

## THI-SHOW TRANSCRIPT 2022-04-12

WHAT'S THIS LIFE FOR This is part 3 of the Cosmic Genetic shows and whilst in the first and second parts we went back in time, this adds a whole new layer to it. As we go back in time to the dawn of life itself in this Universe and bring you all up to the current time, and indeed beyond. Much has been garnered from the first two parts, as much of it fits into the patterns that have been woven throughout our shows, but it went much deeper on many levels. It told the sorry tales of betrayals, falls from high, collusions based on the self and not the all, great names of the past all rendered evil or part of the problem. Unimaginable levels of technology, which I have consistently warned about. Desperate acts, devious and evil ways with which to corrupt other life forms, that set them back millions if not billions of years of development. All because of greed, envy and the desire to be the one, the only thing that is the one is the Creator or Source, to balance it, it requires one and one to be with the one and this has become much clearer now to our listeners. It is all about the balance, 45/55 light or dark is a minor correction, 83/17 is and was not, not without much loss of life and indeed time. The seduction of power and greed laid to waste many of the gods, seduced by the desire to be the one. And one by one although not with the one, down they all spiraled into the dark forces traps and programs. That is a lesson for us all, not to be lured by power, riches, greed and trampling over others to reach the perceived top, that is riddled with illusions, cul de sacs, traps and baiting, all for the day you succumb to the seductive force and dance with the dark. This will be a detailed timeline going back to the dawn of life itself, how it all evolved and indeed in many cases devolved. The dangers of technology brought to the fore again, alliances created and broken, covenants created and broken, and life it seems to the warring factions was cheap and expendable, including their own. The timeline will be broken into two parts, and the remainder will be in Part 4. Additional background information on various parts and entities will be revealed in both shows also.

TRAVELERS SONG

We start our journey way back into the mists of time, far further than science or religion would have you believe. One billion? 4.5 Billion? 13.5 Billion? 100 Billion? which one would you choose? The answer is none of those, we start at 950 Billion years ago. 950 BYA - The Lifewave was seeded, The Emerald Covenant. The Eieyani of the Khundaray Primal Sound Fields seeded a life wave into this matrix, creating the 3 Breneau Rishi Founders races in Density 5. The Anuhazi Race was seeded, Anuhazi translates to before

Anu. The Emerald Covenant of Aramatena was formed. The Emerald Covenant Co-Evolution Agreement was formed.

480 BYA - The Borenthasala witness the fall of their Density 1, 2 and 3. The Borenthasala decide to create an experiment designed to improve the KRYST called the 6-6-6-6 Victim-Victimizer experiment. The Bourgha begin building an attack triangle.

450 BYA - The Tri-matrix KRYSTHL River Host begins. The Bourgha Musala race break quarantine on the experiment, by inventing Time Rip/Threshold technology to create unstable wormholes. The E-Umbic Time rip happens at the Eckka-Veca level between the Bourgha Matrix and ours, the same process happens at the incarnate level when individuals are assimilated by Soul Eaters. Yes, you heard that right, the soul eaters largely done in the Astral and also host possession, do you still wish to drink spirits and smoke pot? The Borenthasala Eckka-Veca falls, Bourgha Musala rename themselves Bourgha-Musala-AhLama, the assimilators of the Bourgha MUSalA. The Bourgha-Musala-AhLama use their Time Rip/Threshold technology to attack this Eckasha on the AdorA side, the Aquari decide not to quarantine. AdonA & EyanA founders races develop Gyrodome technology to rehabilitate the fallen Borenthasala Matrix but decide not to use it. Those last two decisions could be seen as the escalation of the fall for everything and everyone, a staggering 450B years ago. The plan for Aqualene Transmission is devised, which would eventually lead to the Aquareion race line. The Aqualene Transmission is a very large blended array of frequency, comprising the pale aqua currents of the outer domain of the Aquari, the Arc of Aquari. The blue color from the An-sha-ta Sa hub and the Ha'ahTUr hub, when you combine these hub currents with the Krystal River ray of Aquari, this is known as the Aqualene Transmission. The Tri-Matrix KRYSTHL River Host Cooperative is formed. The creation and purpose of the Tri-Matrix KRYSTHL River Cooperative was to, quarantine the Bourgha black hole system.

350 BYA - The fall of Procyus later becoming Procyon in the M31 Andromeda creates the Milky Way Galaxy, ObeYon is reversed to become OberYon. The Procyak Matrix the Milky Way Galaxy is formed with Procyak (Abaddon) at the black hole center, a piece of Procyak becomes Procyon in the Canis Minor system. A piece of Procyak becomes Prolaris which then got reversed to Polaris which was the North Star, to plug us into the Black Hole at the center of the Milky Way. Sagittarius A is the fallen part of ObeYon which is M31's Kathara 8/Metagalactic Core. The Procyak's then inserted a false

memory record with 10 implants in our Milky Way. That includes the Alcyone library, Omega Centauri library, Tiamat library, Procyon library and the Obeyon Abaddon library.

300 BYA - The Bourgha MUsala AhLama force a time rip between, Density 4 of Bourgha WEsaLA and our AdorA matrix. The Budhara & AdonI races of our AdorA go KRYST and fall while attempting to seal the time rip. The Bourgha-Budhara were created through forced hybridization. The Bourgha time rip went into our EtorA Eumbi. The UBy races SuccUBY and IncUBY were created from Bourgha-Budhara hybridizations, this is the origin of the Succubus and the Incubus beings. I suspect the Bourgha where the ones who used the Borgâl known as the Black Tongue. Which is the magickal language used by the Dark Lords' Order, to invoke Force into themselves and command the external world. This was in the From history to our story part 8b and the Order of the Black Sun. 250 BYA - The fall of Lyra. The Bourgha EUBY time raiders infiltrate Density 3 Bellatrix and Density 4 Lyra-Vega. The Anyu race which is one of the original three Founder races, rebel against the Founders and become Annu-Elohim. The Anyu race petition the Founder races of Density 12 Lyra-Aramatena, for them to destroy the Fallen Seraphim of Density 10 Lyra-Vega, that resulted in the double-double and the split of the Universal Star Gate 12 at Lyra Aramatena. The Universal Star Gate 12 Lyra Aramatena is attacked by the Anyu race of Density 11 and destroyed. The Yanas appoint Density 5 Melchizedek Cloister Eieyani Master Council collective as the Administrative Council for the Azurites, who would incarnate first through Sirius B, and then as Indigo Type 1s. A Restatement of the Emerald Covenant. The Inter-dimensional Association of Free Worlds (IAFW) is formed. The IAFW seeds the first Grail Line in fully evolved form in all four Densities at Universal Star Gate locations. The IAFW creates the Azurite Universal Templar Security team. The Thetans are created. The Phantom Matrix created the 11 Dimension black hole sub-time system.

250 BYA - 570 MYA - The Lyran-Elohim Wars would later become the Angelic Wars. 150 BYA - The WEsaLA matrix partially falls creating WEsaDak and WEsaDrak. The Shadow Dancer races created, I suspect these are the djinns and egregores given some say they are described as ninjas. The Eye of Metatron was installed. The Arimathaea wormhole framework was built, wormholes are false time travel devices to negate using the Star Gates. Hence the term Port-al the docking of the fake gods.

137 BYA - The fallen Equari hybridize with the fallen Seraphim in our EtorA system. The White Dragon race is formed. 130 - 120 BYA - The White Dragon race splits forming Red & Green Dragon lines. 112 - 2 BYA - The Tri-Matrix Dragon Wars and an attempt to assimilate our Eckasha. 112 BYA (approx) -The BeaST Machine is developed, the BST is in capital form, and reveals Blank Slate Technology. 100 BYA - The Bhendi Races are formed, known as the Bhendi Gold Dragon Race lines. 13.8 BYA (approx) - Contemporary science commonly holds that the cosmos began with a "big bang" 13.8 billion years ago. (M) There's a troubling gap in the teachings, to explain what Science currently believes about the origin of the cosmos. If there was full transparency about our current situation, there should most definitely be information to explain the calamity that a Big Bang would represent. It would make so much more sense if science claimed the Big bang was 250 Billion Years ago, because that was the Fall of Lyra. There is no where near enough information about the particulars of the Lyran-Elohim Wars, which were going on 13.8 Billion years ago. Those wars in Density 3 and 4 started 250 BYA and went until 570 MYA, only to kick-off the Gaian-Orion wars. Roughly 249.5 billion years of fighting, just mind boggling and all so pointless. Of course there is the possibility that Science is completely wrong, because it totally depends solely on what is measureable or provable and it is clueless about what Dark Matter really is, and also how the timelines lay out along event horizons. Let's not forget the Titus Moebius, that was trapping consciousness in time loops. That is the time loops we have revealed and discussed. So how can science ever be able to accurately measure time? original time. It's probable that 13.7 Billion years in our current probability/event horizon actually equals 950 BY. Too many details missing from the teachings to make an accurate comparison with what Science says is factual.

