into prostitution.

Is it a coincidence that New York and California were at the forefront of heinous practices then as now?

Years later, the Nazis at the Nuremberg trials quoted Holmes' words in their own defense, in the postwar world, not surprisingly, it was to no avail. The Rockefeller propaganda machine buried the reference; the victors defined the terms of peace and the truth of war.

WAR PIGS

'Calling a spade a spade...'

The Rockefeller enthusiasm for eugenics during the 1920's did not stop at America's own shores. Rockefeller Foundation money played an instrumental role in financing German eugenics during the 1920's. From 1922 to 1926, the Rockefeller Foundation donated through its Paris office a staggering \$410,000 to a total of hundreds of German eugenics researchers. In 1926, it awarded an impressive \$250,000 for the creation of the Berlin Kaiser Wilhelm Institute for Psychiatry. As proven in our series most of those scientists in those Institutes and Research centers, were mainly Jewish, who then went on to the MK Ultra and Manhattan Projects. That was the equivalent of some \$26 million in 2004 dollars, a sum especially unheard of in a Germany devastated by Weimar

hyperinflation and economic depression. During the 1920's, Rockefeller Foundation money dominated and steered German eugenics research.

If this was all about eliminating the colored races, why is all the funding and programs being run in predominantly white countries?

As American researcher Edwin Black and others later documented, the leading psychiatrist at the Kaiser Wilhelm Institute at that time was Ernst Rüdin, a man who went on to a stellar career as the architect of Adolf Hitler's systematic program of medical eugenics. The Rockefeller-financed Rüdin was named President of the world Eugenics Federation in 1932, they love their titles don't they, of course nowadays they all go by the term psychotic jackasses. Their platform was openly advocating the killing or sterilization of people whose heredity made them a 'public burden.'

The Rockefeller Foundation largesse for German research was apparently unbounded in those days. In 1929, the year of the great Wall Street crash and extreme German economic crisis, of which they and in particular the Rothschild's family created, Rockefeller gave a grant of \$310,000 to the Kaiser Wilhelm Institute for Brain Research, one of several subsequent Rockefeller grants.

The multi-talented Rüdin was also head of brain research at that institute, where was employed Hermann J. Muller, an American eugenicist also funded with Rockefeller money. Later it was revealed that the institute received 'brains in batches of 150-200' from victims of the Nazi euthanasia program in Brandenburg. The brain research was directed towards the Nazi experiments on Jews, gypsies, the mentally handicapped and other 'defectives.' Largely neglecting the fact that most experiments were done on Rus and Aryan peoples. In 1931, the Rockefeller Foundation approved a further ten-year grant of a sizeable \$89,000 to Rüdin's Institute for Psychiatry to research links between blood, neurology and mental illness, Rockefeller money was funding eugenics in its purest form.

Rüdin also led the Nazi program of forced eugenic sterilization, and was a prime architect of the 1933 Nazi Sterilization Law. Rudin and his staff, as part of the Task Force of Heredity Experts, chaired by SS chief Heinrich Himmler, drew up the sterilization law. Described as an 'American Model' law, it was adopted in July 1933 and proudly printed in the September 1933 Eugenic News (USA), with Hitler's signature, the fact that Hitler was from the bloodline family the Rothschild's should be taken into account when his alleged hatred of Jews narrative is rolled out, his mother was Jewish. I guess the only conclusion you can draw from that is, not all Jews are the same, and that is 100% correct and proves our From Russia with Love series analysis. Rüdin called for sterilizing all

members of an unfit individual's extended family. Rüdin was twice honoured by Adolf Hitler for his contribution to German eugenics and racial cleansing. Under his Sterilization Law, some 400,000 Germans were diagnosed as manic-depressive or schizophrenic and forcibly sterilized, and thousands of handicapped children were simply killed. Declaring racial hygiene a 'spiritual movement,' Rüdin and his associates found a willing collaborator in Adolf Hitler. 'Only through [the Führer] did our dream of over thirty years, that of applying racial hygiene to society, become a reality,' Rudin said. That is a bit of history revision as they had been doing it long before Hitler was even born, and eugenics was ongoing as far back as the late 1700's.

Hitler personally was a great enthusiast of American eugenics, praising US eugenics efforts in 1924 in his *Mein Kampf*. He wrote, 'There is today one state in which at least weak beginnings toward a better conception of immigration are noticeable, of course, it is not our model German Republic, but the United States.' A few years later, Hitler wrote the American eugenicist Madison Grant to personally praise his 1916 book, *The Passing of the Great Race*. In it Grant had written among other things that America had been 'infested by a large and increasing number of the weak, the broken and the mentally crippled of all races...' Grant advocated as a eugenic remedy 'a rigid system of selection through the elimination of those who are weak or unfit—in other words, social failures (sic).' Hitler clearly recognized a kindred soul in Grant, a co-founder of the American Eugenics Society.

By 1940, thousands of Germans from old age homes and mental institutions had been systematically gassed, as had been advocated twenty years earlier in the United States by Popenoe, if with limited success. In 1940, just back from a tour of the German eugenics institutes, Leon Whitney, Executive Secretary of the Rockefeller-funded American Eugenics Society, declared of the Nazi experiments, 'While we were pussy-footing around...the Germans were calling a spade a spade.'

