SPACE ODYSSEY In Expose 10 we made mentioned of the Red Cube AI technology and here is some more potential interesting background into that. I only came across this piece in early September, that aligns with my own knowledge base, plus bits I have learned from others in the past. I must thank the website Ascensionglossary.com for the bulk of this report, that large chunks of which resonates with my understanding, and as always I will add more as we go through the information given. I am more familiar with the black cube technology than the red, that has multiple uses, from the Mecca Black Cube harvesting rock, to the black cube portal trap that was around the Sun, to the soul cubes collection devices that stole many a soul under the banner of Nut and Geb. The stars under the archway of Nut in the hieroglyphs represent the souls they had capture via that technology. I have witnessed some people cough up these black cubes, it is an unpleasant but freeing sight. Whilst I don't agree with all of the piece there is sufficient crossover of this, that eventually forms a pattern, and reveals a revelation to and of that pattern. That will be revealed on this coming Saturday, another big dot connector that is closer to home. For a while now I have warned of technology, and some of this show will reveal more of it's devastating uses, how far advanced it is to our own, and the devastating consequences it can bring. We must not go down the full path of technology being implemented now, and must resist for the future of the children and grand children's sakes. Largely psychopaths implement the top levels of technology, and the public is oblivious to it's ancient nature, and think of it all in terms of the future. That is our biggest mistake, there is no new technology, all of it is long in the past and rehashed and introduced to have negative impacts on we the people, on this planet and many other planets throughout this Universe. BAD COMPANY

An Artificial Tree of Life was cloned into a sub structure in which this Red Cube Egyptian Pantheon tree is used, as the main grid architecture for cloning Serres-Egyptian identities from Tara that are connected to the Azurites on Gaia. Acacia tree of 'Saosis' is considered by Egyptians as the Tree of Life. As per the Ennead system nine deities of ancient Egyptian culture, Isis and Osiris are believed to be the first couple. They are said to have emerged from the Tree of Life, the acacia of Saosis. Incidentally Saosis, is also the name of an Egyptian goddess. The Egyptian goddess Lusaaset, meaning 'the great one who comes forth,' was considered the grandmother of all the Egyptian gods, except for her husband the sun god Tem or Atum, or better known as Amun-Ra. Similar in appearance to later goddesses Hathor and Isis, Lusaaset is depicted as wearing the Egyptian vulture crown surmounted with the uraeus (Kundalini cobra) and solar disk between two horns. These Egyptian beliefs and symbolisms are repeated in Christianity. The kundalini snake oh my another new age fake spiritual narrative exposed. The names Juesaes, Ausaas, Saosis, Lusas and Jusas are all variations of Lusaaset, with Jusas still the preferred spelling for Jesus in some cultures. Furthermore, Jesus may have represented

the alchemical union of the Sun and Venus to the Hebrews, a kind of incarnation of the all-seeing Eye of Ra (or Eye of Horus). But the similarities do not stop there. The Tree of Life in the Garden of Heliopolis may be the same Tree of Life described in the Biblical Garden of Eden. Its hallucinogenic fruit would have been the forbidden fruit of knowledge. From this we might conclude the wine drunk by Jesus and his apostles could have been the Yrp wine from the sacred acacia fruit, used to induce a spiritual rebirth in the fashion of Venus. This interpretation is reinforced by the Latin name Lucifer, meaning *lusa-feri* or light-bearer, which refers to Venus as the Morning Star rising bright in the dawn's early light. Thus, the all-seeing eye is sometimes called the Eye of Lucifer. But when Venus is viewed as both the Morning Star and Evening Star, represented by Egyptian god Set, the composite name *Lusaa-Set* or *Lusaaset* becomes an even greater symbol of resurrection into the night or afterlife. These red cube cloned identities are used to power up the black magic money debt enslavement structures put in place by the Orion Group, and used by the cabal bankers to manipulate financial markets, and maintain global wealth in the hands of their satanic and Luciferian bloodlines. Thus, the true and accurate Egyptian history was replaced with the Black Sun agenda of, inserting the AI Red Cube Tree of Life for representing the Egyptian Pantheon of Gods, along with their Black Magic rituals. This cloned pantheon was to be enforced through worship by the installation of the Setian King lines, Hyksos and the Amun Snake Priesthood. Setian is the fake god Set, and the Amun snake priesthood is Ra and the Cohens. These groups in the Middle East would eventually integrate into the Greek Mystery Schools, and further evolve into the corrupted lineages of the secret societies that formed the Luciferian Knights Templars and Freemasons. These secret societies were initiated into the secrets of the Artificial Tree of Life through the Great Ennead, in which the Egyptian pantheon was cloned for use in black magic ritual, being supported by the NAA to maintain their power, manipulating timelines and human consciousness since the Sumerian-Egyptian Invasion. NAA means negative alien agenda. The Negative Alien agenda NAA is to force the planet to serve another multiple species Controller agenda, through imposing false replicated time fields using bio-warfare technology. Such as, Holographic Inserts, AI and Mind Control, namely created under genetically reptilian based Archons extraterrestrials, at the expense and life force of the human race and the kingdoms under human domain. The NAA can be best understood as a psychopathic personality, or identity profile with a lack of empathy that has no feelings of remorse. Once such negative manipulation is installing the Armageddon Software into the planetary brain, in order to install False Father Negative Alien Religions, based on serving the Yahweh and Jehovian Annunaki Collectives. Armageddon, Yahweh and Jehovah, I wonder which race worships them? the Israelis who say they are Jews, but they are not, hence the Hebrew Annunaki term I now call them by. These are extra-dimensional and inter-dimensional beings that have lost their consciousness connection to god source, and are utilizing humans and other beings as their food source and siphon life force like a parasite to live

thousands of years, just like the movie Jupiter Ascending showed us. They do not have access to incarnate into human bodies, so they covet human bodies and they want to take them over or use them in the future. Remember the ending of FRWL Plus 8 about the Masons and the Vrill, that brought in the series Stargate, well there you have what is, and has been going on. Of course I have also spoken about the variety of host possessions in a piece 2-3 years back. Extraterrestrials that are hybridized with Reptilian based genetics operate in strict hierarchical systems of rank, and defer to their superior groups. The Dracos or Draconians from Alpha Draconis are in command of earth based subterranean reptilians, who respect their superiors in the belief system that, the Dracs are those who hold ownership over earth and human beings. Draco Reptilians view themselves as the most intelligent species in the Universe, and that earth humans are the result of their biological seeding processes from multiple planets. They lie, they have hunted us down for millennia for our life force essence, and no they are not superior to us at all, they are weak and fearful of us, otherwise they would have no need to control us. The Alpha Draconis Draco have a Royal Class that appear to be lighter colors, white Skinned scales with winged appendages, and are about two to three times the size of an average human, and very muscular. I saw Anu in that form, so I do know they exist in that format, plus the hieroglyphs also show them in that likeness. They are the angels of the bible, whether fallen ones or not, I told you the bible is their story not ours. They are quite menacing and tyrannical, showing little mercy to an entity of their own race, that they think has defied their orders or responsibilities to manage their earthly resources. Earth based reptilians are in command over EBE or biological entities known as small Grays. The Reptilians have developed high psionic abilities, which they use for mind controlling other entities, and do not have an emotional body or soul body, that is the soulless entities we have spoken about. Unless they have spawned offspring devoid of a soul, or created bot like versions of themselves, the idea of they have no soul is not correct. This was something the humanoid Abraxus told them, to then hunt down the White Race people as we know it by, it was all a lie so the Abraxus could take over the prime real estate known as Earth, again that was a line in the Jupiter Ascending movie. The known reptilian races on earth have made a variety of cooperative agreements with the higher ranks of human government and military, which have resulted in shadow government black projects. Such as Secret Space Programs, MILABS and the creation of military industrial complex to experiment and exploit alien based technologies and craft, that they have been given access through their cooperation. You can thank Eisenhower for that, the trade for that tech was, the use of 2% of humans on the planet for abductions and genetic experimentation on us. But it quickly spiraled out of control, as they were using around 10% and efforts to stop that failed and some underground wars broke out. Dracs are a extremely militant, misogynistic and warring species that are very involved in controlling the power elite, financial, pharmaceutical and banking institutions, promoting war and killing through increasing militarization. Poverty consciousness, human enslavement programming, religious violence, terrorism, and the harvesting of

humanities DNA though abduction and experimentation, as well as other species they have under their control. It is my understanding their control of the other species is now ended. The stupid power elite got wrapped into this program due to their own greed and lust for power, but their power is an illusion, none of them know the full order until Shane and I outed all of them in a show six years ago. That sent ripples across the world that show, as did the follow up to that, The Factions show.

