WHOLE WORLD IS WATCHING This will be the longest show in terms of words in THI our story, so buckle up and enjoy the ride. Having covered the Aryan narrative in FHSTOS Plus 20, that told the more modern story of the Aryans, this show goes back in time again and reveals more of the origins. This is more the story of how the Rus and Aryans met their gods the Urs and how they engaged with them. The story of Perun, the leader of the gods alongside his wife Tara. But this is a story of potential and hope and also a reminder of how far we have fallen as a collective peoples, not just the white race. This is not a show, it is a life lesson for us all. Take note of it, embrace it and integrate it into every fiber of your being.

SANTIES PERUN VEDAS This is an adapted translation from Russian language to English, some of which I don't agree with in terms of translation and our modern way of interpreting words. Corrections will be pointed out and made along the way. It has been pointed out by a few members of how close this narrative is to things spoken to and about in various THI shows. This despite me having never read the full Santies, only a small portion of them that was covered in FHSTOS parts 1 and 2. The objective of this translation is to spread the vital information about Aryan Culture throughout the whole planet. "Only by uniting all Kins by ancient faith, you will defend your beautiful Midgard." - God Perun Santie 9, Shlock 143.

INTRODUCTION: The Santies Perun Vedas, the Book of Wisdom of Perun is one of the most ancient Slavic-Aryan sacred legends, saved by Sages-Keepers of Ancient Russian Yngliistical Church, known as the ARYC. Santies in the original, could be called a book only figuratively, because Santies are plates made of noble non-rusting metal on which are inscribed Ancient H'Aryan Runes. All of which sound like the CDT plates we covered in the Cosmic Genetic series. Ancient Runes are not letters or hieroglyphs in our modern understanding, Runes are secret images storing huge amounts of information. Which sounds like a crystal form of storage to me, also like a modern-day USB stick. This ancient Runic form of writing hasn't disappeared like many other ancient alphabets and continues to remain the main form of writing of Sages-Keepers of ARYC. In ancient times, H'Aryan Runes were used as a basis in creation of different simplified forms of writing: Ancient Sanskrit, Devanagari, Anglo-Saxon and Germanic-Scandinavian Runes and various other runic inscriptions. In order to save H'Aryan Runic form of writing for our descendants, it is taught in theological seminaries of ARYC, in order that Ancient Wisdom would not disappear in hard times and would be passed on from generation to generation. To imagine what Santies look like, you should remember that every Santie consists of 4 plates. Each plate has 4 shlock's 2 on each side, every shlock has 9 lines. Every line has a single upper celestial line, under which are written 16 runes. 9 Santies on 36 plates make up One Circle, and these plates containing 144 shlock's are fastened together with 3 rings. Three rings resembles the atom shape and is also a soul development upgrade symbol. 9 Circles of Santies containing 1296 shlock's or 11664 lines or 186624 mutually controlled H'Aryan Runes, make up image-bearing collections which is called since the most ancient times, Veda. The Norse word

Edda probably originates from the word Veda, but that is not confirmed. It should be noted that: those figures all equal 9 or are derivatives of it. The word H'Aryan, Aryan with an H and apostrophe in front of it is new to me. H is often left silent in the modern languages, could this be the reason? My pondering led me to the H being from the Hibiru White Race. Content of the Book of Wisdom of Perun has a form of a dialog and was written nearly 40,000 years ago. This was at the time they were bringing in the color races to mix in with and bring down the white race. This is not the trigger for color races to react or feel shame or guilt, it is what it is and my belief is, they were all brought here as slaves. What happened in the past should not be reflected in the now. In the First Circle it is told: what commandments gave to the nations of the Great Race and Heavenly Kin God Perun; about forthcoming events over the time of Svarozhich Circle and the 99 Circles of Life which is 40176 years and many other. Book of Wisdom of Perun is only a small part of Aryan heritage. There are many more Santies, but they are kept hidden by Sages-Keepers due to strategically important information which can't be released to public at this moment. First translation to modern Russian language from H'Aryan Karuna, the ancient H'Aryan language since the foundation of Irian Asgard in the Summer 106772BC, the translation was done by Slavic Sages in 1944CE. 106K BC was around the time that war came and destroyed it all, covered in parts 1 & 2 of this series. The Asgard Irian known as the city of the Gods on the river Iry, as God living on Earth; as a garden city, was built in Summer 5028 from the Great Migration from Da'Arya in 104778 BC. In its place is now the modern city of Omsk, also located at the confluence of the Om and Irtysh rivers. Asgard Irian was destroyed by the Dzungars in the Summer of 7038 from the Creation of the World 1530 AD. The Asgard of Irian had successfully resisted all invaders for over 100 thousand years. 130 years later, the Russian cartographic historian Semyon Remezov making maps of Siberia, having visited the site of the destroyed Asgard, he wrote to Tsar Alexei Mikhailovich Romanov, that at the merger of Omi and Irtysh it is necessary to restore the destroyed city. The Dzungars are from Dzungaria the northern part of Xinjiang, China close to the border with Mongolia. Which is the clue, that was the Genghis Khan descendants the Mongols who went all the way to Turkey. Plus remember from an earlier episode of them killing a world record number of Iranians in one day, 1.75M slaughtered by these alien offspring. In 1598, part of the Clans moved from various sketes and Scufs to the new town of Tara, where they united into a single clan community. The city of Tara was founded in Leto 3502 (2006 BC) before the second Dravidian campaign at the confluence of the Iriy and Tara rivers. Leto is the mother of Apollo, the connection is the Norse Gods, Greek Gods and the Rus and URS all worked together long in the past. The Norse and Greek gods combined to wipe out the negative giants of the past, some were knowns as the Titans. After the Tara riots in 1772 A. D. many members of the community were executed by order of Peter I, and the survivors fled to the Urmansk sketes. During the reign of Catherine II, the Old Believers-Ynglings moved to the place where Asgard stood, it was already the city of Omsk, built in 1716 on the site of the destroyed Asgard. In 1722, when, by the decree of His Imperial Majesty, Peter I a Romanov, all Russian subjects were ordered to take the oath, then some disobedience followed from the Tara citizens and was counted for a rebellion. Therefore, many Tara residents received the death penalty, for example: cutting off the head, hanging by the ribs, others impaled and pacified by punishment. At this time, up to 500 houses of the best citizens were torn apart,