4.6 BYA - Alcyone (our Sun) created as part of a Fall, this is when the teachings say the Earth was created but not for the reasons science states. 3.6 - 2.8 BYA - Some scientists believe a supercontinent called Vaalbara was the primary landmass. 2.8 - 2.4 BYA - Some scientists believe the supercontinent Ur was one of the primary landmasses, I suspect that is Da'Arya which was destroyed at a later date, when fragments of one of the three moons we had back then, hit the Earth. 2.7 - 2.1 BYA - Some scientists believe the supercontinent Kenorland was one of the primary landmasses. 2.1 - 1.9 BYA - Some scientists believe the supercontinent Arctica was a primary landmass. 1.9 - 1.1 BYA - Some scientists believe the supercontinent Atlantica was a primary landmass. 1.8 - 1.3 BYA - Some scientists believe the supercontinent Columbia, also known as Nuna, or

Hudsonland was the primary landmass. 1.1 BYA - 750 MYA - Some scientists believe the supercontinent Rodinia was the primary landmass.

1 BYA - The Bhendi Gold Dragon races partially fall. The Blue Dragon or AquafarE Lines are formed. 1 BYA - 700 MYA - The Gyrodome seeded. The Gyrodome is a host field for the Aquious Matrix to be able to sustain this field, while the other portions of the planet and this solar system, plus our Universal Time Matrix go into their fall cycle. The Gyrodome has connections between Urtha, Sirius B and Andromeda. The 12 Feathers AquafarE Aquari Aqualene tri-matrix race line seeded. 700 MYA - A partial fall of USG7 on Arcturus, USG8 on Mintaka Orion & USG9 on Mirack Andromeda. Part of M31/Andromeda/Aquinos is pulled out of the fall and quarantined by the Aquarian races. 633 - 573 MYA - Some scientists believe the supercontinent Pannotia was the primary landmass. 596 - 578 MYA - Some scientists believe the supercontinent Gondwana was a primary landmass.

This next part reveals major crisis' and indeed in some parts of it, still plays out today. 570 MYA - Angelic wars end and the Gaian-Orion wars begin. The Jehovian Anu races hybridize with the Fallen Budhara. The Ceres of Tara create the Priesthood of Mu on Tara. Tara is the name of the wife of Perun who wrote or narrated the Vedic texts, and part of the Urs from Ursa Minor system. There will be greater mention of them as time moves on. The Council of Mu move their populations off the Taran Alanian continent. The Angelic Wars come to an end. A Restatement of the Emerald Covenant

570-550 MYA - The Metatronic NET was installed in this Matrix. Density 3 Dragon wars lead to the Gaian Orion wars starting and a partial fall of Gaia Polaris. The Jha-Yan Shield Split. The Metatron collective makes a deal with Wesadak to use the Eye of Metatron, to create a wormhole called the Path of Arimathaea. The Oraphim is seeded on Gaia in Density 3, on Tara in Density 2 and several other systems.

570-568 MYA - The Inter dimensional Association of Free Worlds creates the Guardian Alliance as a Crisis Intervention Team, and to oversee the creation and Evolution of Angelic Humans. The Yanas instruct Eieyani to install the Emerald Ecka Override System in key control areas of Universal, Galactic and planetary Templars. The Emerald Covenant Races repair the Star Gates 11 and 12 in this matrix.

568 MYA - The Oraphim Angelic Human race is created and seeded in Densities 2 to 4. The Annu-Elohim the Fallen Angelics create the Anunnaki, and now things start to spiral downwards with that creation.

560 MYA - The Turaneusiam-1 Angelic Humans are created as a Master race, to serve as the Guardians seeded in Densities 2 and 3 of Tara and Sirius B. Bra-ha-man, Dhr-ah-men, Atoni, Trin-i-ten, Azurtan, Celtos, Addami, Yutarans, Luri, Cerrasz, Nezack-tai and Melchizedakz make up the 12 sub-racial divisions of the Turaneusiam 1 experiment. The beings who created the Turaneusiam 1 the 1st human prototype, wanted to continue their experiments. So agreements had to be made by forces who had the power to reclaim Earth. One of the main factions are the Drakon, the Draco's are known as a reptilian/human hybrid. When we were a young developing species, a frequency fence was used to filter out hi-frequency codes which we were not mature enough to handle, otherwise it would have fried us. The Drakons poked a whole in this fence and created major problems. The Zionites had to intervene to quickly accelerate our evolution before burn out, they did this through the random injection of Silicate matrix, or what is known as the Crystal Gene.

552 MYA - The Turaneusiam race split itself into two racial strains, oh dear another common theme, divide and conquer, or divide and fight for control is and was the modus operandi. 550 MYA - Tara blows up. The Taran Covenant of Palaidor was formed. The Sirians, Pleiadians, Ur-Tarranates, Elohim, Lyrans, Ceres, Lumians and Alanians become known collectively as Palaidorians. An Amenti Host mission. An Aurora Field set into the Earth Templar creating the potential for Earth to blend with Urtha. It allows part of the frequencies from Urtha to blend with part of the frequencies from Earth. It is a Universal Host Matrix field. The Amenti-Earth is seeded into AshaLA. The AshaLA actually is called and is, the Between World, because it's axis is between the Milky Way tilt and the natural one in M31, a kind of Middle World. The fallen fragments of Tara are implanted into the organic Universal Stargates of Sala-4 and Urtha-3 and each planet in our solar system. The blown-up parts of Tara fall through Eumbic Lock as vapor, and re-solidify and get hosted into Urtha linking Core-to-Core. Discernment: this description of the Amenti Rescue Mission is among the most transparent portraying Amenti more like a virus implant, than any sort of organic transaction. Unfortunately does not address how it was destined to backfire. It does not explain well enough how planets were created from fragments of Tara, the example Core to Core comment. How can a fragment of a blown

up planet have a core? There are lots of gaps in the Amenti Rescue story, as we are told. In Density 2 the Taran-Sirian Wars began which led to the Fall of Tara.

This next period facilitated a number of mass Extinction events. 472 - 451 MYA - Some scientists believe there were two supercontinents, Gondwana and Laurasia. 446 MYA - A Mass extinction event. 440 MYA - The end of the Ordovician time, a Mass extinction event where 86% of species were lost. 375 MYA - Dinosaurs were seeded on Earth. 375 MYA - A Mass extinction event. 364 MYA - A Mass extinction event. 336 - 173 MYA - Some scientists believe the supercontinent Pangaea was the primary landmass. 252 MYA - A Mass extinction event. 251 MYA - A Mass extinction event. 250 MYA - The Turaneusiam-2 Seeding 1 Ur-Tarranate Cloister seeded on Parallel Earth, it was seeded in this Veca 25 Million Years Ago. The Fallen Anyu becomes the Fallen Angelics. 250- 201 MYA - A Mass extinction event. 200 MYA - A Mass extinction event, also called the TJ Event. 200 MYA - A second Mass extinction event in the same Millennium. 75 MYA - 1st Stand of Aurora. The Thetans raid Earth and construct the Micca-Mecca complex, which is a mass energy harvesting center. The Micca complex is the part on Parallel Earth that has to do with a series of systems, that work through the E-Umbic Time Rip, that plugs into the Bourgha system. The counterpart to this is the Mecca Complex here. Muslims really need to stop going there and feeding that technology center. Now you know what the strategic black cubes are for, hello New York! The First Stand of Aurora. 66 MYA - A Mass extinction event. 65 MYA - A Mass Extinction Event also called the KT Boundary Event, a crust offset to forcibly shift the planetary plates was executed by the fallen forces to begin the caduceus alignment. This in my opinion is how the West coast of America, which is now the Rockies. West of the Rockies may well have been part of the land mass of Lemuria, the crashing of the now West coast into the American landmass caused two things. It created the Rockies and made the Mississippi River much narrower, it is possible it was as wide as 1-2 miles previously, the marshland or wetlands either side of it confirm that. The Dinosaurs become extinct. The Dinosaurs were the Drakon's monitoring tool. The Solar Lords did a couple of things, they brought on magnetic grid shift ahead of schedule and wiped them out. 25 MYA - Seeding 1 of the Angelic Humans the Turaneusiam-2 was seeded here on this Earth, known as the 12 Tribes. The differing human races and where they were placed is Earth is HU-1, Tara is HU-2 and Gaia is HU-3, HU 4 and 5 where the Lyrans.

