FANFARE FOR THE COMMON MAN This is a very detailed and comprehensive study and expose, that goes deep behind the lines of public information awareness, and into the very bowels of intelligence based reports. A harrowing expose on so many levels, that involves all the familiar names covered extensively in From Russia with Love, but also in this Expose series as well. That has focused mainly on the Covid crisis, one that has been deliberately engineered in my opinion, for the purpose of change, for the benefit of the elite psychopaths. It involves all the familiar groups from the US Military to DARPA, leading research centers and Universities, several intelligence agencies, governments, Jewish elites and the global walking crime center themselves, why call them that? because this one group is central by name and central to it all by nature, The CIA. Vast resources applied to this wide ranging program, largely funded by the American people, and largely operated out of America also. Lets make this very clear so people understand the issue here, it's not America the country and it's people, as the country was hijacked from day one, by these psychotic, largely hidden on and off world led controllers. Focus not on the country of operation, but the program of operation, which can and has been used in all countries. America is the Military arm of the 3 level control system, they took over the mantle of the Military arm from the British, after the British took over the Financial arm, and Rome the bizarrely named, spiritual arm. That does not mean America, Britain and Italy are the axis of evil, as the three centers are actually not part of those 3 countries. District of Columbia, City of London and the Vatican, are not a part of America, Britain or Italy, they are separate principalities, that operate outside of the laws and taxes of the country. Add in Switzerland, Belgium, Luxembourg, Monaco and Lesotho to that list. All 3 are war centers, waging military war, financial war and spiritual war on the people. One of the early issues in the Corona virus scandemic came in Italy, that was more of an epicenter of the disease, than Wuhan in China. Reports of many deaths and many suffering from it, that has now over time been largely bypassed, as the news comes thick and fast. Sadly so does the bullshit being perpetrated in the MSM and Alt Media these days, they have become one and the same. This goes deep into the murky hidden world of Military, Agencies, Universities and so called Research centers. Vast amounts of the public's money squandered on the deliveries to the general public of death, injury and harm weapons. This was a detailed report I received and I have added additional intel and knowledge interspersed within the report. With Italy struggling early on in the pandemic, they turned to Russia for help, but having accepted Russian help, it could potentially have revealed all our shortcomings in this sense in front of observers on the field who, once back home, will surely be called upon to provide detailed data and reports on how Italy is facing the emergency of an epidemic. Which, we remember, is among the possible threats of an attack by terrorists or by state agents, always within the framework of biological warfare. Honor to Paolo Mauri who, finally, broke the thick layer of ice on the background of the pandemic, in the geopolitical column of Il Giornale

“InsideOver” “atlantist” evolution of the genuine window of inquiry “Eyes of War” specializing in reports from the front. On March 25, in an article for “geopolitical skilled” on the landing in Rome, of 122 Russian military doctors specializing in NBCR (Nuclear Bacteriological Chemical and Radiological) emergencies, he finally wrote the two magic words that had never used previously: biological warfare. The first Gospa News article on the now increasingly concrete probability that this catastrophe of immense proportions, was triggered by a bacteriological weapon dates back to February 5, 2020. This is why it comforts us that authoritative journalist colleagues, are seriously considering our own track of investigation. We are a little further on the path of the search for truth, thanks to 7 reports on the topic and the splendid post by a Russian researcher, on the chilling background of the mission of Vladimir Putin’s troops in Italy to read in one breath. Today we try to do the “summary”, the synthesis of a collection defined as Latin and medieval, starting from the revelation of a sensational “false-flag” on the history of the super virus, which was revealed in a broadcast by TGR Leonardo in November 2015. In Italy it has become viral, while in the USA, on the website of geopolitical analysis and military intelligence Veterans News of which I correspond, the real study had already been published on that very dangerous and disturbing research. The senior editor Gordon Duff, officer of the Marines veteran of Vietnam with a long spent as an international intelligence advisor, curated it. Those experiments demonstrate the certain existence of a bacteriological weapon as malefic, as it is unknown and therefore potentially unstoppable, as an analysis by the Center for the Study of Existential Risk (CSER) of the University of Cambridge had warned in August 2019, in reference to biogenetic threats. They have been studied in the Pentagon laboratories to target a specific ethnic group and nation, just like this virus, that kills differently in the various countries of the world. If they were used for a biological war they could be transformed into the classic Pandora’s box, unleashing with a epidemic violence unknown even to their own manipulators. Couple of key points from that is, summed up in one word, factions. Veterans Today is a faction based site, giving their factions information mainly, which for we the people is called propaganda, that doesn't mean they don't give you some truth, just means it is narrow down to suit their faction. The attack on Rome is also faction based, they plan to end all the religions and create the new world order Hebrew one in Jerusalem.

REQUIEM FOR A DREAM

That was the background to it and we now go through several categories of this report. ITALIAN TV FALSE-FLAG ON THE SUPER VIRUS For the less expert of the OSINT jargon, remember that a “false-flag” operation, is the one with which a negative or otherwise suspicious fact is attributed. OSINT is Open Source Intelligence, which is Robert David Steele, the CIA and NATO intelligence. Such as the hypothetical connection between that experiment that took place in the bio-safety laboratory 4 in Wuhan, and the current epidemic of Acute Respiratory Syndrome called SARS-2, to a state entity that is different from the one that actually caused it. Well, I’m sorry that RAI

3, the third channel of Italian national TV, lingered over Chinese scientists by building a disinformation video in Italian only, about research's patrons, all while sensing that there was the paw of the United States behind it all. The report broadcasted in 2015, in a nutshell, concerned a viral strain of "chimeric" Corona Virus, What is chimeric? Relating to or being an organism, part, or molecule that is a chimera: chimeric mice; chimeric proteins. Relating to a monoclonal antibody produced from the cells of a nonhuman organism, usually a mouse, in which a portion of the antibody has been replaced with a human sequence of amino acids. Now there is a process called monoclonal antibody therapy, which is similar to stem cell therapy. But the side effects to this therapy include very low blood counts, heart problems including irregular heartbeat, heart failure and increased risk of a heart attack. Low levels of magnesium, calcium or potassium which can cause serious health problems. Serious skin rashes that lead to infections and bleeding problems. Some of those very symptoms are the causes of people dying from Covid, they are the underlying conditions spoken of. Which potentially raises the question of, where they targeting the overly sick people and aged? All of this is done in the laboratory by replacing part of the DNA sequence in the nonhuman cells with a sequence of human DNA. That is created with genetic bioengineering, and therefore surreal because it does not exist in nature they say. But it was obtained by crossing the DNA of the old SARS virus of 2003, with the protein genome of a Chinese "bat horseshoe", to verify on a mouse, the possibility that it could attack man, with an epidemic attack of tremendous gravity, like the current one experienced in Italy. It was a study said for pharmaceutical purposes, but obviously it is also usable for military purposes. We covered in an earlier show about the RNA vaccine altering the DNA sequence, in fact Bill Gates admitted this is reality in his own video about it on YT. What if this DNA altering is for chimeric purposes? turning certain humans into part non human? What is ironic about the description of chimeric is, and their misinformation of it raises suspicions and red flags. Chimeric as an adjective is described as:

1. Of, relating to, or in the nature of an illusion; lacking reality:

chimerical, delusive, delusory, dreamlike, hallucinatory, illusive, illusory, phantasmagoric, phantasmal, phantasmic, visionary. What a bizarre range of explanations that is, some are even contradictory.

2. Existing only in the imagination:

chimerical, conceptual, fanciful, fantastic, fantastical, imaginary, notional, unreal, visionary. This in folklore goes down as a myth, except most things attributed as myths, are actually proven as real in another time/space. The point is, you cannot imagine something that is not based in reality somewhere. The scholars will deny fire breathing dragons, yet will believe the bible, and yet does the bible not tell you that there was fire

breathing dragons, describing as being sent by god called the fiery serpents? If Chimeras are an illusion, why is there so many of them on the hieroglyphs?

