

## THI-SHOW TRANSCRIPT 2020-11-02

FOR WHAT IT'S WORTH This is an important letter and has been verified and is of such importance to us all, that I felt compelled to do a short show outlining it. This is a major shift that I have been asking for, from the front line of the old control system for many a year now. The police are but mere puppets in the old system, used as a physical barricade to the public, to the next layer of puppets known as politicians. Neither carry any authority or power, and rendered as such as the fall guys in any given situation. The People will blame Trump, Boris Johnson and many other leaders, but none of your so called leaders have any authority to do anything, all are ran by intelligence agencies and think tank groups, who really don't have all of humanities interest at heart. Understanding this fact, changes the way we go forward in the future. Some will say why should we trust the police now? and it is a valid question, given the criminality, brutality and complete disregard for the people in far too many cases. But not all people or groups are the same, and despite my own poor treatment in the past administered by the police, I do recognize they are in a poor position and a poor job in terms of finances and safety. In Expose 2 of this series a portion of it was read out by the Ghanaian President, one hopes he and many other heads of state that have listened to our shows from time to time, read this out to the public en masse as well. Understanding the importance of what is playing out here and now, and acting upon it is crucial. This was a deliberate plot to enslave humanity even further by a group of billionaire psychopaths who have the lost the game in the bigger scheme of things, and just being petulant. The gist is to enslave us further by removing all forms of employment, and so all jobs will be at the behest of billionaire conglomerate companies, and the state. They will seduce people with the Universal basic income program for those who don't comply with their initial wishes, employment means forced vaccinations, replete with microchips. Which can essentially be observed as kill switches for those not complying. Then the rest of the unemployed will be dealt with by more stringent methods, all like an episode of the series Continuum, it is fascism on steroids. What we have undergone and undergoing here on this planet since the turn of the year is, a coup d'etat, normally associated with hostile government takeovers, but this one is on all the people and all the countries on and in this planet. This is and has been a hostile takeover of the planet, and all of it's inhabitants outside of the select few spoken about in so called conspiracy circles, is now evidenced for all to see. We all need to stand up and fight back, our enemies where not people from different countries, color, race, religions or genders. Our enemy is a common one, 1% or 99%, psychopath or not, truth or lies, common sense or nonsense, no one is coming to save you from it, that is solely down to us all. RISE UP

A LETTER written by a senior constable from the Coffs/Clarence Highway Patrol in NSW and signed by colleagues, has exposed the COVID-19 narrative for its deception and the harm it is causing to police and their relations with the public. The letter, dated

October 26, is addressed to NSW Commissioner of Police Michael Fuller and is one of the best rebuttals of the COVID narrative of fear and control written anywhere, noting false predictions of its severity, false and misleading statistics, flaws in testing and serious questions around the virus itself. The letter makes the very strong point that in the same way they cannot use an inaccurate speed detection device on motorists, the same must be demanded of the RT PCR test and as such, “police should not in any way” mandate testing for COVID-19, or rely on the results. For police to raise this within their own ranks may be portrayed as controversial but the action is consistent with common law enforcement, e.g. investigating, exposing and prosecuting a crime of deception carried out against the public. The letter signatories are urging fellow police officers across the country, to write a similar letter to their respective police commissioners, or to sign their form at this link. <https://advocateme.wixsite.com/copsforcovidtruth>

The letter reads: RE: Open Letter Concerning the Police Enforcement of ongoing COVID-19 restrictions