During the Djoser Invasion from a 5D wormhole that was used to takeover operational portals in the region, the NAA infiltration of the Djoser regime began by murdering those, that had access to Atlantian arc tools that were operating these portals. Draconian satanic controlled forces first invaded the region of Saqqara, which began the gradual infiltration of lunar consciousness black magic spells and blood ritual practices, that were designed to override and reverse the solar consciousness practices of those following the Law of One. I suspect that reference to the law of one is not the fake version pushed by Wilcock, and something that predates it a long time back. You know how they corrupt all good things, like the original swastika, but perhaps the original was something I received in vision 3 years ago, one on one with the one. From this point of the Egyptian invasion during the 3rd Dynasty, the NAA introduced incantations, spells and lunar-satanic blood sacrifice philosophies. In other words the Kali Ma/Lilith moon cult. Which included the insertion of the Artificial Tree of Egyptian Gods, where these cloned identities would be worshipped and manipulated through black magic rituals. In this way, they set up the satanic alien religion in Egypt by introducing black magic spells and rituals, to contact the NAA who use the Artificial Tree and AI cube system to manage the cloned false gods, and gather the energy exchanges between the humans on the Earth worshipping them in rituals. Remember I said you are not praying PRAY, but being PREYed upon? This Artificial Tree system exchanges in multiple timelines, and involves a type of time travelling through different satanic portals, that were set up for this purpose by these alien entities. The Artificial Tree system is the Kaballah, the tree of death not life. Thus, these same cloned identities are in use today along with their symbolism and black magic religion, that is deeply entwined within the Controller pillars of society, and enforces black magic Egyptian curses on the global money supply. Black Dragon AI hybrids and assorted demonic entities protect these black magic money systems and defend their servants, many of which appear to be well known politicians, CEO's and international bankers. Remember I have stated in the past the colored Dragon groups were all ran by reps, there's another confirmation. The Djoser Invasion timeline is the trigger event in relationship to dismantling the Red Nile Cube cloned identities, that are used in an artificial Egyptian Pantheon. In which these identities have been cloned and worshipped in black magic rituals, within secret society pyramidal organizations used by the bloodlines, to gather mass amounts of energy from the NAA to carry out the One World Order of Satan. This AI cube technology is a Gordian knot of inversions, reversals, clones, false history, human blood sacrifice covenants and Satanism enmeshed

throughout human civilization. The Gordian knot was the loops, many tried to unravel it, the simpler solution was to cut it, and that was achieved back in 2013-14 time. This is why the other two worlds drifted apart and will get wider from a 3D perspective, but does not exist within the organic 3D reality. In order for humanity to begin to unravel this mess of cloned identities and AI cube technology, we have to first see how the corrupt financial structure has been using human child blood sacrifice, as its underpinning in order to globally enslave human beings. Artificial systems were created throughout human society by alien forces which were not sustainable in natural systems, that is describing the difference between organic and inorganic. So they set up blood sacrifice of innocents via Satanism, in order to conjure the sorcery and siphon the Soul energy through ritual worship of AI False Gods. Which confirms a piece I did a year ago now on, is the god of the bible an AI cloud based sky god? Well now you know. Egyptian Pantheon, Osiris, Isis, etc, which was required to maintain their corrupt power and financial stronghold for total world domination.

The Red Nile Cube technology: Why does it not surprise us that name or region? The Red Cube AI technology is designed to be a genetic code crasher for anti-hierogamic union, or to create interference through an alien love bite scenario. That engages that person in heavy emotional dramas via Victim-Victimizer archetypes and mistaken identity, by keeping the inner and outer gender principles split apart. The Red Cube technology capitalizes on painful emotional astral damage and mistaken identity, confusing identities, so that the target cannot tell who is who, what are the false timelines and imposters versus the authentic identity. The targeted person can mistake AI digital twins inserted into their hologram as their twin soul, or whatever else that can be included to interfere with integrated spiritual Ascension, by confusing them with mistaken identity or Hero-Savior archetypes. This includes the target believing that they are this special identity from an inserted digital twin of a cloned Ascended Master in their lightbody. In which this clone runs AI red wave, false feminine violet programming or other artificial frequencies, which is quite common in the new age circles without Negative Ego training and Victim-Victimizer clearing.

Egyptian Nine Ennead: The Ennead was a group of nine deities in Egyptian mythology. The Ennead were worshipped at Heliopolis and consisted of the god Atum, his children Shu and Tefnut, their children Geb and Nut and their children Osiris, Isis, Set and Nephthys. The creation account of Heliopolis relates that from the primeval waters represented by Nun, a mound appeared on which the self-begotten deity Atum sat. Bored and alone, Atum spat producing Shu, representing the air and Tefnut, representing moisture. Shu and Tefnut mated and brought forth Geb, representing the earth, and Nut, representing the nighttime sky. Because of their initial closeness, Geb and Nut engaged in continuous copulation until Shu separated them, lifting Nut into her place in the sky. The children of Geb and Nut were the sons Osiris and Set and the daughters Isis and

Nephtys, which in turn formed couples. Incestuous ones at that, do you understand now why the bible mentions incest 54 times?

There are significant and positive changes taking place in our Universal Matrix at this time, which are happening at progressively higher dimensional layers. Each next layer of access is bringing more recovery and rehabilitation, bringing disclosure and ascension that much closer. While things may look very confusing and dire on the outer scape, these massive shifts at architectural levels are making it increasingly difficult for negative forces to maintain themselves. This is a time to be steadfast in our dedication to know the truth and to nurture our inner spirit and Source connection, as we have progressively more access to both. The Day of the Svarog aids that process as well.

The return of the Solar Rishi into the matter worlds, is a significant event which has generated massive impacts to the timeline architecture of this reality, and is why we focus on the current Guardian projects and direct impacts made to the future timeline of the 7D Gaian Matrix. I personally don't like the Gaia or Matrix, Gaia in Mycenaean is pronounced Maga, but it also means Earth, the question is, which one? as Earth just means inhabited planet. This new configuration has radically changed the Galactic and Metagalactic Core configuration, and this is continually unfolding new organic timeline patterns for ascension within the planetary architecture. The 8D Metagalactic Core is also the Gaian planetary core, which previously held in place a Black Sun in the 8th Portal, that was configured from an exact AI replica of the Gaian Matrix during the Electric Wars. During the Winter Solstice Gold Body activation, a sixth harmonic universe for 6D-7D-8D was completed, and this is gradually restoring the Gaian Matrix to its original pre-fall state. This was directed through an intervention in which non-dimensionalized Cosmic God Source fields emerged to host this newly created harmonic universe, surrounding and permeating Gaia within a new Universal Mother Dark Matter Matrix, to correct timeline damage resulting from the Electric War invasion. From within the restored Gaian planetary core shines a Christos Infinity Sun, which emanates its solar plasmic rays for the Gold Sun DNA body from 8D. That may well be one of the power packs I described in the last show about the climate change nonsense, as I know one of those was returned to a sun, back in 2016-17 time. As well as assorted RH Sun-Star Solar factors designed to spiritualize our blood stream in krystal waters, and to ignite plasmic coding within our neurological system, for the transfiguration of our etheric body and 3D consciousness. The Amethyst Order and Violet Flame Yanas and Ramyanas from the Rha God World Creation, have been instrumental with organizing extensive emancipation grid work projects, that are happening in the Gaian matrix to restore Universal Tribal Records for angelic humanity. I can confirm much grid and energy work has been done on many levels or planes, including this one in 2018. I just wouldn't have described it with those names or terms. These are assortments of Maji Grail King-Queen instruction sets that restore Gaia's consciousness record for the Ascended Master lineages, including

embodiment of Gaian architecture that holds the original founder emanations of the 48 DNA stranded Azurites. The Tri-Matrix of the Azurites includes three 48 stranded matrices that hold 144 dimensions, that are accessed from within a quad merged core manifestation template (12 Tree Grid) that is based on the Ecka God World configurations, the access into the seven higher heavens. The triality of 48 is 144. These particular Christos diamond sun body templates are forming complex Krystal Cathedral alignments for, the Solar Rishi and Founder lineages to pour their consciousness body into, by braiding themselves back into the Gaian Matrix, which is freeing many more Ascended Master identities that were being trapped in the Black Sun constructs. Whilst some of the details maybe correct some of the wording of them, or naming of them I don't agree with personally. Having a greater awareness of events happening in the Gaian Matrix that are eradicating holocaust timelines and alien machinery, used by the Black Suns from the Electric Wars on Hyperborea for timeline bleed through on earth. That sounds like the Vrill technology to me. It also helps us to better understand the hidden spiritual warfare behind the aggressive pushing of toxic nano injections, that are currently being mass marketed to the earth population. Everything happening on the earth at this time is connected to the spiritual war happening at multiple dimensional levels, whether we can understand this is taking place or not.