There are important questions to be clarified in reference to the hypothesis, that the research on the now known protein “S” Spike, the vehicle of proliferation of infection in the human body, is related to the current pandemic and the massacre of over 10,000 people in Italy, that was three times the levels of death in China. The first topic, documented on specialized scientific internet sites, concerns the absence of a perfect genetic identity between the two viral strains, but we will analyze it in detail at the bottom of the article being, the more technical and complex aspect. Also because this lack does not exclude the “similarity “and the very high probability that, the “published” study, was used as a prototype for the next version, which was to be a “secret” military one. Veterans Today, however, revealed that the project was funded by the US government agency for International Development USAID, often the operational arm of the Central Intelligence Agency in the world. The project however did not only take place only in Wuhan’s bio-safety laboratory 4, but significantly also in the maximum bio-safety labs 3 of Chapel Hill of North Carolina University. We also point out that the research was subsidized and authorized during the administration of former President Barack Obama, even in derogation from his own moratorium on such dangerous experiments. This is fundamental to understand the intrigues in the Democratic era, between the studies on the Corona Viruses and the prophecies of the pandemic. Which is now becoming a real catastrophe in the US too. In addition, that study really looks like a “double misdirection” so refined that, it could even have been premeditated in its time, to divert attention from another myriad of equally dangerous biochemical investigations, on the same large family of flu viruses that remained top secret. It is undisputed that, what we will report highlights only, blatant intrigues between key people in power centers, involved in the field of research on potential bacteriological weapons. But it is certainly not proof of their direct involvement in the plot that seems to be subject to this pandemic. The main suspect remains the hidden entity of finance-politics-freemasonry-military intelligence called Deep State which, moreover, thanks to the brazen declarations of a former CIA director of the Democratic era, reveals embarrassing connections with this political environment. The least surprising information is that the CIA are involved in rogue research and studies, seems to be a prerequisite for that group. The question remains is, why would you wish to implant non human cells into a human, outside of genuine medical purposes? If it is not for medical purposes, why would a human place non human cells into another's body for military purposes? unless those doing the experiments were not humans at all?

**INTRIGUES BETWEEN POLICY, BUSINESS AND VIRUSES IN THE DEM SIGN**  
Indeed, 89 viral strains of Corona Virus isolated in research conducted by the Pentagon (the Department of Defense of Washington) together with the CIA and USAID itself,

according to the report recently published by the American site UNZ, in the context of biogenetic tests on bats. But there are many experiments carried out in the highly armored bio-safety laboratories of Fort Detrick in Maryland, home of the US Army Medical Institute of Infectious Diseases (USAMRIID), that was closed for mysterious accidents in July 2019. Others on the MERS and SARS strains have been developed even in Kazakhstan, and still others in the now famous Lugar Center in Georgia and Kharkov in Ukraine. They were opened by the Pentagon's DTRA (Disease Threat Research Agency), after the coups of the colored revolutions supported with pride by plutarch George Soros. Soros, one of the most important financiers of the Democratic Party, was fundamental for the election of Obama and today is focusing on his deputy Joe Biden. Biden a former great director of military aid in Kiev after the 2014 regime-change, where his son was involved in a judicial investigation into his entry into the nation's most important energy company, founded by a former Ukrainian intelligence chief. The Hungarian-American owner of the Open Society, acclaimed as a benefactor in the United States, where he has already put €5 million on the plate for the Democrats' campaign. But he is also considered an occult manipulator of compliant MEPs made by him filed on a special list. He is not the only globalist financier who is indirectly connected, even if only in a virtual way, obviously and without any subjective or objective responsibility, to the Corona Virus labs. The charge of indirectly connected is flimsy to say the least, as that group connected to Soros financed it, and this is one of the issues I had with the Trustee. Where you send the money without having recourse to know where it is being spent, makes the person who sent the funding complicit of it's final outcome. It is my understanding the entity known as George Soros died in late 2019, if true, we are seeing a double or clone, but the main focus is not Soros per se, it is the programs running under his name and Foundation, that are the keys to addressing this problem. There is another prominent name of the Democrat supporters, is that of Bill Gates. The founder of the original pandemic of mass viruses via the Microsoft Corporation, partner of GlaxoSmithKline Pharmaceuticals (the British vaccine giant participated by American investment funds of the Lobby of the Arms), who has also funded private research suspected of the British Pirbright Institute's Corona Virus. (see image 1) But the Information Technology "sorcerer" was also a prophet of the pandemic in 2015. During an intervention in the TED (Technology Entertainment Design) talk-show, and subsequently with the financing of the simulated exercise on the emergency from Corona Virus. That exercise was organized by his foundation together with John Hopkins Health Security Center starring: the Senior Fellow of the same university and researcher for Columbia University, Avril Haines. Avril Haines, born in and born to and former Director of the CIA. This person is now well known to those who read the report on the "Bio-Arma Corona Virus" n. 6, which focused precisely on its prophecy of the pandemic and on the need, to face similar threats, of an "international order", where the most expert of ultra-Masonic conspiracies can call it interpreted as a New World Order. Why is the lawyer Haines so important in this international intrigue? Simple: because she was deputy

director of the CIA from 2013 to 2015 under Obama, in the same period in which the research on the super virus of Chapel Hill and Wuhan entered the crucial phase, and also in which the biological investigations, in the military and private fields were also intensified. Now it is important for us to remember that in 2016, there was a mysterious epidemic among the military in Kharkov Ukraine, which just happens to be where one of the top secret laboratories of the Pentagon's DTRA agency is located. That incident was where over 20 Ukrainian soldiers died and a further 200 were hospitalized, due to a new and deadly virus leaked from a US military laboratory. So far the virus has proved immune to all types of medication. Donetsk People's Republic intelligence have said that Californian Flu has also been leaked from the same lab, where research of this mysterious virus was being carried out. Physicians recorded the unknown virus as a result of which, the infected get the high fever which cannot be subdued by any medicines, and within two days there comes a fatal outcome. Was this the cause of the initial outbreak? whereby they need a number of deaths to create the pandemic scare, then implement the lockdown of the people, to then launch their technological and bio-engineering job, on an increasingly scared public?

**VIRUS EXPERIMENTS IN THE OBAMA ERA** In the Leonardo TGR service of RAI 3 with reference to the USA, it is specified that the dangerous search for the Chinese continued despite the "moratorium". To explain what it was, the official extract of the research on the "chimera" virus SARS-CoV genetically modified, which was published by Nature Medicine. Reported studies were initiated after the University of North Carolina Institutional Bio-safety Committee approved the experimental protocol. As mentioned earlier the N. Carolina University houses the bio level 3 lab. Does anyone ask why a high level bio lab is required in a University where our children are attending? Project Title: Generating infectious clones of bat SARS-like CoVs; Lab Safety Plan ID: 20145741; Schedule G ID: 12279. These studies were initiated before the US Government deliberative process research funding pause, on selected gain-of-function research involving Influenza, MERS and SARS Viruses. This paper had been reviewed by the funding agency, the National Institute for Health, who we highlighted in an earlier expose show. Continuation of these studies was requested, and this was approved by the NIH during the Obama government. The "Gain of Function", indicates the possibility of implementing viral aggression for what in biological jargon is called "dual use". In life sciences, dual-use research "includes biological research with legitimate scientific purposes, the results of which can be misused to pose a biological threat to public health and or national security". In general, the term tends to refer to technologies that have both civilian and military uses. The National Center for Biotechnology Information of the same NIH, explains it. So what happens in 2014 a few months after the coup in Ukraine? President Obama officially stops government contributions to "dual use" research, on the most dangerous viral strains of the large Corona Virus family, that ranges from common flu to SARS 1 and now SARS 2. New USG funding will not be released for gain-of-

function research projects, that may be reasonably anticipated to confer attributes to influenza, MERS, or SARS viruses, such that the virus would have enhanced pathogenicity, and or transmissibility in mammals via the respiratory route. Excluded from the suspension was, the characterization or testing of naturally occurring influenza, MERS, and SARS viruses, unless the tests are "reasonably anticipated" to increase transmissibility and or pathogenicity. That is: research that doesn't anticipate "dangerous" targets in advance can continue. The critical point is already in that adverb "reasonably" which is highly questionable. Pathogenicity means the quality of producing or the ability to produce pathologic changes or disease. Any research center, in fact, wishing to go into the field of "gain of function" could have declared that it had a different purpose, and that it did not foresee this "random" evolution. And for those employed in top secret Pentagon studies, it would have been very easy to oppose issues of national secrecy to any controls. The classic National Security Act diversion and also plausible deniability, is used far too often within these circles, and allows them to carry on unhindered by Governments or bureaucracy. There are many things that make this moratorium sanctioned by Washington, on October 17 2014 on high-risk studies for humanity curious. First of all, the fact that the National Institute for Health NIH, with the obvious consent of the White House, grants the Chapel Hill and Wuhan projects to go on quietly, despite the extremely high danger of their projects. But even more so is another circumstance, that the Obama administration had not banned those experiments: it has simply stopped funding them, then relying on the "good heart" of the research centers, that speculate on bacteriological research aimed also at biological warfare. The reason for that is, the Government and Military are using the peoples money to fund the initial stages of the research, then when it reaches a critical point, in comes the hidden hand people like Avril Haines, Soros and Gates to takeover the project as individuals, seemingly not directly connected to the Government or Military. Dr. Fauci is a classic example of the bridge between the Government and the private groups, he worked for the NIH. These would come under the terms of "private contractors" and so outside of control, that is why the funding stopped, it went underground, after they have used substantial funds from the people, who gain no benefit from it. In parallel, we will encourage the currently-funded USG and non-USG funded research community to join in adopting, a voluntary pause on research that meets the stated definition. The deliberative process that will ensue during the period of the research pause, will explicitly evaluate the risks and potential benefits of gain-of-function research, with potential pandemic pathogens, reads the official document of the North American government. All of this appears to conform to Obama's strategy which, in Syria, Ukraine and Yemen, has always placed the screen of pacifist diplomacy for the export of democracy, in front of his bloody military actions carefully planned in detail by the Pentagon and the CIA. This ambiguous "facade" moratorium was then suspended in 2017 by the new president Donald Trump. But just in 2014 another operating arm of the American Department of Defense, the DARPA (Defense Advanced Research Projects Agency), which deals with