In May 1932, the Rockefeller Foundation had sent a telegram to its Paris office, which quietly funnelled the US Rockefeller funds into Germany. The telegram read: 'JUNE MEETING EXECUTIVE COMMITTEE: NINE THOUSAND DOLLARS OVER THREE YEAR PERIOD TO KWG INSTITUTE ANTHROPOLOGY FOR RESEARCH ON TWINS AND EFFECTS ON LATER GENERATIONS OF SUBSTANCES TOXIC FOR GERM PLASM.' That was one year before Hitler became Chancellor, the 'KWG' was the Kaiser Wilhelm Institute for Anthropology, Human Heredity and Eugenics in Berlin. The germ-plasm research was to continue well into the Third Reich, financed with Rockefeller Foundation money until at least 1939.

Once again has to ask the question, if all these experiments were about the Jewish peoples only, why did the Rothschild's banks not block the transfer of these funds? Why

did the Rothschild's and Begin block the transfer of the European Jews out of the camps into Palestine? Bearing in mind Rothschild's and Begin are both Jewish, and all or most other German bankers of that time, like the Warburg's, and those connected to J.P Morgan and no one stopped it? does that make any sense whatsoever? The questions remain why with so many Jewish peoples financing it, involved in the research and carrying out heinous experiments, if only the Jews were the target? Or was it the case that far less Jews were involved and more of the predominantly white race peoples of those countries disposed of?

The head of the German eugenics institute in Berlin was Otmar Freiherr von Verschuer. Verschuer wrote in the report that the war conditions had made it difficult for the KWIfA to procure "twin materials" for study, and that Mengele's unique position at Auschwitz offered a special opportunity in this respect. Again that makes no sense we were told they were rounding up tens of thousands, so how is the so called supply for study difficult to obtain? In the summer of 1944, Mengele and his Jewish assistant Dr. Miklós Nyiszli sent other "scientific materials" to the KWIfA, including the bodies of murdered Gypsies, internal organs of dead children, skeletons of two murdered Jews, and blood samples of twins infected by Mengele with typhus. Yes Dr. Mengele and later Dr. Green program ran in Canada with Ewan Cameron, who had a Jewish assistant who did the experiments, again calling into question of all in the camps being just one race. His research on twins had long been a dream of American eugenics advocates in order to advance their theories of heredity, they also wanted twins to test out the downed ET crafts as well, after they found out the craft was in some way bio-metallic, the craft was connected and one with the operators of the craft in some way. So because they had two seats they used twins to try to start the craft, many of them died. In 1942, in the German Nazi eugenics journal *Der Erbarzt* which he edited, von Verschuer advocated a 'total solution to the Jewish problem.' In 1936, still receiving Rockefeller funds, Verschuer was called to Frankfurt to head a newly established Institute of Genetics and Racial Hygiene at the University of Frankfurt. The largest of its kind, the Frankfurt institute was responsible for the compulsory medical curriculum on eugenics and racial hygiene.

Von Verschuer's long-time assistant was Dr. Josef Mengele, who headed human experiments at the Auschwitz concentration camp after May 1943. Von Verschuer was delighted when Mengele, who won the name, 'The Angel of Death' for his deadly experiments on human prisoners, was put to work in Auschwitz. The angel of death title oh my, I am sure everyone was desperately wanting to win that particular title - not, almost as ridiculous as the title Pindar, which means head penis, fitting if you ask me as that title means they are the head dickhead of the dickheads. Pindar is also known as the Lizard King, which is indicative and disturbing in equal measure. Now their 'scientific' research could continue uninhibited. He wrote at the time to the German Research Society that, 'My assistant, Dr. Josef Mengele (M.D., Ph.D.) joined me in this branch of

research. He is presently employed as Hauptsturmführer (captain) and camp physician in the Auschwitz concentration camp. Anthropological testing of the most diverse racial groups in this concentration camp is being carried out with permission of the SS Reichsführer (Himmler).'

Ah Mr. Himmler who I believe was the real leader behind the SS and the awful experiments and mass killings carried out. And no I am not saying Adolf Hitler was innocent in anyway shape or form, but I do believe he has been blamed for an awful lot of crimes, that were committed by the Black Eagle group known as SS, when Hitler himself was in the lesser group known as the Brown Eagle. It has also been highly rumored that Hitler had either a Jewish mother and certainly a Jewish grandfather, which also makes less sense of the alleged stance of his, passed down to us as history.

Never one to place principle before pragmatism, the Rockefeller Foundation ceased its funding of most Nazi eugenics, but not until the Nazis invaded Poland in 1939, actually it is rumored the French and British invaded Poland first, not the Nazis. By that time, what had been established with their money over a period of more than 15 years was consolidated. Alan Gregg, the Foundation's Director of the Medical Division, was the man who was most intimately involved in the Nazi funding of eugenics at every step of the way. His division was responsible for funding the various Kaiser Wilhelm Institutes.