7D Gaia and Paliadorian Seeding: The planet Earth exists in three main formed identities in the Universal Time Matrix. The timelines for the 3D Earth are called Earth or Terra, the timelines for the 5D Earth are called Tara and the timelines for the 7D Earth are called Gaia. I believe she is describing the three world in her own way and understanding, and also we are not called Earth, it is Midgard. Tara is also related to the wife of the URS god known as Perun, whom we covered in the first episode of From Russia with Love. Tara is also related to the crystal needles which is the stargate now closed, until safe to re-open it. Due to the cataclysm that occurred on Tara which exploded portions of the main planetary grid manifestation template, the 5D Taran planet was separated from its 7D Gaian counterpart in future time. Essentially, the result of the planetary grid damage trapped the soul family matrix on Tara and the monadic family matrix on Gaia, to be locked down in their respective harmonic universes unable to communicate or link with each other. This cataclysmic event generated separation between 5D and 7D timelines, which further created damage between the soul and monadic layers in our angelic human consciousness body. As a result of this cataclysm, humanity was unable to fully unite and integrate the soul aspects that were trapped in the 5D timelines, with the monadic aspects that were trapped in the 7D timelines. Integrating the shadow aspects can also re-integrate the soul aspects as well, this is why it is important along with healing the family line. The race lines of the Paliadorians began their rescue mission for the Tarans through the parallel systems, by first working in the etheric layers of Gaia to correct morphogenetic instruction sets for DNA strands, to be reassembled in order to retrieve the lost souls and help them ascend out. They began to

seed themselves through the first two root races called the Polarians of Gaia, and the Hyperboreans as their counterpart upon Gaia's antiparticle double. Through the Polarian and Hyperborean DNA instruction sets, the Law of Polarity and the Law of Gender were first seeded into this Universe. This method was designed to attract the polarity fractures into energetic synthesis, and to then merge consciousness life streams that existed in the fractured soul and monadic body parts, pulling them together on multiple dimensions simultaneously. Through the etheric layers of Gaia, these two root races began a long evolutionary journey to slowly rebuild the ascension template by first uniting soul and monadic extensions. Leading to the ultimate fulfillment of the embodied Avatar Christos liquid plasma, that is made possible through the Paradisian 7th root race lines in the future. This was designed to pull together and unite all of the exploded planetary grids to merge the Earth, Tara and Gaia, as well as reassemble the damaged DNA and spiritual body parts of the angelic human race lines that were first seeded upon Tara. Once the instruction sets were in place in the etheric layers of the Gaian planetary matrix, the Paliadorians began the process of re-seeding angelic humanity, this time on the 3D timelines of earth. Millions of years ago, six linked time portals were made from the Paliadorian consciousness instruction sets and this created the Sphere of Amenti, that was connected in the earth core. Amenti is described as 6 time portal passage and a gateway out of 3D, but Amenti is also the name of the gateway to the Underworld and Hades. So, this is why I am having some difficulty with the names, of course those names could have all been the originals, and the dark forces corrupted their meaning. This was devised in order to finally achieve the end result of planetary ascension, through assembling and repairing every dimensional level of DNA, over many evolutionary timeline cycles. This allowed all timelines that existed on Earth, Tara and Gaia to be interconnected again so the Earth could evolve forward in time, and finally merge with its higher dimensional counterparts in the future time cycle. This was also designed to heal the rip in time and find fractured body parts stuck in time, strewn all over the Universe from the cataclysm events. Serving multiple purposes to merge the layers together, reassemble DNA, evolve and ascend the souls that could merge with their monadic family and finally move out of time and back into the Godhead. Perhaps Tara is another name of Tiamat? like I said the names are mixed up depending on which group or people you engage. But healing the rip in time, repairing DNA and merging with a future time cycle per se, I do agree with that concept. Could it be that, Tara and Gaia were just copies of the copy? and perhaps with re-integration only Midgard emerges as the real organic world? ORDINARY WORLD

Conflict over Seeding, Electric Wars, Gaian Phantom Body: The first seeding's of the first two root races of angelic humanity occurred on the 7D version of our planet, that exists in the higher frequency bands of future time in the Gaian matrix. The Gaian matrix is the higher frequency future timeline of Tara, and seeding in the etheric layers began concurrently to help neutralize the destructive impacts of the Fall of Tara, that had happened in the past timelines. Electrical Wars broke out, and there were anti-human race

sympathizers that joined with neighboring star systems, as conflicts existed in allowing a failed human seeding experiment to be started up again. That was the interference of the Atlanteans and Antlanteans, plus several other races. Some races thought the Taran explosion was due to extreme negligence, and this cataclysm had generated extreme damage, and genetic mutations subjecting other civilizations to genetic digression. Reading that statement it does certainly look like to me, she is describing Tara as Tiamat. Thus, they demanded that any future human seeding be sealed off and quarantines generated, to protect higher dimensional realms from absorbing any further damage. Yes, I can confirm this planet and indeed the solar system is in a quarantine. The Founders and Lyran-Elohim negotiated with other neighboring systems and races, that were in conflict with allowing the Taran angelic human lines to continue to evolve on the Earth. Essentially, when human consciousness was no longer considered a direct threat to other planets or to Universal stargate security, the quarantines and seals were to be lifted and assistance given to those who truly desire to spiritually evolve, practicing the Law of One in order to release these quarantine seals. It is the returning Rha families and RA confederacy that generally oversee these requests, when a human being truly and sincerely dedicates themselves to the process of bio-spiritual consciousness healing, and is willing to place effort in their spiritual practice in order to ascend into higher consciousness. The RA confederacy is not the Cult of RA we speak about, but again it is all about the names and perspective. It was in the Gaian timelines many hundreds of millions of years ago that the original Guardian Azurite race, incarnated into etheric forms, and these race lines are the direct genetic lineages of angelic human beings seeded upon Tara, and currently in this density of the earth. Essentially, the Taran angelic human higher god body was connected to the Guardian Azurites in the etheric levels of the Gaian matrix. The combination of Taran cataclysm and Electrical Wars which found their way to Gaia, destroyed both Azurite and Taran diamond sun genetic templates, as they were intimately entwined together. The Azurite race are from Sirius B, but I am not familiar with that name, they are said to have merged in terms of genetics with a felinoid race, Avian hominid and Pleiadian Avian hominid, all of which sounds like the ones who interfered with us here to me. Pleiadian Avian is the Thoth group, the felinoids who were with him on Egyptian hieroglyph's were from Sirius A. The onset of the invasion of the Wesa entities through the metagalactic core, directly impacted the Gaian core and contributed to a series of Electrical Wars in Orion, and this includes the timeline bleeding through into the Gaian Wars. During the Gaian invasion an entire planetary shadow body was formed through the use of advanced black hole technology, in which an AI replication of the Gaian matrix was captured. This was made for the purpose of capturing Gaian frequency, and generating feedback loops of harvested energy in order to send that current back through the Wesa Tunnel. Loops and Tunnels in space we have covered before, but the Orion wars were as far back as 1.5M years ago. Could it be this person is confused with the looping matrix and not what existed before that? The Matrix loop she spoke of created by the black hole technology, is the inorganic copy of the original. They