studying innovative weapons, officially only for defensive purposes to prevent “enemy moves”. Opened its Biological Technologies Office and became famous for, its bio-engineering experiments on genetically modified “allied insects”, that is capable of carrying viruses. Other animals were more experimented on for this purpose, such as the bat. Recently we exposed Bill Gates and his experimental GMO insects being released in Florida and Texas, which has the capability to inject vaccines into people who are bitten by those mosquitoes. Another of their hidden mandatory vaccination programs it seems. It should also be noted that DARPA does not need ad hoc government funding for its projects, because it can fish directly from the huge resources of the Pentagon which in 2019 was \$685 billion dollars!

**CIA MILITARY RESEARCH ON 89 CORONAVIRUS STRAINS** But that is not all. The Department of National Security (DHS) only a few months later, in 2015, renewed a federal contract with the leading private research company in biological research, with \$17.5M military applications until 2026. This happened just when the then CIA deputy director Avril Haines made a further career jump, when Obama appointed her White House deputy National Security Adviser. Here are clues and authoritative accusations in support of the pandemic theory triggered by an alleged bacteriological weapon, that lead up to the New World Order’s prophecy made by a former deputy director of the Central Intelligence Agency (CIA), Avril Haines. It is at least ascertained that the American counter-intelligence has funded, together with the Pentagon agencies (USAID, DTRA, DARPA), various secret projects in military biological laboratories in China, Georgia, Ukraine and in the USA too. These also include those on 89 Corona Virus strains. **WERE NOT GOING TO TAKE IT 1 – THE US EXPERT: “CORONA VIRUS IS A BIO-WEAPON** The first to speak of a bacteriological aspect is the American expert on biological threats Francis Boyle, confirming the suspicions of many. He points to the researches in the Bls-4 laboratory in Wuhan, where the epidemic broke out and the hero doctor who discovered it, Li Weinliang died. On 30 December 2019, Wuhan CDC issued emergency warnings to local hospitals, about a number of mysterious "pneumonia" cases discovered in the city in the previous week. On the same day, Li, who worked at Wuhan Central Hospital, received an internal diagnostic report of a suspected severe acute respiratory syndrome (SARS) patient, from other doctors which he in turn shared with his friends. He was then dubbed a whistleblower, when that shared report later circulated publicly despite him requesting confidentiality, from those with whom he shared the information. Rumors of a deadly SARS outbreak subsequently spread on Chinese social media platforms, and Wuhan police summoned and admonished him, for "making false comments on the Internet about unconfirmed SARS outbreak." The outbreak was later confirmed not to be SARS but a new corona virus, SARS-CoV-2. Li returned to work and later contracted COVID-19, the disease caused by the virus, from a patient who was not known to be infected. He died from the disease on 7 February 2020, at age 33. I suspect he was not killed by Covid, but other bio-warfare methods. Instead he doesn't

mention the 25 military centers for testing epidemic viruses, open all over the world by the Pentagon DTRA agency (US Defense Department), as noted in 2018 by Bulgarian journalist Dilyana Gaytandzhieva. In her investigation, the reporter also describes tests on bio-genetic weapons capable of affecting a specific ethnic group. And considered “potentially unstoppable” by a study published in August 2019, by the Center for the Study of Existential Risk (CSER) of the University of Cambridge. A suspicious Corona Virus research was also launched in 2015, by the British Pirbright Institute funded by the Bill Gates foundation. (SEE IMAGE 2)

2 – INTEL DROP: “A BIO-WEAPON DIFFUSED WITH NANO-DRONES” The theory of a bacteriological attack is also supported by Jeff Brown, founder with other international journalists, and authors of the Bio-weapon Truth Commission. Chinese scientists discover that the virus’s protein S has been shaped, to hide the mutation of certain amino acids which makes it aggressive. The Communist Party of China then accuses the US. Our foreign intelligence source point the finger at the Central Intelligence Agency, the richest and most powerful American counter-intelligence in the world. It could have been the CIA to spread the Corona Virus in China, and other countries with the use of nano-drones, but whoever had spread it would already have the vaccine. It turns out that the first cyber-insect project to be used as a reconnaissance mini-UAV, (or transport of very small payloads) was developed by the US 007 in 1970. There is now the 10cm Black Hornet 3 mini-helicopter, used by NATO armies, and DragonflEye, a genetically modified dragonfly driven by light. Vaccine research is initiated in Australia by the University of Queensland, with support from the UK’s Big Pharma GlaxoSmithKline: these are two countries of the famous “Five Eyes” in the USUKA agreement created by the USA, with the other English-speaking intelligence of Canada and New Zealand.

3 – DOUBLE VIRUS COVID. GOLDEN VACCINE OF GSK FINANCED BY GATES The giant GlaxoSmithKline, has over the years been in the midst of various scandals, with judicial investigations in Italy and the United States. They were among the first to make commercial agreements for the vaccine with China, as soon as the University of Queensland confirms that it has found a prototype to be tested. An American and an Israeli company also claim to have already found the antidote, arousing the suspicions of Chinese experts. They also have discovered another secret of the CoVid-19 virus: there are at least two genotypes, one of high morbidity but lower mortality, the other more aggressive and more lethal generated by an unidentified human interaction. The vaccine will become golden given the seriousness of the epidemic. In addition to being a British corporation, GSK is participated in by the largest American investment funds in the Weapons Lobby. The Glaxo CEO is also director of Microsoft owned by Bill Gates who, through the international body CEPI (presented in Davos in 2017) finances the vaccine research. But GSK is also a partner of the Pentagon and its DARPA agency, which also

operates on biological research in the military. Iran's Islamic Revolutionary Guards and a former CIA agent, support the bio-weapon theory that is almost completely ignored by Italian newspapers.

4 – PANDEMIC ARRIVES AS FORESEEN BY GATES On 11 March 2020, the World Health Organization declares the Pandemic. March 11, 3 times 11 is 33, and so a Masonic date. As expected by the American billionaire Bill Gates in a 2015 TED conference, and then a somewhat suspicious exercise organized in October 2019, a few weeks before the first outbreak of December in China, just for a Corona Virus emergency. At the speakers' table there is also a former CIA executive, among the main suspects for the pandemic. Among the countries most affected by CoVid-19 are Iran, the Washington and Tel Aviv enemy, and Italy which, in January 2020, had restarted the dialogues for a bilateral agreement on Artificial Intelligence. Italy is being eroded due to the church, they will bring that country down, to then reposition the church in Jerusalem for their One World Government and religion.

5 – FROM IRAN AND SRI LANKA ACCUSATIONS ON BIO-WEAPON Former Iranian President Mahmoud Ahmadinejad wrote a vibrant letter to the UN to urge an international investigation, into the bacteriological weapon he believes caused the pandemic. The same request is made at a press conference by the Sri Lankan cardinal Malcom Ranjith, Archbishop of Colombo (affected by the massacres of the ISIS suicide bombers in Easter 2019). The letter from the former Iranian head of state, unpopular with the Tehran government itself, is ignored by almost all the media in the world. The appeal of the high prelate of the Catholic Church, issued by an Asian agency of Christian inspiration, is published with minimal emphasis only by a few western media.

6 – THE PROPHECY OF THE FORMER DEPUTY DIRECTOR CIA Avril Haines, thanks to her loyalty to the US Democratic Party, has made a lightning career in the shadow of former President Barack Obama and his deputy Joe Biden, from graduation to the head of the CIA in just 12 years! She was appointed first deputy director of the Central Intelligence Agency, and then deputy White House National Security Consultant, also becoming a biological weapons consultant for the NTI, then a Democratic area organization for the study of nuclear and bacteriological threats against the United States. During a 2018 conference, Haines predicts the risk of a respiratory infection pandemic, just as Gates did in 2015, who then financed the Event 201 exercise of October 2019, in which the former intelligence officer was among the protagonists. The Deep State's shadow lurks behind the alleged bacteriological weapon epidemic. Why did Haines rise so quickly? because she was born in and born to is why. Born in New York, born to Jewish parents is the all too common denominator within rogue elements and organizations.

