WHO MADE WHO We will find out who made who and what this life is for and so much more, in this show and the follow up. This will be a mind blowing, extremely detailed show that charts the path of what we call the white race, plus the many other races that have inhabited this Earth. There has been many, many humans and even more non human races that have come here not as peaceful space brothers and sisters, but as invaders. Piracy from the waters of the sky, known as the firmament. Firma means fixed payment, and so firmament means fixed payment of the mind, there was a reason they called it the vault, something to collect the payments received. Many will think of that in terms of monetary currency, but money is energy and there is a reason they wished us to make our payment to the sky, prey with an E harvested our energy into the sky vault, for the AI sky god that sits on a cloud, like a latter day digital currency maker. And people still think Bitcoin or fresh air tokens etc are new, or is it Nu? They came through the waters of the sky, onto and through the waters between the lands, and laid claim to the land in devastating wars, trickery, deception and violence. They came through another watery term called a port, al was added which means god, and then it means the port of the god or gods. But who did it? perhaps that more begs the question what did it? How was this all done? by whom? and to what effect will be laid bare tonight and a second episode next week. It lays out the full devastating effects of entities and people, charting their own path outside of Source for their own self importance, power and control. It delivers in stark details of the many warnings I have given of the dangers of technology, the average person of which knows all too little of. There is no new technology, all of it is old, most of it developed by us, that was stolen, acquired or criminally given away, and then misused not only against us but many other beings in the most Satanic of ways. Remember I mentioned about names, names and names? as we have found out with the Shane show, the Factions show and the FRWL series, the names has been distorted and meddled with, so we will never work it out. A deception so large it is barely believable, so staggeringly complexed it is hard to grasp, so interwoven that dot connecting was almost impossible. But, various people from time to time came with portions of information, that expands the picture and the narrative. Much of this story matches the stuff I have brought forth, in a myriad of ways that matches our shows, and yet I had never heard this material. What that means is, we have both pulled from the same library of wisdom based knowledge when ready to do so, and whilst this is 20 years old, perhaps it was too soon for most of us to get it, including me. It required someone at a later date with similar knowledge base to overview it, and then expand upon it. It matters not who delivered it, but it was delivered for each individual who were ready to sin eat and then process it, allow for healing and the lessons learnt from it, to then move onto the process of, what are our options and solutions. We all know the problems now, now is the time for solutions, that is what the TPC was set up for, solutions to build a new Humanity. Not just any old solutions or ideas, but workable ones that is the most inclusive, that does not

replicate the old models in any sort of depth, because they all failed on every level, including the clown and EL-ites levels. They are too stupid and or arrogant to work that out yet, but they are not our problem anymore and we must push on and developed our plans, our ideas and our solutions for our Manifesto, in our image, not theirs. Just when you thought you had the bigger picture and you now how things are messed up, you ain't seen nothing yet. YOU AINT SEEN NOTHING YET

This is a chart was produced by Ashayne Dean back in 2002, and yes I was critical of some of her later work back in 2015, due to Merkabas and a distinctly Jewish flavor of perspective at that time. Merkabas like mantras etc have been all too corrupted to trust any of them, and our lack of knowledge defining them becomes difficult, good is bad, fact is fiction in a topsy turvy upside down world. But, upon being drawn to her earlier work this makes much more sense, and is kind of reminiscent of the earlier version of Alex Collier, before he went backwards at a later date. I wish to thank her for bringing forth this material, which will be revealed tonight, plus extensive back up from my knowledge to add into it. It will be difficult to grasp on first listen and give yourselves time to absorb. It is a chart that contained several levels of family trees and lines, the scope of which is remarkable on many levels. This was a translation that was done that took 6 months of work, and the information from what is known as CDT plates. Cloister Dora Teura plates, which mentions dates that go back to 22,340BC and even further back to 246,000BC. It contains words that mention Keylonta and also the Maharata text. It documents the different Leviathan races, known as the Levitical Priesthood, that came in one group, but branched out to four different groups from the original, I think that is called spreading the seed. The Priesthood, these are the Cohen's we speak about, the Judges and Barristers of their courts represent themselves as High Priest or Priestess' all done in their all black regalia. The Levitical Priesthood were known as the Tabernacle Tribal Hierarchy. Hence the Jewish term and the use of the word Tabernacle said to be a place of worship, but for whom? The description given to the Tabernacle is, a portable sanctuary in which the Jews carried the Ark of the Covenant through the desert. Which is rubbish as we will find out, why is it called portable, which means small. Why? it was small because it was able to come through the port is why, the portal. A case or box on a church altar containing the consecrated host and wine of the Eucharist. Remember an altar means a sacrificial table, consecrated means sacred, they are anything but sacred, and the wine symbolizes the spilling of blood. The original was Jacob which was changed to Levi, all too familiar that with those people. Jacob had 11 sons, which then changed to Kohath to Amram and then Aaron, which branched out to Moses and Miriam. The Kohath part then went onto splitting into another group. The four groups were Gershon, Aaron, Kohath and Merar. Gershonite cities in land of Issachar, Asher, Naphtali, Manasseh in Bashan. Aaronite cities in land of Judah, Simeon and Benjamin. Kohathites cities in the land of Ephraim, Dan and Manasseh. Merarites cities in the land of Reuben, Gad and Zebelun. Lower names more familiar are, Michael, Samuel, Eli,

David, Solomon, Nebuchadnezzar, Jeremiah and Joshua. It shows how they progressively moved into the dominant force, they are the ones on this planet who control the politics here, they are the ones who control religion here and they have been since 9558BC. So, we have faced a situation the magnitude of which is mind blowing, when you are coming from the mind control program. It just seems so outrageous and impossible, the closest you can get to it is watching the Sci Fi channel, with all the wacky things happening. The mind control program did not start with the MK Ultra version, it goes way further back in history than most think. Creeps from black hole coming to try and invade the world, little green men from Mars invading and you get the picture, or you thought you did. You can translate it into science or you can translate it into spirituality. You can call them fallen Angelic's coming from the pit, all of which was foretold in the bible. Well, what was left of the bible after being culled and rewritten to suit their agenda, was just a few nuggets of truth that was steered out of context, until you understand the bible was their story, not ours. They did keep in some content, as they have to tell us what they were doing under Cosmic Law, and the book said they would be the beast that came out of the pit. The mention of the 7 seals, the 4 horseman of the Apocalypse, war, famine, pestilence and death, with a possible hidden horse called disinformation. But the truth presented, came with the great deception, wrapped in mythology of beasts with 7 heads, horns with a crown on each of the ten horns, that rise up out of the ocean or the pit, which is the abyss. Which just happens to be Dr. Fauci's mothers maiden name, coincidence? nope it is another of their secret coded clues, just like the Pegasus spyware in the news, that can be symbolized as part of the 4 Horsemen of the Apocalypse. Are they literal? in some cases yes, but we don't think of things in terms of technologies that have the ability to move whole planetary systems. We don't think of black holes in terms of it being technology, and have this romanticized fairy tales of what has been given, all to cloak the reality of what has taken place. But many people for many centuries have been trying to uphold those fairy tales, they don't know how to let go. The fairy tales started in Atlantis, that started with the creation of the Leviathan races just mentioned. They also come under two categories, Draconian, Thoth-Enki, Leviathan on one side, led by Thoth. The Jehovian-Anunnaki, Annu-Melchizedek and the Urantia group led by Enoch. The famous now infamous story and book of the Urantia popular in New Age circles. The Urantia Book sometimes called The Urantia Papers or The Fifth Epochal Revelation is a spiritual, philosophical, and religious book that originated in Chicago sometime between 1924 and 1925, whose author remains a matter of speculation. It has received various degrees of interest ranging from praise to criticism for its religious and science content, its unusual length, and its lack of a known author. The text introduces the word Urantia as the name of the planet Earth, and states that its intent is to present enlarged concepts and advanced truth. The book aims to unite religion, science, and philosophy, and its enormous amount of material about science is unique, among literature claimed to be presented by celestial beings. Among other topics, the book discusses the origin and meaning of life, mankind's place in the universe, the relationship between God and people, and the life of Jesus. Well