Another pivotal figure was Raymond B. Fosdick, who became President of the Rockefeller Foundation in 1936, and was by informed accounts, the leading figure in the American Eugenics Society. After graduation, Fosdick started his career working as a public investigator for the city of New York before being appointed Commissioner of Accounts. Fosdick first met John D. Rockefeller Jr. while investigating the issue of "white slavery" and prostitution, as the latter was the chairman of the special Grand Jury in Manhattan which was looking into the matter. Oh my that is rarely covered in his story, Fosdick was investigating white slavery. You have to remember the origin of the word slave is Slav, as in the Slavic people, that predates this time period by at least 600 years, Slavs were of the Great White Race of the past, along with the Rus and the Aryans. Fosdick had earlier been general counsel to Sanger's American Birth Control League, and was the person who in 1924 first convinced John D. Rockefeller Jr. of the importance of birth control and eugenics. He was the brother of prominent eugenics advocate, Harry Emerson Fosdick, the Rockefellers' pastor for whom Rockefeller built the Riverside Church in the mid-1920's. Raymond Fosdick had worked for the Rockefeller family since 1913. He had been sent to the Paris Peace Conference in 1919 as part of Col. Edward Mandell House's group, 'The Inquiry,' the secret team which ran the American negotiators at Versailles. After Versailles Fosdick went on to become John D. Rockefeller's personal attorney and ran the Rockefeller Foundation for over three decades. In 1924, Fosdick had written a personal letter to John D. Rockefeller Jr., urging

foundation funding for Margaret Sanger's eugenics work in birth control, stating, 'I believe that the problem of population constitutes one of the great perils of the future, and if something is not done along the lines these people are suggesting, we shall hand down to our children a world in which the scramble for food and the means of subsistence will be far more bitter than anything at present.'

Leaving Mengele holding the proverbial bag, Verschuer fled Berlin before the end of the war, and avoided a Nuremberg trial. By 1946, he was writing to his old friend, the US Army eugenicist, Paul Popenoe, in California, who had mailed cocoa and coffee to Verschuer back in postwar Germany. Old Nazi friends managed to whitewash Verschuer's Auschwitz past, for which all records had been conveniently destroyed. Funny how the system manages to bury or destroy files, either by fire or incompetence is it not, and no it is not a coincidence either.

In 1949, the Auschwitz doctor Otmar Freiherr von Verschuer was named Corresponding Member of the American Society of Human Genetics, a new organization founded in 1948 by leading eugenicists hiding under the banner of the less-disgraced name, genetics. The first president of the American Society of Human Genetics was Hermann Josef Muller, Mr. Muller born in New York and born to Jewish parents, a Rockefeller University Fellow who had worked at the Kaiser Wilhelm Institute for Brain Research in 1932.

Von Verschuer got his membership in the American Society of Human Genetics from another German, an old eugenics colleague, Dr. Franz J. Kallmann, Dr. Kallman born to Jewish parents and moved to New York, who had worked with Ernst Rüdin on 'genetic psychiatry.' Whether Ernst Rudin was Jewish as well is not clear from my research. Part of von Verschuer's re-packaged identity, was a position he got after the war with the newly-created Bureau of Human Heredity in Copenhagen. The Rockefeller Foundation provided the money to found the new Danish office, where the same eugenics activities could be more quietly advanced. The Bureau of Human Heredity, received a letter from von Verschuer mentioning that he had the results of Auschwitz 'research' moved to Copenhagen in 1947, to the care of Danish Institute Director, Tage Kemp, also a member of the American Eugenics Society. Kemp had worked on eugenics with the Rockefeller Foundation since they financed his 1932 research stay at Cold Springs Harbor Eugenics Record Office. Kemp's Institute hosted the first International Congress in Human Genetics after the war in 1956.

JDR III's Population Council and the 'Crypto-eugenics'

Eugenics was the foundation of John D. Rockefeller III's obsession with overpopulation. Given his enormous influence and the huge financial muscle of the Rockefeller Foundation to fund scientific research, it was an obsession which would have untold consequences for generations after his death.

John D. III was nurtured on the grim pseudo-science of Malthus and fears of population growth. When he was a senior at Princeton University in 1928, his father, John D. Rockefeller Jr. named his son to the board of the family's Bureau of Social Hygiene, a birth control organization. JDR III's Princeton mentor, economics professor, Frank Fetter, was a member of the American Eugenics Society. Fetter taught that 'democracy was increasing the mediocre and reducing the excellent strains of stock...'

In 1931, JDR III joined the board of the Rockefeller Foundation itself. There, eugenicists like Raymond Fosdick and Frederick Osborn, founding members of the American Eugenics Society, fostered JDR III's interest in population control. Osborn was president of the American Eugenics Society in 1946, and was also president of the racist Pioneer Fund. With John D Rockefeller III he would co-found the Rockefeller Population Council. During the Third Reich, Osborn had expressed his early support for German sterilization efforts. In 1937 Frederick Osborn personally praised the Nazi eugenic program as the 'most important experiment which has ever been tried.' These people are just utter psychopaths, with an over elaboration of their own self importance, and some of these were clearly German Nazis, which is a German with a National Zionist tendencies, and that is where most historians missed the key component of this problem. Whilst labeling it a white and German issue, it negates the fact that several Jewish participants were involved in the key positions and aspects of this program.

In 1938 he lamented the fact that the public opposed 'the excellent sterilization program in Germany because of its Nazi origin.' By 1934, a year after Hitler came to power in Germany, JDR III wrote his father that he wanted to devote his energies to the population problem.