and from that time the city of Tara has lost its former power, beauty and people. Two hundred years later these same off world usurpers did it again in Russia, known by this time as the Bolsheviks. Did you know that the Romanovs are not really the Romanovs? They are, the Holsteins. In 1741, Elizabeth became the Empress of Russia. She was the daughter of Peter I, and therefore a Romanov. She never married and had no children. Still, an heir had to be selected, so Elizabeth chose her nephew, the son of her sister Anne, Peter Holstein. Peter's full name was Charles Peter Ulrich of Schleswig-Holstein-Gottorp. Peter hailed from the Duchy of Holstein, the northernmost region of Germany, which, for some reason was fertile ground for Russian nobility. After Elizabeth's death, he became Peter III, before he was usurped by his wife Sophie of Anhalt-Zerbst, also originally from Germany, she changed her name to Catherine. She was succeeded by her son Paul, who was succeeded by his son Alexander, and so onto Nicholas II and end of the Romanovs, when really it was the end of the Holsteins. I wonder does the Trustee know that? The same thing he marked on the 21st page of his Drawing Book of Siberia, which was published already under Peter I in Summer 7204 (1696). Twenty years after the publication of Semyon Remezov's Drawing Book of Siberia, in Summer 7224 (1716), by decree of Emperor Peter I, the Omsk Fortress was built at the merger of Omi and Irtysh, which later became the city of Omsk. About Asgard of Irian is said in the world-famous and universally recognized source; The Saga of the Ynglings: The country in Asia to the east of Tanakvisl is called the land of Ases, or the dwelling of Ases, and the capital of the country was called Asgard. The king was called Odin, there was a big cave. Caves are to and from gateways for dream time traveling or bilocation. The Five Asgardian Heritage of the Ancestors mentions 5 Asgardians: 1. Asgard the Heavenly, the heavenly ancestral home of white humanity. 2. Asgard of Da'Arya, located in Da'Arya on the North Continent on top of Mount Mira, known to other peoples as Mount Meru. The mainland was divided by rivers into 4 provinces - Swaga, Harra, Rae and Thule, while according to legend, the rivers did not flow out, but flowed in, as if rising up to the top, and there was an inland sea or lake in the center of which was the mountain of Peace and on its top Asgard. 3. Asgard of Iria was founded in Summer 5028 from the Great Migration from Da'Arya in the month of Taylet on the 9th day, on the feast of the Three Moons at the confluence of the Holy Rivers: Iry and Om. This city became the capital of Belovodye, the legendary country of freedom in Russian folk legends. Belovodye is defined as a legendary land, the spiritual center of the Ancient Faith and the White Brotherhood; a paradise located somewhere in the East. At present, many people place Belovodye now in Tibet, now in Shambhala, because there are mountain rivers that have a white color. In addition, Tibet is a mountainous, eastern country. Interesting they name Tibet, taken over by the CIA and potentially it could be called the House of Orange, given the colored garb they were. Are they usurpers? At the same time, many believe that the center of the Ancient Faith and the White Brotherhood is located in Shambhala, and the very concept of White Brotherhood stems from the degree of purity of spiritual aspirations. Some authors identify the ancestral home of the Aryans and Slavs with Belovodye. In some Spiritual sources it is called as the five or seven Rivers. At the confluence of the sacred rivers Iry and Om near the Great Temple of Ingliia, known as the Great Temple of the Sacred Primary Fire, at the Sacred Stone Alatyr, descended from the heavens of Whiteman, the divine chariot. The divine chariot is a craft, that is also referenced in India, Indonesia and Greece. Iry is

mentioned as white, heavenly purity water, which sounds like the Milk Ocean which now lies below the Himalayas. The Great Temple was built of Ural-stone and was a thousand arshins or 2333ft in height from the base to the top of Alatur Mountain, it was a huge pyramidal structure of four Temples one above the other, located in the center of the Circle of Temple buildings. Two Temples were above ground, two underground, as above and so below. In the lowest Temple-Sanctuary there was a labyrinth consisting of a large number of underground passages and galleries. There were underground passages under Iriy and Omyu. In the storerooms of the Great Shrine (Temple) of Ingliia there was a huge amount of treasures of the Holy Race. 4. Asgard of Sogdian the power of Sogdiana, was built to protect the southern borders of Russenia the holding on which the Great Race settled. Asgard Sogdii was located in Asia Minor, many researchers believe that the capital was Ashgabat, but researcher V. Shcherbakov believes that this is the city of Nyssa, near Ashgabat. The soldiers of Asgard of Sogdia gave a worthy rebuff to the troops of Alexander the Great. After the defeat of the troops of Alexander the Great, he was escorted to the priests in Asgard of Iria, this is what Nizami described in the Iskander-name. Proof of Sogdiana as it is now called resides on old names, it lies between the Oxus - Amu Darya and the Jaxartes - Syr Darya. 5. Asgard Svitiiodski, Asgard illuminated by the light of Odin. It was located on the territory of Scandinavia, after the great fire the merchants brought some disease: cholera or typhus, plague, when Asgard burned down, a new city called Uppsala was built in its place. We all know who the merchants were, the Hebrew/Jewish, yet again bringing proof it was they who started all the plague, including the black death. Since then, it has been re-published several times, but in a very limited number of printed copies which were available only to communities of ARYC. The last publication came out in Summer 7507 or 1999 CE. But only in 2000s the book got spread via the internet, where it gained high popularity and approval among Russian-speaking truth seekers. The author of the book did a F.A.Q. and other important information: 1) Why should I read this book? If you are a White Man, that's your duty to know your roots, your true Gods and the way of Aryan living. White people will never win this war without the true knowledge given to us by Aryan Gods, our creators. 2) What is Ancient Russian Yngliistical Church? Ancient Russian Yngliistical Church [ARYC] is a union of people who follow one of the branches of Old Faith called Yngliism. People who follow it are called Ynglings, the mentioning of Ynglings can be found in the Heimskringla or the Ynglinga Saga. According to the ARYC, the word Yngliism comes from the word Yngliya, the approximate translation of Primary Divine Fire. 3) What is Old Faith? It is faith of our White Ancestors which was dominant until the period of Christianization. It is also known as Norse Religion, although it is not a religion, but rather a code of knowledge. Which shatters the piece we did on the Rus Chronicles, trying to tie in Christendom and Orthodoxy into the Rus knowledge. 4) I know about Hindu Vedas, but what are these Vedas? Why do they have the same name? In the old times, when the white people lived as one race and spoke one language, our culture was spread throughout the whole planet and it left its mark on many nations, including Hindu. Even now, when all languages are confused, we can see obvious similarities, like with the word Veda. In both Hindu and Russian it means knowledge. 5) How can you prove the genuineness of these Vedas? Can you show us the original source? We can't and there is a strong reason for it. Alien enemies have been destroying Aryan knowledge since Christianization of our lands and