now you know why there was no author, it is an Anunnaki book of part truth and mainly deceptions. Uniting religion, science and philosophy is the first red army flag for a start, all three have been written and formulated by them. The use of the word Ur is another of their inversions, remember in Sumeria and or Babylon there was the town of Uruk, that was very important to them at that time. An important symbol described in The Urantia Book, is the banner of Michael and the material emblem of the Trinity government of all creation, consists of three azure blue concentric circles on a white background. The circles are said to be emblematic of the infinity, eternity, and universality of the Paradise Trinity. That is really representing the 3 Founder Races from which developed came the race known as the Azurites. The incarnated priest and contemporary of Abraham, Machiventa Melchizedek, wore on his breast an emblem of three concentric circles representative of the Paradise Trinity. A completely different trinity as we will find out. During a system-wide rebellion instigated by Lucifer, during the so-called war in heaven, Lucifer's emblem was a banner of white with one red circle, in the center of which a black solid circle appeared, the Black Sun. In 155,000BC there was a bio-regenesis program, in 5 different stages for the Anunnaki races that had been done here, and how progressively each stage had been raided by different groups that were not of the Emerald Covenant. The Emerald covenant is the founder races of the Angelic humans from Lyra. Hence the green based distortion used here that we have covered recently. The name changes and the reverse use of words play heavily into their schemes and plans. What that created by the time we were in Mid Atlantis about 63000BC, which was around the time that the angelic human root race was seeded. It's all about the genetics you see, and I suspect this Covid game is hiding another attempt at interference again. But, it could also just as well be a time when only the Angelic humans are left behind to be the Guardians of this planet, as we were meant to be from the off. A rough timeline for you, in 850K BC The great war which lasted one thousand years and ended the planet Maldek, the 5th planet here, which is now known as the asteroid belt. So, the entities that are using 5-20 miles to harvest up the rings of Saturn are not just harvesting minerals, but soul fragments as well. In 848,800BC was the 3rd seeding of El-Annu, in 840,000 came the Arc of the Covenant and the Dracos, the Anunnaki and the Nephilim. Dracos and the Nephilim then teamed up to become the Anunnaki Resistance. Remember I said there are 5 versions of the Anunnaki, not just one. Anunnaki and the Melchizedek Cloister teamed up and became Annu-Melchizedek. The Melchizedek Cloister teamed up with the Hibiru Cloister and later became the Hebrews. The Hibiru Cloister was responsible for the 5th seeding of the Aryans. The term cloister family meant one of the originals of the Human Angelic template, but some of them fell as well. In 72K BC came the Lemurian's, in 70K BC the 4th Atlanteans arrived that came from the Annu-Melchizedek pairing. 65K BC The Templar Annu that came from the Anunnaki Resistance group. At the same time the Templar Melchizedek came from the Annu-Melchizedek group, at the same time came the Leviathan races. In 55K BC Lemuria was destroyed. In 48,500BC The Giza Pyramid and the Sphinx were built, that shatters the lying scientists and the Hyksos clown Zahi

Hawass and his version of the deception. Egyptian's built it, sheesh, what a conspiracy theory that is, if ancient Egyptians were that adept at building back then, why can't they build decent houses for the Egyptian people in the modern day? Basic science shows the Sphinx to be over 11 thousand years old, due to the water erosion, but their science is not basic, it is a pure deception vehicle to fool the people, and that clown Hawass is part of it. In 22,326BC The Luciferian rebellion, which also saw the arrival of the Cloister family of Melchizedek, from the original Melchizedek Cloister. In 9558BC was the Great Flood and Atlantis was destroyed. Just after that the Hyksos appeared, that came from the Leviathan and joined up with the Hebrew line, just after which the 5th Aryans disappeared. The Cloister family of Melchizedek then developed into the Essenes. From the Essenes came the original Jesheua, known as Jesheua 12, the real Jesus. An interesting piece on the chart mentions in 2312AD will come the 6th Muvian race. So around 63K BC came the angelic humans, known as the Cloister races, that was the 5th Aryan race. The Cloister races were the Indigos, they were the ones that had the higher strand coding, they were the Lyrian-Sirians and the Gaian-Oraphim humans. The Cloister Races they came first, and from the Cloister Races came the Turaneusiam races, which was another version of the 12 strand Angelic Human Race. This is where the Atlantean and the Lemurian's fit in. The Human Race lineage: there were 3 Founders Anuhazi, Cerez and Inyu, that became the Angelic Hominid the Azurite, who I mentioned in FRWL Plus 10 show. The Anuhazi and Azurite formed the Angelic Human called the Oraphim. The Oraphim went two places then on Density 2, the Turaneusiam 1 was on Alcyone and Tara, and the Marahaji on Sirius A and Sirius B. In Density 1, the Sol (Sun) and Earth came the Turaneusiam version 2 known as the Earth Angelic Human, also known as the 12 tribe lineage. The Marahaji from Sirius became the Maji Earth Angelic human, and known as the Maji Grail-line Lineage. From the Indigos came the code for the 12 human Angelic strand, and from those came the Atlanteans and Lemurian's. They only would have the potential of 12 strand, and they would have a certain amount activated at birth. The rest I believe comes from your own personal development, when you are responsible enough to be able to handle the extra strands. The extra strands are encoded within your own DNA code, and will be activated in stages depending upon your own development, this is known in jackass science as junk DNA. Junk DNA? it is the best technology in the whole Universe given to us by the Creator, junk DNA indeed. If it was so much junk as they say, why have they hunted us down for so long for so much for it? Like I have said, go within brings you far more untold riches than you can ever get externally. So they are our races, and were appointed as the Guardians of this planet, but once the Leviathan races began to be genetically interwoven with our race, all hell broke loose. This goes back to the theme of From Russia with Love, of the deliberate genetic mixing to not only destroy what we call the white race, but the 12 strand Angelic human lineages to boot. We are now at the tail end of the firestorm that started in Atlantis, the romanticized version of the advanced races of Atlantis, but they were the ones who abused the crystalline technologies. What they have done with the crystalline

technologies, there is no way to describe the level of perversion of what has been done here. The sickly and vomit inducing tales of Atlantis on the internet, yet I stated it was not what you thought it was, and it was they who did the genetic meddling on a massive scale, that is about to be proven next. They genetically raped a race, they raped the grids of the planet, and they have done untold things with the Cube Matrix structure. With that they have literally taken the stargate here, and the stargate system in the Phantom world and plugged it into another stargate.