In 1952, JDR III was ready to make his life's major work, with \$1,400,000 of his own funds in addition to Rockefeller Foundation money, he founded the Population Council in New York, to promote studies on the dangers of 'over-population' and related issues. Many of the leading American eugenicists had become pessimistic, that their decades of efforts of forced sterilization of mental and other deficient people, were making a difference in the quality of the leading genetic stock. With population control, Rockefeller and others in the establishment believed they had finally found the answer to mass, efficient and effective negative eugenics.

John Foster Dulles, then chairman of the Rockefeller Foundation and later Dwight Eisenhower's Secretary of State, played a key role in establishing John D. III's new Population Council along with Frederick Osborn, first director of the Council. Osborn remained a central figure at the Population Council until the late 1960's, John Foster Dulles is the brother of Allan Dulles who was the Director of the CIA, who were also heavily involved in this program then, and still to this day. Funny how the same names crop up in each decade of the story, as they are all connected in a massive web of deceit, lies, subversion and harvesting of the public. With their own genetic inbreeding programs of pardon the pun of, keeping it in House, House being the operative word.

The founding meeting of the Population Council, held in the Rockefeller family's Williamsburg Virginia village, was attended as well by Detlev W. Bronk, then president of both the Rockefeller Institute and the National Academy of Sciences. Bronk was also the President of the modern day eugenics statistics division, called the John Hopkins Center, and it was his family name that named the area in New York, known as the Bronx. John D. Rockefeller III arranged for the conference to be sponsored under the auspices of the National Academy of Sciences to give it a quasi-scientific aura. The head of the Academy, Dr. Detlev Bronk and born in New York, was sympathetic to the agenda of population control. Which was being promoted as the same unvarnished eugenics racial ideology, veiled under the guise of world hunger and population problems.

In addition, a representative from the Carnegie Institution, Warren S. Thompson, director of the Scripps Foundation for Research in Population Problems, and Thomas Parran, US Surgeon General during the infamous Tuskegee syphilis study, were there as well. Pascal K. Whelpton from the Population Division at the United Nations came, and so did two men who ran the UN Population Division in later years, Frank Notestein and Kingsley Davis, both as well, members of the American Eugenics Society.

Over the following 25 years, the Rockefeller Population Council would spend a staggering \$173 million on population reduction globally, establishing itself as by far the most influential organization to promote the eugenics agenda in the world. Among the Council's favourite projects were funding research for Norplant, a contraceptive steroid implanted under the skin to provide contraception for several years, the IUD contraceptive device, and the French abortion pill, RU-486. Sheldon J. Segal, led the work.

In 1952, when he decided to create the Population Council, Rockefeller scrupulously avoided using the term 'eugenics.' Population control and family planning were to be the new terms of reference for what was the same policy after 1952, deploying vastly enlarged international resources. The old talk of racial purity and elimination of inferiors was altered, the eugenics leopard, however, did not change its spots after the war, but it

did become far more deadly under John D.'s Population Council. At the time of the founding of Rockefeller's Population Council, the American Eugenics Society made a little-publicized move of its headquarters from Yale University, no surprise, directly into the offices of the Population Council in the Rockefeller Center in New York City, even less of a surprise, as covered in several shows, New York has been used as the epicenter for all the evil programs being ran on the people.

Rockefeller shrewdly repackaged his discredited eugenics race and class ideology as 'population control.' Instead of focusing on domestic issues such as American poor immigrants or the mentally challenged, he turned his sights on the entire developing world, a vast sea of humanity which stood between the Rockefeller family, and the realization of their ambitious postwar designs for a new American Century.

The strategists around the Rockefeller eugenics organizations explicitly set out to pursue the same agenda as essentially Von Verschuer and the Nazi eugenics crowd had, but under the deliberate strategy of what they termed 'crypto-genetics.' The key American proponent of hiding the eugenics nature of their work under the name 'genetics' and 'population control' was Rockefeller's head of the Population Council, Frederick Osborn. Osborn pointed to studies indicating that, with the proper approach, 'less intelligent' women can be convinced to reduce their births voluntarily. 'A reduction of births at this level would be an important contribution to reducing the frequency of genes which make for mental defect.' He asserted that birth control for the poor would help improve the population biologically, and for families which experience chronic unemployment, neglecting the fact that these think tank clowns often dictate who works and who doesn't. Osborn said 'Such couples should not be denied the opportunity to use new methods of contraception that are available to better-off families. A reduction in the number of their unwanted children would further both the social and biological improvement of the population.' Referring to racial minorities, he explicitly called for 'making available the new forms of contraception to the great number of people at the lower economic and educational levels.'

'The most urgent eugenic policy at this time,' Osborn insisted, was 'to see that birth control is made equally available to all individuals in every class of society, because there is new evidence that the more successful or high IQ individuals within each group, may soon be having more children than the less intelligent individuals within the group . . . these trends are favorable to genetic improvement.' He stressed that the reason for making birth control 'equally available' should be disguised: 'Measures for improving the hereditary base of intelligence and character are most likely to be attained under a name other than eugenics . . . Eugenic goals are most likely to be attained under a name other than eugenics.' A bit like the modern day issue of setting up think tanks in Yale and other ill repute groups involved in the Covid 19 scam, of how we convince the public to

take vaccines, they disguise it under some guilt and shame plan, or some seduction based program.