7 – US BIO-LABS IN THE COUNTRIES OF COLORED REVOLUTIONS Various Western media focuses on the suspicious military maneuvers that occurred in 2019. From the American delegation that took part in the Wuhan World Military Games in October, to the mysterious suspension of research activity in Fort Detrick. At the end of 2019, the Naval Medical Research Unit, called NAMRU 3, suddenly moved from Egypt to NATO's Sigonella NAS base in Sicily, one of the main CIA stations in Italy and the Mediterranean. The curious coincidence emerges that numerous top secret bacteriological research laboratories of the Pentagon, have been opened in the past years in Ukraine and Georgia, after the coups of the colored revolutions financed by George Soros, supporter of Democrats in the US as in Europe.

8 – RUSSIA HELPS ITALY AGAINST BIO-WEAPON Geopolitical researcher Galima Galiullina, a doctor of Philosophy with Russian origin but resident in the USA, where she collaborates with the Veterans Today website. Who published a detailed article to illustrate the mission of the 122 military doctors sent from Moscow, to help Italy overcome the epidemic which killed more than 13 thousand people. It is a unit of experts in NBCR attacks (Nuclear Bacteriological Chemical Radiological) who arrived in the Italian peninsula, not only to disinfect the most affected structures such as those in the province of Bergamo, but also to research the hypothesis of the biological weapon. His speech on Gospa News will be subject to a "censorship" with a negative review by a New York-based site financed by Wall Street experts, who is stifling all the counter-information media in Italy and in the world, with the excuse of seeking fake-news without providing detailed reasons for the coarse disputes.

9 – THE DANGEROUS SUPERVIRUS FOUND BY THE CHINESE AND AMERICANS The video of a scientific transmission of the TGR Leonardo broadcast by RAI 3 in 2015, comes back viral for the report on the extremely dangerous "chimera" Super virus built in the laboratory, by the SARS Corona Virus strain that struck China in 2003. The study was carried out by Chinese Wuhan researchers as accused by Francis Boyle. Italy is pointing the finger at China but the American site Veterans Today, taking up an article by Pravda, reveals that the US government agency USAID, often the CIA tool for regime-change in the world, also funded the project. Gospa News also focused that the project was created, supported and authorized by the White House during the Obama-Biden administration, when lawyer Haines worked in the CIA, before collaborating with Gates and partner universities, of one of its private funders, which was super virus research. Virologists deny correlations with CoVid-19, but so little is known about this latter strain of Corona Virus, that the suspicions remain. Especially after the disappearance of the study of some Indian researchers on the virus created in bio-lab.

10 – THE PROPHECY ON THE NEW WORLD ORDER The circle of suspicious coincidences closes perfectly with the aforementioned prediction, of the former vice

director of US counter-espionage made, during a conference in Camden in 2018. In addition to evoking the threat of the pandemic from a respiratory pathogen, Haines announces the need for a international order. It appears as a clear prophecy of the dreaded New World Order wanted by the Deep International State. The occult ethical, political, financial, military committee in which, lies the historical bed of the Masonic Armed Forces. Ranging from the revolutionary projects of Giovine Italia-Young America to the agreement of OSS-MAFIA-AMGOT in Sicily, until the P2-Gladio lodge scandal. The interests of Anglo-American bankers-speculators, merge with those of the NATO intelligence deviated apparatuses, of the heirs of the Zionist Movement, including the Sayanim collaborators of the Israeli intelligence Mossad, and those of the Sunni Islamic fundamentalists: from the Salafites-Wahabites to the Muslim Brotherhood. Already the specter of a disturbing geopolitical scenario is already hovering, that between the devastating world economic crisis and the countries weakened by the epidemic, could result in the Third World War, like in Syria. It could begin with a conflict in the Mediterranean and one in Eastern Europe, to pursue the common goal of the two components of the Deep State. The two targets are Iran and Russia, the original White Race states we covered in the FRWL series. Masonic deist-atheists and Zionist-Islamist extremists wants the destruction of Christianity, and to moderate Shiite Islam and the international power which defends them: Russia, who so far is the country least affected by the pandemic. The term Christianity is a cover word for the White Race, a race not based on the color of your skin. We have seen the plots of these subjects of the Deep State, of which a former CIA director of the Democratic era has recently admitted the existence, in many other reports on the Lobby of Arms and on the War Zones. But you will see in the next part of the intertwining, between the very dangerous “Made in China and USA” Super virus and the Lobby of the Big Pharma, of vaccines that bring up to the heart of Saudi Arabia. It is disturbing to discover that all the most important research on bacteriological weapons financed and coordinated by the Pentagon, have been developed above all in two countries, Georgia and Ukraine. Which have become a colony of the USA thanks to the colored revolutions, which the Open Society’s financier George Soros took all credit for. This happened precisely in the years when the “queen” of the intelligence of the Democrats, Avril Haines, was working at the top of the Central Intelligence Agency and of the National Security of the White House, before predicting, with exceptional prophetic talents, the pandemic for pathogen infections, during a conference in 2018. And then during the suspected exercise on the simulated emergency for Corona Virus on October 2019 in New York. These searches were carried out, but continue because certain Pentagon’s mechanisms once set in motion proceed almost autonomously in the republic of Kiev. Especially after the coup openly supported and financed by Washington, during the Government of the former Democratic President Barack Obama and his deputy Joe Biden. Ukraine ended up in the spotlight for the shady affairs of his son Hunter, implicated together with the “pupil” of the Secretary of State John Kerry, in the most important Ukrainian energy company Burisma. With licenses for

extraction of gas and oil in Donbass, the Russian-speaking region since 2014 cut down from an almost forgotten Civil War. Obama was also the proponent of the immunization pilot plan, “imposed” on Italy by the Global Health Security Agenda (GHSA). With the vaccines of the British GlaxoSmithKline, participated by the American investment funds of the Weapons’ Lobby and by Bill Gates, first prophet of the pandemic in 2015. The 10 mandatory vaccines project was implemented in 2017, Lorenzin Decree by former Italian Prime Minister Paolo Gentiloni, who is an ally of Soros and today's European Commissioner, in accordance with the wishes of the Democratic Party. It should be remembered that the PD government was born with Matteo Renzi who, by another arcane coincidence, became premier with the blessing of the former US president on February 22, 2014. This was exactly the same day on which Viktor Ianukovich, the legitimately elected Russian-friendly president of Ukraine, was forced to flee from the coup in the warp square, whilst sniper shots were being fired on the crowd that killed 104 people. This happened with a shootout similar to that was attributed to a clandestine CIA operation in Caracas in 2002, when the president of the Bolivarian Republic of Venezuela Hugo Chavez was later arrested by the American special forces. He was later released with the mediation of the local cardinal, for the massive counter-revolution of the population loyal to him. Among the victims of the massacre in Maidan square in Ukraine of 20 February 2014, there were 87 demonstrators but also 17 policemen, demonstrating that the mysterious assassins were certainly not of the government police, as claimed by the revolutionaries. During the protests the rioters were piloted by CANVAS, which is the Belgrade center of the closed shop Otpor, that was created by the CIA in Belgrade during the Balkan war. Otpor was a peaceful protest group when it started out, against the policies of the Serbian authorities, that were under the influence of Slobodan Milošević, who at the time was President of Serbia and Montenegro. Funny how these people protest groups all end up doing coups in these countries, all of which are bought and paid for by the CIA, via the student exchange program ran in Universities globally. Otpor their official website openly boast of that coup, as well as that in Georgia (Roses’ Revolution, 2003), as ascertained by an Italian war reporter, some of those snipers were actually of Georgian nationality. There are indeed more and more coincidences that would horrify Leroy Jethro Gibbs, the legendary federal agent of the successful TV series NCIS (Naval Criminal Investigative Service) for which “coincidences do not exist”. What does all this have to do with SARS-Cov-2 Severe Acute Respiratory Syndrome, as the current pandemic was renamed, which in Italy reached a mortality of 8% bringing the dead to over 5,400 in a short space of time? That figure would rise exponentially, but now you know why the CIA based American news was filming bodies in Italian hospitals and posting it on American news channels as being in New York, for the sole purpose of fear tactics on the American people. Firstly, it highlights that the so-called Deep International State, the hidden Masonic, financial, political and military entity, recently unveiled and “lauded” by a former CIA director of Democrat extraction, does not care about causing “human collateral damage” to pursue its geopolitical goals. Secondly, perhaps we will

never know, to the author of this piece, we do know, it's called Faction wars. Because the latest military operation conducted with maximum secrecy protocols, is erasing the traces of any possible connection between, the bacteriological research developed by “contractors” of the Pentagon, headquarters of the Department of Defense in Washington, and the violent pandemic that broke out in Italy. **LOW LIFE IN HIGH PLACES**