We are writing to you to raise concerns we have about the use of the police, to enforce the ongoing restrictions placed upon our citizens relating to COVID-19, which has seriously eroded community trust in our great police force. Since the Attorney General Declared a State of Emergency for the novel corona virus, our governments have acted upon certain powers to impose restrictions on its citizens, using the police to enforce their rules. Due to the novel nature of the SARS-CoV-2 virus, most people concurred that certain restrictions should be followed, until more was learnt about the virus. With the initial modelling from the Imperial College in the UK [1] and the Peter Doherty Institute here in Australia, indicating a catastrophic number of cases that would severely burden our hospital system and could result in up to 150,000 Australian deaths [2], it is easy to comprehend why our governments would respond as they did and why the vast population would comply. With these frightening projections it became evident that we needed to find a way to quickly diagnose the disease. Yet the Centre for Disease Control in the US states that “no quantified virus isolates of the 2019-nCoV are currently available”. [3] So even without the virus being isolated, the RT PCR test was picked to become the gold standard for testing. We note that the modelling was later found to have serious calculation errors, such that experts who later reviewed it have said “no serious scientist gives (it) any validity”. [4, 5] And now the RT PCR test has been proven to be unreliable at best, with the inventor stating it should “never be used to diagnose infectious disease”, because it cannot tell if what it detected is alive or dead. [6, 7, 8] This test is still being relied upon to make critical decisions in the interest of public health and safety. In the same way we cannot use an inaccurate speed detection device to proctor a civilian’s speed, the same must be demanded of a faulty RT PCR test and as such, police should not in any way mandate testing for covid-19, or rely on any outcome of the results. Now that we have almost 12 months of statistical data that can be relied upon, in

place of flawed computer modelling, these statistics show a reality that is far from the modelling projections, which were relied upon by National Cabinet in their response. Here are some statistics which reflect this reality:

For example, we now know that around 45% of people who contract the virus are asymptomatic [9] and asymptomatic transmission is between 0-2.2% [10]. We also know that 80% of people who contract the virus will only have mild symptoms [11] and it is overwhelmingly the elderly and immuno-compromised, who are at risk of severe symptoms that could result in death. [12] At the time of writing, the world-wide survival rate for covid-19 is 97.3%. [13] The ordinary flu is 99.9%. [14] Furthermore, statistics clearly show that while the confirmed cases may be on the rise, the percentage of deaths is plummeting. Sweden and Taiwan did not enforce lockdown on its citizens like much of the world did. Although Sweden failed to take better precautions to protect the elderly in the early stages, their death rate is comparable, and Taiwan's is outstanding. The statistics show there is a high infection rate across the globe, but very low deaths; regardless of whether there was forced lockdowns or not. What we can derive from analysis of this is, that these two distinctly different ways have resulted in much the same outcome. We note from the recent Federal budget, huge debt and unemployment, is that our lockdowns have created a series of problems, that now seem to outweigh the threat this virus poses. In our line of work, we know that the socio-economical problems created here, will transpire into a greater threat down the track, as people struggle to deal with the collateral damage this is causing. We have been told that the advice from the World Health Organization is a key aspect to the National Cabinet response, yet Dr David Nabarro of the WHO recently stated "We in the World Health Organization do not advocate lockdowns as the primary means of control of this virus," [15] So in spite of the facts, as they stand now, it would appear that the National Cabinet has been lagging in its capacity to adapt to the reality of the situation, and this is causing them to fail in their duty to respond in proportion to the risk. The risk being overwhelmingly with the elderly and immuno-compromised. [16, 17, 18]. What is even more concerning is the prohibition on prescribing hydroxychloroquine for COVID-19 [19], when over 121 peer reviewed scientific studies, have shown it to be effective in treating and preventing the disease [20, 21, 22]. Instead, the federal government has done a vaccine deal with AstraZeneca [23] and Australians told we cannot expect to go back to normal until a vaccine arrives. AstraZeneca has been found guilty of offences relating to off-label or unapproved promotion of medical products, making false claims, kickbacks and bribery, consumer protection violation, healthcare offences, government-contracting violations and more. Since 2000 they have been fined over US\$1.1billion dollars for these offences and violations. [24] Still, they have been granted protection from future product liability claims relating to its COVID-19 vaccine [25]. Alarmingly, Prime Minister Scott Morrison stated they will make the vaccine "as mandatory as you can possibly make it" [26], in spite of the criminal record of its producer. Their exemption from liability claims,