5.5 MYA - The Electric Wars end it lasted 900 years, the war was over the possession of Earth territories. Some was for the purpose of study and observation, and some for

exploitation. The Great White Lion and Golden Eagle Crystal Pylons were created. The Sphere of Amenti moved to the 4th Dimension. A 4th Dimensional frequency block results from moving the Sphere of Amenti. The Angelic Human Turaneusium-2 Seeding 1 on this Earth were destroyed by the Electric Wars. This world becomes entangled in the Phantom/Black hole system. There was a hole ripped in the planetary templates, and part of this world's quantum got sucked into the black hole matrix creating the Phantom Earth. The two worlds theory now revealed. The Founders create the Wall in Time Frequency Fence which has the effect of creating the Phantom Earth. Earth then experienced erratic weather and a slow, partial pole reversal and tilt, imagine the media, climate changers if they were around then? The fear programs would have gone into over drive. The final and sudden shift in Earth grids caused an Ice Age. The Polarian Gate Matrix and Rama Passage capped. The Polarian Gate Matrix are gates that are on the Adora side, and they are the equivalent of our Arc of the Covenant gates on our side. The Polarian Matrix is an intricate system of intermediary Star Gate links that run between the Ecka and the Parallel Ecka, and their respective Universes. When activated it allows merging between the Ecka and Parellel Ecka territories through the Kristiac shield of the Eckasha, from which the Ecka and it's parallel emerged. 4.5 MYA - The Great Galactic War. The Star Rider Flame Runner Keys granted to the Earth Councils of E-Cou-Sha-TA. 4 MYA - a small portion of Amenti containing the second seeding souls was placed in Sirius B. This would lead to the creation of the Kantarian, Europherites and then the Dagos races. 3.7 MYA - The Angelic Human Turaneusium-2 Seeding 2 done by the Dagos Cloister. In this seeding, there was a group of Angelic Humans and Aquafereion upgraded Angelic Humans, that carried a line of codes called the Krystal Heart of Aquari codes. That enabled the opening of the Krystal Heart Aquari passages, in the event that the Seeding 3 races ascension packages were closed or collapsed. These are passages that exist within the Earth's body and they are part of the Host shield. 3.7 MYA - 848,000 YA - An Aquiri line was attempted on Urtha sometime during this timeframe, but failed before it was fully activated. 3 MYA - The Crystal Pylon Temples set up on the 12 Inner earth Stargates, they regulate how energy runs through the Earth's grids. They were created as part of a plan to fix what happened 550MYA, and to facilitate humans here as planetary guardians. HELLO MY NAME IS HUMAN

900,000 YA - The Sphere of Amenti returned to the Earth Core. 849,000 YA - The Sphere of Amenti removed from the Earth Core. 848,800 YA - The Nephilim invasion of Earth primarily done by the Archangel Michael collectives, I hope that puts an end to the Archangel Michael rubbish in the Alt Media and New Age circles. It is a giant piss take

on humans, essentially worshipping an entity that led to our downfall. The Angelic Human Turanesium-2 Seeding 2 was destroyed in the Thousand Years War. The Treaty of El-Anu. 848,000 YA - The Planet Maldak explodes as a result of the Thousand Years War and becomes the asteroid belt. 840,000 YA - The Arc of the Covenant of Palaidor Passage was created, the Covenant of Palaidor is not the Emerald Covenant. 798,000 YA - The Angelic Human Turaneusiam-2 Seeding 3 begins. 669,000-250,000 BC - The Rama and Temple Wars. 598,000 BC - 600,000 years ago there were wars between the Elohim families on Vega. 250,000 BC - A Neanderthal slave race of Angelic Humans were created by Enki-Enlil-Marduke Pleiadian-Nibiruian Anunnaki. The Anu-Seraphim Pleiadian Samjase and their Enlil-Odedicron and Marduke-Necromiton allies, begin running Dominion agendas on Earth. 246,041 BC - Ashayana-Tu Melchizedek, EOMC Eieyani Priest of Ur born on Earth, as an original member of the Azurite Universal Templar Security Team.

246,000bc - The Leviathans emerge from an attempted bio-regenesis of the Thoth-Enki Anunnaki group. The Urtite Human Race enter the Emerald Covenant Co-evolution Peace Treaty. The Thoth-Enki Anunnaki enter the Emerald Covenant Co-evolution Peace Treaty. The Cloister Dora Teura plates or CDT Plates were manufactured. A Restatement of the Emerald Covenant. Part of the Restatement of the Emerald Covenant had the Breneau agreeing that, if the 3rd Seeding of the Angelic Humans does not go well, then the Anunnaki would replace Angelic Humans as the favored race for Templar Guardianship. Breneau were the 3D Solar Lords (G.W. brotherhood) who were brought in to assist the factions who wished Earth for further development. The two factions were the Sirians and Pleiadians. In order for permission from The Breneau, these factions had to agree to allow the Breneau to intervene, if they did not approve of any of the developments taking place. So development continued and again digresses and intervention was required. So far three re-seedings had taken place, and in a nutshell there are factions that wish us to fail, for if we fail, the Breneau/Solar lords will basically pull-out, remove their involvement. A secondary Grail Line emerged on Earth as a hybrid of Cloister Humans and Sirian Anunnaki, the race is called the Nephilim. Quite a watering down of the so called Grail Line that. The Urtite Humans lineage of Earth are appointed the co-guardians of the Universal Templar complex.

208,216 BC - The Guardian Alliance Signet Council 6 present Urtite humans of Earth, with the 12 CDT Plate Holographic disc records of the Emerald Covenant. I suspect this is related to the Bucegi mountains in Romania, although it may have been spread around

in other places. There is a lot of less attention to the many sites of interest in Russia for a reason, many Nazca type lines, circle structures, spaceports, solar disks imprinted into the ground that would be called swastikas in the modern day. The Maharata Inner KRYST. A major cataclysm destroys Temples of Urtite and the Cloister races. The five Cloister Races were: Ur-Antrians who were brown skinned, DNA Strand-2. Breanoua who were red skinned, DNA Strand-3. Hibiru who were white skinned, DNA Strand-4. Melchizedeks who were yellow skinned, DNA Strand-5. Yunaseti who were black skinned, DNA Strand-6. These cloistered races left no remains on earth, as they were here during an Anti-particle universe cycle. Throughout the Time Cycle Earth and it's Anti-matter double change places/universes. Matter-Earth spends two successive sub-cycles within the Anti-Matter-Universe and vice-versa. The role reversal is done through the Electromagnetic role reversals, and the shifting of the angular rotation of particle spin. That sounds like the Day and Night of the Svarog to me. When Matter-Earth is in the Anti-Matter-Universe cycle, any physical creations or buildings etc, are made up of Anti-Matter particles. This is likewise for Anti-Matter-Earth when in Matter-Universe cycle, any creations would be composed of Matter particles. Thus when Matter-Earth moves back to the Matter-Universe cycle, most creation activity will remain in the Anti-Matter-Universe. Usually some remains or evidence of one planet will remain in the physical base of the other planet. We can only fully unearth the remains of a civilization, when the Earth is back in the Anti-Matter-Universe cycle in which the artifacts and other items were originally created. This is approximated to occur between 2000-2017 AD. Matter-Earth transited into Anti-Matter-Universe in 13,474 BC. Remained there for two consecutive sub-cycles totaling 8852 yrs, two times 4426 yrs and returned to Matter-Universe in 4,622 BC. Which means we are half way in the second matter cycle that will end 4190AD, that half way was reached in 2017. A Drac invasion leads to the Fall of Brenau and the 10-code pulse in grids, which leads to a pole shift. E'Asha is leading the gridwork mission at the GRUal which is in modern day Florida, there was a lot of gridwork done after 2012 in Florida, in terms of anchoring the grids. Density 2 and 3 Sirian Azurites remove the CDT plates and the Signet Shields from Earth. SP1 was taken out by the dramas on this planet during the Fall of the Brenau. Along with others, she was shattered into the planetary grids and had to quickly re-evolve back up from being rock/crystals. The Stellar Activation Cycle fails. The Fall of the Brenau, which is modern day Sarasota in Florida.

208,100 BC - Urtite Cloister Angelic Human Seeding 3 Round 2 seeded in subterranean settlements, hence all the miles of underground tunnels, which is stated there to be more

miles on tunnels below, than roads on the surface. 198,000 BC - The Azurites return the Signet Shields to the Urtite Cloisters but kept the CDT Plates. 155,000 BC - Calamitous upgrades begin for the Neanderthal race. The Emerald Covenant Anunnaki Bio-regenesis begins upgrade 1 of the Neanderthal slave race. 152,000 BC - Emerald Covenant Upgrade 2 of the Neanderthal slave races allows natural procreation with Angelic Humans. 151,000 BC - Emerald Covenant Upgrade 3 creates Homo-Sapiens. 150,000 BC - Pleiadians create the shadow body mutation. The Jehovian Wipe-Out. The Pleiadians introduce a genetic mutation that causes Shadow body formation, ah the lovely Pleiadians again. 148,000 BC - The Emerald Covenant Upgrade 4 creates the Illuminati hybrid, done by the Anunnaki. The Alcyone Council entrusts the Nibiruian Council of Nine with guardianship of Density 4 Sun Sol Star Gate 4. The Alcyone's sold us out for tech from the Reps. The Nephite-Nephilim-Necromiton Anunnaki, the Archangel Michael group defect from the Emerald Covenant, to run Dominion agendas on Earth. 148,000-75,000 BC - The Anu Occupation of Earth. 110,000 BC - The fall of Da'Arya continent, curious why it is not mentioned, maybe due to anti Matter particle cycle? Is this why around 2017 the Russians started to look for it? 75,000 BC - Dragon APIN created by Omikron Drakonians. What is an APIN and an LPIN? We are talking about ET-developed vast global networks utilizing crystalline microchip scalar technologies. They are referred to as PIN systems, Pylon Implant Networks, HAARP and GWEN towers the obvious examples. There is the APIN the Atlantis Pylon Implant Network, and the LPIN the Lemuria Pylon Implant Network. An Inner Earth Rebellion. 73,000 BC - The Cloister Human Seeding 3 Round 3 begins the Ur-Antrian Cloister. 72,000 BC - The Breanoua Cloister Humans are seeded. 71,000 BC - 6 of the 12 CDT plates were returned to the Priests of Ur. The Root Race Human Seeding 3 Round 4 begins with Lemurians. 68,000 BC - The Emerald Covenant Upgrade 5 creates Annu-Melchizedeks, it seems to me the Annu groups only entered and used the Emerald Covenant to create extra races, in order to use slaves and warrior races against us. 66,000 BC - The Hibiru Cloister Humans are seeded. 65,000 BC (approx) - Annu and Hebrew peoples of the Melchizedek Cloister become primary guardians of the Arc of the Covenant. 63,000 BC - The Root Race Human Aryans are seeded. The Melchizedek's appear in the Atlantean culture. 58,000 BC - The Ur-Antarians become infiltrated by the Nephite.