**TOP SECRET CREMATIONS IN ITALY** The latest mysterious operations in Italy, are the mass cremations of the CoVid-19 deaths managed by the Italian Army, for the emergency situation in Lombardy and especially in Bergamo, without first carrying out the autopsies necessary to reveal the viral genomic identity. In Wuhan, scientists carried out necropsies on some of the deceased and discovered two genotypes of the Corona Virus: the “S” of intense morbidity but very low mortality and the “L” very aggressive, with very high infectivity and lethality. Resulting from a “reshaping” of the previous caused from human intervention, according to the hypothesis of doctors for the consequent therapies, and according to those of intelligence analysts for a previous “modeling”. Scientific investigations should focus on this primary “track” but all Italian doctors, 4,000 of whom have been infected, are too busy facing the challenges with overcrowded hospitals of people positive for CoVid-19, and therefore the sample autopsies conducted so far, are a number infinitesimal and insignificant. While in the Defense sector...keep quiet is the only comment a civil protection operator in the field states. A former military officer with long experience of missions abroad, and trained for emergencies from NBCR (Nuclear Bacteriological Chemical and Radiological) attacks, adds that after reporting the indiscretion in the crematoriums, there was also “group cremations”. Remember in the last show I mentioned the imagery of WW2 being played out again, mass cremations and destroy evidence like what took place in the camps. Since it is not allowed to ask questions to the Commissioner for Emergency, during the daily press conferences of the Civil Protection in Rome, this and other doubts remain open. Up to now two military columns have left the province of Bergamo, escorted by the Carabinieri with a dozen trucks to transport 60 coffins on March 18 to the crematorium of Modena, and another of 70 on March 21 to that of Ferrara. Other subsequent trips with the dead to be cremated were made in Piedmont to the Serravalle Scrivia, Trecate and Domodossola plants. Obviously the relatives of the victims were prevented from seeing them and celebrating the funeral rites, due to the emergency decrees on the risk of infection. What a cover up that is. In Lombardy there are many factors that contribute to this data: the average age, the population density. You would think scientists would see this virus as an opportunity of researching the dead, by doing an autopsy and be able to say exactly what the patient died of. But that is the common sense approach, here we are with an alleged global pandemic, and the first thing to do is to study the disease and then how to combat it. But with this pandemic the first thing was not to study the disease, to then provide an antidote, but to release a vaccine within a year without studying the bodies for the said vaccine, a vaccine that came out 10-25 times quicker than any other

vaccine. Does that make sense? no? then it is a program then is it not? Highlighted virologist Maria Rita Gismondo said, doctors and health facilities are just enough to deal with the emergencies of the living who come to the Emergency Department, often already in the Yellow Code for severe respiratory failure.

**PRIVATE CONTRACTORS AT CIA SERVICE IN GEORGIA** But we see in a rapid movement of the suspicious military missions, among which the search and diffusion, of the increasingly probable bio-weapon could nest. To do this, we take up again the investigation of the Bulgarian journalist Dilyana Gaytandzhieva, the one who discovered the weapons delivered by the CIA to ISIS and their friend Al Baghdadi. Which we mentioned in our first report of February 4 in reference to bio-genetic bacteriological weapons, that is able to target a specific ethnic group in a more virulent way than another, just as it is happening in Italy and Iran. US bio-laboratories are funded by the Defense Threat Reduction Agency (DTRA) under a \$ 2.1 billion military program– Cooperative Biological Engagement Program (CBEP). They are located in former Soviet Union countries such as Georgia and Ukraine, the Middle East, South East Asia and Africa. Journalists reported at least 25 research centers, but according to Russian intelligence it is at least a hundred. Among the first to end up under the microscope of all the media in the world, was the most famous: the Pentagon Lugar Center in Georgia. It is located just 17 km from the US military air base Vaziani in the capital Tbilisi. Included in the military program are biologists from the US Army Medical Research Unit-Georgia (USAMRU-G) together with private contractors. Private contractors are by and large the CIA, the only differential is the mercenary groups like Blackwater, Xi and Academy. The level 3 bio-safety laboratory is only accessible to US citizens with a safety authorization, that are granted diplomatic immunity. We spoke in two previous reports of this, and the DoD's Defense for Threats Reduction Agency (DTRA) which represents the ingenious "diaphragm" between the Pentagon. A government entity subject to national and international laws, and the "contractors", or private companies that are based on privacy on industrial patents, and constraints on military secrecy can operate beyond any political control. Among the American companies that have been working at Lugar for years, the best known are three: CH2M Hill, Metabiota and Battelle. CH2M are like the precursor to the company known as Serco, that runs government services and operations. They were also involved in high end Engineering projects like the London Olympics in 2012. In addition they were running Singapore government services and also ran the Panama Canal expansion. Metabiota, in their own words, we support decision makers across government and industry to make data-driven decisions. We work to estimate, mitigate, and manage epidemic risk, supporting global health security and sustainable development. Sustainable development? now where have we heard that phrase before? The company is headquartered in San Francisco, California, with additional offices in Washington DC, Cameroon, and the Democratic Republic of the Congo. We manage epidemic risk they say. Metabiota an American company that bills itself as a pioneer in

tracking emerging epidemics, made a series of costly mistakes during the 2014 Ebola outbreak that swept across West Africa. With employees feuding with fellow responders, contributing to misdiagnosed Ebola cases and repeatedly misreading the trajectory of the virus, an Associated Press investigation has found. But emails obtained by AP and interviews with aid workers on the ground show that, some of the company's actions made an already chaotic situation worse. WHO outbreak expert Dr. Eric Bertherat wrote to colleagues in a July 17, 2014 email, about misdiagnoses and "total confusion" at the Sierra Leone government lab Metabiota, shared with Tulane University in the city of Kenema. He said there was "no tracking of the samples" and "absolutely no control on what is being done." More of the so called experts who couldn't organize a piss up in a brewery, like I have said there are no experts, only a bunch of bureaucratic jackasses who think they know what they are doing. The problem is, there is very little comeback to there criminal negligence, and therein lies the problem. The Battelle group we will cover in more detail shortly. In addition to the Pentagon, these private contractors perform biological research for the CIA and various other government agencies. The Bulgarian reporter also referring to the DARPA (Defense Advanced Research Projects Agency) which in 2014 launched, a specific sector of experimentation on bacteriological weapons called Biological Technologies Office (BTO), within which the project "Insect Allies" was developed, officially to exploit them, through genetic bioengineering modifications, in the fight against agricultural pests, but also bio-warfare purposes according to some experts. The Pentagon has invested at least \$65 million in gene editing. Common sense question? Why would the Pentagon invest \$65M for agriculture purposes? The simple answer is, they wouldn't, and this is the same group The Trustee was claiming of giving them funds recently. DARPA has awarded 7 research teams to develop tools for genome engineering in insects, rodents and bacteria under DARPA's Safe Gene program, using a novel CRISPR-Cas9 technology. However, a group of well-respected, independent scientists revealed in a scathing analysis of the program that, far from a "defensive" research project, the Insect Allies program was aimed at creating and delivering "new class of biological weapon." The scientists, writing in the journal Science and led by Richard Guy Reeves, from the Max Planck Institute for Evolutionary Biology in Germany, warned that DARPA's program, which uses insects as the vehicle for as horizontal environmental genetic alteration agents (HEGAAS). He revealed "an intention to develop a means of delivery of HEGAAs for offensive purposes. We will analyze above all the activity of Battelle because it is involved in a CIA project, and indirectly involved in a very suspicious incident which occurred on a US military base last July.