the fact we already have at least two approved and extremely safe medications in Ivermectin [27] and hydroxychloroquine; shown to be effective treatments, and the reality that the virus does not pose a serious threat to the healthy. It seems these decisions appear to be corporate interests, not in the best interests of public health and wellbeing as is claimed. All this indicates that the ongoing restrictions on the healthy population is a disproportionate response, yet the police are still expected to continue to enforce these measures. And at risk of being forced to vaccinate against a disease that is showing not to be virulent, with a vaccine that has had no long-term safety studies and then forcing it upon the population. The evidence would suggest resources are better directed to protect the vulnerable. We are concerned with the legitimacy of the actions, we are being told to take against the citizens of Australia. States and territories cannot rise above the commonwealth constitution, as well as international treaties we are signatories to, yet this is occurring.

These are the legal/lawful implications and protections of the public and their rights: Under the state of emergency, the emergency requirements are qualified and restricted by the significant fact, that emergency requirements and directions cannot request an individual to be isolated, detained, tested, vaccinated, medically treated or bodily searched in the absence of a biosecurity control order issued to the individual. These measures are referred to as biosecurity measures, and are captured under Subdivision B of Division 3 of Part 3 of Chapter 2 of the Biosecurity Act 2015. [28] (Emergency and public health powers, at the States and Territories, do not provide a carte blanche to breach an individual's human rights by isolating them, or detaining them or testing them without the proper required notifications and risk assessments first). There is an inter-governmental agreement [29] which places the Commonwealth in the lead, as well as the Australian Health Sector Emergency Response Plan [30]. This ensures that the States and Territories act to compliment the Federal Legislative Framework. Article 7 of the international convention of civil and political rights states "no-one shall be subjected to torture or to cruel inhuman, or degrading treatment or punishment, in particular, no-one shall be subjected without his free consent to medical or scientific experimentation." [31] Article 27 of the Vienna convention on the law of treatise "A party may not invoke the provision of its internal law as justification of its failure to perform a treaty." [32] Article 7 of the Australian human rights commission Act 1986 states, "no-one should be subjected to torture or to cruel inhuman or degrading treatment or punishment, in particular, no-one shall be subject without his free consent to medical or scientific experimentation. [33] Section 109 of the commonwealth of Australia constitution states "when a law of a state is inconsistent with a law of the commonwealth, the latter shall prevail, and the former shall to the extent of the inconsistency being valid." [34] With federal and international legislation breaches, it will be taken that we are complicit and consensual, in their undertaking on the people of Australia, potentially rendering us criminally liable under the Crimes Act 1914 [35], as well as the Criminal Code Act 1995