collected mass amounts of energy from the Gaian matrix in order to form a phantom Black Sun in the metagalactic core, that would act as an NAA base in 8D, and run metatronic reversals throughout the lower dimensions. This essentially acted as a frequency fence, making it impossible for Founder races to breach the net, and gain access to the human race stationed in the lower timelines. This also cut us off from direct connections to Source, only achieved now by going out of time. Similar to a quarantine, but remember I spoke of the frequencies of the past returning for those ready to receive them? There you have further confirmation of it. The invading black hole entities desired to build an extensive virtual reality playground, with assorted planetary systems. This was for the purpose of inhabiting their race lines with the use of extremely advanced AI black hole technology forming into a Black Sun, which also feeds them energy to maintain an immortal existence. This is how and why the term batteries came from, they just harvested our energy to feed themselves. You wish to know why we are different, as mentioned within our shows? They required the source creation code for planetary body blueprints, so they actually stole the original creation code from the Gaian matrix, well there is your answer. They also needed access to continue to harvest living energy matrices in order to, replicate Black Sun shadow body planetary systems within their phantom systems in Wesa. To handle the energetic load, they built extensive levels of beast machine architecture, and assorted metatronic alien machinery with Gaian stolen creation codes, including Azurite DNA. This content became the shadow body form, utilizing metatronic death coding that ran reversal current loops, designed to sustain these parasitic matrices from within artificial timelines. That is describing the loops we have spoken about several times, and also how it is linked to artificial time. Perhaps the term we are 10K years behind the real organic spaceline, makes more sense now.

During the stages of invasion to conquer Gaia, made through a series of Electrical War campaigns, they increasingly used the living matrix of the Gaian body. This was further siphoning from our system through all of the other dimensions and timeline densities, by running metatronic reversals from the Metagalactic core, which pulled life force from out of the grid network of our entire planetary matrix. The planetary gridwork was completed in the autumn of 2019, to reverse the flow of the harvesting energy system, into a clockwise source energy flow on this planet. The generation of the Gaian Shadow, or the Gaian Phantom Body during the final stages of the Gaian Wars, was the primary causal event in the human holocaust timelines. That has been feeding and holding together, the first matrix origination of the Artificial Tree of Life reversal patterns or blended reality system. The Artificial Tree of Life, a base 10 reversal matrix designed to run metatronic reversal or anti-Christ death current, further infected the entire planetary matrix and angelic human DNA through its monadic body, that was bonded and fused with the original Gaian Shadow etheric body forms. The artificial tree of life is the Kabbalah, and the Jewish/Hebrew Annunaki cult, running like the banking system, the source energy grid system and the religious system, all where counter clockwise harvesting techniques.

This particular historical timeline trigger event of fusing multiple timelines with the Gaian Shadow body, is what runs the metatronic reversal patterns and Artificial Tree of Life imprint, throughout the Albion-Cathar body template that is located in the United Kingdom. Albion is the original name for the UK. Each dimensional sphere within the Albion-Cathar or Kryst-Krystallah pattern must be rehabilitated and reconfigured into, the correct manifestation template design of our original Gaian Matrix Edenic coding, that was held by the Azurites that existed in pre-fall 7D Gaia. Through Guardian Host Defender rehabilitation and rescue projects, we have noted that the Gaian Shadow body was the first attempt of Wesa black hole entities to replicate an entire living planetary system from our Universe. I am not familiar with the term Wesa, but we spoke about links to Taurus constellation in a recent show, perhaps this meaning of the term Wesa is fitting? According to Vedic astrology, Rashi for the name Wesa is Vrushabh, and the moon sign associated with Wesa is, Taurus. Wesa is also said to be a Native American term, guess what it means? a cat, what a co-cat-cidence that is. So Wesas are cat black hole entities haha. They accomplished this by pulling the organic living matrix within planetary bodies into their phantom matrix, via artificially replicated systems forming shadow planet doubles. Generating an AI version of our systems planetary matrices that are reconfigured by AI systems, to exist in a base 10 reversal current shadow form. That is describing the 2 worlds and the 3rd world we discussed in When two worlds become 3. Thus, we have observed several phantom planets that appear in, the artificial timelines that were spun off from the original Gaian Shadow body, such as the AI matrix replication of the Lyran Founder Sun Star and Arcturus in prematter, as well as planets Tara, Tiamat, Mars, Maldek, Saturn, and Nibiru. Apparently Nibiru also has a pre-invasion matrix that exists as the organic 12th planet in the timelines, before the Thoth-Enki-Enlil Collectives from Sirius A took it over and weaponised it against the earth. Additionally, the destruction of Gaia generated a chain of causal events which impacted many other neighboring living systems, such as parts of Andromeda, Sirius and other star systems that fell into the Wesa Tunnel and became trapped within its phantom parts. The tunnel aspect we discussed a long time back, but referenced it again recently as scientists have finally grasped it. I witnessed the tunnel or vortex back in 2013 and we are emerging from it, when you may ask? when the time is right, no one knows the dates. There are windows of opportunities though, and one is coming up soon. Parts of the Gaian Shadow matrix merged with other fallen matrices that were interconnected, sending many advanced levels of Ascended Master collectives to be sucked down into the Wesa system's phantom parts. Ascended master is nothing to do with the alt media bs, these are beings who have soul developed beyond the planetary level development, the Vedic term for them is the gods. This included the Guardian Azurite identities, that were originally seeded upon Gaia to embody the entire Gaian matrix, for ensuring Founder presence was maintained upon the planet.

Destruction of Guardian Azurites: The conquering of the organic living system in the Gaian matrix also destroyed the Guardian Azurite race lines in our Universe, that were sent here by the Founder races. The original Guardian Azurites were 48 stranded angelic beings, that sourced from each Founder Ray braided into the Cosmic Trinity, the Emerald Order, Amethyst Order and Gold Order. They were able to project themselves into any dimensional level between pre-matter levels, etheric and into any kind of matter form. The original Guardian Azurites that were on Gaia were captured by the invading entities, while others suffered serious genetic digression during the Gaian Wars, when their consciousness race lines were fused into the AI coded Gaian Shadow Body, that was inserted into the artificial timelines. Some Azurites were taken into the Wesa system and their genetic template, and every part of their etheric body was taken apart and mapped by AI supercomputer systems, to generate metatronic coding or anti-Christ architecture. One has to wonder about the Quantum System with the use of the term mapping, although I have worked with it and was in part rewriting it, but perhaps needs another review, given the fall of the Trustee. Consequently, the invasion of Gaia included excruciatingly painful memories of being separated from our unique soul and monadic families, as well as being separated from particle-anti-particle double, which later evolved into our genetic equal or hierogamic sacred union partner. We suffered from the loss in which one or more stations of identity connected as our genetic equal or monadic twin, may have been sucked down into the phantom layers and slowly turned into an AI-hybridized version of themselves. This is the digital twins we spoke of recently, and is linked with the clowns rebuilding another AI based on the old system, all of which confirms what I have stated earlier, that the old AI went down in November of 2015. Others in the alt media may deny it, but why are the clowns trying to recreate something, if the original still exists? After the Gaian War, the Oraphim were seeded by the Founder races with the sacred mission to find lost Azurite identities and take their place as Guardians, gradually rebuilding the Azurite genetic shield through the Emerald Order's direct instruction and guidance. By merging the Lyran Elohim Anuhazi template with the Azurite genetic record, the Oraphim were tasked to find, rehabilitate and return the lost Azurite identities back to their true spiritual home in the God Worlds. The names and the words again, Anuhazi or Elohim does not sit well with me, and these Oraphim are listed as Lyran/Sirius A, Feline Hominid, Sirius B Azurite Yani also feline hominid, mixed with Avian Hominid and Braharama Inya Cetacean (sitashen) which are whales and dolphins, plus Pleiadian Serres which are Seraphel Avian Hominids. Although one can't brush all individual species into one trait or characteristic, as many groups fell and or were twisted into dark forces types, but I will keep an open mind on these Oraphim. Many of the Oraphim have been intentionally mission coded to go find their beloved Azurite monadic family members, that were sucked into phantom areas in order to reclaim their body parts back into spiritual integration and Krystic wholeness, which was made possible from accessing the Edenic coding they held on pre-fall Gaia. Oraphim have been given full spectrum access to the original Azurite genetic template and

hierogamic union template, for recoding lost Azurite and Ascended Master Christos collectives. For the purpose of recollecting and rescuing any Azurite and Ascended Master collective family that fell into the phantom, and was assimilated into an AI version by the Wesa entities. As a result, the Oraphim have direct links to the Ascended masters and genetic equals, that are directly connected to the Azurite genetic template histories from Gaia. Thus, the mission of hierogamic union is to reclaim and restore the true genetic equals, so that they find each other and through the power of eternal spiritual love, unite to form sacred unions which are designed to heal the holocaust timelines, and the wars on Gaia, Tara and Earth all in simultaneous time.