STUCK IN THE MIDDLE

**MYSTERIOUS BIO-SAFETY ACCIDENTS IN FORT DETRICK** Battelle is a \$59 million subcontractor at Lugar Center and has extensive experience in research on bio-agents, as the company has already worked on the US Bio-weapons Program, under 11 previous contracts with the US Army (1952-1966). Gaytandzhieva points this out in a

2018 dossier republished by Nature. The private company performs work for the Pentagon's DTRA bio laboratories in Afghanistan, Armenia, Georgia, Uganda, Tanzania, Iraq, Afghanistan and Vietnam. Battelle conducts research, development, testing, and evaluation using both highly toxic chemicals and highly pathogenic biological agents for a wide range of US government agencies. It has been awarded some \$2 billion federal contracts in total and ranks 23 on the Top 100 US government contractors list. Battelle serves the following: Agribusiness: including cannabis research, encapsulation, formulation, environmental fate, spray drift and droplet characterization. Cannabis research, I would be a tad concerned for those of you who use pot, given most pot is GMO now. Ecology & Environment: scientific data packages for researchers, air, water and soil analysis, assessment and remediation. Health: genomics, life sciences research, medical device development, neurotechnology, public health studies. Materials Science: analytical chemistry, characterization, coatings, compounds and structures, corrosion studies, nano-particles and materials. National Security: aviation and aerospace technologies, chemical and biological defense systems, cyber innovations, ground tactical systems, maritime technologies. Research Infrastructure: Biosafety Laboratory 3 (BSL3) operations, chemical demilitarization facilities, National Ecological Observatory Network, national laboratory management. STEM Education: BattelleEd, STEMX, Battelle Arts Grant, STEM Learning Networks. In addition to its Columbus (Ohio) headquarters, Battelle has offices in Aberdeen (Maryland), West Jefferson (Ohio), Seattle (Washington), Arlington (Virginia), Norwell (Massachusetts), Charlottesville (Virginia), Baltimore (Maryland), Boulder (Colorado) and Egg Harbor Township (New Jersey). In addition to operating its own research facilities, as of 2019, Battelle manages or co-manages on behalf of the United States Department of Energy the following national laboratories: Brookhaven National Laboratory (through Brookhaven Science Associates, LLC – a collaboration between Battelle and Stony Brook University) Idaho National Laboratory (through the Battelle Energy Alliance – a collaboration between Battelle, BWX Technologies, Inc., Washington Group International, Electric Power Research Institute and an alliance of universities) Lawrence Livermore National Laboratory (through Lawrence Livermore National Security, LLC – a collaboration between Battelle, BWX Technologies, Inc., Washington Group International, the University of California, Bechtel National, and The Texas A&M University System) Los Alamos National Laboratory (through Triad National Security, LLC – a collaboration between Battelle, the University of California, and The Texas A&M University System) National Renewable Energy Laboratory (in partnership with MRIGlobal as part of the Alliance for Sustainable Energy, LLC) Oak Ridge National Laboratory (through UT-Battelle, LLC – a collaboration between Battelle and the University of Tennessee) Pacific Northwest National Laboratory. Additionally, on behalf of the Department of Homeland Security: National Biodefense Analysis and Countermeasures Center. National Science Foundation projects: In March 2016, Battelle was selected to manage the completion of the National Ecological Observatory Network (NEON) for the National Science Foundation. From

1969 to 1975, the institute was involved in a lawsuit over whether it was "neglecting its philanthropic promises" as a nonprofit organization, it reached an \$80 million settlement in 1975. The institute lost its nonprofit status in the 1990s, though regained it by 2001. Battelle Memorial Institute from 1997 to 2000 started the Clear Vision Project together with the CIA, to rebuild and test a Soviet-era anthrax projectile, and verify the possible spread of this and other bio-agents by bombers. Is it a coincidence that one year after that anthrax testing, in 2001 we had the anthrax scare in America, straight after 9/11? funny how that happens isn't it? The clandestine CIA-Battelle operation was omitted from the US Biological Weapons Convention declarations submitted to the UN. Battelle has operated a Top Secret Bio laboratory (National Biodefense Analysis and Countermeasures Center – NBACC) at Fort Detrick, Maryland under a US Department of Homeland Security (DHS) contract for the last decade. The company has been awarded a \$344.4 million federal contract (2006 – 2016) and another \$17.3 million contract (2015 - 2026) by DHS. This is precisely the time when the “CIA prophetess” of the current pandemic, Avil Haines, was deputy White House National Security Advisor. And it is precisely here that the first surprise following the Bulgarian journalist’s investigation arrives. It is also important to point out the fact that the U.S. military’s key laboratories involving the study of deadly pathogens, including corona viruses, Ebola and others, was suddenly shut down last July. This was after the Center for Disease Control and Prevention (CDC) identified major “biosafety lapses” at the facility. The U.S. Army Medical Research Institute of Infectious Diseases (USAMRIID) facility at Fort Detrick, Maryland, the U.S. military’s lead laboratory for “biological defense” research since the late 1960s. It was forced to halt all research it was conducting with a series of deadly pathogens after the CDC found, that it lacked “sufficient systems in place to decontaminate wastewater” from its highest-security labs, and failure of staff to follow safety procedures, among other lapses. The facility contains both level 3 and level 4 biosafety labs. While it is unknown if experiments involving corona viruses were ongoing at the time, USAMRIID has recently been involved in research, borne out of the Pentagon’s recent concern about the use of bats as bio-weapons. It should not be forgotten that the bat (together with the mongoose) was suspected by scientists of being the carrier of SARS-CoV-2 from animals to humans, obviously before Chinese chemists discovered the existence not only of the strange protein “S modeled”, but also the double genotype of the virus. The decision to shut down USAMRIID garnered surprisingly little media coverage, as did the CDC’s surprising decision to allow the troubled facility to “partially resume” research late last November, even though the facility was and is still not at “full operational capability.” The USAMRIID’s problematic record of safety at such facilities is of particular concern, in light of the recent corona virus outbreak in China. As this report will soon reveal, this is because USAMRIID has a decades-old and close partnership with the University of Wuhan’s Institute of Medical Virology, the alleged outbreak of the first epidemic explosion, which now seems almost totally overcome in the country. The company most have never heard of and yet runs so much of

this country, and acquires vast funds of the American peoples money to do so. All of this done without any clear oversight of their engagements, actions or intentions. Some would argue it is protecting American interests, but it is certainly not the peoples is it? If it went to a national ballot of do you approve biological weapons, only non thinking jackasses would agree to it. What if another country develops it and disperses their chemical weapons on American soil, which could kill millions, what if you find out the very funding supplied by Americans, is actually being used on and against Americans? All whilst these same people who created it and dispersed it globally, live harmlessly in underground bunkers, shelters or their lavish built underground cities.

**CIA-PENTAGON RESEARCHES ON CORONAVIRUS** The correlations between the two countries, America and China, are more than you might imagine. Among them there was a study conducted by the Beijing Ministry of Science, which led to the discovery of 89 bat Corona Virus strains in collaboration with the USAID agency. The government agency for aid to developing countries, which often finances political movements for regime change as happened in Syria and Venezuela. That is what the so called aid is being spent on, regime change beneficial to the psychopaths in the CIA, weapons and bio weapons for killing masses of people, and also millions on so called research grants that all seem to filter into weapons based programs, against we the people. The CIA, the Pentagon and the Institute of Health and Human Services in Washington, are all connected to USAID. An Arab Facebook user recently posted a video in French that went viral (and later blocked by FB), raising suspicions about a European patent from the Pasteur National Research Center of the Diderot University of Paris, concerning a “new strain of Corona Virus associated with Sars” filed as early as 2004. But the controversy was unfounded, because it referred to research for the vaccine on the first SARS that hit China and other countries in 2003, but “only” 814 deaths happened then, against the more than 15 thousand of the current SARS 2 pandemic. That was the test case and then they get their algorithmic analytics to see the reactions, number of deaths and how it disrupts certain demographics more than others. This is then installed as a program into the super computers to predict certain events for the future. It is still the Bulgarian reporter who recalls that, numerous studies have been performed under the DTRA Cooperative Biological Engagement Program (CBEP), in a search for deadly pathogens of military importance in bats. There is much argument of the origin of bats, as many have pointed out about microbats not having a unique common ancestry, something they share with the household cat. Bats like the black cat are also involved in witchcraft. Is it possible they are related to the dark elves? the most common of which in movies and cartoons, is Batman. There is a reason New York is called Gotham, and no dark elves are not good for humanity either. The name Gotham means Goats town, which maybe has other dark connotations. The great question is, are both bats and cats of alien origin? One of these is the large viral strain of Corona Virus, which includes simple flu but also SARS and its “cousin” MERS, the Middle Eastern Acute Respiratory Syndrome which in June 2017