These are the potentials of the crystalline technology, ultimately good does prevail as it was set up by Source here. There is a huge scale of allowance like a pendulum that swings, when it goes to a certain level of perversion, it will begin to swing back, and we are in that point now. Where it has the cycles of evolution through this Time Matrix, where it has swung to where the Cosmic cycle had gone to the extreme of negative. It went to such an extent that, if it had went any further, it would have taken down the entire structure of this time Matrix. But the time Matrix was built in a way that, and that wasn't going to be allowed. So, it will rebalance itself with bringing in the Density 12 frequency, and bringing in the divine blueprint. My input on that is, it is curious she mentions the pendulum, I call it the metronome of swings. I do believe she just described in other terminology the fractal virus of evil proportions, that sent this Universe to 83-87% dark, and the Universe was considered to be being cut off from the Universal tree, to avoid infection of other Universes as I understand it. Ashayne said "It will rebalance itself with bringing in the Density 12 frequency," brings in the line from our show of, the frequencies of the past are returning. What this all means is, we are in prime time for the final conflict drama, that is what is and has been taking place since 2000 onwards. The major battle, and most people have no clue this is taking place. The people who follow the new age movement have no clue what they pick up, when they go a workshop or conference room. Collecting dark programmed crystals and orgone, plus various other trinkets of the snake oil variety, there is a reason it is called snake oil. The Mount Shasta brigade are the worst, Mount Shyster I call it, dancing around in front of the Gate of Hell courtesy of NASA, and believing it is all love and light, you people have no clue. What the New Age people going to these workshops and conferences don't realize is, they are getting astral field implantations during the conference, to activate more of the reverse Matrix coding's. The New York Expo is one of the worst, no surprise there, but if you have high sight you can "see", and you can hold frequency to counteract them against you and others who attend. Now you know why I said don't attend any conferences, even the non New Age ones have djinns and other Astral entities flying around in them, unless you are skilled at deflecting via shielding, you will get hooked in those places. So what do these entities do? The forms and entities enter the room and can astral cord all people within a room, but if you have the right frequencies you can un-cord them all. Churches are the same if only people knew what the churches were built to do, they would have a different feeling of and about churches, they are astral cording and energy looshing

centers. All churches were built by the dark forces for those purposes. And there you have further evidence I brought forth in the FRWL series, did you hear that closely? it said all churches. Testaments and Covenants both of which are bindings, or in this case Astral cording, they literally have you in the psalm of their hands, if you pardon the pun. Why do you think the old churches are so cold? come up to our sacrifice table, which is the altar and we sacrifice you to the Astral beings for harvesting, is what they are doing. Come along now and be canni-baal's, eat the flesh and drink the blood, they are telling you what they do, do you not get that yet? There was a time when there were holy Temples, and even if there were no buildings it was the people who carried the living presence of the Source with them, consciously and fully. We are the living temples, this planet was once a living temple, but a temple that has been run dry, but it's going to rebuild quite soon, once it is all re-balanced. It is described like the immune system, if a virus has too much effect, the immune system kicks up, and won't let itself be fully destroyed. This is why this Covid scam on an overview thought process does not concern me too much. I know that bothers most people as they come at it from a more personal perspective, I too have that perspective, but I also understand the higher levels and thought processes very well, and that is where I reside and come from on a thinking level.

THE SOUND OF SILENCE

After the Leviathan races were created, they were created over numerous generations around 155K BC and moved up to 63K BC, where the last phase or the giving of the 5th human strand into the Leviathan pattern was done. This created the Annu-Melchizedek race, the Annu-Melchizedek was the first one that looked similar to the Angelic human race, because they looked more ape like, some where more ape and reptilian like. They didn't look like humans, because they are not, they came out of the Neanderthal pattern, but as they progressively picked up more of the Angelic Human DNA strands, they started to look more like human beings. This echoes past show of ours, where I posited the theory that Neanderthal's was them doing the Genetic mixing. It was said that they used human and ape genetic mixing to create a hybrid, no it was not human at all, they mixed with a female ape species, and the Neanderthal was their product. That is why they were hairy and we are not, another science based disinformation program. We did not come from apes and we did not originate out of Africa either. It is sheer lunacy to believe you can produce white, red or even yellow races out of black skinned people, without some genetic mixing, it is basic common sense, that is all too rare on this planet. Add in a basic lack of critical thinking, not to mention a distinct lack of basic thinking these days. The Angelic Humans in those days where very tall, 6-9 feet tall was about the average. Other bodies unearthed here and hushed up were, 13, 15, 19.5, 23, 25.5 and 32 feet tall, that was found by Carthaginians sometime between 200 and 600BC. The Anunnaki Bio-regenesis program started with Thoth, then Thoth and Enki and formed the Lulus-Neanderthal in and around 250K BC. In 208,216BC was the fall of Brenau, were the grids where damaged to the point of the Crystal body to blow up. Brenau is in Sarasota

Florida, now I know another part of why I was drawn there. In the times before the 208,216 BC Fall of Brenau, when the Angelic Human races of Earth suffered the loss of D-12 access. Before that all life experience was a living prayer of joyful spiritual and material celebration. In those times religions was not a control dogma used to rob personal power and dignity from people. In those times, people did not die, they consciously chose to ascend out of density via the Universal Star Gate system. Science and Spirituality were fully understood as part of the same Primal Creation Mechanics, that allowed for the experience of manifest expression and simultaneous experience of At-one-ment with the true loving God-Source. At one ment reversed into Atonement and forgiveness of their own crimes, and then worse passing the karma onto the people, all done by all religions. Back then, we all knew ourselves, each other, the Earth, and all things as blessed expressions of the one God, and we honored all things accordingly. In those Ancient of Days, the Days of Innocence, there were 12 Angelic Human Tribes appointed as the co-Guardians of Earth's Planetary Templar Complex. Templar, another name used for reverse purposes and pro pagan da. Each Tribe was entrusted with one of twelve Emerald Covenant CDT-Plates. Each of the CDT-Plates, protected by the 12 Angelic Human Tribes, arose the first earthly verbal and written translations of the Founders' Sacred Teachings. The Bio re-genesis program mentioned earlier due to the fall of the Founder races was done around 155K BC. That created Luhari-Cromagnon 1, this was called upgrade 1, for the dark forces. In 152K BC created E-Luhli-Levi-Cromagnon 2, this was upgrade 2, and known as the Leviathan Force. In 151K BC created E-Luhli-Judah-Homo-sapien 1, and was upgrade 3. In 148K BC created E-Luhli-Nephi-Homo-sapien 2, and this was upgrade 4. In 68K BC created Annu-Melchizedek Homo-sapien 3, this was upgrade 5. Darwin was describing the Anunnaki bloodline. So, the term Homo-Sapiens then does not apply to us, Sapiens of, relating to, or being recent humans. Of or relating to, no they are a genetic interference copy of us, and certainly not related to us. There was genetic mutation ongoing back then to keep the height down, and this was the point where we began a downward spiral of evolution, that we are living the end of today. There were several primary groups of fallen Angelic's that invaded, the Annu Elohim from the original fall, who appointed themselves as the false creator gods, who then went onto create the Anunnaki lineage. These were known in the Stargate series as the Ori, a group of ascended beings who use their advanced technology and knowledge of the universe, in attempt to trick non-ascended humans into worshipping them as gods. Then you had the fallen Seraphim races that were the Draconian's, and some of the Odededicon races who were reptilian that got mixed in with them. The Seraphim also created the bird people, the original Christos Founders Races had created different types of forms. The Annu Elohim before they became the Annu Elohim, had created the aquatic hominid ape type. The E-luhli Elohim the ones from the Emerald Order where hominid felines, they had the large feline eyes, that was the original Lyran Founders pattern and all of the others came out of that pattern. Another group were called the Lionines, which where a down stepped evolutionary group of them. The Anuhazi was the