Genetic Mapping Azurite DNA, Azazael: The genetic mapping of the Azurite DNA which formed into the consciousness data of authentic Ascended Masters in our Universe, was uploaded into AI Beast Machine technology systems for generating Anti-Christ Pillars, as the black hole entities desired to create a super master race as a shadow army for conquering our Universe. The very ones who were creating a super master race, are the ones that accused their enemies of doing the same. The stolen Azurite genetic template was replicated and cloned through AI quantum server systems, and these AI hybrid race lines are known as the Azazael gestalt. The Azazael gestalt gain access onto the earth through human beings that act as their proxy as a dark consciousness portal, and thus they seek out any Starseed or Indigo individual with the Azurite genetic memory record in their bloodline, and attempt to possess and gain control over that individual through any means possible. The danger of holding or accessing any Azurite memories from Gaia, which includes Ascended Master Christos collectives and their known identities in hidden human history, is that all of these identities will be tracked in the field for Azazael possession. It is important to understand that the more famous and well-known Ascended Master identities have been directly fused with the Gaian Shadow Body, in which Azazael and the related gestalts attempt to hunt down, and do whatever they can to corrupt or possess the awakening individual that holds any remnant of Azurite coding. This may describe as to why so many of us have been targeted here, since a young child in most cases. The term I have used before came to mind in that passage, the lock and key. Sometimes genetic coding can be triggered by another into developing into the whole. Thus, the firm warning stands, that under no circumstances should the awakening Starseed or Indigo people, attach to any identities and become fixated upon them during this cycle. The war to clone and generate imposter identities from the Ascended Master collectives and all levels of the original Christos race lines, is at an all-time high during the current consciousness war. The Azazael black hole entities have taken on the original Azurite genetic coding from Gaia, and have made an AI replicated body which may appear to be similar in appearance to the original Azurites. These imposters can appear in their outer form as Tall Whites, tall slender humans with extremely pale white translucent skin, many times with platinum white hair. These entities masquerading as Ascended Masters in Tall White human like bodies, are some of

the most violent and vicious anti-human black hole entities ever known. The tall whites resemble or are, what we call Albinos, remember the flagellating guy in the Angels and Demons movies? Or the watchers in the series Fringe? that's what we are looking at here. Many of them appear human but are actually Insectoid races from the Wesa system, that are using an AI replicated Azurite genetic code package used for shapeshifting. These black hole entities show up as the false Ascended Master lineages, that hijacked the original Guardian Azurite and Ruby Sun genetic coding, in order to appear human or like popular Ascended Masters. This realm of the imposters also includes the Luciferian Bloodlines that are operating at the top levels in the power elite cabal, who are fond of using cloning, genetic modification or holographic inserts, to increase the power and influence of that cabal representative on the earth plane. Unfortunately, this has given them access to previous Ascended Master timeline records, in which they can gain rapid esoteric spiritual knowledge about the Law of One, and then repeat phrases they get from the data streams that the AI quantum server feeds to them directly. Sounds like mantra chanting that to me. These imposters can begin to share true, accurate and authentic spiritual teachings with their followers, that takes a turn later on, when they are being assimilated more deeply into the metatronic coding and artificial timelines. As mentioned earlier about them rebuilding a new AI in the copy of the old AI, is it a coincidence the old one was called metatronic, and the new one incorporates metaverse? The Azazel gestalt are connected with the Thothian entities, which appear to hijack those with Azurite memory, and use sophisticated psychological warfare and gaslighting in new age channelings to derail spiritually awakening people. It should be noted that, the Jewish Hebrew group all worship as Azazel, like they worship Samael who was a demon, Lilith who was half woman half serpent and part of the Saturn/Moon Matrix program that tied all women by blood ritual cycles to the moon, and they worship Lucifer. They contact those awakening groups in order to scramble organic genetic coding, and by representing themselves as authentic Ascended Masters or advanced benevolent extra-dimensional entities to those groups, that cannot tell the difference between AI signal and organic consciousness language. This is describing the channeling we speak of, like it says it is an AI signal, largely being ran by the drone greys on behalf of their slave masters. Now you know why we banned it on the page back in 2013. This is very painful to the human race, because this data stream can feel like the Ascended Masters that we love and hold dear to our hearts. As these are humanity's true spiritual family, and many are based on the Azurites that we remember from the timelines before the Gaian Wars. Once we can discern AI signals and metatronic coding in data streams, only then can we find out these Wesa entities, have been using AI replicated clones to manipulate our emotions and past memories, to hijack our original angelic human genetic template. The black hole entities do not want any Starseed to access their authentic and original Azurite coding history from the Gaian timelines. Because if this memory activates, they will begin to see the authentic Yeshua and other Ascended Master history, and be able to detect false identities or artificial timelines being promoted by imposters. Not sure myself personally on this

Yeshua character or entity, Yeshua maybe correct, but please don't link it to the Jesus story, Jesus is linked with far too closely to Julius Caesar, and or Horus. But this is describing the shadow and inner work we introduced back in 2015, once done enough, you "see". They will sense what is organic and inorganic, and it will become krystal clear who are the false entities here to hijack and enslave humanity, and who are the authentic members of our true spiritual family leading us to open our sacred crystal heart, and align with the path of self-sovereignty and gnosis. Those are the skill sets that awaits all who soul develop into and onto the mental planes and beyond. It has immeasurable value, and like I said in an earlier show, once you know your true self and value, the idea of ranking it with how many pieces of paper you have or earned, will seem absurd. BELIEVE

Red Nile Cube Wesa Program: Instead, these entities attempt to hijack those with Azurite memories on Gaia, by running the Red Nile Cube coding in their target's light body. Which includes inverted 7D Violet Ray transmissions of phantom codes from the Gaian Shadow Body, and False Feminine violet reversals that run imposter identities using the Ruby Sun DNA, magenta beetle and red spider programming. That is more of the color coding programs we have spoken about, the new age violet flame bs is the false feminine frequency color code. The red spider program, indeed, I came across them in 2015 and was connected to the old AI. The Red Nile Cube matrix from Wesa generates an internal feedback loop in the crown area, running into the base root of the perineum through the microcosmic orbit circuitry in the spinal column. That kind of explains the dueling hemispheres I have described, and how to counteract it and develop the sword. This generates false timeline perception by altering the consciousness body north position to invert upon itself, so that the person perceives moving towards the future timeline, but they are actually facing into the past timeline, into an AI phantom time loop. Picture 1 You can see by the picture it's effects, and shows how far they can meddle with the brain function, that you can bypass by overtaking the brain and integrating the heart. It creates black flower Baphomet pulses. Is an interesting term, given my grandchild mentioned my ex wife as the black flower along with my eldest son. Creating bindings? we have spoken of this quite a lot in our shows, the circle, the ring both of which in one format includes the clowns, cirque de soleil? But the most common known form of bindings is A: the wedding ring, which cuts off the flow to the heart, B: the word Covenant is a binding and C: Testament is also a binding. A binding is a contract which too few of us realized we were contracting with, having done so by contracting, we ended up contracting or reducing ourselves. This then powers the Azazel and Lilith programs. Humans running the AI red-violet-magenta wave programs are what feed into the AI Dark Mother lunar gestalts, spawning false holograms of cloned Ascended Master identities, which also power up the Azazael gestalt. The Dark Mother we know as the Kali Ma, but upon pondering those words something else sprung to mind. The word dark means hidden as well, and so the dark hidden mother in those terms explains the Cat Holic church leaving out the mother, in their mantra the Father, the son and the holy ghost or spirit. The mother