killed 699 and infected 1,980 people in 15 countries. MERS-CoV is one of the viruses that have been engineered by the US and studied by the Pentagon, as well as Influenza and SARS. Confirmation of this practice is Obama's 2014 temporary ban on government funding for such "dual-use" research. The moratorium was lifted in 2017 and experiments have continued. So, the Trump administration lifted the testing ban to allow this to continue, one has to ask for what purpose? Was that part of the plan, and the strategic chess game as well? Trust the plan - yeah right. Enhanced Potential Pandemic Pathogens (PPPs) experiments are legal in the US, the reporter points out in reference to the Statute of The International Criminal Court (ICC) in Rome, which instead forbids them in article 8, but has never been signed by the North American government. In 2015 however, a new study on the Corona Virus, officially to prevent avian bronchitis in chickens, was started by the Pirbright Institute in the United Kingdom and then registered in 2018 with a U.S. patent. Well, among the funders of the research center there is once again the Bill & Melinda Gates Foundation, sponsor of the Dems and Obama, but above all the research on the new CoVid-19 vaccine was the Australian Queensland University in collaboration with the usual GSK. There would be much to write about the suspicious episodes between the US and China, including two arrests which, however, did not lead to ascertaining with certainty the purposes of the illegal actions. As Veterans Today recalled on January 28, Professor Charles Lieber, president of the Harvard Department of Chemical Biology, is arrested for leading a Chinese research team focused on using nanotechnology to identify viruses. In December 2019, a Chinese medical researcher, Zheng Zaosong, of the Beth Israel Deaconess Medical Center, was stopped by the FBI special agent Kara Spice who found him in possession of 21 ampoules, containing a "brown liquid" that seemed to be "biological material" "taken from a Boston laboratory. His research friend admitted that other comrades had managed to bring samples to China: it is not known whether for biogenetic studies on American samples or if by sabotage. Beth Israel not a surprise that named hospital comes up is it? Boston's Jewish community founded Beth Israel Hospital in 1916 to meet the needs of the growing Jewish immigrant population, the same hospital was used for the injured for the Boston bombing, coincidence? is connected to Harvard and receives funding from the NIH.

**US NAVY BIOLOGISTS IN SIGONELLA BEFORE THE EPIDEMIC** In the same month, however, something even more sensational occurred between Egypt and Italy. When the Naval Medical Research Unit, called NAMRU 3, was transferred from the historic Cairo base, where it has operated since 1946 to the Naval Air Station of Sigonella, believed to be the main military station of the CIA, not only in Sicily but throughout Italy. NAMRU3 is the US Navy department that conducts research and experiments, on viral or bacterial pathogens that can infect American troops. But according to an article of 27 January 2012 in the Egyptian newspaper Al-Wafd described it as a small laboratory of horrors. When you pass next to the large NAMRU headquarters located in the Al-Abbasia district, in the heart of Cairo with its gate reinforced with iron

and concrete. The wide space of flat land that surrounds it, the security cameras and the high walls that protect it, one cannot fail to suspect the great importance of what is inside this building. Unit researchers and American doctors enjoy diplomatic immunity, in fact, some of them belong to the CIA wrote the Arab newspaper. Since the founding of the NAMRU unit in Egypt, dozens of new and changed viral diseases have been discovered. This may lead to suspicion that these pathogens are imported. No medical research institute has infiltrated Egypt to a greater extent than NAMRU, which controls the secrets of viruses used in mass destruction and biological weapons. In confirmation of this, Al-Wafd recalls that Ethiopia had decided to close the NAMRU unit on its territory, due to accusations and suspicions about its activity, which instead had been expanded in Egypt following an agreement with the Health Ministry and with the Hospital of the Fevers of Abbassia. Ethiopia, Egypt and Israel all in the same sentence, more FRWL confirmation. Already in 1976, the Egyptian public became aware of the name NAMRU on the occasion of an outbreak of meningitis in Egypt. This was just after the Egypt and Israeli war, known as the 6 day war, what a coincidence that is. The US Navy Medical Research Unit offered to collaborate with Abbassia Hospital, but the studies on the victims remained top secret, because 50 of the 857 infected died right after the intervention of the American doctors, with the administration of a medicine that caused side effects. Were the human guinea pigs unaware? This is possible that the Israelis were involved in that incident, a coalition effort between Mossad, IDF and the CIA? In 2006 the NAMRU sparked another scandal, which subsided with suspicious rapidity. An American delegation from NAMRU visited the headquarters of Al-'Abbassia hospital, and bird flu was discovered several days later in Egypt. Egyptian doctors were able to eliminate the disease almost completely within six months, but then Maher Abaza, a powerful oligarch connected with Mubarak was appointed agriculture minister, and decided without reason to suspend the involvement of the Egypt to manage the virus, in exchange for a contract with NAMRU-3. Later, the Egyptians were hit by an untreatable mutant of the avian flu virus. This mutant virus appeared after NAMRU received blood samples from Egyptian patients, who were sent to the United States. On July 2019, the command of the Naval Medical Research Unit No. 3 (NAMRU-3) stationed in Cairo (Egypt) from the Second World War, took office in the large Sicilian air and naval base by temporarily occupying building no. 318, pending the start of the renovation and expansion of Building No. 303 to NAS 1, the oldest station in Sigonella, intended for US use only. The move was completed in December and the unit became operational in February 2020, just before the Italy outbreak unfolded. To date it is not possible to know if and when the sudden move was authorized by the executive, and why Parliament was not informed despite the political-strategic and "scientific" relevance of the US unit, directly dependent on the Naval Medical Research Center of US Navy and Marine Corps, based in Silver Spring, Maryland. The US Air Force Global Hawk RQ-4 giant drones have also been deployed in the same location. The attention of the Veterans Today site has focused on them, which reported the disturbing indiscretion from foreign intelligence

sources. That the biological attack in Italy would have been made more lethal than elsewhere, for an interaction of the virus with a nerve chemical agent, the terrible Sarin gas, used in microdoses so as not to make it detectable. We report this information for completeness of information even if NBCR medical experts, operating in emergency rooms in Italian hospitals to deal with the epidemic, have not detected similar symptoms on patients and have confirmed that at the moment, in the MaxiEmergency stage, only the bacteriological health protocol. SECRETS AND LIES

**SUSPICIOUS MASSACRE OF MILITARY IN UKRAINE** But let's go back to Ukraine in the years following the Orange Revolution coup promoted by Soros. So we had the Rose Revolution with the obvious links to Freemasonry and the Rose line, although Rose is also connected to Anu. Now the Orange Revolution with obvious connections to the House of Orange, whilst is a Dutch title, the House is home and reigns in France, in connection with the Rothschild's. Soros, who like the Rothschild family are Jewish elites, was the main financier of the media propaganda of November 2013 together with the US and UK embassies. But also for the Democratic Party, for which he has already donated \$5.1M dollars in the Political Action Committee (PAC), even before knowing who will be the candidate to win the primaries. The preferred choice to win the race was Joe Biden, known for the direct management of military and public security funding to Ukraine. Which repeatedly was called into question by various dossiers in the context of the impeachment against the then President Donald Trump on the UkraineGate, for which the former CIA director Avril Haines (born in NY and born to Jewish parents) thanked the Deep State. Among the set of bilateral agreements between the US and Ukraine is, the establishment of the Science and Technology Center in Ukraine (STCU), an International organization funded mainly by the US government which has been accorded diplomatic status. The STCU officially supports projects of scientists previously involved in the Soviet biological weapons program. Over the past 20 years the STCU has invested over \$285 million in funding, and managing some 1,850 projects of scientists, who previously worked on the development of weapons of mass destruction. One of the Pentagon laboratories is located in Kharkov, where in January 2016 at least 20 Ukrainian soldiers died from Flu-like virus in just two days, with 200 more being hospitalized. The Ukrainian government did not report on the dead Ukrainian soldiers in Kharkov. As of March 2016 364 deaths have been reported across Ukraine, 81.3 % caused by Swine Flu A (H1N1) pdm09 – the same strain which caused the world pandemic in 2009. According to DPR intelligence information the US bio lab in Kharkov leaked the deadly virus. The Police were also investigating the infection, which is an incurable disease. Then a highly suspicious Hepatitis A infection spread rapidly in just few months, across South East Ukraine where most of the Pentagon bio-labs are located. The list of viral infections would continue with cases of cholera (2011, 2014 and 2015) and hepatitis A (2017). While a strange epidemic of Congo-Crimean Crimean Hemorrhagic Fever (CCHFV) appeared in Afghanistan, after the launch of the Cooperative Biological Commitment

Program (CBEP) of the DTRA agency, with various contractors connected to the Lugar Center of Georgia. Coincidences such as the one for which an American spy plane, the Northrop Grumman E-11A Bomber, crashed in the region of Ghazni. In which, would also have died the CIA commander in the Middle East, Mike D'Andrea, nicknamed Dark Prince, a few weeks before the CoVid-19 pandemic spread to Iran after spreading to China. The condition on the death of Langley's counterintelligence officer remains, as the Pentagon only confirmed the death of the two pilots, one of whom was certainly CIA operative, but denied the existence of a crew as if the surveillance aircraft had none, despite sophisticated electronic machinery to manage. Whilst Russian intelligence sources have claimed that Michael D'Andrea, head of CIA operations in Iran, and who orchestrated the assassination of Iranian General Qassem Soleimani, was killed in a US spy plane downed in Ghazni, Afghanistan.