50,000 BC - Lemuria is destroyed in a massive explosion, resulting from a botched attempt to quarantine the Draco's in their underground caverns. 49,000 BC (estimated) - The Arc of the Covenant passageway moved from Northern Atlantis, modern day Ireland to Giza, Egypt. That explains the exodus and the book From Ireland to Egypt. In legend it

is the place where the Tuatha De Danann reigned. These were a God-like people who were said to have arrived in Ireland in mysterious ships and had magical powers. The Irish Masonic author, J. A. Penny notes that a skeleton of a Barbary ape had been found at Tara, the mythical center of Ireland and seat of the High King, that is the Neanderthal creation. It should be noted although Thoth is depicted as an Avian resembling the Ibis bird, he was also symbolized in ape or baboon form. There is also the famous legend of Queen Scotia, an Egyptian princess or queen, who was said to have arrived in Ireland in 1700 BC and was killed by the Tuatha De Danann in a great battle. The meaning of this mysterious race has been posited as The People of Danu , a mother goddess from Irish mythology. However, the earliest recordings of the Tuatha do not include the last word Danann, instead being described as Tuatha De or Tuatha Di . Perhaps Danaan refers to the tribe of Dan of the Leviathan races? 46,459 BC - The original Pyramid Teleport Station built at Giza, Egypt. 33,000 BC - The Melchizedek Cloister Humans were seeded.

Here comes another great fall. 28,000 BC - Atlantis begins to fall/shift to hibernation zone. The initial fall of the Atlantean continent, the continent then blows up into 3 Islands. After the fall of Atlantis, 2 of the 6 CDT plates were in the possession of the Atlantean Priests, the other 4 were in the possession of Azurites. 28,000 - 9500BC - The Melchizedeks retreat to the Inner Earth lands, that are under the primary guardianship of the Speakers of the Blue Flame, the Melchizedek Priesthood, and the Priests of Ur and Mu from Tara. 25,500 BC - The Pleiadian Nibiruan Anunnaki break the Emerald Covenant Agreements. The Nibiruan Council of Nine defects from the Emerald Covenant. The Anunnaki of Nibiru seize control of Solar Gate 4 and used it to reverse Earth's natural spin ratio to Anti-KRYSTic. The Lucifer Rebellion. The Pharisees remove 6 key letters from the Hebrew alphabet. The Golden Eagle LPIN reversed, creating the White Eagle APIN by the Necromiton-Andromie Nephilim. The Michael Mary Turnstile Templar control System created. The planetary Merkaba was damaged. The Nibiruan Data Crystal Grid installed at Stonehenge, before it was built. The Eieyani Grail Line begins. The Four Faces of Man and the Blue Oxen LPIN created by the Guardians. The split between Science and Spirit, now known mostly as Religion takes hold. 22,340 BC - The Azurites commission Thoth as the CDT plate translator. oh dear! Thoth defects from the Emerald Covenant to join the Lucifer Rebellion. Thoth then steals the CDT Plate 11. A partial translation of the CDT plates. The RUBY Seal corruption of the divine blue print. 22,326 BC - The 1st Black Heart called the Heart of Merlin Density 10.75 a 2/3rd activation. The scheduled SAC and opening of Halls of Amenti fails. The Great Deception occurs on the land that is now known as Kauai. This was at the root of the

Atlantean Conspiracy which included a memory wipe for the entire human race. The Eieyani Massacre led by Thoth. The Earth then becomes ensared in the Wesadak BeaST. There was supposed to be a SAC but it didn't commence because of the political environment. An event called the Great Deception occurred on what is now called Hawaii, the Great Deception would later evolve into the Atlantean Conspiracy. The Yanas instruct the Eieyani to bring Earth online with the Emerald Ecka Override System. 21,900 BC - The Lohas-Celtec-Druidic freeze out. 20,113 BC - The first Morphogenetic Wave released from Earth that was intended for ascension. 20,000 BC - The Vicherus-Sacheon Invasion, that is the Viking and Saxon invasions done by off world entities. 17,900 BC - The Second Morphogenetic Wave released from Earth intended for ascension. The pattern of the Morph-field appears as a standing wave of blue colour with a pale shade of green. This Blue flame is Earth's portion of Tara called the Staff of Amenti. Earth's own flame is Orange-Gold. Tara's own flame is Blue-Green, also known as the Gates of Ivory or the Pearly gates. Gaia's own flame is Violet-Gold. The Metagalactic Core's own flame is White-Gold. If it is one and the same thing, the white gold vessel upgrade that I have experienced twice, is very energizing, anchors and focuses you more, and is a possible DNA upgrade.

15400 BC - Ruta-15 was captured by the Thetan/Bourgha invasion. Thetans are from the Theta Orion system, they are the fallen Lyrans or fallen Thothians. They are from our matrix, but made hybridization deals with the Bourgha raider races, creating the fallen Lyrans Thetian lineage. They created the Micca-Mecca complex, which was the beginning of the Threshold technology. The Prana Wave exchange became impossible. 13,405 BC - The Battle of Ruta. 13,400 BC - Monadic Reversal and Great Netting of Earth. The Great netting is when the Bourgha tried to capture Urta 14 and Ruta 15, by interfering with the planetary Merkaba fields, which created a race memory wipe. The Earth's Merkaba and Monad are reversed. 13400 - 10,948 BC - The Bloom of Doom/Metatronic tech reactivated to facilitate mass extinctions, intended to make the planetary encryption lattice vulnerable for take-over. And you all thought encryption was new technology. The Procyak Matrix and Bloom of Doom is like a double daisy of death configuration, and at that the center of it is a black hole, located at the center of our Milky Way. Essentially this is block phasing and so no quantum is produced and the planet dies due to lack of breathing. The daisy of death will be familiar to many, because it looks like the flower of life, picture 1, notice the ring or band around it? that picture is called the Metatronic flower of life. This is the real one picture 2. 13400 - 9,562 BC - The Bourgha and the competing races manipulate Earth's Merkaba using Metatronic technologies, attempting

to capture Urta-14 and Ruta-15 Earth Core gates which connect this reality with Urtha. The Great netting is created and results in a DNA block and race memory wipes for all of Earth's life field. The Great Netting creates 6 Hibernation Zones. The Hibernation zones are created by using black hole technologies, to split and reverse the planetary Dimensions 1, 2 and 3 radial body fields.

12500 BC - A small group of Aquafereion NaVAHO reseeded through Coral, Peru bringing back seeding 2 Angelic Human Aquari codes. 11000 BC - The Aquari Gene code are introduced into Angelic Humans via the 12 Feathers. 10948 BC - The Toral Rift event occurs. Earth's time cycles, the SAC and precession of the equinox were synchronized to the control of the Parallel Earth wormhole opening cycles. The Toral Rift set in place to cause the Halls of Amenti Stargates to open prematurely in 2012 AD. 10500 - 10000 BC - The Aquari Lines brought into the Angelic Human Lines for bioregenesis, however this allows FaTaLE attachments from Equari, and begin saturations of high-coded bodies. 10500 BC - The Luciferian Conquest, the Illuminati Humans gain control of Earth Human evolution. The Falcon and Phoenix Wormholes drilled through the Wall in Time. The Founders cap the Falcon and Phoenix Wormholes. The Pyramid at Giza Egypt rebuilt after the Anunnaki attack. Enoch defected from Emerald Covenant. The Atlantean Conspiracy solidifies. 10,000 BC - The CDT Plate translations attempted within Chinese and Tibetan YU Grail Lines. 9562 BC - The Great Encasement resulted from the Bourgha getting control of Ruta-15 and Urta-14 Earth Core gates. The hibernation zones were created just before the flood. The places are controlled by the fallen Angelic's who were here with us on the planet, some of them on the surface and some below ground. These particular places used to be a part of the natural Earth body structure, but they were locations whose immediate local shields were put on reverse spin, to create an invisibility cloak. 9560 BC - The Luciferian Covenant ironically results in three competing factions, each vying for their own version of One World Order. YOU CAN STICK NWO