[36]. Many members of the force are fed up with the approach to enforce oppressive rules, placed upon the population in the name of COVID-19, and the looming mandatory vaccinations. We feel a real calling to do our part to stop this oppression, so we are writing to you to raise the following issues:- Police Force employees have ‘choice’ as to whether or not to receive vaccines; The Police believe that all members of the community also have choice around receiving vaccines; Police do not participate in any way in the forcing of vaccines upon the population; That the Police Association start preparing to defend Police employees who choose to not be vaccinated. To raise the alarm that there is a global dictatorship occurring and the Police Force is being used as a tool to push these global and corporate agendas upon the population; and To warn the Police Force not to simply acquiesce to these requests, rules and laws and to act in the best interest of its population, not tyranny of government. Recently letters have been written to our leaders from the legal fraternity, including high profile Judges and QC’s [37], The Australian Institute for Progress penned by 30 public intellectuals including 15 professors of relevant disciplines, one of whom is an advisor on health and well-being economics to the UK government [38]. Advocate Me’s open letter to all leaders seeking to review disproportionate response to SAR-CoV-2 [39], as well as hundreds of doctors from the medical fraternity [40]. Despite the government continually parroting that they are following the advice of ‘the experts’, all these requests have been ignored and the police used as the enforcers of these senseless rules. We ask that you consider the information provided herein and the NSW Police Force statement of values: – Each member of the Police Force is to Act in a manner which: Places integrity above all; Upholds the rule of law; Preserves the rights and freedoms of individuals; Seeks to improve the quality of life by community involvement in policing; Strives for citizen and police personal satisfaction; Capitalises on the wealth of human resources; Makes efficient and economical use of public resources; and Ensures that authority is exercised responsibly. Many of us believe that we are removing our own rights and freedoms by enforcing these rules upon the community, including our family and friends. And the community are confounded by the intensified police enforcement around peaceful freedom protests, and how inconsistent this was when compared with the Black Lives Matter protests. This contradiction is further destroying public confidence. We are reaching out to all our fellow police officers across the country, to write a similar letter to their respective police commissioners, or sign our form at <https://advocateme.wixsite.com/copsforcovidtruth> to show your support for this stance, which we have called Cops for Covid Truth. With trust in our police force now seriously eroded, we ask you to consider now challenging the necessity of the ongoing restrictions to restore community trust, by being an integral part of returning our State and Country back to normality. Regards Alexander Cooney Senior Constable Coffs/Clarence Highway Patrol NSW Police Force Grafton Police Station 5 Duke Street Grafton NSW 2460 This is a brave action to be taken, remember police officers are largely held to ransom as part of the Freemasonic brotherhood order, who have been known to threaten, blackmail and kill brothers who dare to speak out. I am

asking all police in all countries to promote and distribute this also. I am calling on all people to support those brave enough to stand up and speak out, often under great stress from peers and those with hidden agendas. Asking Brendan's group and also THI Australia to highlight, promote and get behind this action. DOWN UNDER

Here is just a few recent examples of this scandemic to add to the background of what was supplied in the letter. RT-PCR detects presence of viral genetic material in a sample but is not able to distinguish whether infectious virus is present. “ Government report by David Linden. Today’s breaking news is that a paper published on the government’s website has revealed that the infamous “PCR” test is of no use in detecting whether a live infection is present. Ministers are said to be fearful of a furious public backlash in reaction to, what is now known to be an ongoing fraud, used to spread disinformation about the infectiousness of a flu-like bug, that can prove serious in a small number of cases. In essence what has happened is this: The “PCR” test has been carried out on a large and growing number of people. This has inevitably produced a large and growing number of “positives”. The test has a number of possible flaws and proneness to inaccuracy, and many have criticised, the irresponsibility of using it as proof of the spread of any disease. However, if properly done can detect the presence of minute amounts of the remnants of genetic material from various viruses, the COVID19 virus among them. The detection of the presence of these leftover bits of genetic material DOES NOT NECESSARILY MEAN the person is currently infected with a live virus. It can show, for instance, that the person was to one degree or another previously infected (and often so mildly they scarcely noticed) and some of the viral material from the previous infection has not yet been flushed out of their system. The PCR test then detects these remnants and produces a “positive”. These “positives” are then fraudulently called “cases” by the government. It is not known at this stage the percentage of “cases” that were not actually cases but it is believed, given that the test CANNOT DETECT a LIVE VIRUS to be high. The number of false positive cases for these tests has shown to be 90%, that is 90% wrong assumptions of an alleged infectious disease, and this is known by scientists, doctors and governments. This has then enabled Ministers to spread alarm at the “number of cases” that are showing up, justified instructing people to self isolate, instruct those they have been in contact with to self isolate, lock down entire communities, falsely declare that the “disease is spreading out of control” and various other aspects of social and economic mayhem that have inflicted misery on the populace. An investigation is being urged into whether the fraudulent reporting of “cases” has also falsely inflated the “COVID death” stats. One source alleged that : “When the focus is on testing large numbers of very old people who are in care homes, and people in hospital undergoing treatment for life-threatening illnesses such as cancer and such people “test positive” for COVID, then die of old age or their existing condition within 28 days of having allegedly tested positive, this would push up the “COVID deaths” or “deaths with COVID” numbers, creating yet more needless alarm.” In light of the information having