Feline hominid and looks like a lion. The Cerez was the Avian, Insect and Reptile form. The Pegasai later became the Inyu was the Cetecean, Aquatic Ape, Pegasus form. All species on this planet all came from one of those three creator god Lyran collectives, the 3 Christos Founders races. The fallen Leviathan ones all came out of two places, aside from the Wezedak's, who were from a completely different Matrix. They were actually from a copy of our Eckasha, they created a parallel and then linked it to us. The Wezedak's are infiltrating from the parallel of the Cosmic Cluster, they call the Eckasha the Rusha cluster, that is a cluster of Universes or reality fields, and that is the pattern of all reality fields that have manifestation. What this means is, a group of Reptilian, Draco, Wezedak races have pulled us into a Phantom Matrix so they can siphon off our energy. Aside from the Wezedak there were 9 primary invader races, all of those 9 races came out of the Annu Elohim and the Anunnaki races, or the Seraphi/Seraphim fallen ones and their Draconian/Dragon moth lineage. The Fallen Seraphim were the Omicron Dragon Moth and Odedicron Reptilians. The Fallen Annu-Elohim became the Anunnaki, which then went into two separate groups, the Jehovian and Luciferian. The third group were made up of Necromiton-Andromie, Centaur-Luciferians, Zeta-Rigelian and Zeta Reticuli Zephelium. Interesting name Necromiton and Omicron, because when we covered the Black Sufis in part 8B, they spoke of the Necronomicon, all part of the Black Sun cult. All of which joined the Metatronic assimilation, and perhaps can be likened as the Sith Empire from Star Wars. The Metatron collective makes a deal with Wezedak to use the Eye of Metatron, the all seeing eye? to create a wormhole called the Path of Arimathaea, which calls into question the later Joseph of Arimathaea. The Annu Elohim when they created the Anunnaki, their first form or type was a bi pedal dolphin, they were called the bi pedal dolphin people. They are the Jehovian Anunnaki, who consider themselves the supreme Anunnaki, the other ones who mixed with the Seraphi becoming the Luciferian Anunnaki were considered lesser than them. Yet more hierarchical chosen ones nonsense. They tend to not like each other, but are working together now with the United Resistance. In Atlantis, you had these different branches of the fallen ones, one group is where we find out from where the Adam races came from. Yes, as we have said in our show, but the Adam is not a singular person, but whole races of them, all of which makes the biblical Adam and subsequently the Eve, as part of their Anunnaki races, oops. The Anunnaki races where the Nibirian Anunnaki, the Pleiadian Anunnaki who work together a lot, there are also in other systems but their the primary strongholds, they are the Luciferian Anunnaki and there is a reason for calling them that. The Luciferian formed the Thoth-Enki-Zephelium group which is the Nibirians, that is the Avian race that includes Set. The Marduk-Dramin/Satain Annunaki. The Marduk-Luciferian-Anunnaki, they are the Draconian and Alpha-Centauri groups. The Enlil-Odedicron Anunnaki. The Pleiadian-Samjase-Luciferian Anunnaki from the Pleiades. They all formed to create a hybrid strain. Thoth ran this grouping and Enoch ran the Jehovian Anunnaki. The Enki, Enlil and Marduk groups where the primary ones of the Annu Seraphim. There were 4 groups, Omicron linked to Dramin, Pleiades Anu, Odedicron

was Antu and Sirius A was Rayshonda. From Dramin the Dragon Queen came Enki, who spawned of Damkina and Ningirida, Damkina led to Marduk and Ningirida to Thoth. Antu spawned Enlil and Rayshonda spawned Ninhursag which is the Lulus-Neandrathal group, this appears to have been all completed around 25500. The Enki-Zephelium races that combined with the Marduk - Satain races, this is where we get the word Satan from, it is referring to one of the Draconian hybrids of the Annu Seraphim. They then combined with one of the more reptilian hybrid of the Annu Seraphim the Enki groups. The Thoth line was the Lucifer, Marduk line the Satan. That shreds the idea that it was one and the same being, as stated by the biblical scholars, who like medical experts have no clue. It is not their fault mind you, as all professions have missing pieces or shortage of knowledge that connects back to the real truth, so no one should take it personal. It was truth that was denied to us for so long, but not anymore, there is a reason clowns are banning stuff everywhere. Why? they are being exposed by the truth which operates in the light spectrum, not their dark spectrum where the lie resides. The Luciferian blueprint was to upgrade the Niburian and Pleiadian Annunaki races. Thoth it seems, also played Ningishzida, Hermes and Quetzalcoatl. Quetzalcoatl brought humans the chocolate bearing plant, used them as slaves to grow it, Thoth chocolates? oh my. They have 3 groups that became involved with the Leviathans here, one from the Pleiadian system Alcyone, which is Tara, which is Earth's counterpart in Density 2, they are called the Samjase Luciferian Anunnaki. My understanding of the Alcyone's is, they were in part of the Guardians here at one point, and sold us out to the reps for technology. It is also my understanding that the former entity known as Cobra, is one of their Earth based representatives. I believe the original Cobra was switched out late 2017, after the whole frequency of his blog changed. The Alcyone's are the lovely and revered Pleiadians from the alt media and New Age cult, they are the pretty blondes who present themselves to us. Presented as the Angelic blondes, Nordic looking who have pretty features because they stole them from the Procyone's, and their image they got genetically, when they invaded and genetically took over the Cerez Procyone race. The Procyone's were blondes but the Angelic Human type. Thoth-Enki-Zephelium are the Niburian royal elite, and they were the ones who tried to take over Rome from the Dracs, they are represented by the 8 pointed stars in the hieroglyphs, it is the sign of Nibiru. The 8 pointed star is also the sign of the fixed phase locked Merkaba, and a lot of other things that have to do with the base 8 system and the Wezedak agreements. Sounds a lot like the loop system we have explained that to me, and accompanying the 8 pointed star is the winged sun disk signage, seen everywhere including Disney. The Marduk Luciferian Anunnaki, they were the Draconian group of Annu Seraphim hybrid Anunnaki, who were affiliated with Alpha Centauri. That is where you get the Alpha and Omega Centauri people coming into it. Alpha Centauri equals AC, the DC is Draconian clowns, might I remind them, we are TPC were dynamite. Then there is the Jehovian Anunnaki who don't like those guys, they are the pure strain that created the Anunnaki in order to destroy the Oraphim races. That were created once the Wezedak

agreements had been made, and they broke through this Matrix, via the Phantom Matrix. The Oraphim were created after the Azurites fell, and in response to the Oraphim Guardians being created, the Jehovian Anunnaki created the Anunnaki, they were the avengers of Annu. Their purpose was to destroy the human lineage, because their objective was to takeover the Time Matrix. So all of the Anunnaki came out of that with the core intention to eliminate humans, it is genetically installed within their coding to eliminate humans, and they are struggling to overcome that genetic default. They were programmed with the idea that they were superior, they are the elite and they should be the ones running the time Matrix, because they believe they are so much better than we are. There is an arrogance that goes with their pattern, that was what led to Thoth's downfall, and all they came from the dolphin with two feet. I guess that's where they found their porpoise then. The arrogance I can vouch for, when I was engaging Shane, he said we are stupid and lesser, and I agreed with the stupid, but made a case of how much of that was down to interference? Shane laughed when I said the Draco are weak, he stopped laughing when I said anyone or thing that has to control another, does so due to two things, weakness or fear, which is it Shane? I guess the Anunnaki finding out they are not superior is kind of like ruining things, isn't it Shane. The door is still open if you act in the right manner, you offered so much and yet let your core lineage take over you, when all you had to do was, balance it. The bipedal dolphins could go on land or water, and they were a Density 2 and 3 race, so they were semi Etheric and Etheric Density. But they down scaled them here, and put them in our waters as certain types of dolphins, but not all of the dolphins are of them. Some of the dolphins are of the Bramarah race, the Cetacean race that were here to counteract what their dolphins were doing. The Jehovian Anunnaki lineage when they invaded the Leviathan races, then created their anti Christos Grail line. The Odedicron reptilian races that originally got caught in the fall without meaning to, and some of them badly digressed from that point. The Omicron Draconian Dragon Moths, which is likely the entity known as the Mothman, but they all got involved. So you have this big line of Leviathan races being invaders, and being directed by each of their creator gods, they were here to fulfill the agenda of their creator gods. The wars on this planet is because everyone has been used as little armies, to fight these Phantom Matrix battles that have been going on. Like I have said recently in the giant game of chess, we the people, the public royals, the politicians, the Military and Agency goons are not on that chess board at that level. For ages the Annu Seraphim were fighting with the Jehovian Anunnaki trying to annihilate each other, and both of them were fighting with the Draconian's. The Odedicron would side with whoever would not try to destroy them, because everybody was trying to get them out of the way. What we have seen on this planet has been a progressive nightmare, that has been their nightmare that they brought here. What that confirms is the fall of the continents, the desertification of our planet was their weaponry and zero to do with falling space rocks. When we get into some of these names associated with these lines, there is so many other names that plays into this, but the Marduk Draconian line were deemed as the misfits. They tended