During McCarthy's Red Scare campaigns in the 1950's United States, countless innocent intellectuals had their careers ruined by being publicly accused of being 'crypto-communists,' a term denoting one who deeply hides his communist beliefs while working to subvert the American system. McCarthy's assertions were largely correct if he understood that Communism was not a Russian issue, but a Zionist based one. From crypto graphy to crypto genetics to crypto Communists to crypto currencies are you seeing the connections now? The question is what are they hiding behind the crypto currency, of course our listeners will know, for those new, listen to our Clowns in Panic show. LIVING ON THE EDGE

In the late 1950's, Dr. Carlos P. Blacker, a past Chairman of the English Eugenics Society, proposed that, 'The Society should pursue eugenic ends by less obvious means, that is, by a policy of crypto-eugenics, which was apparently proving successful in the US Eugenics Society.' Blacker was close friends with the Population Council's Frederick Osborn, he was the secretary of the Eugenics Society, when the chairman was none other the Leonard Darwin, son of Charles Darwin, again all kept in House.

In 1960, the English Eugenics Society agreed to Blacker's proposal, and adopted a resolution stating, 'The Society's activities in crypto-eugenics should be pursued vigorously, and specifically that the Society should increase its monetary support of the Family Planning Association (the English branch of Sanger's Planned Parenthood) and the International Planned Parenthood Federation, and should make contact with the Society for the Study of Human Biology...'

The architect of the American reshaping of the elitist eugenics agenda, into the new garment of population control was Rockefeller's friend and employee, Frederick Osborn, first President of John D. Rockefeller III's Population Council, and a founding member of the American Eugenics Society, who was its President until he took the post as head of the Population Council in 1952.

A significant problem after the Second World War was, that the very name eugenics had been thoroughly associated in the public mind with Nazi racist extermination programs, the definition of a Master Race and other human atrocities. Their mind control program worked well then, as the Master race were not to be German, Scandinavian or blue eyed blondes either, but the sub gray Zionists operating under the banner of being Jewish, their manifesto called the Talmud reveals all of that in full detail. As Osborn formulated the problem in a 1956 article in Eugenics Review, 'The very word eugenics is in disrepute in

some quarters...We must ask ourselves, what have we done wrong? We have all but killed the eugenic movement.'

Osborn had a ready answer: people for some reason refused to accept that they were 'second rate' compared to Osborn, Rockefeller, Sanger and their 'superior class.' That is because they are not, and who appointed these jackasses as the first rate peoples? Mired in greed, elitism, psychopathic, self serving and so far out of touch with reality, it is like they are from another world, or maybe they were? As Osborn put it, 'We have failed to take into account a trait which is almost universal and is very deep in human nature. People are simply not willing to accept the idea that the genetic base on which their character was formed, is inferior and should not be repeated in the next generation...They won't accept the idea that they are in general second rate...' no shit sherlock give that man a Blue Peter badge.

Osborn proposed a change in packaging, eugenics was to be mass-marketed under a new guise. Instead of talking about eliminating 'inferior' people through forced sterilization or birth control, the word would be 'free choice' of family size and quality. Haha free choice is equivalent of free will and free doms in America, it is bullshit whilst these psychopaths are around. As early as 1952 when he joined with John D Rockefeller III in the Population Council, Osborn saw the huge potential of contraception and mass education for eugenics, albeit masquerading as free choice. One of his first projects was contributing the funds of his Population Council to research in a new 'contraception pill.'

'Foreshadowing the future work of the Population Council and the Rockefeller Foundation in population control,' Osborn wrote, again in his Eugenics Review, 'there is certainly a possibility that... pressures can be given a better direction (for birth control) and can be brought to bear on a majority of the population instead of a minority.' And when such pressures are brought to bear, Osborn added, individuals will believe they are choosing on their own not to have children, 'if family planning has spread to all members of the population, and means of effective contraception are readily available.' He wrote that some 13 years before the widespread introduction of the oral birth-control pill.

Osborn went on to call for a system of what he termed, 'unconscious voluntary selection.' Ordinary people would be led down the path of eugenics and race culling, without even being aware where they were going or what they were doing. Just like now we are being led down a path of no cash, no jobs, no freedoms and into a technology based control world on steroids, where they dictate when and what you eat, sleep, sex, read, write or believe in. You will have a freedom of choice providing you accept the choices they give to you, a bit like politics, the illusion of choice and somehow this one is different, yeah right how has that worked for you? do you care or are you content to wait for someone else to fix things for you? Osborn argued that the way to convince people to exercise the

‘voluntary’ choice, would be to appeal to the idea of ‘wanted children.’ Yes that doesn’t work well either, voluntary choice is another illusion, the American people voluntary chose to be under martial law since April, was that really a choice or a forced solution? He said, ‘Let’s base our proposals on the desirability of having children born in homes, where they will get affectionate and responsible care.’ In this way, he argued, the eugenics movement ‘will move at last towards the high goal which Galton set for it,’ namely creation of the master race, and reduction of inferior races. Makes me laugh how these people promote god, and how we should all follow gods rules and laws, and yet these jackasses think they can decide who lives and dies like they are messengers of god. The question remains which god? because if it is the god in the bible, then these people fit in rather well with that god, who smiteth people, sends plagues, serpents, pestilence and famine the people’s way, don’t believe me? go and read the book with clear thinking again, it is all there in their own words.