they are still doing it. That's why it is hidden, moreover, nobody can prove the genuineness of other sacred books like Bible. It's funny that no one questions the authenticity of that book, isn't it? 5) Who are the Aryans? Mainly humans with white skin, there are many other genetical factors, but the white color of the skin is the main one. The Iranians are not white skinned, yet they are Aryans. Iran means the land of the Aryans. Now you know why the Israeli puppet country America and Israel wishes to attack Iran so much. 6) Why do you use swastikas? Are you Nazis/Fascists? Swastika is the most ancient symbol on the Earth and our most sacred symbol and inherently it has nothing to do with Nazis. However, Aryan faith does share many aspects of Nazi ideology, especially concerning the purity of race. Not because of politics, but because of common sense and also because our Gods told us so. 7) What does swastika actually mean? Where did it come from? It is surely a cosmic symbol, but you'll have to understand its meaning on your own. 8) Who is Alexander Hinevich? And why do I have to know him? Alexander Hinevich is the leader of ARYC. He is the man behind the last publication of Slavic-Aryan Vedas. He didn't translate runic texts, but he wrote commentaries for old and unknown words. He is considered by many old faith followers in Russia as an unofficial leader, however, Hinevich never agrees to it. 9) There is white genocide going on! Why the hell should I spend my time on this strange book?! This is not just a book. It's an instruction, given to us directly from Gods, in case of the events, which are happening on Midgard right now. White people are unlikely to succeed without this knowledge. 10) So, I've read the book, got the point, what's next? If you have read the book and understood its sense, you should spread it as far as you can and propagate it everywhere you can. You may not find approval of many people around you, but there is no doubt you will find those who are capable of understanding the truth.

The following is a series of texts known as the Santies, not surprisingly there is 9 Santies and a total of 144 sections, which is divisible by 9 also. Before we start these texts, it is important you should understand the key points of the story. There is some advanced extraterrestrial civilization whom we call Aryan Gods. The author says, we don't know for sure where they came from and when. But we know that they were behind creation of the White Race on this planet. But we do. These gods, which just means they are advanced soul developed beings, not the god or Source, came from Ursa Major and Minor. This planet itself as I understand was created in Ursa Major and brought here many years ago, my understanding is, it is not 4.5B years old but 13.5B years old. Although some have said as much as 23B years old. These beings were known as the Urs, they came to teach the Rus and they were the direct progenitors of the White Race on this planet. The White Race itself originated in the constellation Lyra, going back to the dawn of creation 950B years ago. In ancient times, on the north pole existed a continent called Da'Arya, that was also known as Hyperborea, Thule and Avalon in the past. The Aryan Gods and first white humans lived there. Then something happened and the continent got destroyed, we covered the how and why in FHSTOS parts 1 and 2. So most of the inhabitants moved to the Eurasian continent. The Book of Wisdom of Perun describes the events which happened after destruction of Da'Arya. First Circle: Complete Santies of Perun Vedas consist of 9 circles. Every circle tells about one of nine days, when nations of the Great Race held conversation with God Perun in Irian Asgard. HERO OF THE DAY

SANTIE 1. This first Santie brings life lessons and how to be, plus how to avoid your own descent into the pit of Alien making. It reveals who they are, where they are from and what they stand for.

[1] When in the city of Gods in The Irian Asgard, on confluence of sacred rivers Iriy and Om', near The Great Temple of Yngliya at The Sacred Stone Alaty, descended from skies Vitmana, the divine chariot. Great radiance and blaze surrounded it and it when it went down to Earth. The Flying Divine Chariot by which the Gods and humans travelled between Earths. There also existed Vitmaras, big flying ships capable of carrying up to 144 Vitmanas inside. In Hindu Vedas, such ships are called Vimanas because of distortion in translation from H'Aryan language to Sanskrit.

[2] Gathered-met near heavenly Vitmana. H'Aryan, D'Aryan, Russen and Svyatorus Kins, leaders and warriors of all Kins of The Great Race. The four initial Kins of The White Race. They differed from each other in the color of their eyes. It is suggested that but unconfirmed sources state that H'Aryan had green eyes, D'Aryan had grey eyes, Russen had brown eyes and the Svyatorus had blue Eyes. The colors of their eyes are explained by a color of a Star, which shined in a system from which each Kin arrived. The Heavenly Kin and The Great Race: In the text for some reason the four kins are divided into two groups. The Great Race D'Aryan, and H'Aryan, and the Heavenly Kin Russen and Svyatorus. But even though such classification exists in many parts of the text, these two terms are used as interchangeable synonyms. Also, the word Aryan is still a general name for all people of The White Race, although used in the names of only two initial Kins. Witchers although I suspect wizards, the silver-haired gathered and Sages most wise, the wise keepers of Aryan knowledge and the priests of the United God. The United God: The eternal and universal God the United Creator whose name is RA-M-HA. It is an incognizable essence, radiating life-giving light and the Primary Fire of Universe, known as Yngliya from which appeared all existing Worlds.

[3] Gathered-Met, took seats in rows around Vitmana, hailed the Gods for many days. The Vitmana opened and they got out of it in the flesh, the Light Heavenly God.