9558 BC - The final Fall of Atlantis due to the Atlantean Flood. The 2nd Black Heart called Dragon Density 7.75 a 2/3rd activation. The privilege of going through the portals from here to inner Earth was taken away. The Flood is a translation or slant of the re-seeding. Sodom and Gomorrah is translation of Atlantis/Lemuria on Tara. Basically both sides of the battle have been involved with human training or development. One was to evolve, the other to digress and or confuse. 9540 BC - The Emerald Covenant Races install a Frequency Fence around Earth which quarantines Earth, and locks human

perception range to single vector 3-dimensions. The Frequency fence for quarantine can be beneficial, but could also be the veil, which is the electromagnetic fence that was used against us. I am not sure about limiting humans to single vector 3 dimensions, what was the purpose behind that? Because that to me feels like a lock in and lock down to me. The Maharaji give the Rod and Staff to Maji Grail King Lines, if that is what I think it is, that was in the hands of the Draco until 2015, but not since and now in safe hands. 9000 BC - The Pyramid at Giza Egypt rebuilt after Atlantis cataclysm. 8900 BC - The Cloister Dora Teura or CDT Plate translations attempted within the Hebrew Lines of Sumeria, again with my knowledge I would have to question this on two counts, A: The Hebrew angle as I am not convinced any of them had our best interest, and B: Sumeria has definitely been a problem all along. The Sumerian Invasion. 8550 BC - The Nibiruan Anunnaki gain strength in Egypt. 8400 BC - The CDT Plate translations attempted within the pre-dynastic Serres-Egyptian Grail Line of Egypt, again I have to question as to why Egypt? when almost every Pharaoh is of other worlds, and none with our best intentions. The Egyptian Invasion. Two questionable moves of translations, and both sparked invasions, is that a pattern? 8000 BC - The Templar Seal. The Taran Priests of Ur disassociate themselves with Priesthood of Melchizedek, that according to an earlier part in this series was a smart move. 7500 BC - The CDT Plate translation attempted within Celtex Grail Lines. The Knights Templar Invasion. 5900 BC - The CDT Plate translation attempted within Rama-Vita Grail Lines of India. The Centaurian War, which is Marduk. 4700 BC - The CDT Plate translation attempted within Mu'a Inca Grail Line of Macchu Picchu and Lake Titicaca Peru. The Illuminati Invasion. 3700 BC - The CDT Plate Translation attempted within Mayan Grail Lines. 3650 BC - The Mayan Raids done by Thothian Nibiruan Anunnaki Illuminati forces. 3470 BC - The Babylon Massacre and another memory wipe. The 3rd Black Heart called Delphi Density 4.5 a 2/3rd activation. 2690 BC - The CDT Plate translations attempted in South African Grail Lines. 2668 BC - The Djoser Invasion. 2409 BC - The Sphere of Amenti is released from Density 4. The Sphere of Amenti is the 3D Hall of Records which is a time/portal. 2250 BC - Enoch re-enters the Emerald Covenant. 2040 BC - A partial translation of CDT plates. 2024 BC - Enoch serves as CDT plate translator, again I am not sure whether that was a good move either, given Enoch has flip flopped back and forth between the Emerald Covenant and not. The Nibiruan air raid of Babylon this is better known as Sodom and Gomorrah. The Dead Sea Conquest. Enoch incarnates on Earth. So, the various translations of the CDT plates have taken place in the period between 8900BC and 2024BC, and some very questionable moves made in who those translations were given to, in my opinion. Did

you spot the pattern that followed the translations? In almost every event of translations between that time period except one, there followed an invasion.

1982 BC - The Contemporary Melchizedek Priesthood was founded in Jerusalem within the Hibiru Cloister. 1979 BC - The Nephilim King Melchizedek brought to Earth from Nibiru, there is your answer on the Melchizedek's mentioned earlier, as they like Enoch appear to have flipped sides all too often. 1670-1550 BC - The Hyksos Invasion. 1500 BC - A second birthing cycle of Melchizedek's begins. The Second Templar Seal results from the transfer of guardianship of the Blue Flame, which had occurred 6500 years prior. 1476 BC - The Hyksos Exodus which was written down in the Bible of the poor Jews being held captive in Egypt, when in actuality, it was they who slaughtered many and were the invaders that were cast out. 1459 BC - The Israel Crusade, presume they mean the House of. 1458 BC - The Hatshepsut Invasion. 1398 BC - The Birth of Amenophis and Avatar with at least 9th Dimensional frequency, was later called Akhenaton in Thebes, Egypt. Another name change to confuse it seems. The Arc of the Covenant of Palaidor opens. The Sphere of Amenti descended into the Earth Core from the UHF bands of dimension 3. 1386 BC - The Blue Flame of Amenti descended and was embodied by the Melchizedek Cloister Flame Holder. 1374 BC - The Halls of Amenti Open.

1370-1353 BC - The reign of Akhenaton according to the Sirian Council. 1367-1362 BC - Akhenaton ascends Annu populations and excludes others from the final steps. 1363-1362 BC - The Blue Flame Melchizedek's secretly ascend those who had been excluded by Akhenaton. 1362 BC - A showdown between Akhenaton and the Blue Flame Melchizedek's, the Seraphim vs. Elohim leads to distortion and the splitting of the Sphere of Amenti, leaving the distorted part lodged in the Earth Core while the undistorted part was resealed in Dimension 3. 1360 BC (approx) - Both Akhenaton and Blue Flame Melchizedek's ignore warnings and continue to ascend souls, those souls ended up fragmented because the Sphere of Amenti was split. The Elohim remove over 1,000 fragmented souls to the core of Sirius B. 1353 BC - The fall of Akhenaton. The Galactic Federation defects from Emerald Covenant. 1348 BC - The birth of Tutankhaton later known as Tutankhamun, the son of Sabatoth. 1344 BC - Sabatoth was executed. Sabatoth means hosts or armies, the Jehovah Sabaoth is the Lord of Hosts. Hosts as in possession of another's vessel? 1331 BC - The death of Tutankhamun. The Arc of the Covenant of Palaidor transferred from Ceres-Egyptians to Hibiru Cloister, under supervision of Blue Flame Melchizedek's. Haremheb appoints Aya as the new Pharaoh. 1324 BC - Aya dies

and Haremheb appoints himself as Pharaoh. 1309 BC - The Pharaoh Haremheb dies. Rameses I becomes Pharaoh.

1240 BC - The Essene Brotherhood established. 1150 BC - The Priests of Ur split with the Essene Brotherhood. 1000 BC (approx) - The Inner Earth lands formerly known as Ar-Ratoth, then Agratath and finally become referred to as Agartha. 906 BC - The fall of Solomon's Temple. 790 BC - An attempt to translate the CDT plates to the Ionian-Italic Grail Line, of what became Rome and Paxos Greece. 700 BC - The Azurites appointed as the guardian of Covenant of Palaidor. The Ra Confederacy appoints the Azurites as the primary Guardians of the Covenant of Palaidor, and equal control over human evolution. Not too sure whether the Ra Confederacy is connected to the Cult of Ra. 196 BC - 4230 AD - The Ascension Cycle. 196 BC - Earth enters the sixth time continuum of the Density 1 Euiago cycle, the half-way point of that cycle is 2017. The Sirian Councils attempt to mend rifts in Melchizedek, primarily the covert division in the Essene's, and between the Templar Melchizedek's and the Cloister Melchizedek's. The Guardian races add another layer to the buffer zone.

48 BC - Nibiru fell into the hands of Marduke-Dramin and Necromiton-Andromie Nephilim Drakonian. The Galactic Federation re-enter the Emerald Covenant to gain assistance reclaiming Nibiru and the Bio-regenesis for Jeshewua-9, serving their own ends then, rather than the greater good. An all too common theme throughout this series, each to their own ends and no altogether now. 46 BC - AquA'elle births White Buffalo Woman and a male twin, the Biblical period begins. The birth of Ioannes later known as John the Baptist. 46 BC - 37 AD - The Eckatic Trinity/Christ Period. 42 - 5 BC - Density 5 Breneau, Azurites and Eieyani of Inner Earth intervene, citing the births of John the Baptist, Miriam & Jesheua 12. 42 - 26 BC - The Illuminati invasion of Rome. 42 BC - The Birth of Azuria also known as John the Baptist. 34 BC - The Birth of Merigedra 31 BC - The Birth of John the Baptist, so that is 3 John the Baptist's in 15 years, is it a title rather than a name? Or are the other two Avatars? 26 BC - The Roman invasion by the Omicron-Drakonian, who then exile the Angelic Human Tribe 5, which is the Aryans if memory serves me well.

23 BC - The Birth of Immanuel. 14 BC - The Birth of Ashridari. 13 BC - The Birth of Marahari. 12 BC - The Birth of Jesheua 12. The death of Immanuel. The death of Ma'a. 12 BC - 27 AD - The Christ drama period. 11 BC - Merigedra dies. 7 BC - The Birth of Jeshewua 9. Jeshewua-9 and his mother Mary were born of ET Nephilim conception.