Publicly, Osborn appeared to purge eugenics in the postwar era of earlier racism. In reality he applied the racism far more efficiently to hundreds of millions of darker-skinned citizens of the Third World. Osborn also secretly held the office of President of the infamous white-supremacist Pioneer Fund from 1947-1956. Among other projects the Pioneer Fund ‘supported highly controversial research by a dozen scientists who believe that blacks are genetically less intelligent than whites,’ according to a December 11, 1977 article in the New York Times. The Pioneer Fund was labeled white supremacists funny enough by the Southern Poverty Law center said to be favoring the black people, yet both were Jewish or Jewish Leaning, Joseph Levin Jr and Morris Seligman Dees. Among recipients of Pioneer Fund money was Stanford University Nobel laureate, William Shockley, who advocated forced sterilization of all persons with an IQ below 100. Heaven forbid that narrative comes out now as 75%+ of all Americans would be eliminated, the average American IQ from 2013 was just 98 and ranked 24th in the world, with 20 of the 50 states below that level, with Mississippi, Louisiana and California making up the bottom three. The highest was Massachusetts with 104.3 which still comes under the term normal or average, dullness which 90-100, the next category is 70-90 called borderline deficiency, followed by moron, imbecile and idiot. The fact is on average in every state and as a country America is below most Westernised countries and behind N.Korea, Singapore, Taiwan is ridiculous given the wealth in this country, but as we know, the same people who brought you eugenics, also brought in the dumbed down education system as well. He got more than \$1 million in research funds from Osborn’s Pioneer Fund.

When Osborn wrote those words advocating ‘unconscious voluntary selection,’ he was still Secretary of the American Eugenics Society and President of John D. Rockefeller III’s newly-founded Population Council. JDR III was chairman and Princeton eugenicist,

Frank Notestein, was board member, and later became President of Rockefeller's Council.

Yes, Hello Dolly...

Member of the Rockefeller Foundation board and close family friend, Frederick Osborn was an unfettered enthusiast of the Rockefeller Foundation's support for Nazi eugenics experiments. Scion of a wealthy American railroad family, graduated in 1910 from Princeton University, which would later be the school of John D. III, Osborn was a part of the wealthy American upper class. Under the banner of philanthropy, Osborn would pursue policies designed to preserve the hegemony and control of society by his wealthy associates.

In 1937, Osborn had praised the Nazi eugenics program as the 'most important experiment that has ever been tried.' One year later, Osborn bemoaned the fact that the general public seemed opposed to 'the excellent sterilization program in Germany because of its Nazi origin.' another example of their ouroboros programs, one swallows another, utter jackasses. Osborn and the Rockefeller Foundation knew well what their money was going toward in Third Reich Germany, even though they later piously disavowed this knowledge.

As late as 1946, after the war and the ghastly revelations of the human experiments in Auschwitz and other concentration camps, Osborn, then President of the American Eugenics Society, published, in his Eugenics News magazine, the so-called Geneticists' Manifesto entitled, 'Genetically Improving the World Population.'

In 1968, Osborn published his book, *The Future of Human Heredity: An Introduction to Eugenics in Modern Society*. He had lost his postwar inhibitions about calling his work what it was: eugenics. At that time his nominal boss and protégé in population eugenics, Population Council chairman, John D. Rockefeller III, was preparing himself to head a Presidential commission on the population problem.

In his book, Osborn cited studies showing that less intelligent women could be persuaded to reduce their births voluntarily: 'A reduction of births at this level would be an important contribution to reducing the frequency of genes which make for mental defect.' Osborn added, 'The most urgent eugenic policy at this time is to see that birth control is made equally available to all individuals in every class of society.' He also noted that, 'Eugenic goals are most likely to be attained under a name other than eugenics.' In short, they would be most likely attained by using crypto-eugenics tactics. In a speech to the

annual meeting of the American Eugenics Society in 1959, Osborn stated, 'With the close of World War II, genetics had made great advances and a real science of human genetics was coming into being...Eugenics is at last taking a practical and effective form.' Genetics was the new name for eugenics.

Forerunning the later human cloning debate and the widely publicized sheep clone, Dolly, Osborn doled out strong praise for Hermann J. Muller, Ernst Rüdin's colleague in Germany, who had received Rockefeller funds during the 1930's for eugenics research. Quoting Muller, Osborn wrote, 'It would in the end be far easier and more sensible to manufacture a complete new man de novo, out of appropriately chosen raw materials, than to try to refashion into human form those pitiful relics which remained.' Osborn also praised Muller's proposal to develop sperm banks to 'make available the sperm of highly qualified donors.' The idea for a gene revolution was being debated back then. This led to these same people being involved in cloning and ultimately onto the transhumanism ideology.

Rockefeller's Population Council gave grants to leading universities including Princeton's Office of Population headed by Rockefeller eugenicist, Frank Notestein, a long-time friend of Osborn, who in 1959 became President of the Rockefeller Population Council in order to promote a pseudo-science called demography. Its task was to project horrifying statistics of a world overrun with darker-skinned peoples, to prepare the ground for acceptance of international birth control programs, and yet all these programs were being run in white countries on white people based on the statistics, does that make sense? The Ford Foundation soon joined in funding the various Population Council studies, lending them an aura of academic respectability and above all, money. The Rockefeller Population Council grants were precisely targeted at creating a new cultural view about growing human population through their funding of demographic research such as that of Princeton's Notestein. According to John Sharpless who studied the history of population control using the Rockefeller Foundation archives, in the 1950's:

'the non-profit sector was where the debate over the population problem actually played itself out, ultimately defining how the policy issue would be viewed in the period which followed, the Population Council made sure that, research would take place in both the social as well as the biological sciences ... this effort was not simply an exercise in pure science but one which aimed specifically at policy. Not only the legitimating of the 'science' of demography but also the acceptance of demography as a policy science ... they were slowly encouraging an evolution in thinking among 'population specialists' to view intervention in demographic processes (particularly fertility) as not only appropriate but necessary.'