to do their own things as they are a minority compared to the other races. But they still had their two cents in here. He, had a bit more than his two cents in here in my opinion, thankfully he is no more following a group effort a few years back to remove him. What these groups did is, the Pleiadian Niburian Anunnaki created lines of Leviathan races by raiding the experiments, called the Olocum, the Edurians, the Lilithian and the Ezurial. And they later combined their groups to become the Beli-Kudmon. Between 22340 and 1500BC they were upgraded by combining with other species, of which we mentioned earlier with the 5 upgrades. Essentially they raided the Angelic human code to get more of the code for themselves, they became the Atalans. So, they then where all combined to form the Atalan King line, of the Atalan King line there was the Atlas line who came out of the Enlil Odedicron. The Osiris line which was part Enki and part Samjase, and the Larsa line which was taking all of them and putting them all together. The Larsa Kings where the Atlantian King lines, that were responsible for the progressive invasions and taking over the territories of Atlantis. Atlantis was at one point a large Continent, but others have testified that Atlantis was a craft parked in orbit, but there has been numerous Atlantis' so maybe both are right. But there was certain things done way back 50K years ago, but another one 25k years ago in the Atlantean mess. In the Atlantic there was the Khem-a Lo-Amekus 68K to 28KBC, in the Pacific there was the Muarhivi 71K to 50KBC. The Maji Grail King Lines were in Bermuda and the UK. The first one took down most of the Continent leaving only the island nations, the island nations that are left, are what we today call England, Scotland, Ireland and Wales up in the North of the Atlantean Continent, that was called Lohas. The Luciferian Conquest of 10500BC, Bermuda was known as Nohasa, and was taken over by the Sirius A Jehovian Anunnaki and the Annu-Melchizedek Enoch group. Nohasa is where the Noah and Abraham lines comes from. The Noah line was the line of Leviathans that came up from that particularly region. The biblical people are not going to like that fact. Florida, the Bimini Road, Northern Cuba and The Bahamas areas where known as Bruah, that was taken over by the Pleiadian Niburian Luciferian Thoth group. These were all the former areas of the Atlantean Continent, as these were the areas where the raiding started, from there they literally went through every corner of the planet. The corners of the planet they were looking for is where the 12 tribes lived, because the 12 tribes are linked to the twelve Stargates and the 12 Templar cue sites that connect to the inner Earth. These were the Stargates locations: Gate 1. Antarctica 2. Sarasota Florida 3. Bermuda Island 4. Giza Egypt 5. Machu Picchu Peru 6. near Moscow Russia 7. Lake Titicaca Peru 8. Xian China 9. Bam tso Heiho Tibet 10. Abadan Iran 11. Vale of Pewsey S. England and 12. Montsegur France. A few things about those 12 that I know of, I was drawn to Sarasota and visited it many times before I found out about the Stargate. Florida is also a very important grid line that was under protection, until the planetary grid started to be reclaimed in the past 3 years. The one near Moscow, has very strange anomalies and may have contained the Tau Cetian peoples at one point. People coming out of there and around that area, can operate for a certain distance completely cloaked, until they hit the

boundary and then they can be seen. They see us, but we can't see them. The Montsegur is interesting as it brings in the Radomir and Mary Magdelene story from the Levashov material. Perhaps they thought they could open the gate back in the 1000's, and in not doing so enabled the Templar churchmen to kill Mary Magdelene. It appears though there has been more than one Mary Magdelene. The 12 Templar cue sites that go to Inner Earth are, 1. Cyprus Island Cyprus 2. Easter Island Chile 3. Johannesburg S. Africa 4. Aguascalientes Mexico 5. Vatican Italy 6. Thar Desert India 7. Paxoi Island Greece 8. Taklamakan Lop-Nor Tibet 9. Westbury England 10. Al Basrah Iraq 11. Eye Island Ireland and 12. Kauai Hawaii. They all connected in the Inner Earth Temples and they are the most sacred sites on the planet, because they are the control sites for the planetary grids. These were the sites that were targeted for invasion. They are places where most of the actions have taken place, and still taking place in the Middle East, due to Iraq and Iran having the Gate 10 connections to it. Iran has the Planetary Stargate, Iraq has the Templar Cue site and the ACG site. In Gate 11 Vale of Pewsey is the Planetary Stargate, Eye Island is the Templar cue site and Newgrange the ACG site. LET MY PEOPLE GO

The Atalan King lines formed the Osiris kings which eventually came down through Egypt, the invader races of Egypt. The Atlas King Lines almost faded away, but they combined later with the Thoth-Enki-Zephelium which was Osiris, Enlil Odedicron Isis, Horus was Samjase Luciferian and the Necromiton Andromi Beetle people, known as the Scarab Kings against Seth. The beetle people, I guess that is why many people don't like bugs. So, it was the Luciferian Anunnaki agenda Ceres Egyptian against the Draconian Agenda of Seth and Imohotep. All of them Leviathan races that raided different tribes of human, with the sole purpose to pick up more of the human DNA coding. The Larsa Kings are interesting, as there is physical evidence left of a few pieces they forgot to pick up, most notably the Larsa tablets of the Kings lists. They have them carved in stone and interestingly Enoch's name is listed on the Larsa King lists, because there was a time in 10500BC where Enoch broke the Emerald Covenant and joined with the other Anunnaki races. The Sumerian Kings list were split into two, the Enoch side Samjase Luciferian Anunnaki, Sumerian Larsa Kings, and the Jehovian Anunnaki Lines and Hassa Kings and Hyksos Midianite Kings. Thoth line was the Thoth-Enki Anunnaki, Snake Brotherhood Kings, Marduk Anunnaki and Draconian's, Babylonian and Akkadian Dragon Kings. And now you know why many don't like or mistrust snakes. Enoch didn't join for the same reasons as Thoth did, Thoth had an arrogance problem and still does, Thoth did it for his personal gain and for his people, from egotism. Enoch reasons were because he figured they had so much control at this point, that if they didn't cooperate and they won, that his races would be destroyed completely by the Thoth groups because they didn't cooperate. So, he joined and it was a bad decision, but he led their people into taking what had originally been bio-regenesis, which was a program of hybridization to get them back into the program of the Christos imprint, and they decided to create raider races instead, that would progressively take over. But you had another group who were in opposition to the