**MILITARY GAMES IN WUHAN: IDEAL FOR CIA NANO-DRONES** But the coincidences are starting to be too many. Like the one already mentioned in the previous article on the Wuhan World Military Games in which an American delegation took part in October 2019. While the former CIA deputy director Avril Haines in New York participated in the simulated exercise on the pandemic by Corona Virus funded and prophesied in the 2015 by Bill Gates. The American team did so badly that they were called "Soy Sauce Soldiers" by the Chinese. In fact, many never attended any events and remained close to the Huanan seafood wholesale market, where the disease was said to have originated, only a few days after the United States left the area. Veterans Today wrote that it was a fake team that took part in the games, and clearly they were involved in not Military games, but virus preparation games on behalf of the elites. The American military team returned home on October 28, 2019 and within 2 weeks, which is the viral incubation period, the first cases of human contact with COVID 19 were ascertained in Wuhan. The Chinese were unable to find patient zero, and they therefore suspected that it was an American military officer, officially asking the US for information on their first infection. But if you want to give credit to the theory that the virus was spread by nano-drones by undercover CIA agents, reported in the previous article on the basis of intelligence information. It is clear that the concept of the "patient" zero is overcome by an artificial spread that could have been implemented in large area, with the 10 cm or 4 inches, UAV Black Hornet 3 already widely used in NATO armies as a spy vehicle or with DragonflyEye. The cyber-dragonflies genetically modified and remotely controlled with light, which can also carry micro-cameras or small payloads such as viral micro-capsules. Or be the same as the "allied insects" of the Pentagon's research of pathogenic germs. It doesn't have to look like science fiction because these nano-drones are projects that the CIA had been studying since the distant 1970, and the very small size of the kits can easily fit in a shoe box, without the infections risk of virus managing. They are therefore very easy to hide especially when a sports delegation arrives in a foreign country. If the hypothetical dispersion of the bacteriological weapon in Iran can be

explained by the American operations in Afghanistan, which was also confirmed by the shooting down of the plane deemed the flying command of the Central Intelligence Agency. Then in Italy, it does not even need any technical explanations. Since the secret agents of the US counter-intelligence have total freedom of movement, and the military departments can even transfer a sophisticated unit of biological doctors, and scientific researchers from Africa to Sicily, without the Italian Parliament even discussing it. The clues of a coordinated military action by biological warfare within the Deep State and CIA, which have been traveling hand in hand for the same admission of its leaders, since the time of the P2-Gladio-Stay Behind operation, are now macroscopic. According to Veterans Today, the Israeli counter-intelligence of the infamous Mossad of Tel Aviv, a fundamental partner of the geopolitical strategies of the Zionists in the field of war and weapons, could have played a role in the conspiracy. This would also explain the haste and secrecy, with which the corpses of Italian victims were cremated without any autopsies, eliminating the only potential evidence of any bio-genetic viral weapons. What remains to be ascertained is, whether Republican President Donald Trump or his predecessor, was aware of this hypothetical devilish plan, even more permeated by the spectrum of the New World Order. Or even if their equivalent in Rome had been made aware of it. GLORY GLORY HALLELUJAH

The truth is marching on with our show, if only others will follow suit and out the real issues, release the Kraken they say, this show releases it every week. A very seedy tale of underhanded underworld levels of shenanigans, involving the Military and agencies, and yet some think I speak too harsh on the US Military. My reply now is, do you think this activity by them is acceptable? Is there evidence of a similar global outbreak in America, sadly the answer is yes, his tory always repeats itself unless the people connect the dots to it all, and out it. There was a mild flu circulating during the spring of 1918, the deadly strain appeared on U.S. soil on Tuesday, Aug. 27, when three Navy dockworkers at Commonwealth Pier in Boston fell ill. Within 48 hours, dozens more men were infected, just ten days later, the flu was decimating Camp Devens. Camp Devens became known as Fort Devens, it was home to the United States Army Base Camp Systems Integration Laboratory as well as the United States Army System Integration Laboratory. But to show how tight the circle is in these intrigues and cohen-cidences, the recent CIA Director, Miss Torturer herself Gina Haspel, previously worked as Fort Devens. A renowned pathologist from Johns Hopkins, William Welch, was brought in to assess the alleged Spanish Flu outbreak, again a cohen-cidence that John Hopkins was central then and also 100 years later. He realized that “this must be some new kind of infection or plague.” Viruses, minuscule agents that can pass through fine filters, were poorly understood. With men mobilizing for World War I, the flu spread to military installations throughout the U.S. and to the general population. Yes, the Spanish flu started in America with the US Military personnel, 100 years later they rolled out the new Spanish Flu, called Covid. Why is the CIA central to all levels of heinous crimes against humanity?

are the people that represent that blight against humanity even human? are they actually the Ciakars? For those that don't know the Ciakars are a reptilian group, spelt CIAkar, are they one and the same group? It would certainly make more sense, than trying to get your head around of why a group of humans assembled to treat life with such little regard and distain, in any country, because they have killed many at home as well with their clandestine operations. There is barely a show that goes by, that references this group in some rogue activity or another, not because I just wish to highlight them, but because they are involved in all that is evil on this planet. What have the CIA got against humanity? why will and have they gone to great lengths to delete life all so easily? threatened people to do their bidding and work? use people like pawns in their evil game? using espionage, mind control, blackmail and MK Ultra on people? Why did so many of the Jewish SS end up in the CIA? they who committed human atrocities and experiments on people within the camps? Are you required to have homicidal and maniacal tendencies, certain levels of evil and willing to commit any crimes just to become a member of the CIA? are there any good people within the CIA? It is a genuine question, as this cancer on the planet involves lots of people to carry it out, why is no one walking away and or speaking out? Yes, I get the threats and blackmail culture employed there, but where is a group of you coming together to out or take out the rogue elements, that run right through that organization? We have seen the rise of the biblical prophecy people on the internet again, citing a book no one can prove who wrote it. Biblical prophecy people, why do you think the stuff of plagues and pestilence is contained within the bible? Because the same psychopaths who unleashed that years ago, are about to unleash it again. These are the same people who wrote the bible, they are not prophets but long term planners. The bible is a loop based strategy book, filled with incest, violence, plagues, pestilence, insect and serpent attacks, and people think it is a holy book, what is your definition of holy then I might ask? Because in my mind holy means psychotic, psychopathic and anti human, why anti human? because these people are not, they are the changlings, they like their brethren in the bible were all off world entities. Think different, scriptures are littered with all kinds of conspiracy theories, multi armed beings, flying elephants, people with blue faces, humans living from 300-1000 years old, parting oceans, spontaneously combusting bushes which then talk to you, talking snakes, does that make any sense whatsoever? Half human with goats, birds, cats, dogs, crocodiles, horses and various others known as chimeras, is it a cohen cidence they are now using a chimeric drug? The chimeras were made in a lab by geneticists, mostly by the internet revered Atlantis group. Who were not good despite how many blogs, books or documentaries are made on them, remember history is written by the victors. Why were they not good, because if you believe in the god of your book, the Atlantis group were substituting your own god, by making creations that was not delivered by your god, think different. They played god, and these clowns are doing the same as the past, delete the populace in one way or another, rewrite history, then when man builds up to technological level again, destroy them and ultimately blame humanity for it, when it was

they who misused the technology all along. The great question is, whilst all this was happening, what was your god doing to stop it? People who follow politics in America, again think different, why didn't the very different Trump deal with or reign in the CIA? why did he end the moratorium in 2017? Why did he initiate the lockdowns with funding from the Trustee, when he knew it was all bullshit? Why did he fund Astra Zeneca, a UK company to the tune of \$10B for a vaccine he knew was bs? Why did he launch the vaccination program following more funding from the Trustee in November? Was all that part of the plan we were all told to trust? does that sound like a plan that is beneficial to the American people or any other country? False flags often used to blow things up or mass shootings, have now developed more on a global scale with false flag viruses. All carefully orchestrated with plausible deniability, hidden under a cloak of secrecy that goes way beyond National Security levels or Acts, capable of targeting one group, color or genetic based humans. The final question remains with chemtrails, water poisoning, food poisoning, airborne virus poisoning, are these elites immune to it all? Do they have some super powers or abilities to be immune? or are we dealing with a separate species on this planet, who may look human, but they are not. Perhaps a reminder of Revelation 2:9 I know thy works, and tribulation, and poverty, (but thou art rich) and I know the blasphemy of them which say they are Jews, and are not, but are the synagogue of Satan.