been published on the government's own website, it is evident that ministers may have known all along that their declared number of "cases" was fraudulent. It is not known at this stage whether the government plans to apologise, for the damage its miscreant behaviour has inflicted on the country, or whether the ministers, advisers and so forth responsible will resign and/or face criminal charges. Yet even though the uselessness of the PCR test has been admitted, the government is still using its "results" to justify further damaging measures and the ruination of thousands of businesses that rely on Christmas sales. The seriousness of these revelations can be best understood in the context of admissions by the Chief Medical Officer as long ago as May, that COVID 19 is only dangerous in a very small number of cases. These two facts throw into question what precisely the government has been playing at these past months. One source told this reporter that: "The disingenuous campaign by the government, and its evident determination to use that disinformation to bring down the country, raise questions that every citizen should be asking, namely what the true agenda of the government is." The quoted government admission comes from [https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/926410/Understanding\\_Cycle\\_Threshold\\_\\_Ct\\_\\_in\\_SARS-CoV-2\\_RT-PCR\\_.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/926410/Understanding_Cycle_Threshold__Ct__in_SARS-CoV-2_RT-PCR_.pdf)

The Bernician COVID-1984 FOI Request | UK Government Admits Virus Doesn't Exist While preparing the court papers for the Private Criminal Prosecution of MPs for pandemic fraud, we have discovered that the office of the secretary of state for mandatory vaccinations has now admitted in a Freedom of Information Request [FOI] that they have no records which show that the cause of the COVID 19 virus has ever been proven to exist. Admission of Guilt: To put this in perspective, this is akin to the UK banks admitting that they never lend any money, when we started alleging that against them more than a decade ago. It therefore doesn't take much effort to work out that the pressure the Private Criminal Prosecution has placed upon every serving MP has catalysed the beginning of the end for this treacherous Parliament. One way or another. Moreover, since the UK government has confessed that they have no record of the existence of the cause of the supposedly deadly virus, upon which the validity of Parliament's COVID-1984 policies is entirely dependent, no MP is capable of successfully pleading not guilty to our allegations of pandemic fraud. DHSC HOLDS NO INFORMATION ON ISOLATION OF SARS-CoV-2 [THE ALLEGED CAUSE OF THE PANDEMIC] Nevertheless, here lies the very heart of the dishonesty, which all COVID-1984 policies continue to be predicated upon: In short, the cause of the virus [and therefore the virus itself] have never been proven to exist and everybody in the Department of Health knows it. Criminal law treats such evidence as proof of intent to commit fraud, for material gain. Especially when the secretary of state in question, who has corporate interests in Big Pharma, as PSC of Porton Biopharma Limited, is knowingly pushing the mandatory vaccination agenda, for a virus that doesn't exist.

Diabetics are 10.3 times more likely to develop Covid-19, and their symptoms are more severe and life-threatening, with over a quarter of all infected patients already suffering from the illness as a pre-existing condition. That's according to Russian Deputy Prime Minister Tatyana Golikova, who told officials that corona virus is especially dangerous for those suffering with the common metabolic disorder. "In patients with diabetes, Covid-19 infection is 10.3 times more common," Golikova explained. "Patients with diabetes experience the disease more severely, and more frequently develop acute respiratory distress syndrome, as well as respiratory failure, [requiring] artificial ventilation and, unfortunately, [experiencing] higher mortality."