Atalan King lines, that were the Pleiadian Niburian primarily. You had the pure strain Jehovian Anunnaki and for a while Enoch was the leader of those, before he turned, as he was the one who was helping to bring the Jehovian Anunnaki back into the Emerald Covenant. Another group of the Jehovian Anunnaki that were not Emerald Covenant at all, they were the Urantia, and they had a sub race called the Admians. This is the beginnings of the Ad as to what becomes the Adami races. The Admians combined with the Nephites from the Leviathan race Nephi due to the experiment, and they became the Zadokhim Hassim, and now we are getting into the Hassim lines. From the Hassim we ended up with the Hassa Kings, then Nohassim, who combined later with Enoch's group. The Nohassim combined with the Atalans to form a new hybrid, a super hybrid that was intended to be the master hybrid to take over the planet, that was called the Adam-Kadmon. The original human race from Tara, the original Turaneusiam 1 human race, had several different divisions and one of the human races was called the Adami-Kudyem. Tara was E-den it had Human 2 and Human 3 the Elohim, which became Human 1 and Bra-ha-man, Dhr-ar-men, Atoni, Tri-te-ten, Azurtan, Celtos, Adami, Yuturans, Luri, Cerrasz, Nezack-Tai, Melchizadakz. By raiding the races here they branched into two others, Alanians the Beli-Kudyem and Lumians the Adami-Kudmon. This is where the Metatronic pattern, the Metatronic path of Arimatheya started and this was before the flood, where all the records were taken away in 9558BC. By the time the flood occurred, which was orchestrated, there was a big rally that took place in 10500BC called the Luciferian Conquest, and this is where Enoch groups joined with the Thoth groups. Where they combined the Anunnaki legions and races to begin forming the master race, to make the Adam-Kadmon race, that would take over this planet. So, there you have it, it was these Anunnaki races that were creating the so called master race, not the white race humans associated with Germany. Together they chose to get rid of everyone else they didn't want on the planet, but they couldn't get rid of humans completely, because humans have the keys to the Stargates. And if they didn't run those keys in the Stellar activation cycle, what would happen to the planet is, the Stargates would not open and the planet would go into pole shift as a protection device. As above so below, like a reversal of the Torus pattern inside the planet, and also explains the pole shifts of the past in some ways. That was put here if humans and Indigos weren't here to run the security codes through the DNA, that meant there was something wrong, because humans are supposed to be here as the Guardians. If the Guardians weren't here and the gate keys weren't put in, the planet would roll and the gates would shut, so nothing could come in and take it over. So they had to keep us here, but they had to make us stupid so we wouldn't be able to fight them head on, to stop them and what they were doing. Technically, humans and Indigos can run a million times more frequency power than any of those guys can, if the DNA is functioning properly. This is why it is so important to do your shadow work, integrate your shadows and stand in your fullest power. If every Angelic human on the planet did that, this game would be over in a flash. It shows we don't have to beat them by taking them head on in a duel, that is for the weaker elements

who only see violence or protest as a way out or the way to fix things. We beat them by not absorbing them, or engaging them, just by developing ourselves is enough to end the dark forces and their insidious games. So the Luciferian Covenant was the agreement that Enoch entered, and this is were you had the Nohassim under Enoch, joining with the Pleiadian Niburian Anunnaki to form a master raider race. You also had a bunch of Jehovian Anunnaki Leviathan's and their creator gods who didn't want to do that, and so they created an opposing line. They became the Hassa kings who after the flood moved into Akkadia and Assyria, there was another branch of them that combined with the Odedicron Reptilians, and another branch that combined with the Omicron Draconian's. You ended up with something called Teosin, Lathin and Etruan King lines, who were known as the Atlantean anti Christos King lines. From them came the Hassad and Hellenium King lines, Hellenium is the Hellenic line that brings in Troy and all that nonsense. Perhaps the horse reference is in relation to the Pegasus line mentioned earlier, and also possibly to the horse headed chimera in China slaughtering humans in a grinding machine. Notice some of these words are in our history, the human beings have been conned into thinking that they apply to them. But they don't apply to most of the people on the planet, because even though the invasion and infiltration here has been huge, there are still more humans and Indigos combined than there are Leviathans. Which is a secret they don't want anybody to know, and that is their weak point. These King lines came up and later you got into the Hallah Kings, where you have the seeds of the Islamic religion, then you move it over to what they call the Jewish religion, that has nothing to do with the Jewish people at all. The original Jewish texts where taken and twisted like everything else. The Jehovian Anunnaki where running that section for a while, and why we still have trouble in the Middle East. If you chase it up it takes you into the different breakdowns of the Pharisees and the Sadducees, they were here in the bible and the biblical history. These were the lineages that were in control of governing religion and politics, these where not human races. All of which confirms the bible is their book and their story. The whole Exodus thing that was happening, wasn't the Jewish people who were running, it was the Hyksos, the Hyksos are the problem on the planet right now. The Adam-Kadmon race a mix of Enoch and Thoth groups went about raiding other races, the Celtec and Druidec, who were part of the 12 tribe Maji races and took on some of their coding. Hence both of them falling and getting involved in the pagan worshipping, witchcraft and human sacrifices. The Vicheros-Sacheon invasion in 20000BC was from Alpha Centauri. You had two groups Marduk-Necromiton Anunnaki and the Pleiadian-Niburian-Samjase-Luciferian Anunnaki who then went about raiding the Celtec and Druid races. Marduk hooked up with the Vicherus Annu-Melchizedek and part of them also joined the Pleiadian group under the name Sacheon. The Celtec merged with the Marduk crew and became the Vikings, the Druids merged with the Pleiadians and became the Saxons. Now you know why they both invaded Britain so often, it is because that is the remnant of the original Atlantis and the Maji Grail lines. But there were many other smaller invasions that took place. By the time we get up to the flood, this is where is the

beginning of the clean slate, the tabula rasa as it were then. They orchestrated the flood by messing with the crystals, the whole thing, of which the old Noah story and the Ark, all has to do with Enoch. Enoch was taking a group of his people from Nohasa, he knew the flood was coming as was part of the Luciferian Anunnaki, they knew the Samjase Thoth groups were going to create a deluge. They were going to get rid of the people of Atlantis, whilst taking their own off planet temporarily so could get rid of the rest. Enoch had a particular cluster of his own special chosen ones, they were the only ones he warned, as they were the best of those now combined with the Metatronic program, through intertwining with the Thothian races. Enoch took the chosen ones by boat from Bermuda to Egypt, and onto Giza where the Ark of the Covenant portal exists, as he had pass keys to the Ark of the Covenant portal, because once upon a time he had been a Guardian. He took the people into the Ark of the Covenant, the portal, that is what is known today as the Noah's Ark. It wasn't a boat there were certain beings and people that were taken, and some animals they knew they would need to reseed, when they came back up after the deluge. I found that interesting as my knowledge of the Ark's is, that there was 7 of them not one. It also means another theory of mine was, the Ark box as portrayed was not what we thought it was, and I mentioned in one show I suspect that box fitted in the sarcophagi in Giza. One suspects it was a body and life regenerator, like the sarcophagi in the Stargate series. The Ark of the Covenant was the portal we all came in on, the one everybody had to get in on since seeding 3. These are the stories, the truth behind the stories and the pieces of them that remain, so that the Noah line, the line that came up was what became the Abraham line. It's the line that came up during this period where Thoth and Enoch agreed to follow the Luciferian agenda. The Luciferian agenda involved the Metatronic Wezedak coding, because in 22340BC is when Thoth agreed to lead his peoples into the Metatronic immortal body, as opposed to the natural eternal Ascension body. The lazy assed way of development, that ultimately leads nowhere, there is no path for Immortals, and ultimately they descend into darkness. It was all about them becoming the God, with an insatiable appetite for destruction, control and power, all fed by the external ego. The natural Ascension body requires work, work is creative, we are creators, we are the spark of creation, so not working you lose your creativity spark. To do that you must go internal, hence when on the external the I becomes the we, and on the internal the we becomes the I, you are on the path to soul development. Laziness is the damnation of our type of human, who always want the easy path, but the easy path is taken because the other path is deemed hard, that is the illusion game again that has fooled so many into apathy. When Enoch combined his races with that, they took on the Metatronic coding, and this is why you will find the teachings of the Thothian and Egyptian schools. The Isis schools are all those guys, Isis is another word for Samjase, these are the races of darkness. When we look at Isis, Horus and Egypt isn't that all nice, we have all been so naive, because the history records were taken away from us. So Egypt and all their his story is not fun and enjoyable, it is sad that many peoples romantic bubbles gets burst, at this point it maybe a rude awakening. But if we don't wake up, we