[4] Uttered the God ever charming: I came from Uray-Earth. Planet Uray in the system of the Eagle on the Svarozhich Circle. The Eagle constellation is Aquila and the Circle is the celestial equator. From the heavenly Svarga, where bright Iriy flows in the gardens of Viriy near Heavenly Asgard, Heavenly Svarga: Probably the whole Milky Way Galaxy and where the bright Iriy flows, is describing the spiral arms of the Milky Way. I am Perun Thunderer, Svarog's son. Perun Thunderer: One of the main Aryan Gods, son of Svarog, grandson of Vishen', father of Turh Dajd'Bog. Bog means god. It should be noted that their relationship is not based on bloodline. They are holding special positions and family addresses like son/father/grandfather are representation of hierarchical structure of Aryan Civilization. Even their names are most probably just titles of their positions. So one day, the most worthy of us will succeed them. Perun said, listen people and warriors of human Kins to my words, to exhortation of my words listen. Ratibor the

warrior of the Svyatorus Kin spoke to Perun: Tell us bright leader, is there any death for warriors of our Kins?

[5] Answered Perun to the warrior: There is no death for warriors of the Heavenly Kin, any evident or covert doubt of heart, God Vishen', Keeper of Worlds, Vishen was the local top God. Father of Svarog and my grandfather, best of all the wise, will settle. I know, the wisdom of Gods is eternal. That who becomes teacher, even if they have acknowledged the great secret is not blamable by Gods, for there is no death for them.

[6] And asked people Thunderer Mostwise: Tell us Svarozhich, why priests of United God and Pilgrims of Gods, by acknowledging Vedas want to achieve Immortality? Tell us, is there any death in the World of Yav' or everything is immortal? What is truth out of these two? Svarozhich: In ancient times, was everyone who came from space, all comets and meteorites were called Svarozhichs. The Worlds of Yav', Nav' and Prav': Yav' is the world of humans; Prav' is the world of Gods; Nav' is the world of darkness and evil gods. The word world here means not some separate and unachievable world or place, but rather a set of interrelated things.

[7] Answered Svarozhich to them: Both are true, but only in delusion singers teach about death. I do call death – deceit, but not immortality, I call deception. In self-delusion Legs perished, not by deception immortality is achieved in Prav'. Death is not like a fox devouring the living, perceivable form it does not have. You observe death in environment, but you won't find it for yourselves. Legs originally - Legi: Where the messengers of Gods, who informed people of The Race about the will and the advice of the Light Gods. In Christianity, fallen Legs are called Angels. There are names, honoring them, like Oleg the grandson of Leg or Ol'ga the granddaughter of Leg.

[8] Other people think that Udrzec the God of the dead is different from death and your road into World of Prav' is immortal, it stays in your souls and spirit. The same God reigns in the world of the ancestors, he favors the good, but with not good he is not favorable. By behest of Udrzec in human children manifests anger, delusion and death, which take greed's appearance.

[9] Self-misled human will never achieve unity with soul. In power of death, lost humans go this way and when they die, again and again the World of Nav' they reach. Then their feelings go astray, that's why death is called Marena. Marena is the Goddess of death and winter. Marzanna is the Polish and Slavic form. The tradition of burning or drowning an effigy of Marzanna to celebrate the end of winter is, a folk custom that survives in the Czech Republic, Poland, Lithuania and Slovakia.

[10] Carried away by their deeds in chase of its fruits, they continue to go this way and don't overcome death. Instead of tending towards righteous aims, as conscience calls, human child born on Midgard will

circle in ring of enjoyment and on this way, death awaits it. Midgard: Is the ancient Aryan name of our planet.

[11] This great delusion of feelings merging with futile aims, moves towards hell on the futile road. Affected by connections with futile aims and thinking about them day and night, your innermost Self will begin to worship outer World of Yav. Hell, originally Peklo is the world of darkness. Outer world of Yav is the externalization theme again, you need the inner world of the self and Yav.

[12] In the World of Yav' manifested through Kin, the first thing striking people is, desire for another's, which soon entails anger and lust. These three dark products lead foolish people to death, but in The World of Yav' only firm people, in whom governs conscience with firmness, always defeat death.

[13] With directed thought disquieted feelings appeasing, with neglect you should fight them. There is no death for such, for they have overcome with knowledge passions and surpassed death. But a human longing for lust, following passions, perishes. But having defeated vicious desires, human blows off all dust of passion.

[14] For all beings and human's, hell seems to be pitch darkness, with unsanity they rush with unconcern to their downfall. But to a human who has renounced madness, what can death do? But that who refuses to possess ancient knowledge, let him not think about anything else, as if he got rid of his life power! Knowledge enables to do and be more than you all thought, a lack of it enables you to be harvested and become a slave.

[15] Anger, greed and delusion of innermost self are death; and they are in this terrestrial body. Human who has acknowledged wisdom, his Gods and ancestors, knows that death is born this way and death does not scare him here. In his field death disappears, just like disappears mortal when getting into field of death.

[16] Then Odin warrior of H'Aryan Kin asked Perun: Tell us, why Sages say that by performing bloodless sacrifices, humans can achieve blissful Worlds of Prav', purest everlasting. Vedas call them the highest purpose; Who knows this, how should he deal with it? Bloodless sacrifices is all about being service to others.

SANTIE 2: This Santie is all about striving to and accepting the wisdom, only achieved by purity, internalizing and spiritually developing oneself.

[17] Answered to Odin, Perun ever the charming said: Only those who have not acknowledged Great Ancient Wisdom aspire there and it imports to them what is told in the concealed Vedas. The one who is

free from vicious desires, aspires higher by means of the highest spiritual development, rejecting vicious ways of development. In other words those who live with purity will automatically gain the knowledge and higher wisdom. It means there is less re-searching and the knowledge comes to you.

[18] You live by Laws of RITA and by Laws of God Kin - The United Creator, for by these laws live all worlds and Earths, in all Universes. All of which were created by The Great RA-M-HA, they don't know death, because death and darkness have left these worlds and light and immortality have filled with beauty their lives. I think the word immortality meant something more different than today. The immortality of the past is the eternal nature of the soul, but technology and the dark forces took over the word and changed it to living permanently, hence no life, death and re-birth cycle. Via illusionary technology those pursuing power and greed opt for the modern immortality program via the Metatronic coding. RITA: The heavenly laws of purity of Race and blood given to humans in ancient times. Observance of laws of RITA saves race from degradation, degeneration and extinction. God Kin: Personification of all light gods and ancestors. Worlds and Earths: Are galaxies, star systems and their planets. Earth just means an inhabited planet, it is not the name of the planet itself.