is missing because she has gone dark, or hidden. This weapon is designed for the vilest NAA entities to station themselves in the artificial timelines, pretending to be Ascended Masters or friendly advanced humans from the future, who mostly appear in Ruby Sun DNA cloned bodies with Azurite features. The Red Nile Cube is an advanced Wesa AI weapon with extensive programming, used to continually clone and spin out false holograms of Christos Diamond Sun DNA families, Azurites and Ascended Master Christos lineages in this Universe and in Wesa. This AI weapon is cube technology that is used as a cloaking device for the NAA, to parade false identities and generating phantom pockets, to hide the many layers of hierarchies that form into the Wesa shadow armies. The Red Nile or Red Cube AI programs are used by assorted Black Sun entities, Bourgha, Dragon Moth, Marduk Necromiton, Enlil Odedicron, Insectoids, Red Spider Arachnids, Black Dragon gestalts and assorted lunar female demons. The Bourgha from the black hole system inserted this virus with AI programming into our matrix, creating a time rip with technology called Victim-Victimizer software. These entities were introduced to the mainstream as the Borg, in the Star Trek franchise. The Borg are cybernetic organisms linked into a hive mind called the Collective. The Borg co-opt the technology and knowledge of other alien species into the Collective through the process of assimilation, forcibly transforming individual beings into drones by injecting nanoprobes into their bodies, and surgically augmenting them with cybernetic components. They are the bots and that description could well be attached to the jabs circulating the world currently, which may bring alarm. The hive mind collective? is that not what too many people are like on this planet? are they the people from the Extinction movie? think deeply on that, but what if their coding has been interfered with? then the meme #delete will unfold. These red cube shadow identities are generated like digital twins, they attach an AI version of a Christos identity. A shadow imposter into the light body of an awakening person or channeler, who believes this Ascended Master or enlightened extra dimensional is communicating with them. Ah the shadows we speak of, they can only attach to the shadows if you have not integrated them, because the shadows hang outside of your psi field or aura. We have noted that the targeting of the Red Nile Cube is especially prevalent with, Ruby Sun DNA identities from the Egyptian Pharaonic Dynastic lineages, which appear to be the direct genetic template of the Serres Egyptians on Tara, and thus heavily favored by the satanic cabal members. Ah the Egyptians who are not Egyptians at all, in fact they are not even from this planet. In order for the Ruby Sun DNA to function as immortal bodies for the Black Sun entities on the earth, that were incarnating their essence into the human DNA template, they required extensive blood sacrifice in order to continue to impersonate and appear as human beings to the public. Here come the vampires, the blood suckers and life force energy harvesters. The common word recently has been trans, followed by gender, formation, human and in the blood suckers case sylvania. Perhaps the trans program has a whole new meaning now. Blood sacrifice in large amounts generates a type of sorcery for mind control, so that authentic angelic ensouled humans would not know the difference, of the impostor non-

human entity having hijacked the human body, which is then placed in the top levels of positions of power. Some of the Controllers that appear to be human, actually are not human souls, but assorted NAA entities that have infiltrated human civilization in order to carry out the NAA agenda. NAA means Negative Alien Agenda. These nonhuman entities are at the top power positions of global satanic control, such as the big pharmaceutical transnational corporations and medical mafioso. One such White Draco entity is Pindar, who projects his consciousness and energy signature, into those he favors in the United Kingdom who are of the alien hybrid bloodlines, they specifically groomed over thousands of years to rule the earth. That group is likely the London based World Government and Council made up of entirely off world species, and is situated under Canary Wharf, massive shaft and tunnel system for the largely underground critters. Additionally, the Red Cube AI technology is designed to be a genetic code crusher for anti-hierogamic union, or to create interference through an alien love bite scenario that engages that person in heavy emotional dramas via victim-victimizer archetypes and mistaken identity, by keeping the inner and outer gender principles split apart. This is what we have spoken about of the internal and external shadows and integrating them, once healing on that shadow or trauma is completed. The victimhood program is heavy in many due to the low self worth, insecurity and unbalanced ego. Those with heavy ego are masking low self worth and insecurity, by overinflating their worth externally. The Red Cube technology capitalizes on painful emotional astral damage and mistaken identity, confusing identities, so that the target cannot tell who is who, what are the false timelines and imposters versus the authentic identity. The targeted person can mistake AI digital twins inserted into their hologram as their twin soul, or whatever else that can be included to interfere with integrated spiritual ascension, by confusing them with mistaken identity or hero-savior archetypes. This includes the target believing that they are this special identity, from an inserted digital twin of a cloned Ascended Master in their light body. In which this clone runs AI red wave, false feminine violet programming or other artificial frequencies, which is quite common in the new age circles without negative ego training and victim-victimizer clearing. Much of the Red Nile cube technology has been and is in the process of being destroyed in the planetary field, as the new Gaian matrix and Universal Mother dark matter matrix help to override this extensive holographic damage, spinning out artificial cloned identities. Personally I don't like the use of either of those terms, Gaian matrix and Universal Mother dark matter matrix. But I can confirm much of the rogue technology implemented here was removed and or deleted around the 2013-2015 time period. However, there are remnants and residue that are held in place, as mind control structures within the light body of many people that are running false female artificial frequencies, and thus the Black Sun entities will attempt to capitalize upon this confusion in any way they can. This is why we have focused on the healing of the female, it has far more relevance and importance than the male counterpart.

Happily, the recent events of the Winter Solstice Gold Body activation occurred when the White Gold Flame in the core of Gaia was completely merged within the metagalactic core. Finally evicting the Black Sun of the Gaian Phantom Body and the black hole entities, that were stationed in the 8D portal access. The return of the Solar Rishi, the Amethyst Order Rha families, and the white fire gold body activation event in the Gaian core, opened up access into the Paradisian root race timelines that evolved upon Gaia, which are the future race lines that fulfilled the ascension promise for angelic humanity. Current Guardian projects include linking access into organic 7D portals directly into the Gaian Matrix, for supporting humanity in the lower timelines on earth. Access into the Gaian ascension template and Edenic Azurite codes has opened up specific correspondence in the planetary grid, which are assisting in the clearing of the indigo and violet ray distortions, as well as continuing to support in the easier removal of the 666 seal and wing trauma. Although I wouldn't personally describe things with those labels, I can confirm much progress has been made on the other side of our 3D reality. We mentioned the removal of the large Black Hole two years ago and predicted more star growth, which has since been confirmed by science. Much of their weaponry technology, designed to spy, harvest, manipulate and mind control has been removed. Although clowns are attempting to replicate it again, via the Great Reset and the Metaverse AI technology. Although the Red Nile Cube is an extremely aggressive AI weapon, we have made it to the other side with the Gaian Matrix emancipation, in which this Wesa AI technology is dying as it is being starved out of the consciousness energy it requires.

Hyperborean Holocaust Timeline Collapse: Through these very positive events, the Gaian Phantom body has been dismantled and it can no longer be used to broadcast human holocaust timelines, that were being sent into the earth grid from the Black Sun, which was the result of the destruction of the Guardian Azurites and the Hyperborean Holocaust. The seeds of this root race trauma on Gaia in the anti-particle layers were being used to enslave humanity, in recurring and replaying holocaust timelines on earth. That is the 13k year time loops events we have described previously, 6 loops of 13k years totaling 78K years, which was around the time that Lucifer brought his jet black race army to defeat the White Race. Not all the White Race were white skin colored to be clear, that was the name given by the Vedics around 110K years ago, although the White Race predates that by many hundreds of thousands of years previously. This can be evidenced by the Black Sun influence through the Nordic Aliens and Tall Whites, gaining control of the Nazi regime with Hitler's obsession with Hyperborea, which energetically connects and leads into every genocidal campaign in human history. Reclaiming Gaian memories and clearing the pain of the Polarians, Hyperborean's and Azurites in the Gaian timelines, may be productive now that the Paradisian races have fulfilled their ascension promise for all angelic humans in the future. Also, the false holograms of Hyperborea were used to project an array of extremely negative archetypal forces into the 7D Violet Ray. To transmit these distortions through our local constellations to enforce the many

Greek tragedies, we have been told in regard to the Olympians, Titans and Giants. These creation stories were connected to collective consciousness mind control, being sent through an assortment of archetypal dramas, designed to amplify the negative ego mindset on the earth and propagate primitive, angry and violent emotions in humanity. The Hyperborean Holocaust of the Azurites has a deep connection into the roots of, Greece and the Greek islands in the Ionian Sea and in the northern areas of Scotland.