In 1952, the same year that John D. founded the Population Council with Osborn at its head, Margaret Sanger created, thanks to Rockefeller Foundation money, a global version of her American Planned Parenthood Federation called the International Planned Parenthood Federation (IPPF). Sanger had first met JDR III in 1947, she had convinced him then of the urgency of promoting mass birth control. She convinced him lol, his father funded her in 1923, there was no convincing, this was an ongoing program of the Rockefellers since at least 1905 with the Willhelm Institute.

Following the initial Rockefeller financing, her IPPF soon was backed by a corporate board which included DuPont, US Sugar, David Rockefeller's Chase Manhattan Bank, Newmont Mining Co., International Nickel, RCA, Gulf Oil and other prominent corporate members. The cream of America's corporate and banking elite were quietly lining up behind Rockefeller's vision of population control on a global scale.

Less than a decade after the revelations of eugenics and Auschwitz, population control was again becoming fashionable in certain American elite circles of the 1950's. It was a testimony to the power of the US establishment to mould public opinion and encourage fears of exploding populations of poor, hungry peasants around the world.

In 1960, Rockefeller friend and wealthy patron of population control, Hugh Moore, founded the World Population Emergency Campaign with the help of funds from DuPont, which would later become a major promoter of the gene revolution in agriculture. Gene revolution in agriculture? hmm is that GMO? why yes it is. They are one of the "Big 6" Biotech Corporations, along with BASF, Bayer, Dow Chemical Company, Syngenta, and Monsanto. Monsanto is the public arm to protect the names of the others behind it, of course when Monsanto went belly up, they were swallowed by Bayer, Bayer is Bauer is Rothschild. Eugene R. Black, former senior executive of David Rockefeller's Chase National Bank, ran, as president of the World Bank, a campaign which had as its main aim to create and reinforce First World fears of a population explosion in Third World countries.

The 1958 Castro revolution in Cuba provided additional impetus to instigating these fears among unwitting Americans. The argument promoted in the American mass media by circles around the Population Council was simple and effective: over-population in poor developing countries leads to hunger and more poverty, which is the fertile breeding ground for communist revolution. Which proves how long the mass media has been selling you fear porn and propaganda, or it's real term pro pagan da.

John D. III's brother, Laurance Rockefeller, established and ran the Conservation Foundation in 1958 to complement John D.'s Population Council. Both the Population Council and Conservation Foundation were united around the unspoken theme that

natural resources must be conserved, but conserved from use by smaller businesses or individuals, in order that select global corporations should be able to claim them, thus establishing a kind of strategic denial policy masquerading as conservation. That resulted in the 1976 non compete act where companies ran by these psychopaths all got preferential status and so the full on monopoly was birthed.

The population control lobby which would later shape Kissinger's NSSM 200 was consolidating around Rockefeller Foundation grants and individuals, preparing a global assault on 'inferior peoples,' under the name of choice, of family planning and of averting the danger of 'over-population' – a myth their think-tanks and publicity machines produced to convince ordinary citizens of the urgency of their goals.

ORDINARY WORLD

From eugenics to genetics

Former Nazi scientist and colleague of Ernst Rüdin, Dr. Franz J. Kallmann. Kallmann, was a German scientist who left Germany in 1936 when it was discovered that he was part Jewish. After the war, he helped rehabilitate German eugenicist Otmar Freiherr von Verschuer and win him respectability and acceptance in the American scientific community. Kallmann's enthusiasm for Nazi eugenics was in no way dampened by his own experience of Nazi persecution of the Jews. That is eerily similar to Stanley Milgram and the shock therapy MK Ultra program, were he said he was inspired after attending the trial of Adolf Eichmann, what is wrong with these people? In addition to teaching at Columbia University, Kallmann was a psychiatric geneticist at the New York State Psychiatric Institute, and in 1948, he was founding President of a new eugenics front organization, the American Society of Human Genetics. At the New York Psychiatric Institute, Kallmann continued the same research in genetic psychiatry he had done with Rüdin in Nazi Germany.

Kallmann was a thorough-going advocate of practicing elimination or forced sterilization on schizophrenics. In 1938, when in the United States, he wrote in an article translated by Frederick Osborn's Eugenics News, that schizophrenics were a 'source of maladjusted crooks, asocial eccentrics and the lowest type of criminal offenders.' He demanded the forced sterilization of even healthy offspring of schizophrenic parents to kill the genetic line.