[19] And said Hariy, Sage Mostwise: Our Light protector, give your wise commandments to human Kins, descendants of the Heavenly Kin and The Great Race, so that truth triumphs on Midgard-Earth. So that falsehood vanishes forever from our World and no memory is left of it whatsoever. Truth: Is the true laws and orders of The World of Prav'. Falsehood: Deceitful laws and orders introduced from the World of darkness, leading lost humans away to hell. These laws and orders are complete opposition to truth. This is where the self-mastery kicks in, as you have to be truthful to the self and all others. Surprisingly to most, that self-mastery when attained makes life a whole heap easier. [20] Answered Perun Thunderer to Sage Mostwise and to all who gathered to listen to him: Cognize my commandments people, hear exhortation of my words: Honor your parents and support them in old age, for as you will support them, so will your children support you.

[21] Save memory about all ancestors of your Kins and your descendants will remember you. Protect the old and the young, fathers and mothers, sons and daughters for they are your Kinsfolk, wisdom and color of your nations. Foster in your children love to sacred land of Race, so that they would not be tempted by foreign wonders. But could create wonders themselves, more wonderful and beautiful for the glory of your sacred land. Nations meant races not countries in the Vedas time.

[22] Don't create miracles for the benefit of yourself, but create miracles for the benefit of your Kin and The Heavenly Kin. Help your neighbor in his trouble, for when trouble comes to you, your neighbors will help you. Do kind deeds for the glory of your Kin and your ancestors and you will acquire protection of your Light Gods.

[23] Assist with all your powers in building Temples and Sanctuaries, protect God's Wisdom, Ancient Wisdom. Wash your hands after your deeds, because those who do not wash their hands, lose God's Power. Purify yourselves in waters of Iriy, the river which flows in the sacred Land. To wash your white body, to sanctify it with God's Power. Perhaps signifying water is the Source of life and the fact that this planet has living water.

[24] Consolidate Heavenly law on your land, which the Light Gods gave to you. Honor Russal days, observe God's holidays. Do not forget your Gods, burn in glory of Gods incenses and you will acquire goodwill and grace of your Gods.

[25] Do not offend your neighbors, live in peace and concord with them. Do not humiliate dignity of other people and your dignity will not be humiliated. Do not offend people of other faiths for God-Creator is single over all planets and over all worlds.

[26] Do not sell your land for gold and silver, for you shall call curse upon yourselves and there will never be forgiveness to you. Protect the land of yours and defeat all enemies of the Race with weapon right. That was a warning about and against the trading shekel people, who use trade as a means to gain power.

[27] Protect Kins of Russen and Svyatorus from alien enemies, who come to your lands with evil intentions and weapons. Do not boast of your power before battle, but boast of it after battle. Keep in secret wisdom of Gods, do not give secret wisdom to pagans. Protecting the Kins of Russen and Svyatorus: It is told about some kind of vulnerability that D'Aryan and H'Aryan Kins don't have, but Russen and Svyatorus Kins do have. Pagans: Adherents of a different faith/religion, which shatters the myth that Rus, Aryans and Slavs were born out of Paganism, they weren't.

[28] Do not convince those people who don't want to hear you and heed your words. Protect your temples and sanctuaries from desecration of pagans. If you won't protect the shrines of the Sacred Race and faith of your ancestors, years of sorrow and suffering will visit you. Not convincing people is an important lesson. We are here to plant the seeds only, not to grow them.

[29] That who escapes from his land to foreign in search of easy life, is apostate of his Kin and there is no forgiveness for him, for Gods will turn away from him. Do not rejoice at other's sorrow, for he who rejoices at the other's sorrow is calling it upon himself. Do not say spiteful things and do not laugh at those who love you, but answer to love with love and acquire protection of your Gods. Love your neighbor if he is worth it. Love your neighbor if he is worth it: This commandment implies that you should love and respect only those people who are worth it, but not everyone including enemies like Christianity teaches.

[30] Do not marry brother, his sister, son - his mother, for you will anger the Gods and ruin Kin's blood. Do not marry black-skinned, for you will defile home and destroy your Kin, but marry white-skinned, you will glorify your home and continue your Kin. Women do not wear manly clothes for you will lose your femininity, but wear what you are supposed to. Do not marry or mate with black skinned in today's offended by everything crew, will be seen as being racist today. Yet racism does not exist in its traditional form, it is geneticism as to why we mistrust each other and also explains this stance. It is not offensive or demeaning, it goes against a race's best outcome. Diversity is fine by choice, but sadly since these were written diversity means to destroy one race of humans.

[31] Do not dissolve marriage sanctified by Gods, for you will go against law of God, the United Creator and lose your happiness. A child should not be killed inside a mother's womb, for that who kills a child in a womb, will call on the anger of God, the United Creator upon himself.

[32] Wives - love your husbands, for they are your protection and support and of all your Kin. Do not drink a lot of intoxicating drinks, know limit in drinking. For those who drinks a lot, loses his or her human appearance. Hmm, that passage will bother quite a few people even in our own group. Why would it say we would lose our appearance? Think host possession, Al – ghou. Meaning alcohol is the ghost spirit. Remember alcohol and wine where introduced here by aliens of darkness. The temptation into the world of Nav. HUMBLING RIVER

SANTIE 3: It brings us life lessons, observe don't absorb, caring and sharing plus need not greed. All valuable lessons for us all to embrace.

[33] Sage Svyatozar said to Perun Evercharming: What does your last commandment mean? Tell us. Perun spoke to all gathered people: Recall people of the Great Race, the legend about sons of Thor Mostwise, which was saved in the Sacred Vedas, given to you by my son, Tarh Dajd'bog. It is told about Santies Dajd'bog Vedas currently unreleased.

[34] When Thor Mostwise became old, he called his sons Star, Wing and Odin and told them this: My dear sons, three Circles of Life Years have gone, old age and infirmity have filled my body. My powers are leaving me. I know that somewhere far in the south at the foot of The Himavat-Mountains stands Skuf of Heavenly Legs. Star, Wing and Odin: In Scandinavian legends it is also told about two of Odin's brothers, but different sources give different names. Circles of Life Years: One Circle of Life consists of 144 Years, so Thor was 432 years of age at this time, which is a nine again. Himavat Mountains means the Himalayas. A Skuf: Is a small Aryan settlement as a rule without a Temple, as opposed to a skit being an Aryan settlement with a Temple or Sanctuary.