This ET connection was covered up as the immaculate conception, as they do not want people to know of ET intervention, the lie continues. 5 BC - The Birth of Miriam. Jeudi commits suicide after birthing Miriam, Jeudi was the mother of Jesheua 12 also. 8AD - 21AD - Secret ascensions were orchestrated through Giza. 10AD - The AL-HumBhra passages forced closed. Enoch defected from the Emerald Covenant, and out he goes again, Mr. Flip Flopper. The Jehovian Sirius A which is the Galactic Federation and Ashtar Command defect from the Emerald Covenant. Miriam who was only 15 at the time marries John the Baptist. The CDT plates translated. 10AD - 27AD - The Galactic Federation defect, and then misdirect or puppet their incarnates back into the One World Order Agenda. 11AD - January - The Birth of Jeremiah-Immanuel. 12 AD - The intended time for the disengagement of Nibiruan Data Crystal Grid fails. 18-23AD - Jesheua 12 fathers secret grail line in the Great Pyramid. 23AD - John and Miriam bury the Arc of the Covenant Staff in the Vale of Pewsey, England. The Annu-Melchizedek Hyksos and Hassa Leviathans attack Jesheua 12 and his Maji. The Essene Divide. 25AD - Jeshewua 9, Marahari and children relocate to France, Marahari must be another name for Mary Magdelene then. 26AD - Arihabi the 3rd and fake Jesus was crucified. 27AD - The Essene Divide. The Hyksos withdraw from Emerald Covenant. Jesheua 12 ascends through Arc of the Covenant Passage. The Birth of AquA'elle. 34AD - John the Baptist transitions. 37AD - Miriam transitions. 39AD - AquA'elle returns to Earth. 47AD - Jeshewua 9 transitions. 52AD - Miriam and Samuel killed in Arizona. 63AD - The White Buffalo Woman and her twin both return at age 12. The White Buffalo Woman is claimed by the Sioux, Lakota and Dakota tribes as coming to them in time of need. She is said to have left a sacred pipe. The bowl of the pipe is red stone, which represents the earth. A buffalo calf is carved in the stone facing the center, and symbolizes the four legged creatures who live as brothers among you. The stem is wood and represents all growing things, and twelve feathers hang from where the stem fits the bowl, from the Spotted Eagle, these represent all the winged brothers who live among you. The 12 Feathers represent the 12 Feathers of Aquafereion, which brought the Aquari gene line into the Angelic Human race lines, offering each of the Angelic Human races a chance to bio-regenerate their Kristiac potential.

200AD - The AL-HumBhra Passages forced closed. 200AD (approx) - The BhrALindt FAtaLE from the future Bourgha Matrix 4963 AD, force the AL-HumBhra passages closed between Net Earth and the Median Ascension Earth. 200AD - The CDT Plate translation - Essene. 325AD - The Council of Nicaea edits the Freedom Teachings and crafts the modern Bible. And so it went from our story to his story, this series will go

some way to reversing that narrative back. 400 - 490AD - An attempt to translate the CDT plates in the UR-Essene-Melchizedek Grail line in Persia, said to be the origins of Islam. Islam also means hidden Isis. 420 - 600AD - The Drakonian-agenda Illuminati raid and wage genocide on the Persian Grail Lines. 559AD - The Birth of Arthur, or perhaps King Arth of Ur. 559-608AD - The Arthurian drama. 600AD - An attempted CDT plate translation among the Azurta-Arutus and Celtek-Druedic Grail Lines in England and Ireland. 608AD - Arthur buries the Arc of the Covenant Gold box containing the Star Gate tools. 609AD - The King Arthur Drama. 622AD - Mohammed travels from Mecca to Medina. It is said he fled the hostile Mecca to escape persecution. Strangely there is a gap of 578 years to the next entry, which brings up a few things of that time period we have covered in our shows. 1. We asked in a show a few years back, where is the history of between 700 and 1000 years? As there appeared to be a large gap in reporting, two German researchers came to the same conclusion about the same time period. 2. Where is the mention of the Knights Templars of the 1000 period? 3. Where is the mention of Radomir and Mary Magdelene of the 1000 period also. Is it possible that what we revealed in the 1000's of another Mary Magdelene and another teacher that resembled the teachings of Jesheua 12, called Radomir. Here is a theory of mine, given it is said the game plays out every 2K years, which is what was revealed to Kim Goguen by Marduk, which means they were around for the Christ period drama. Marduk said to her, we have done this every two thousand years for the past 15 thousand years. Yet, if you tally that down from 15K years, it is 13K BC, 11K BC, 9K BC, 7K BC, 5K BC, 3K BC, 1K BC then it becomes 1000 AD. This puzzled both Kim and I, as there is a 1000 years missing. But, what if there is another duplicate drama played out every two thousand years in the even numbers? which is the Christ period time of Jesheua 12, and there is an overlay playing out which would be 1000 years after each event? With this you have the Jesheua 12 around 0AD and Radomir in the 1000AD, sometime in this century we will have another Jesheua 12 type event, if correct. In one thousand BC, two thousand years prior to Radomir, the Inner Earth lands which is a positive event. In two thousand BC Enoch incarnates and carnage ensues. Two thousand years later the Christ period, carnage ensues. The gap between the two of around 1000 years could take into account the Day and Night of the Svarog, because the last Day of the Svarog was in or around 1012, which tallies in with the arrival of Radomir and Mary Magdelene. Another two questions to ponder on is, are we talking another timeline? or the parallel world? If it is the latter, which world was Jesheua 12 really on? **ROLL WITH THE CHANGES**

1200 - An attempted CDT plate translation among the KatharA-Catheri Grail Line of Southern France. 1244AD - The Albigenian Crusade. The Cathar Massacre in Southern France. 1307-1314AD - Pope Clement V & French King Phillippe IV massacre the Knights Templar. 1375 - An attempted oral translation of CDT plates to the indigenous tribes Hopi, Inuit, Inca and Seminole of the Americas. 1400's - The illuminati forces invade the Americas, that was the Spanish Conquistadors as we were told, but they are now known as the Sephardic Jews who were thrown out of Spain. 1500AD - The Ameka Crusade. 1600s - One of the missing CDT plates that was lost in 208,216 BC was retrieved, and returned to the Melchizedek Cloister Emerald Order protection. 1748 - The Guardian races add another layer to the buffer zone. 1750 - The Nibiruian re-acquaintance. The most recent wave of Melchizedek births begins. 1875 - The Contemporary Indigo Type 3s enter the Emerald Covenant for bio-regensis. 1903-1916 - The Zeta Drakonians uncup the Falcon Wormhole. 1916 - The Zeta Surveillance, which just happens to coincide with WW1. 1926 - The Zeta Draco's travel back in time to 1926 after having successfully overtaken Earth, during what would have been the Organic Stellar Activation Cycle in 4230AD. 1930-1940 - The Zeta Treaties and the Majestic 12 or MJ12 created. Which is a decade before the MJ-12 was created as told to the public. That version was 1947, the same year the CIA or the CIAkars was created. 1932 - Major contracts with the world governments and the Zeta Reticuli begin. Zeta Reticuli are greys, and are associated the most within alien movies, and was covered by Bob Lazar. They are part of 3 main grey groups, the Zeta are known as type A, the Orion Greys are type B and type C is more illusive. The type A's are usually described to be around 4 or 5 feet tall at the very maximum, and are considered as cold and inhuman by inside sources and abductees alike. These slender aliens are light and almost delicate looking, are always described to have an over-sized cranium and large, slanted black eyes. The other facial features of the type A's vary from account with some being described to have noses and mouths, and other accounts pointing out that they had neither features. The skin color of the type A's and Greys in general varies from white to a tan color, and its believed that the Greys actually feed through their skin by absorbing nutrients, this also ties in with reports that the Greys have no digestive system. The fact that the type A's are obsessed with genetic modification, supports all the accounts of human abduction and the accounts of experiments and probing. The reason for this is unclear, however some say is they are trying to create hybrids to better themselves, and others say our genes hold the key to saving the Greys from an unknown threat. Out of the three types of Greys the type A's are believed to be the scientists.

1943 - The Philadelphia Experiment punches a hole in the Wall in Time between our Earth and the Phantom Earth. 1951 - The White Eagle-Dove APIN alliance, which is Archangel Michael and Enoch. 1951-1972 - The Anunnaki attempt to uncap the Phoenix Wormhole. The Phoenix wormhole was created in 10,500 BC in the time wall by the Pleiadian-Niburian Anunnaki. It was anchored into Earth, the NDC, and the NET, through stargate 4 at Giza, Egypt, and has links to phantom Nibiru in the Phantom Matrix. This would cause fallen portions of Earth to form an inhabitable moon around planet phantom Nibiru. The Phoenix APIN runs East on a line through Giza and the Iran Gate. The Draconian's and the Zeta Rigelian's then copied the Phoenix with their Falcon wormhole, intending to take over the Phoenix as the full Falcon APIN was installed. Two wormholes are located in the Bermuda Triangle. The Phoenix and Falcon were created in 10,500 BC, forming the basis of the Phoenix APIN by the Niburian Anunnaki, and the Falcon Grid by the Zeta Rigelian's, respectively. These holes were punched into the Guardian's frequency time wall between our matrix and the Phantom Matrix. In 1951 the Jehovian-Anunnaki collective made a deal with the Andromie-Anunnaki to combine the Jehovian Grids, to open the Phoenix Grid wormhole and take over the Falcon Grid wormhole, but they failed. However, in 1972 it was achieved by the Pleiadian-Niburian Anunnaki group that controlled Phoenix and the Serpent Grid. 1968 - E'Asha begins training at age 4 with the Guardian Alliance. 1972 - The Anunnaki uncap the Phoenix wormhole, to activate the White Eagle, Dove & Phoenix APINs. APIN is Atlantic Pylon Implant Network. 1976 - Thoth-Enki-Zephelium (Zeta) Anunnaki join the Pleiadian Samjase-Luciferian, and the Niburian Enlil-Odedicron to collectively activate the Serpent APIN. 1980-1983 - The Falcon and Dragon wormholes link, and Phi-Ex Falcon wormholes link to the White Eagle APIN. 1982 - E'Asha has a near death experience at age 18 and begins working with the Melchizedek Cloister Emerald Order.