can go off and be little subservient things, played with by these false creator gods from now until eternity, in a black hole Matrix if that is what we prefer. Source will not stop you from making the choice if that is your desire. This brings in the folly of being a compliant bot, how can you advance when you still act like you are being parented? The answer is you can't, and these compliant hive minded bots are what has held humanity back due to them being the majority. From a neutral perspective of lets say a Galactic Council observing this world, they would deduce the majority are happy, whether they are being used as slaves or not. The slaves don't complain, and therein lies the problem we face. But, the truth is recorded in the records and that is why the truth is being brought, so you can make a conscious choice, because without it, you are being conned. Yes, this is crashing your old models of what you thought was truth and real, truth telling when on a harsh scale is done out of love. Why? because it requires sacrifice of your life, time, energy and large amounts of abuse, interference, death threats, loss of people around you and many betrayals by those you are trying to help. If it wasn't for love, you cannot do these roles, because it is so much easier to walk away and fade into the background like all the others, or go like most Alternative Media characters and sell out. These are the beginnings and the Christ story fits in here, after the flood of 9558BC, it was already preplanned of which groups were going to invade, and which groups were to go in each direction. A bit like WW2 then. The Draconian Dragon Kings having their own plan of raiding, and this was part of the Luciferian Covenant of 9560BC, just two years after the flood. There was 6 groups: 1. The Pleiadian Niburian Samjase Luciferian Anunnaki known as the blondes, more of them shortly. 2. The Sirius B Marduk-Anunnaki known as the Anunnaki and Omicron Dragon moths. 3. The Enlil Odedicron known as Anunnaki Raptile and Avian. 4. The Thoth-Enki Zephelium known as Anunnaki and Zeta. 5. The Marduk Necromitron Luciferian known as Anunnaki Alpha-Omega Centauri Blue Centaurs. 6. The Galactic Federation and the Nohasa Atlantis Jehovian-Urantia and the Annu-Melchizedeks. Altogether they are the Anti Christos Luciferian One World Order agenda. Ah the Galactic Federation oh my, we called them the Galactic Federation of Lies, not light. So many alt media were pushing their narrative, all of which is seeded into the Alt Media by puppet clowns operating for and on the behalf of these dark force invaders. The Jehovian Kings didn't like the hybrids ones with their own plan, and you have the master race Thoth/Enoch crew that had their own plans. The Anti Christos One World agenda would be two groups Jehovian of Sirius A the bipedal dolphin group, and the Draconian agenda involving the Omicron Reptilians and Omicron Draconian's. They, over a span of time infiltrated every Angelic human race, and was forced, either you buy and teach your children this or do this, or your dead. That was on their good day, on a bad day they would come in kill all the males and take just a few females for breeders, rape them until they conceived and then forced them to bear the children. They did all this with their sacred sex rites under moonlight, there are certain things about conceiving under moonlight, because they are actually better for higher resonance fetal patterns, than during the daytime. They knew these things because of the Atlantean texts, that had

taught all about sacred sexuality and all those type of things. Or they were paying homage to the Kali Ma moon goddess, the Lilith who took babies and consumed them in the night. They used all the teachings against us, and picked up all our codes of the race lines, all of which means they got more access to the planetary grids. Each time they created a generation that had another piece of the human DNA in it, they then had another piece of the keys to the planetary templar, because it is only the Human and Human DNA that carries the keys, and still does. WE ARE THE WORLD

We came up through the invasions of Sumer invasions 8900BC, all of the Sumerian history all of it is their history, it is all about the Leviathan races. There is not one shred of human history from 9558BC up to the present. Not one shred of human history, it's all ET history 101 we have been reading and being taught ever since the flood, their his story. All of which was done on purpose, but the Larsa King Line tablets extended the era far back than they assumed, and revealed to us the issues. There are a lot of other relics that will eventually come to the surface, and will verify this if we get to find them. Many have been found and some hidden away from dark forces, and some was spirited into the abyss archives, known as the Vatican. But if things just pop up, archeology will become a mute point, as things are re-arranging itself. The Israel, Palestine and Jordan territories were all their areas. The Hebrew people where the Grail line one of the original tribes until the Hyksos invaded them. This is not the 12 tribes of Dan, Levi, Judah, Benjamin that is all over the internet and people claiming they are a part of it, they were all the Leviathan Hyksos and part Jehovian tribes, do you still want to be a part of that? The Jehovian group remember don't even want the Hyksos infiltrating, this is why you will have different sects within the Hebrew or Muslim religions. Everyone is fighting with each other because they were all these different agendas, and they want to take one path with the hybrid and then combine it with another. Then we come to the Egypt invasions 8400BC, through to 5500BC, but they continued after that via every Pharaonic dynasty, all of them was one of theirs. They moved from Sumeria to Egypt and the Stargate 4 region Giza. Just a succession of Leviathan King lines fighting their way through and over another competing group. All through this period the big challenge for the Angelic Human and Indigo lines, was to keep their lineage alive genetically on planet. Because they would be exterminated whenever they would be found out, and often they just did their best to blend in, particular the ones who actually knew who they were, and still had memory of who their lines where. Yes, we have played a game of hide and seek on our own planet, whilst many of the Councils ignored it. They would try to pretend and be like when in Rome do as the Romans would do, just so the Romans won't find out you are not one of them, because they would kill you. We were scattered all over the place, because we couldn't just sit at our gate sites anymore, due to them being infiltrated and invaded. There was little clusters left at the gate sites, but the majority of them they were trying to preserve themselves so the gene line could continue up until this time. But, we would literally be scattered all over the place and mixed in with everything. All so we wouldn't

be found and more difficult to identify us, so they couldn't raid the whole village knowing they could get a whole treasure load of DNA coding, from the Angelic Humans. The Egypt invasions went into the Mayan invasions, went into India in 5900BC. What a surprise it was those two regions, the Shivas, Vishnus and Quetzalcoatl fake gods, when it was all these chimeras and the inbreeding crowd. There is a little bit of the original text left in the Mahabarata, which as we known was stolen Rus texts, that told about the air wars that took place, the vitmanas and vitmaras and the fighting in the skies. Curiously no one asks the obvious question, of how we had aircraft then, when his story states it only started in early 1900's. Yet even more curious is, there are still a load of people in the Alt Media demanding ET Disclosure, how much more do you want? That is a lack of inner trust, that they are waiting for some official narrative, but what makes an official narrative done by some control system puppet, more important than what you see, feel or experience? That lack of inner trust is also why we have wars, famines, division and tyranny. Certain groups tried to take over and the other Leviathan's didn't like it, and the Guardian races got involved because they were going to exterminate everything. It was quite a skirmish back in 5900BC, those skirmishes go on still today, but it is called America versus any country the clowns want to invade or lets attack the axis of evil countries. No, lets not attack any countries except the fake one in the Middle East, causing mayhem where ever they lay their yarmulkes. So 5900BC the skirmish was known as the Centaurian War involving Alpha and Omega Centauri. Then at 3650BC the Mayan raids started to take place, which was Thoth's group going over to Mayan areas via space ships or using the Earth surface portals. The surface portal are which connects surface Earth points to other surface Earth points, as opposed to the Inner Earth Portals. Some of those portal systems were operational and they could get from one place to another. All of which destroys the diagrams of how humanity spread out and the ridiculous Out of Africa conspiracy theory, posited by archeologists who don't understand life here. In the teachings, we learned a planet has the same chakra system as people, except planet-sized chakras are called Star Gates. This planet has many unnatural gates that have been implanted over the eons as the dramas wore on. The most accurate term for all these gates implanted on Earth is wormholes, because that is the correct term for false chakras. The Thoth group in the Mayan invasion includes Hermes, Ningishal and Quetzalcoatl. So, the Mayans are worshipping Thoth, oops. Explains in part the ritual sacrifices they performed to pay homage to utter psychopaths. It gets more complicated when you get Leviathan and Fallen Angelic races or ET's as we call them, coming in and manipulating the paper trail behind them. They didn't want things found and they got rid of most of the bodies of the cloister races, who had elongated heads and were very tall, there was a few they missed and where found in Peru, the site of two of the twelve Stargates. Science says these people suffered encephalitis a swelling of the brain that made their heads go bigger, when actually they just had larger brains. There has been a progressive sweep and right now we are still in the middle of this, science is hugely controlled on this planet, of what the common people are supposed to know.