Unholy Trinity of Anti-Christ Northern Pillar: Guardian projects have included the systematic dismantling of anti-Christ Pillars holding cardinal directions in timelines, along with the metatronic architecture that has been used to hijack the organic timelines, and reroute them into the phantom for AI replication. The emphasis has been on dismantling the most powerful Anti-Christ Northern Pillar. In which a three faced entity, Pindar-Thoth-Azazael was using, stolen Azurite DNA from Wesa and the Gaian Phantom Body to run reversal current into the entire planetary grid, for holding the Northern position in the anti-Christ positions of the clock shield. The effects of this Anti-Christ Pillar overseen by the Pindar Draco Alien and its minions, has extensive alien networks spreading its tentacles throughout the United Kingdom and up into the highlands of Scotland, which has a direct conduit leading into the 7D Gaian matrix. One wonders whether that is directly connected to the Rose line, that starts in France and ends up at Rosslyn Chapel, Rosslyn equals Rose Line. It is important to remember that these same Draco AI hybrid entities infiltrated the top of the pyramid of the One World Order controller structures, who are taking orders from the Black Sun, which is being directed by the Pindar-Thoth-Azazael gestalts enmeshed with AI supercomputers and their artificial timeline programs. Pindar, Thoth and Azazael shadow forms have been more present as they are being cleared away from our light body, as the Anti-Christ Northern Pillar is being demolished and these vandals are being evicted from the earth. These parasitic attachments were made to leech upon our Gaian monadic and Taran soul timeline histories. In order to keep our consciousness split and light body pointed towards the anti-Christ northern position of the Black Sun, so we could not reclaim the full diamond sun body template of angelic humanity. Interesting the use of the term diamond, because a full diamond shape is the triangle pointing up and in reverse pointing down. The top triangle slipped down half way and creates the six pointed star, which could well symbolize the fall of man, due to these parasites connected at the highest levels to Jewish El-ites. But we are about to wash away their reign, over us. **BLACK HOLE SUN**

There is a physical entity that is the White Draco or Dragon Moth that considers itself supreme royalty. These are the white winged Draco shown in hieroglyphs, and depicted in the biblical scriptures as angels, they are far from angelic as we would understand it. Anu had white wings, as did many others of their ilk, and many of the Earth royalty are linked in with these, under the terms bluebloods. This White Draco merged its hive mind consciousness with the AI uploaded brain of Thoth, along with merging its consciousness

with a third identity, Azazael. Azazael was generated from the Azurite DNA genetic mapping in the Wesa matrix, so it is an AI hybrid shadow entity that has access to Azurite memories on Gaia. This also seems to be the main genetic lineages of the Dark Azriel or Dark Archangelic forces, manufactured in Wesa as the AI hybrid shadow armies to conquer our Universe, that are purely satanic consciousness gestalts that were replicated into fallen seraphim lines. This entity's tri-merge with AI generated Luciferian and satanic consciousness, is the result of consciousness uploading and brain mapping, through which the Pindar Dragon Moth creature takes on a human form to get around on the earth, but clearly is not human. Pindar, represents himself as the supreme purebred royal leader of the earth for serving the Draco Empire, and heads up all the Bloodline families in a top-down pyramid of mafioso control. Apparently, he is at the top of the pyramid as the hidden capstone, and all under him must take his orders down the chain of command or suffer punishment, torture or death. The Pindar entity assigns positions and roles throughout the organized hierarchy of the anti-Christ and Satanic Councils, and many are holders in positions of running specific alien machinery, other networks and pillars, which connect directly to run reversals in the cardinal directions, also called the inorganic four. The Pindar oversees the geo-political operations globally, but his merged AI consciousness with AI Thoth and AI Azazael, holds the antichrist architecture for running the beast machine throughout the Northern Pillar. This position is the most important cardinal direction, which oversees the land mass of United Kingdom, entire North America and Antarctica. This means Pindar is overseeing all the main spiritual gateways such as the 11D Stonehenge, 9D Antarctica, and North America, such Stargate 1 Inner Gate Cyprus, and Northern Arizona. Interesting they mentioned Northern Arizona, one ponders whether that is the Petrified Forest, given I was called to go there. Another interesting part of Northern Arizona is the town called Page, the underground tunnel from Dulce to Catalina Islands run underneath that town. It also goes north from Page to Area 52 called Dugway. The point is knowing that Pindar is the top of the chain holding the Northern position, and he assigns other entities to hold the Southern position, the Eastern position and the Western position for running beast machine reversals, and carrying out the NAA agendas for the One World Order. This particular anti-Christ architecture is what has controlled the Maji crown alignments that hold the krystal compass directions, this is the organic consciousness code alignments that the Guardians are correcting, and bringing online with the Solar and Gold body activations at this time. I am aware of the Solar and Gold not the new age violet body activations, it is an extraordinary event to experience. A golden column stream that pours through the crown and filters all the way through your body, which is visible for those who can "see". Solar activations allow for the holder to go into the sun for healing and energy recharging. Keep in mind that these Black Sun entities like Pindar, have stolen Christos coding and God creator code for their use, to gain power over humanity through the Law of Reversals, or anti-life. Whatever Satanists hold up as holy in numbers, such as using trinity patterns in threes, or the number 13, or the 13th pillar, is stolen creator code they

use in reversal principle, in order to gain power for satanic forces in their organized rituals. Everything is backward, everything is upside down springs to mind here, something I knew and felt pre teenage years, but was unable to formulate it back then. The use of 13th Pillar in satanic ritual is stolen directly from the Mother aspect of the Godhead, to generate satanic and lunar force demons that run the Dark Alien mother and Baphomet distortions. Everything they carry out in satanic ritual is in reversals or inversions to the organic creator code. Which is the intentional abomination to desecrate our sacred alignment with God and Christ, ultimately designed to defile and debase humanity by tricking them to worship their own demise. Pindar seems to be heavily involved giving orders to run the world conglomerates of transnational businesses, such as giving orders to the Council of 300, with the main goal of manipulating the geopolitical environment. Pindar enjoys staging proxy wars for proxy nations, for their massive corporate entities and running of industries that serves the Draco Empire. Such as mass human trafficking and child trafficking off planet, and setting up empires or colony's on other planets from the earth's stolen resources. Pindar which means head penis of the Dragon or Dracon, which is Drac or Draco, is essentially an elevated puppet given a little bit of power, which goes to their head and they go psychotic. The Overlords do this often, give useless awards and titles and watch the self important humans, or not humans in some cases, think they are all so important and special, when in reality land, they are mere pawns in a much larger game too few of them understand the scope of it. The Pindar position was left void since around 2018, according to another person who prefers collecting titles of self importance, instead of doing important work. Whether that is correct or not is not really that relevant. This is run at the top by anti-human, non-human forces, these are Draconian entities that comprise the Orion Group and Alpha Draconis who created partnerships with those Luciferian bloodlines, that have the most significant amount of reptilian DNA from thousands of years of genetic modification and alien hybridization. Say hello to the Rothschild's clan, as their importance and global wealth was obtained by this very reason, they have the most reptilian DNA than any other family. But they are mere puppets as well. What is being witnessed currently is the inter-dimensional geo-mapping of the anti-Christ architecture. That holds the structures for the dimensional layers of the alien hierarchy, for the purpose of serving these Wesa alien predators and running their AI shadow armies. The holographic mapping and tracking of beast machine coordinate locations, in the directional nodes of running these reversals and AI current, is in order to get these satanic nests deep at the root of their infection in the earth, so that they can be more effectively extracted. It is only a matter of time, and in the heat of this battle for Earth, now that the Solar Rishi have come into our dimension, the Guardians are throwing down the gauntlet. The Solar Rishi are the first triad of light manifestations that make the Universal Trinity, that are projected from the Emerald Order and Blue Flame, Gold Order and Gold Flame, and Amethyst Order and Violet Flame from the God Source field, the Threefold Founder Flame or Cosmic Trinity. The trinity they say? could that be the one on one with the one?