1983 - Enoch petitions for an Emerald Order Redemption Contract. The Orion Intrusion. The Montauk Project tries to extend the wormholes in the Wall in Time created by the Philadelphia experiment to 2003, to accomplish the Dimensional Blend Experiment. Montauk was anchoring negative plasma frequencies all the way up to 8D, that was dealt with in November 2014, the week GHW Bush really died, not the 4 year loop later. 1988 Jan - 1992 Jun - Earth's Primary Vortex 1 opens in the Painted Desert, Arizona. 1992 - The Pleiadian-Sirian Agreements. The Pleiadian Sirian Agreements determines how the contemporary Freedom Teachings would portray the Fallen races. 1992-1994 - The Pleiadian-Sirian Agreement, the Anunnaki used their NDC in cooperation with the Guardians to temporarily cap the Falcon-Phi-Ex Wormhole. 1992 Jun - 1996 Jun - The

Earth's Primary Vortex 2 opens in Jerusalem, Israel. 1996 Jun - 2000 Jan - The Earth's Primary Vortex 3 opens in the Himalayan Mountains, Asia, formerly known as the Milk Ocean, and also the home to a previously very large Reptilian base, Kashmir indeed. 1997 - The Guardian Alliance and the Melchizedek Cloister Emerald Order activate MCEO Speaker 1, a Blue Flame contract and E'Asha age 33 walks-in, and formally begins Keylontic transmission translations of the CDT plates. 1997 - 2000 Aug - D-12 Elohei-Elohim, D-11 Seraphei-Seraphim and D-10 Braharama Founders races as well as Guardian Alliance Collectives preside over the mission. 1998 - Many Anunnaki defect from the Pleiadian-Sirian Agreements, and stop allowing the Guardians to transmit via NDC, thereby uncapping the Falcon-Phi-Ex Wormhole. 1998 Jun - The Earth's Merkaba reached critical rotation speed for Stella Activation Cycle. 1999 - The CDT Plate translation begins in contemporary times. 1999 Nov - The last missing CDT plate was retrieved. The Centaurian-Necromiton Intrusion. 2000 - 2017 - A Stargate opening on an earlier than organic schedule, forced by the Toral Rift Event is the Final Conflict Drama. 2000 Jan - 2004 Jun - The Earth's Primary Vortex 4 opens in Giza, Egypt. 2000 (approx) - Contemporary restatement of the Emerald Covenant offered by the Breneau Orders, Azurites and Guardian Alliances races. 2000 Jan, 1 - Transcendence Day the Stellar Bridge Grounds 12-code in Earth's Templar and the SAC begins. 2000 Jan - Stellar Activation Cycle Year 1, attempt of the first stellar activation cycle since the 22,326 BC, which was the time of the Eieyani Massacre. This SAC is occurring over 2000 years early based on the organic SAC cycle which is 26,556 years. 2000 Jan - The SAC Rebellion. 2000 Jan - The Frequency Fence released, allowing for reactivation of the Earth's Templar complex. 2000 Mar - The 4th Primary Vortex in Giza is realigned to the organic imprint. The D-8 Seal of Orion Templar Security Seal released. 2000 May - The grounding of the Stellar Bridge in Giza Egypt. From Dimension 4 the 12th sub-harmonic enters Earth's GRU'al. 2000 Jul - The Treaty of Altair. I wasn't sure about which Constellation Altair was in, and lo and behold a very interesting piece turned up, related only to our show. Altair is the brightest star in the constellation of Aquila and the twelfth-brightest star in the night sky. It is currently in the G-cloud a nearby interstellar cloud, an accumulation of gas and dust. How interesting that is now on Wikipedia, when it never existed on the internet 2014 to 2016/17 time, when I first put that information out. Altair is one of the vertices of the Summer Triangle asterism, the other two vertices are marked by Deneb and Vega. Viva Las Vega(s), which means The Vegas. 2000 Aug - The Anunnaki begin Solar Star Gate 4 transfer to the Eieyani Guardian Alliance. THE HUMBLING RIVER

The Turaneusiam are considered to be the first human pro-type, genetically superior, first originated on Earth's 5th dimensional counterpart planet called Tara about 560 millions yrs ago. The Human-Turan's were meant to be custodian's of Tara, until a point of de-evolution occurred where the Turan's started interbreeding with other life-forms. Some left Tara to join other solar systems and the rest remained. Inter-breeding caused genetic fragmentation, which could not carry the higher-intelligence that was intended for the Turans. Basically all hell broke loose, and that was the beginning of the slide down.

Before the Turan's were wiped out, it was decided to try another experiment on 3D earth. This time the original 12-DNA genetic imprint would be broken down into 12-sub-units. Each of the 12 was polarized, this is known as the 12-Tribes and became known as the Maji Grail lines. Now you also understand earlier parts of our series, and in particular part 9 The Completion. It was all about the mixing of genetics to create more of our fall, enhance their species or race at our expense and run various programs to allow weaker species to garner control. There are genetic markers in your DNA giving reasons for people to not sexually engage other races, and this caused two problems. 1. We didn't realize that what we call the human race are actually 6-7 different species, and 2. they brought in the term racism, so a white person not wanting to sleep with a black, brown or yellow race, was racist. There is no racism, it is geneticism that is the problem. Racism in modern terms only applies to one color of human, yet we all know the other colors or races also feel the same way in terms of mixing, it is just less publicized. The evidence of this is in all countries, but more so America due to its pot puree of differing humans. If a black child brings home a white or worse in their circles an Hispanic boy or girlfriend, that is frowned upon deeply. That also applies to the Native Americans as well, and that is not racist, it is latent in your DNA memory bank. The mixing of species and races has been the downfall for all species and races.

Humans have 12-senses of which 5 we are aware of. This is a reverse of the chakras 7 we are aware of, and 5 most are not. Another case of as above so below, as within so without. Also the Star Gates are Universal-Cosmoversal Chakras, and the chakras of life forms individualized Star Gates. The intrinsic Micro-Cosmic Chakra/Star Gates system of individualized life forms is intimately linked to the Macro-Cosmic Star Gate chakra system of the Planetary, Solar-Galactic, Meta-Galactic, Universal and Cosmoversal domains in which the life forms reside. Yet again as above, so below and we all think we are alone, unconnected and not relevant. Our chakras tie into the Star Gates, that will allow at a later date, people to go or move to other places in the Universe. General traveling and also Ascension plans are tied into this, as well as our DNA coding.

There was a mention earlier of a planetary cycle, that I would like to highlight. It was said that Planets evolve through fixed-multi-dimensional frequency scales that follow certain time cycles. The Earth Time Cycle in 3D is 26,556 years, which equals a 6, which are broken down into six smaller cycle's of 4426 years each. We believe those figures are slightly off, and we believe it is 25920, which equals a 9, and so is 364 years less than the figure given. When broken into 6 that would make it 4320 and so 106 years less. If the

25920 figure is broken into 9 not 6, it comes to 2880, which is twice 144, as above so below.

There was a mention earlier about holographic on a planetary scale, but there is as above so below the same on our level, called the Holographic insert technology. This can be for or against human development or growth, and currently used against us by the Zeta. Holographic inserts are utilized by the Zeta as well as the Interior govt. The main play is, the appearance of religious figures, saints etc, and they also have plans for the new-age themes as well. On a wider planetary scale some scientists believe we are in a holograph, it's not in my opinion, it is just a frequency over lay that gives the appearance of such. Refer to the show When two worlds becomes three for more understanding of that. This is also likely to be the technology known as Blue Beam.

The mention and pondering event earlier of the Parallel Earth bears deeper explanation and understanding. The Parallel Earth Systems are linked together via Time Portals. Sometimes the Inter-Dimensional bleed through's occur, allowing for objects and sightings to occur, which maybe simply be a car, a vehicle or a house from another time or dimension. Sometimes of course we also see whole city skylines, as has been reported around the world. A story was relayed to me of an incident in and around Pine Gap in Australia, where for a period of time a Nazi base appeared in the desert, and then disappeared. I and some members have observed a whole town go back in time, and a road that Kim and I traveled down, just disappear completely and replaced with a deep valley and a creek. I have also witnessed at the same location, half of the town go missing. Even in the village, we have all witnessed the movement of the monument Shiprock.

This is also where we experience UFO's, but not all UFO's are what you think. Types of UFO's: 1. Covert Government vehicles. 2. Inter-Dimensional anomalies appearing as vessels upon the interface. 3. Inter-Dimensional craft through Time/Dimensional Portals. 4. Human/ET craft through Time-Portals with-in 3-D universe.