America land of the free yeah right what an illusion, we just get to play in our Hologram and think we are free, more than most people do. I am not convinced we are in a Hologram, and posited a theory of the overlapping frequency waves creating the illusion of a Hologram. Regardless, it doesn't change the fact we are in a prison camp, this planet has been a prison camp since Atlantis, and we have a chance to evolve out of that now, and this is what the 3 paths of Genesis are about. Next we get into the Abraham lines about 2075BC, when the person known as Abraham came into being. Abraham was out of the Adam-Kadmon Hyksos line, he was combined with some other lines, as they were trying to get together as many of these diversified Anti Christos Grail Lines to create a super race. Oh the irony of the narrative since 1944, another case of accusing others of doing what they had done, or tried to do. The Jewish EL-ites who worship Lucifer, now you understand why, they are the Luciferian Hyksos who they themselves had created a super master race, the oh so special chosen ones. It is laughable how they delude themselves and make out they are all so pure, when they are a bastardized mix of riff raff and Galactic pirates. They combined Hyksos the Midianites with the Jehovian Nohassa lines, so it was taking one of the Jehovian Anunnaki line that wouldn't join the Enoch group, these guys came in then. This led up to the dramas between 1670 and 1550BC the Hyksos invade Egypt completely, and they took over and were the ruling party there. And they wonder why they got in trouble, they came and took over some of the other Draconian Leviathan races. Then with a vengeance they came back and the Hyksos had to do their Exodus, they were kicked out of Egypt because they had come in and taken over, they were invaders not some poor refugees as they have made out with the pity party, guilt and shame program. They were kicked out because at the time the Draconian Leviathan races had their Pharaonic rule. The Hyksos and their master race came in and then they got taken over in return. Through this drama the Moses story evolved and Moses was one of the Hyksos, in fact the whole Moses story was a cover up from the fact he was the son of one of the Pharaohs. Hence all the pharaohs following had Moses in the title, Tutmoses etc. The exodus took place between Tutmoses I and II, the whole thing of Solomon's Temple, all fit into this line. Which brought in Ahmose I in 1550BC, sometimes written as Amosis, which means the Moon is born, which one is a good question to ask. He took over the throne from his father who was killed by the Hyksos, and took over after his brother died on unknown causes at the age of ten. So, was he something better than what went before? well no, as upon coronation became known as The Lord of Strength is Ra. Under Ahmose's reign, the city of Thebes became the capital for the whole of Egypt, as it had been under the 11th Dynasty in the early Middle Kingdom. Having Thebes as the capital was probably a strategic choice as it was located at the center of the country, the logical conclusion from having had to fight the Hyksos in the north, as well as the Nubians to the south. Any future opposition at either border could be met easily. That is from the Wiki description and the clues in that are enormous, Hyksos north of Egypt brings in Palestine and modern day Israel regions, the Nubians to the South where not Nubians at all, but Niburians. Perhaps the most important shift was a

religious one: Thebes effectively became the religious as well as the political center of the country, its local god Amun Ra credited with inspiring Ahmose in his victories over the Hyksos. This is like the infighting between Ra and Apophis in the Stargate series. The importance of the temple complex at Karnak on the east bank of the Nile north of Thebes grew, and the importance of the previous cult of Ra based in Heliopolis diminished. One of the meanings of Amun's name was the hidden one, just like Isis hidden means Islam, and then you have the hidden purpose of the fake country known as Isis Ra and El. THUNDERSTRUCK

I hope you got much out of that and look forward to Part 2 likely next week. I told you it was complexed and staggering to grasp, a walking minefield of incestuous interbreeding all for control. No wonder the bible opens up with blah blah begat blah blah, now you know why. It confirmed more, than of what I have said all along, the bible and the scriptures are all their story. The greatest shot down of the biblical narrative all in one show. Yes, this will shatter many illusions and the religious dogma, but for us as a species to move on and up, religion in all it's guises has to end. All the bs about Noah, Moses, Enoch et al from the bible, all laid to bare as traitors to humanity on a massive scale. Religion is the control structure of all these fake humans and non human beings, whose egos and insatiable greed for control and power, far supersedes their intelligence levels. Never think they are cleverer than us, they are not, they have technological expertise largely that came from the Angelic humans, as they are not creative enough to do that. It should shatter the illusions of the Pleiadian nonsense we get on the Alt Media, of how they are coming to save their space brothers and sisters, yeah right do me a favor I warned of them years ago. This show shatters the illusion and lies of the New Age program as well. They were a large part in the chicanery here, like the Draco they were saving the humans for their own ends. It shatters the sickly illusion of Atlantis and how they were all lovely and advanced, erm no as I had stated. Not one race it has been shown to have done any support for us, for the sake of charity or act of kindness. A very sad tale all round but the irony of the Jews proclaiming they are a Diaspora, meanwhile back in reality land, it is, and was we, who were the Diaspora on our own planet! Yet another example of doing a 180 of the narrative, just like their master race accusations in the 1940's. It was all about the genetics, we have it and they don't, we can develop, but they won't, too mired in controlling others and the illusion of power. Illusions that belittle or limit us, that project people upon us and we sub-consciously agree to uphold, can be shattered. Tonight and Part 2 shatters the illusion game they have played. Power by force is external and not true power, that is attained internally. Now you know why I have stated there is no racism, it is geneticism that is the problem. All colors and the differing races they represented, yes all colors of people are different races, have in their genetic coding of DNA latent memories of us all fighting each other long into the past. That is why we don't get along, but if the truth is known and accepted by all, we can change that bitter and violent past, into something much better. I would suggest to the listeners, that

one has to question this whole genetic war going on now with different eyes. Is the Covid gene therapy another of their games? or will it signify the end of their hive minded bots? put here to keep us distracted, divided and under total tyranny of varying degrees. Could it be an elimination of the non Angelic Humans? Would you view that as a silver lining? How would that make you feel? Will you feel that as part of a great victory? or part of a great loss? Good questions for you all to ponder on in greater depth until the next part. Despite all their chicanery we are still here and fighting, and we still hold the key and the keys, not them. Only the Human and Angelic Human DNA that carries the keys, like I have said all along we are the treasure. The treasures are inside of you, not outside of you, once you develop the self. We are the envy of the rest of the Universe, in particular these dark force entities who think they can cheat not only life and death, but Source as well. Their time is short now, but our journey is just beginning. NEW BEGINNING