[35] In that foothill Skuf, Wise Legs makes a potion to all Heavenly Gods, a shining divine drink which grants many vital powers and eternal youth. If human drinks Potion of Legs, he gains life powers again, health returns into body and eternal youth shines in him. The potion was the drink of Gods, made of special ingredients. This is the Milk Ocean potion many of the fake gods came here for, they also fought over it which is atypical for them.

[36] Star said to Thor: My dear Father, I will fetch you the potion of Gods. And Star went to the south to The Himavat mountains. For a long time, Thor waited for his oldest son. So, he sent his middle son to search for Star, saying to him: Looks like your older brother is in trouble, go Wing and help your brother. And went Wing to search for his brother Star.

[37] Much water has flowed since that time in The Sacred Iriy. The small Moon nine times made its path around the Earth and the big Moon four times. Odin said to Thor Mostwise: Dear Father, let me go to the Himavat mountains, to search for my brothers. To search for the foothill Skuf of Heavenly Legs and divine potion. The small Moon is Fatta that had an orbital period of 13 days, which means he was gone 288 days. It was destroyed about 13000 years ago, due to unskillful usage of elemental forces of Midgard-Earth. Big Moon: Mesiat orbital period - 29.5 days, which is curiously a period of 118 days, unless they were talking about the times of each brother leaving. In this shlock are described times, when Midgard had two Moons: the small one Fatta and the big one Mesiat. There are also parts in Santies, which describe times when Midgard had three Moons, the third moon was called Lelia.

[38] Thor Mostwise blessed his dear son and Odin set off to South to the Himavat mountains, to search for his brothers and the Skuf of Heavenly Legs. As he arrived at the Himavat mountains, he saw the Skuf of Heavenly Legs. In the middle of the foothill Skuf, Leg Silver haired was making shining potion in a golden pot for the Light Gods.

[39] Odin spoke these words: Hello Leg-Mother, let there not be any black cloud above your Skuf, let all of your deeds be, be for the glory of Light Gods. Answered to Odin Leg Silverhaired: Hello fine young man, tell what brought you here to our foothill Skuf to the Himavat mountains?

[40] Anguish for my Father brought me here, three Circles of Life Years have already gone for him, old age and infirmity have seized his body. Only your life-giving potion will oust old age, infirmity and torments with sufferings and will sanctify Father's Body with God's Power.

[41] Odin spoke to Leg Silverhaired: In the golden pot Potion is being made, take and taste the Potion but remember! The first cup grants power, gets rid of pain, fatigue and infirmity. The second cup grants joy and eternal youth, gets rid of oppressive old age. The third cup is superfluous for people, it turns human

into an animal. That is a lesson in need not greed, something that has befallen too many now and into the past.

[42] Two fine young men had come before you, but didn't listen to my words and drank three cups each. Now they are like animals pasturing on a meadow behind our foothill Skuf. She showed them to Odin and he recognized his brothers, they were pasturing like cattle on a green meadow. The old non listening problem again. Why do so many ask for advice and when given it, do the exact opposite?

[43] And heart of Odin filled with great sorrow for his brothers. And he took the cup with Potion and drank it all at once. Sorrow left, great powers filled his body and appeared desire to drink another cup in order to get eternal youth, like Light Gods have.

[44] He drank another cup, joy and eternal youth filled his body and appeared great desire to drink the third cup, but then Odin remembered the words of Silverhaired Leg and he didn't drink more. But filled his traveling jug with two cups of Potion for his Father. The temptation is always there; it depends on your own will power to avoid it.

[45] And made Odin hymn-prayers for Light Gods and called them to help his brothers. Light Gods came to call of Odin and returned mind to his brothers Star and Wing and blessed Light Gods their journey. Brothers returned to Father's House and Odin gave the Potion to his Father. A get out of jail free card? That is not a good look in my opinion, consequences of their own actions should have unfolded for the remainder of that lifetime, to enable them to gain wisdom.

[46] Thor Mostwise drank the first cup, illnesses and infirmity left his body and great powers filled his mind and body. The second cup Thor Mostwise rejected to drink, but poured it out onto roots of old dry trees: Oak, Birch and Ash. And they acquired great powers and their green leaves blossomed out on their tops. That is the essence of caring and sharing.

[47] Thor said to his sons these words: I have no need in eternal youth, I have lived a long life given to me by the Creator RA-M-HA, let these trees give a lot of powers to you my dear sons and to all descendants of your Kins. In all times from Circle to Circle. Plant seeds of these trees near mansions of your kins and look after them like your children. From Circle to Circle: In ancient times, when people had a different calendar called a Year-Circle. Calculation of that time was done not with centuries [100 years], but with Circles [16 years] and Circles of Life [144 years]. This is due to the fact that hexadecimal numeration was used, but not decimal. 144 divided by 16 equals 9.

[48] From that time Kins of the Great Race and descendants of The Heavenly Kin, keep three trees of life and great power. In an hour of need and on holidays, they come to these trees, which give the power of life

and receive a lot of powers. And glorify Light Gods and ancestors Mostwise for good deeds and in the glory of all Kins Of The Great Race.

SANTIE 4: In this section it teaches us about truth, knowledge, wisdom, nature and serving a higher purpose. Life lessons of how to be and how not to be, service to others not just the self. This Santie should replace the bible for all children.

[49] D'Aryan Rodan - Kodarad questioned Perun: A Rodan was the chosen leader of several related Kins. Tell us God Evercharming, why many Sages give vow of silence and tell that they are aspiring to the understanding of the Vedas? Is there any truth in vow of silence? Does Sage with silence come to speechless cognition of truth or not?

[50] Perun Mostwise answered to Kodarad: There is no sense in vow of silence, because silent cannot cognize Ancient Vedas with heart. Ancient Vedas do not penetrate his heart, Ancient Vedas are only cognized by the living word. And where Vedas word is heard, their hearts begin to cognize its great essence. That is talk to the power of the spoken word, which can become plural with a s on the front and on the end.