The choice of the term Human Genetics reflected the attempt to disguise the eugenic agenda of the new organization. Except schizophrenics are not mental at all, and have experienced either host possession of the body or undergone MK Ultra mind control and splitting experiments undertaken by these same psychopaths, intent on destroying

humanity. Most of its founding members were simultaneously members of Frederick Osborn's American Eugenics Society. By 1954, his old friend von Verschuer was also a member of this one big happy eugenics family. Kallmann's American Society of Human Genetics soon got control of the field of medical eugenics, recognized by the American Medical Association as a legitimate medical field. When you consider within a year of being set up in 1887 this organization was pushing for vaccines to be publically administered, I guess his story repeats unless we stop it. Kallmann's American Society of Human Genetics later became a sponsor of the Human Genome Project. The multibillion dollar project was, appropriately enough, housed at the same Cold Spring Harbor center that Rockefeller, Harriman and Carnegie had used for their notorious Eugenics Research Office in the 1920's. Genetics, as defined by the Rockefeller Foundation, would constitute the new face of eugenics.

While brother John D. III was mapping plans for global depopulation, brothers Nelson and David were busy with the business side of securing the American Century for the decades following the crisis of the 1960's and 1970's. American agribusiness was to play a decisive role in this project, and the development of genetic biotechnology would bring the different efforts of the family, into a coherent plan for global food control in ways simply unimaginable to most.

There you have it a comprehensive time flow of the hideous think tank programs pushed on the people by these psychopaths. But we have all survived it and continue to grow and glow, whilst fighting back the system and their psychopaths on an unprecedented scale. Kudos to us all. GLOW

A fairly extensive review that covers many of the names and groups we have highlighted within the From Russia with Love series. This is not a small project by any means and has involved all govt and private agencies, and the government itself, and throw in the likes of the UN as well, which is not a great surprise to most, but the mentions and involvements of other organization will surprise many. The fact that so many colleges, Institutes, research centers, non profit Foundations, hospitals, mental facilities, child facilities, secret societies were involved in it as well will alarm many people. The fact that the elite families ran it will not be lost on our members, as their ability to think in a normal rational way without harvesting, reducing, torturing or killing people seems beyond many of them. But those same elite bloodline members also run the gauntlet of torture, fear and coercion as well, as we covered in the Illuminati 1 & 2 series, but their inability to speak up and out makes them complicit in much of these crimes. Like the Rothschild family recent asking for help from their own family members, but where were they when they were dishing it out on the world? The Carnegie's not only took part in the eugenics, but were also responsible along with the Ford Foundation for dumbing down Americans since the 1920's. It is the classic ouroborus programs these elite families like

to run, with eugenics they state they wish to elevate the IQ and intelligence based breed, whilst dumbing down the whole countries education program. Either they are incapable of future thinking or just wanted all below 100, so they can use their eugenics on more people. Except other evidences of these elite families suggest they just have a propensity for killing people full stop, based on some ridiculous notion that somehow they are better than us, newsflash you are not, oh and by the way good luck with your karma the next many lifetimes. Eugenics is a fancy word for killing people, just like Patriot is a fancy word for Fascism, these people have flaunted all of these programs in our face, and the modern day version is called Planned Parenthood. But how can you plan for Parenthood when 85% of that businesses practice is for killing babies? What part of Parenthood is that? Recently we have had the Black Lives Matter program, of course black lives do matter and yet 401 black babies for every 1000 live births, are aborted by black people. In 2018 every day in America 2400 babies were aborted, every single day 2400, 19% were Hispanic despite them having a higher population number than the black people in America, 35% white and 38% black abortions. I guess black lives really don't matter when those figures are revealed, and we can delude ourselves or face reality, this masquerade has gone on long enough and all must face reality to what is essentially going on in our faces. This show is not stating black people were not killed or enslaved they were absolutely, but who by is another matter altogether and no it was not by and large, whites. The fact is there was white slavery for thousands of years not a few hundred years to the African peoples, but they were being traded and genocided by their own people with the East African Slave trade to Egypt mainly. The issue that eugenics was only done on the dark skinned peoples, is proven pure folly as only one group of people has depopulated in the past 100 years, the whites, who are now down to 9% of global demographics and number 750M only now. The point is all lives matter and stating only one color is being killed or placing the blame of one color of people is both wrong, misleading and hampering us all in understanding this problem. The great question facing us all now is, is the current vaccine charge against the public another of their eugenics programs, with so many people giving their DNA by various methods, perhaps those that have should be more careful of their own property? like Covid tests and DNA nudge gadgets. They lowered the vast majority of peoples IQ for a reason, so we wouldn't work out what they are up to, perhaps the best eugenics program would be to eliminate the psychopaths in all the bloodline families? These psychotic bloodline groups are engineering a world where they are the new gods, well fuck that as we didn't particularly like the same psychotic behaviors of the old ones, never mind the new ones. But, perhaps with genetics, cloning and avatars these people are one and same? times, timelines, names and titles may change, but the song, the entities and the program remains the same. Understanding and grasping that is important, as then we can get on with cleaning this planet and it's people up once and for all. We can only do that by fixing ourselves, highlighting the psychopaths and their programs and coming together for a common cause. That cause is the elevation of humanity into being better people, that care

and share, love each other not hate or divide, live life based on need not greed, end the fear and limitation programs we all run on ourselves, and also end the ridiculous program we all use of, lying to ourselves. The world is a mess because there is not enough genuinely nice and caring people, and we must strive to change that, that is the real change on this planet, and that means it is we, yes we, who are the saviors not some biblical characters of ill repute past or present, WE, YOU, I and US together. INSIDE OF YOU