Not all UFO sightings imply live contact with other life forms. Subtle contact multi-dimensional communications can exist within the mind of the receiver via telepathy. Many of us have the use to varying degrees of telepathy, but most don't believe in themselves enough to accept it. Self Mastery leads to greater connection, understanding and acceptance of that technology. Keylonta is the 3D language of light, sound, symbols

and energy, and is the structure upon which manifestations are built. It is the language of communicating through time/dimensional portals. The codes of Time-Portals and Dimensional-Lock systems are within the workings of Keylonta.

**Abductions:** During abduction, the mind-field is accelerated and molecular structure is slowed, and thus the mind and the body become split. Being of the heart I believe counteracts that event. There are 2-types of abductions: 1. Abductees for training or growth, and usually a part of a soul agreement, I had my own personal event of that nature at aged 20 or 21. It changed my life and understanding, and took me on a greater journey of discovery. 2. Study, Experimentation, genetic seeding and is usually self-serving. Humans who have a healthy connection to soul, usually do not have type-2 abduction. The ET's in type-2 abductions do not usually intend harm, but also do not ask for permission. No, they just got jackasses like President Eisenhower to sign off 2% of the public for technology, which they then used to do blood sacrifices against us, called war. Their view is that, we do not care for our own well being as well as that of others on this planet, and we also do the same to other races, religions and countries, and so they don't see any difference. That is why we all have to set and show an example of being different to the old world model.

**Inter-Dimensional Activity:** Types of inter dimensional activity will be a surprise to most, not least scientists. Balls of Light/Lightning are inter-dimensional activity residual. That last line is of big interest, given we have mentioned a few months back about the strange lightening events in several places around the US.

**Crop Circles:** Where there are crop circles, there is ET Inter-Dimensional Activity going on. There are positive crop circles as well as negative crop circles. Some crop circles are designed for accelerating or stimulating the local inhabitants, while others are designed to scramble and desensitize. The primary purpose of a crop circle is to ground into the location a certain frequency band or pattern, that affects all biological life-forms, which can span up to several thousand miles radius from the crop circle centre.

I mentioned in a recent show I didn't like the use of Merkabas, that and the overly Hebrew flavor are the main issues I had with Ashayne Dean post the Kerry Cassidy interviews. Upon over viewing what the first two shows revealed, there was a couple of things that didn't make sense to my understanding and way of looking at things. Now, Ashayne 20 years on may well have come to the same understanding since, or my theory

or understanding could be wrong. But, I try to make sense of information no matter who delivers it, because the truth is more important than anyone being right. That being said and this does not take anything away from what Ashayne revealed, but here is my issue with Merkabas. There has been many symbols that we have found out are corrupting or indeed reversed, particularly in the New Age circuit, not too mention the Indian so called spiritual guru field, and indeed the tribal ceremonies and practices. So, given in overview many mistakes were made by all parties, all of it started by ego of so called higher frequency and dimensional beings, genetics mistakes that went badly wrong, picking wrong sides due to fear and poor judgement, we have ended up with an almighty mess. Merkabas in my opinion, just don't feel right to me intuitively or frequency wise. We have the tree of da'ath which they say means knowledge, but the god of Sin is knowledge, and so knowledge becomes a sin. At the bottom of it there is Malkuth, said to be the domain of the physical world. Yet in Hebrew we see the all too familiar terms that brought everything down to begin with, ego and hierarchy. Malkuth meaning royalty, royal power, reign, kingdom or malkuth. Or in plural malkuyah from malak, meaning a rule, concretely, a dominion of an empire, kingdom, realm, reign or royal. Malak is also the name of a dark Lord in Empire of the Siths in the Jedi war, which as we have found out is, in part a documentary on Galactic history. Does that fill you with any hope of advancing as a race or a species? no? me either. Royal and reign brings in the Ciakar's and the Draco, riddled with hierarchy to a point they spent much time fighting their own families to be the ruler, or the one, but the one has never worked. It is those very titles and types of Governance that brought all species to their knees and worse. True free will must allow for self governance, otherwise it becomes a system of control at best, outright tyranny at worst. Merkaba pronounced that way, or is it pronounced another way as macabre, which is a symbol of death, or is it da'ath? Macabre is said to be related to the Maccabees, a Jewish group of rebels who took over Judah. They reasserted the Jewish religion, partly by forced conversion, expanded the boundaries of Judea by conquest and reduced the influence of Hellenism and Hellenistic Judaism. That as we now know is the Hyksos. The descendants of that group brought in Herod and lets kill all the children temple, which we revealed in an earlier part. But here is another clue to it. The traditional Jewish explanation is that Maccabee, Hebrew: Machabi is an acronym for the Torah verse that was the battle-cry of the Maccabees, Mi chamocha ba'elim YHWH. Yahweh was another of the so called higher ones who fell into darkness. Back to the Merkaba, a twelve point system that is said to be a rising or ascension coding. But, that 12 point system is closed, where is the expansion? it is like the closed concentric solar system or galaxy, no flow of energy or frequency in or out. That to me is stagnation. The

12 is a closed loop system again, and something I have mentioned several times of is, the 12+1. The one is almost always hidden, or closed off given the way the whole Universe has been ran for billions of years. For a flourishing system of Source energy and frequencies, there has to be an in flow and out flow, be it for energies, frequencies or communication. Is this how they cut us off from Source directly, by installing us in Merkaba prison traps of time and illusion? Because one of them attempts at fixing or corrupting our Merkaba was, installing the Eye of Yahweh at D-11.5 with tragic consequences. This is where I am coming from on an overview basis, not to be critical of anyone's work or material. WINDS OF CHANGE

SUMMARY: A sorry tale of history, riddled with failed experiments, dark intentions, power trips, egos running amok. And yet, so many to this day believe the gods or extra terrestrial are more advanced than we are? that is another illusion. One could argue whether one group did us any favors in the celestial technological dance with and of life? So called Source Warriors, like Thoth, Solomon, Melchizedek's, Enoch, Noah, Moses all danced with the dark forces due to the hidden hook, ego. They wanted to be the one, yet his story should have shown us all now, the one, the neo has never worked, none moreso than the great savior programs known as Jesus all three of them, Mohammad, Allah, Enki, Enlil, Yahweh, not one of them saved us. Why? because you are meant to be an adult and save yourselves is why. The common theme that has gone on for billions of years is? divide and conquer. Groups started as one, became two and even more as we have seen. Many people are or have been involved in trying to split our own group, how has that worked out for the individual or the collective? The answer is it costs your own time, respect, dignity and lowers your vibration, how is that beneficial to anyone? Even the lauded Essene's and Melchizedek's split into two and then into dark agenda'd based groups, now why is or was that? The desire to be the one again, the controller, the ruler, the king or queen, does anyone ask whether they spotted that, not one of those systems worked for anyone? The minute anyone reaches the top, there always follows along someone or group coming along to knock you off your perch, moreso if you are an Avian. It encourages violence, discord, death, deception and miserable lives for the people and beings left in their wake. The simple answer is, ending hierarchy and all of it's machinations, then that problem goes away for us all. In classic as above so below, they made us in their image, riddled with fear, violence, envy, greed and non caring or sharing. Made us ultra competitive and comparative, both of which leads to aggressive and divisive behaviors for the desire to get to the top. This is how our businesses are ran, but step back for a second and think, is it a valid cause to trample all over your own work

colleagues for your own benefit? Is that how we should be as a society? is that being adult? is that an advance civilization? the answer is an emphatic no! So, we all have to change, you, me, us and them. The dangers of technology I have warned of repeatedly, all laid bare in this show as well, like I have said, there is no new technology. As above so below applies to the Councils in the sky and on an in our world, all of them are trying to cover their own asses. The fear is what we will do or see them as when we find out what they have done? Well with modern low level thinking many will wish to resort to violence, and so the hamster wheel of anti life just keeps rolling on. But, we can establish proper thinking, behaviors and boundaries of acceptable behavior and teach us and them a new way of being. Revenge, hate and violence are for lower vibrational people, is that how we wish to see or portray ourselves? This world is not in a mess because of politicians, clowns, cabal or Illuminati either, it is because we didn't make ourselves or them accountable. We didn't protect each other, we didn't care enough for each other and so we allowed this to all unfold, by simply being divided. The main goal is to keep the humans so distracted, fragmented, stressed and struggling with everyday life, so they don't catch on as to what is really going on. Their main tactics are side-tracking, de-bunking and the biggest tactic is, fear. Fear on the external and fear on the internal. They tell us we are alone, we are small, unworthy, insignificant, not relevant planet or it's people, yet evidence laid out tonight is, that is not correct is it? Why have so many races come here? why have so many races tried to take over here? why have the Councils ignored the issues here? What are they all afraid of? so that they have to hide under a skin suit? the answer is us. They seek us out and hunt us down because we are different, because they envy who and what we are, and because they are terrified of our capabilities. If that wasn't true, why hide? why control largely by stealth? why be so devious? why have they stifled our history? Do you not recognize your own power from these last few sentences alone? We are the power, the force and potentially the leading species or race, providing we act, think and do right. All the previous experiments have failed due to hierarchical systems and the controlling aspect. Lets transmute and integrate things instead of fighting and killing each other, and the separate everything and everyone program like a cell in a petrie dish. All else has failed and not once has the in harmony path and lets all come together program been tried. What have we got to lose, by us all doing that? ODE TO FREEDOM