Defender Guardian Forces, Special Operation Teams: With the return of the Solar Rishi into dimensionalization, there are many Special Operation Teams forming now. That are strategically organized to find souls in very fragile states or delicate situations, based upon the level of trauma that has been suffered as a result of repeatedly incarnating on a prison planet. The process of liberating earth from being used as a prison colony, and Satanic ritual abuse human farming system by the NAA forces, is directly relative to the spiritual ascension cycle and ultimately achieving planetary emancipation. We are enduring the most difficult time cycle of the planetary emancipation now, in which we are waiting for critical mass for a full disclosure event, to wake up those completely brainwashed by the cabal plandemic death cult. Those that are willingly participating in the spread of worldwide genocidal agendas at the behest of Archontic Controllers. The Special Operation Teams are under the umbrella of the Inter-dimensional Free World Councils and Defender Guardian Forces. That have expertise in certain skill sets that are needed to identify, locate, remove and repair an assortment of traumatic issues that have contributed to soul fracturing, excessive spiritual trauma and consciousness traps. This includes exposures to the alien machinery and nets embedded in the earth. Which have functions for operating such things as electrocution fences, blank slating, alien implants, electromagnetic weaponry, genetic experiments, alien hybridization, technological mind control programs, AI assimilation trans-human experiments, timeline distortion and blending realities, inserting false memories and identities, astral raping and guarding soul prison colonies scattered upon the earth and other planets. This doubles down on our theory put out 2-3 years ago, asking the question was the Electro Magnetic field the veil. The soul prison colonies or consciousness traps are guarded by AI assimilated entities and inter-dimensional machinery, that have been engineered to perform this specific function as the border guards of the matrix. This is for the purpose of keeping spiritually activated souls or powerful Christos warriors, from leaving the boundaries of their dimensional control through electrocution via frequency fences, electromagnetic targeting, mind wiping and attaching false identities. Some can escape them and have, particularly since 2012. To avoid these traps, we must know they exist and focus our mind to identify the differences between artificial technology used as consciousness traps, and organic creator code consciousness, that is directly connected to the zero point and God Source. As we spiritually awaken and clear the negative ego to expand our consciousness and reclaim organic memories, we begin to remember ourselves as eternal spiritual beings, and this gives us the spiritual power to dismantle the prison planet machinery. There are many of us that may be starting to remember that we are a part of these Defender Forces or Special Operation Teams. That are involved in multidimensional soul retrievals, finding and escorting groups to safe harbor, or performing transits for safe passage into Guardian hosted safe zones. Many have sleep state adventures or memories surfacing that relate to soul retrieval projects, rescuing souls stuck in death traps, such as the lunar matrix or black hole technology nets, and

redirecting these groups to Guardian Host platforms for safe passage. A lot of what was just mentioned took place in my knowledge during the time period known as 2013 and 2015, when a number of their leading technology machines and programs went down. Some have followed since, as well as other more recent events including a transmitting beam from a body close to the moon, that was beaming directly at this planet, that was stopped early last month. Recently, a special op has been involved in the safe transit of people that have been mutilated by the injection, and the AI related signal spray with the CV insignia connected to G.O.A.T., that has rendered them in the past timeline. G.O.A.T. is God of All Things, this insignia is Satanic and appears as a Baphomet head, that has overlaid itself on the person's brain and or 3D mental body. Remember the bizarre series the Pet goat? remember Bush junior reading the book The Pet Goat upside down? well now you know why. This is like an electrocuted brand in the person's head and crown, identifying them through this brand as satanic entity food. Perhaps the latest viral term replacing the red pilling piss take is Lets go Brandon may bring more clarity? lets go brand on, branding like cattle. Anything that goes viral, is mostly clown driven, their algorithms block the public's viral posts or comments, by and large. One wonders whether the electrocuted brand in the persons head and crown, is actually the voice to head technology used on the Trustee last year and was removed in July, from which another program kicked in, one more sinister and lasting it seems. It can be fixed but arrogance and ego are the blockers in that case. This is a recent development, and seems to be a feature of the injection, that is mixed in with the severe mind control of the victim who suffers from terrorizing fear. In which an inversion of the consciousness body takes place, which thrusts their light body into a past timeline somewhere in phantom 3D realms. It appears they leveraged the G.O.A.T. brand recently with AI signals, transmitted out from the satanic Superb-owl rituals and their pro-pagan-da based commercials. The people we are crossing over got stuck in the past timeline of 3D from experiencing terror and confusion in the death process, which in combination with taking the injection does not move you into the light tunnel in the false ascension matrix. So, that is newer technology, because the original soul trap tech was removed in 2014. This supports something one or two of our members stated in the past week, work will be undertaken to correct that happenstance. Instead, this fear plus nanotech programmed injection projects the consciousness body backwards in time, and staples them into some previous timeline in 3D, in some kind of apparatus like a pocket or pit, that is a consciousness trap playing out repeated memories of their fears. The soul appears to be stuck in a consciousness trap somewhere in the past 3D timeline or AI timeline pocket, and they appear to be zombified and/or in a lot of emotional and physical pain. There is a mountain of grief that is associated with this from all of us, that are aware of the severe brainwashing that is happening right now. The good news is that these people are being retrieved by special op teams, although the death that has occurred by injection or nano exposure, is many more numbers than we have been led to believe by the lying mainstream media. Confirming much of what we have said in our show. Current

Guardian Projects are focused upon the Electric War and the Gaian Matrix phantom timelines from millions of years ago, when the installation of sophisticated black hole technology from invading Wesa entities. To generate soul capture devices through layers of frequency fences, and AI nets permeated into layers of our time matrix system. Thus, a Special Operation Team for accessing the Gaian Matrix in pre-fall timelines, to retrieve original Azurite identities that were lost during the invasion is happening now, which is a critical development in reclaiming Azurite 48 stranded DNA cellular memories. Working up to handle this next stage of planetary emancipation grid work has been very tough, in terms of physical symptoms to embody the Solar Rishic braids. To retrieve an Ascended Master that was lost such as an Azurite, one has to be embodied as an Ascended Master of the same lineage. Many of us that are connected to the Guardian teams realize we have waited lifetimes to finally get to this exact moment, when we have climbed and crawled through every crag to get to the very top of the mountain. Climb every mountain, ford every stream, follow every rainbow, til you find your dream, because every mountain is access to the other realms. Finally, we are standing on the crest peering into the capstone, where we are able to see everything around us clearly. It is only a matter of time! CLIMB EVERY MOUNTAIN

In 2020 we will "see" and see we have, we may not understand it all, that is for other dimensions and planes versions of you, because they will and do. But, you are the eyes, ears, mind and heart in here creating the future breakthrough, when finally we come out on the other side, and the dark forces will be repelled enough for us to flourish once again. We can then set about teaching future generations so this abomination is never allowed near us again. This confirms many of the things we have said in past shows, although with a differing explanation and the dread names and labels, which differs depending from where the information comes from. But, the key components of the information is correct and that is what matters here, things have been done is the key component, not who did it at this stage. Perhaps now you understand my frequent warnings surrounding technology? this is how dangerous it is on the higher levels, it is just as dangerous at the lower levels, as many have succumbed to it's seducement. Video games a major component of it, as they were inserting you into their Metaverse reality and distorting what is real and what is not. May those who witness these issues with this genocidal agenda and this toxic injection find the courage, find the strength to speak up and join together in Truth. May Peace be with all Truth Tellers, may Peace be with all Truth Seekers. For it is the time of spiritual warfare where no outer markers give us direction forward, only the power of our inner spiritual presence to direct us and guide us accordingly. As we walk through the valley of the shadow of death, we will fear no evil, for thou art with us, our Rod and Staff, they comfort us. NOTHING ELSE MATTERS