[51] Many people think that those who know all the Vedas are sinless, even when committing evil. But neither hymns from Wisdom of Cognition of Worlds, nor aphorisms from Wisdom of World of Radiances, nor spells from Wisdom of Life, will not save those who commit evil deeds and everyone will be charged with his lawlessness. That is RITA law, everyone equal. Wisdom of Cognition of Worlds; Wisdom of World of Radiances; Wisdom of Life are the three collections of Santies given by Light Gods.

[52] Sacred hymns and songs will not save you from falsehood. Those who easily yield to deception, who stay in a world of charms and self-illusions. Like birds leave the nest when their wings grow, so sacred songs leave human, when the time comes. The sacred songs are the music of the spheres, that embraces love the frequency, not the illusionary love for those that operate solely in fear. The absence of love perpetuates the fear programs. Love is something that is badly eschewed on this overly programmed materialistic world. Illusion like the Astral world reigns.

[53] The Vedas will not save those who do not fulfill their duty of life. They are indicated two ways: selfless devotion and bloodless sacrifices. Through them two traits, a knowledgeable person achieves purity and with this purity he keeps off sin, self-illuminated with knowledge of the Vedas. This shlock means that apart from Spiritual development, a human has to do his life duty. Life duty involves such things as extension of kin, creation for the good of kin, protection of kin and many other things.

[54] By knowing the Ancient Vedas, a soul of a knowledgeable approaches the World of Prav'. But if he desires usual fruits of the World of Yav', he takes with him everything he has done here and in the World of Nav' having enjoyed all fruits of his deeds. He bears responsibility for his every deed and again follows the path predestined by Great RA-M-HA. The former is the path of the gods, the latter is like a recycle in essence because you didn't develop enough to alter that loop.

[55] By human children selfless devotions are being performed in World Of Yav' and fruits of all deeds are eaten in World Of Nav'. For Sages and Kapen-Priests, who dedicate themselves to selfless devotions, those great Worlds are oriented. Sinless selfless devotion is considered as renunciation of evil; Such self-sacrificial devotion can be successful and unsuccessful. Through devotion, experts of Ancient Vedas have subsequently achieved Immortality. A Kapen-Priest: Priest of Kapishe, Kapishe means sacred temple.

[56] But there is also a sinful devotion. Those of humans who are obsessed with anger, unrighteous and the other sixteen vices, plus those who violate the Commandments of Gods and Ancestors, especially blood rules. Those who are inhabited by thirteen meanness's, they are sinful. But those who have a clean soul and light spirit and live according to covenants of their Forefathers are sinless.

[57] Unrighteous anger; lust; greed; delusion; carnality; cruelty, grumble; vainglory; despondency; attraction; envy; aversion; libertinism; desire for another's; oppression and malice. These are vices of human children; humans should avoid these sixteen.

[58] Every one of them waylays humans, wishing to seize their natures like a hunter waylays prey. For boastful, lustful, arrogant, rancorous, unsteady, refusing of giving protection, are appropriate those sins, committed by unlawful people, despite their great danger.

[59] Chase for delight; hostility; boasting of generosity; stinginess; oppression of other people; lie; weak will; glorification of feelings; hate towards wife, these are nine worst enemies of human.

[60] Observance of commandments, laws of United God, laws of your Kin. Truthfulness; restraint; selfless devotion; self-denial; modesty; patience; firmness; absence of envy; bloodless sacrifices; continuation of Kin; mercy; attentiveness. The study of Sacred RA-M-HA INTA and Ancient Vedas, these are sixteen vows of Ministers of Faith.

[61] That, who will strengthen these sixteen vows, will distinguish himself on the whole Earth; That, who observes three, two or just one of them, is considered self-affirmed. Of renunciation of vices of World of Yav', but not in delusion consists Immortality. Wise Ministers of faith call them the gates of truth.

[62] In self-development there are eighteen qualities: Restraint in action, inaction and purposefulness; eradication of injustice, blame, false pride, brutish desires, unrighteous anger, despondency, greed, envy, malevolence, irritation, anxiety, forgetfulness, verbosity and conceit.

[63] This way, human who has perceived self-development, becomes sensible and gets eight qualities: Righteousness; ability to think over; ability of self-enrichment; ability to investige; dispassionateness; honesty; chastity and composure. Chastity in their term is engaging immoral sexual acts.

[64] Be truthful with your Soul and Spirit. Worlds are held by truth; their gates are truth; for it is said that on truth rests immortality. Having turned away from sins, it is necessary to execute vows and commandments. Such conduct created by United God through Truth leads to Immortality. Humans keep the Sacred writings unchanged: RA-M-HA INTA and Ancient Vedas.

SANTIE 5: This section was warning of the future consequences of life here after they had departed. A warning about an alien predator coming and the penalty of mixing and not adhering to the great teachings.

[65] Perun Thunderer was asked by Ognoslav, Sage of Great Temple of Yngliya of the Svyatorus Kin: Tell us Perun-Father, what awaits in the future for the descendants of all Kins of The Great Race and The Heavenly Kin? What destiny awaits them after our departure for heavenly Prav' to our Sacred-Wise Ancestors?

[66] Answered to Ognoslav God Mostwise: Listen to me, Great Keeper of Primary Fire and you, ministers of Gods of the Sacred Race and the Heavenly Kin... Like a celestial Iriy, which divides half of Svarga, great changes will bring stream of Time River in its flow. I suspect that is describing the flood, but it appears not, though it is interesting it was called the Time River. The Celestial Iriy: is some part of The Milky Way Galaxy. Half of Svarga: is half of the visible firmament.

[67] Sacred land of Great Race will change its face. Great fall of temperature D'Aryan wind will bring to this land and Marena, for a third of the year will be covering it with her white cloak. There will be no food for humans and animals in this time. It will begin great migration of descendants of the heavenly Kin to the Ripean mountains, which protects western frontiers of sacred Russeniya. D'Aryan: North wind, blowing from the side of sacred Da Arya. Ripean Mountains: Ural Mountains. Russeniya; Land of the Race. This clearly describes an ice age. A third of the year is about the time of winter, this is what we have now in general of the northern or southern climates. But that was a change from previous, which means it was more tropical back then.