There has been a 98% plummet in flu infections this year, dispelling fears of a Covid and flu 'twin-demic' about which many had warned. Experts say we can thank masks and social distancing, haha experts are jackasses, there are no experts as this year has clearly shown on all levels. Masks and vaccines clearly don't work as stated, otherwise they would not be so worried by those who don't participate in it. Although there is no mass testing for flu as there is for Covid, the WHO says that surveillance of data from around the world shows flu rates collapsing everywhere. Australia essentially 'skipped' their flu season this year, with not a single case reported since July (their peak). oops In fact, flu has more or less vanished throughout the Southern Hemisphere, and early indicators suggest it will follow suit north of the equator. What can explain this unprecedented decline? They asked and so we will reveal why, it is all a giant lie is why, flu hasn't disappeared, fake COVID replaced it, and just when will the treasonous media and government officials report that as fact. The 2020 magic virus will go down in history as the most clever virus ever, a few more viruses like this and we wont need a health service, bio machines or pharma drugs as COVID cures many things.

On July 17, the Health Secretary asked PHE to urgently investigate the way daily death statistics had been reported, leading PHE to say it was "pausing" the daily release. It came after Oxford University experts revealed a significant proportion of the daily out-of-hospital death toll, relates to patients who recovered from the virus weeks or months earlier. Under the previous system, anyone who has ever tested positive for the virus in England was automatically counted as a corona virus death when they died, even if the death was from a car accident. Dr Susan Hopkins, PHE's incident director, has said: "Although it may seem straightforward, there is no WHO agreed method of counting deaths from Covid-19. All this as the Canadian Government is tendering and preparing bids to build quarantine facilities, which equals concentration camps to the observer.

As we stand on the threshold and the corridors of uncertainty, and tomorrow's distraction based election, not knowing what happens next. I can tell you what won't be happening next is, were all going to die and or will we be lifted off planet by some savior ET program, as forecasted in the latest episode of the Twilight Zone. There is zero evidence

in our world to support that narrative. No fear, we the people have the power and they fear us far more than you realize, as their once together army dwindled into factions all infighting, their numbers and power dwindles also. They are wracked with fear, let us not replicate it, fear and brute force control is all they have left now, don't comply. Turn against those who wish to harm us with the banal narrative, like the news readers globally, we call them the portal people, as it is news from a different world to ours. Many have spoken out and many are going along with the fraud, mainly being pushed by Bill Gates, The Soros Foundation, Rothschild's, Jared Kushner, Mark Zuckerberg, and other social media platforms like Twitter etc, and many more. They all have a common religion and race, and that is a key factor in this event. Ignoring that as a factor makes our goal more difficult, in getting to the bottom of this global conspiracy against all of the people. This was all funded by bankers with the same religion or race also, along with bought and paid off lackeys following their agenda due to blackmailing by those who wish us harm. Me or others stating that is not racism, as ignoring the facts to avoid racism targeting, renders the truth mute. Truth never fears investigation, and that should be our greatest common goal. I applaud this officer for his bravery to admit they have and are doing wrong, that is a lesson for us all to observe going forward. Cops are like military generals, terrified to show weakness and so act overly tough to not lose respect of their fellow officers. But this fake persona ruins many peoples lives, including their own as that inflexibility leads to mistakes, which leads to lies to cover it up, and leads to a downward spiral of decision making and lives. It is not weakness to make a mistake, it is a weakness if you cover up the mistake, but that mistake only gets labeled that, should you not choose to recognize it and correct it. That mistake then becomes a life lesson, to enable us all to make better decisions going forward. The person who never made a mistake, never did anything in life. Many people distrust the police and the system now, but perhaps the people can find a truce with the police for now, the old saying the enemy of my enemy is my friend, well lets be temporary friends for now, and just maybe we can make that friendship longer and more permanent in a better world. Message to the sleepers or conspiracy theory deniers, it's ok to be wrong, what is not ok is to cover up that wrong whilst the world suffers, you are part of the problem, because you followed the Milgram experiment and obedience to authority. An authority that was self imposed on us all, due to our own inability to coalesce as one. We have now built for club solely for and by the people, and ask all groups to join in with us, no matter what is your interest, then We the People finally will have one collective voice, one collective group and one giant enforcement team without weapons or violence to chart a better path for all of our futures. WE MOVE AS ONE