[68] And they will reach the great waters of Western ocean-sea. The heavenly force will carry them to the land of beardless humans, with skin of flame of sacred fire color. A great leader will build in that land the

Temple of Trident of God of Seas. And Niy - God of Seas, will be sending them his innumerable gifts and will be protecting them from evil elements. Western Ocean-Sea: Atlantic Ocean. Heavenly Force: Vitemanas and Vitemaras. Land of beardless humans: Land where Aryan Kin of Ants [not insects] settled. Subsequently this land was named Antlan' [land of Ants], later on ancient Greeks called it Atlantis. Niy: God of seas and oceans, protector of Kin of Ants.

[69] But great prosperity will cloud minds of leaders and sages. Great laziness and desire for another's, will seize their mind. They will start lying to Gods and humans and will start living by their own laws, violating Covenants of Wise Progenitors and Laws of United God-Creator. They will use force of elements of Midgard-Earth for achievement of their goals and will enrage by their deeds Niy - Great God of Seas.

[70] And Niy and elements will destroy that land and it will hide in depths of the great waters, just like in ancient times in depths of northern waters hid the sacred Da Arya. Gods of Race will save righteous people and the heavenly force will carry them east to land of humans with skin of color of darkness. Beardless humans with skin of Flame of Sacred Fire color, will be carried by heavenly force to boundless lands, lying at setting of Yarila-Sun. Land of humans with skin of color of darkness: Modern northern Africa, where negroid nations live. Lands lying at setting of Yarila-Sun: Americas. Yarila - Aryan name of our Sun. YARILA: I am the first letter of the alphabet. RA has a whole new meaning; it was not the name of a person and long before the snake head arrived here, but was considered to be the Divine white light that creates all that exists. LA - Warmth, energy of kindness and love. In total, we have, I am light and warmth, which equals the sun. So, the red skinned natives were moved from Atlantis to the Americas, until they were almost wiped out by the Indians or Kali Ma peoples. Having been to Utah again recently, I observed the populace there and thoughts flashed to, was a looking at the descendants of the Rus. It has led me to believe that, the Mormons are all Rus descendants given the high white population there. The fact there is a temple there and his story is not too clear of how and when it was built, supposedly by less than 200 travelers from Missouri Illinois in under 20 years after their arrival, which makes no sense whatsoever. The logistics and craftsmanship and complete lack of manpower makes the Mormon temple story as likely as the Joseph Smith angel plates narrative. Complete fairy tales. I believe that temple was built by the Rus a long time in the past and the followers of Mormonism are following the Egypt Ra and his lizard brethren and was a takeover from the Rus. Subsequently generations of Rus in Utah, have been worshipping the very entities that brought about our demise. As a possible supporting anecdote, there is several mentions of the word Great, which is capitalized by the letter G. Great Race, Great Keeper and Great Temple and remember it is connected to the Great God of the Seas. But close to the Great Temple in Utah is the Great Salt Lake, a salty lake is an ocean, just like the Great God of the Seas. There is a bay in the Salt Lake basin called the Bear River Bay. The bear of course is linked to Ursa Major and Minor. TEMPLE OF THE KING

[71] Humans with skin of color of darkness will be honoring descendants of the Heavenly Kin as Gods and will be studying under them, many sciences. People from the Great Race will build new cities and temples and will teach humans with skin of color of darkness to grow cereals and vegetables. Four Kins of the Great Race in turns, will be teaching new Sages Ancient Wisdom and building Triran-Tombs in the form of tetrahedral artificial mountains.

[72] While other Kins of the Great Race will settle over the whole face of Midgard-Earth and will cross Himavat-Mountains to teach humans with skin of color of darkness, the Wisdom of World of Radiances. In order that they would stop their terrible, bloody sacrifices to their goddess, the Black Mother and Snake-Dragons from World of Nav'. So, they would acquire new Divine Wisdom and Faith. Black Mother: Goddess Kali Kali-Ma the black mother, who was worshiped by negroid nations of Dravidia now India. Also known as the Black Madonna. Snake-Dragons: Reptilian Race known in India as Nagas.

[73] Many of Kins of the Great Race will spread over all parts of Midgard-Earth, beyond The Ripean Mountains (Ural), and will set up new cities and temples. They will save Faith of Progenitors and secret Vedas, given by Turh Dajd'bog and other Light Gods. Many Kins of the Great Race and the Heavenly Kin will shepherd countless flocks of animals, moving from land to land, will become related with other Kins of The Heavenly Kin.

[74] But will come from World of darkness alien enemies and will start saying to human children words flattering, covered with lie. They will start seducing the old and the young and taking human daughters to wives. They will interbreed amongst themselves, amongst humans and amongst animals. Hence the several references to bestiality in their bible. They will start schooling it to all nations of Midgard-Earth, those who will refuse to listen to their words and follow vile deeds of Aliens, they will commit to torments and sufferings.

[75] Some of them are trying to enter Midgard-Earth even right now in order to do their dark deed, to seduce out of the way the Light Forces sons and daughters of the Great Race. Their objective is to spoil souls of human children, in order that they would never reach Light World of Prav' and Heavenly Asgard. Also, Celestial Earths and Settlements, where your Light wise Ancestors are resting.

[76] By their grey skin you will recognize Alien enemies. Their eyes are of color of darkness and they are androgynous, can be either male or female. Every one of them can be either father or mother. They paint their faces in order to resemble human children and they never take off their clothes, in order that their animal nudity would not be exposed. This is the grey races, although some of them are reptilian in fact. Those known as the tall Greys are actually reptilian.

[77] With lie and unrighteous flattery, they will conquer many lands of Midgard-Earth, like they had already done on other Earths in many Worlds, in times of the last Great Assa. But they will be defeated and sent to the land of Artificial Mountains, where will live humans with skin of color of darkness and descendants of The Heavenly Kin, who came from the land of God Niy. Human children will start teaching them how to work, in order that they would be able to grow cereals and vegetables for their children themselves. Great Assa: Space war between Light Gods and the Dark Forces. Land of artificial mountains: Ancient Egypt land of pyramids. Which is interesting on another level, because it was understood that the sub grey race known today as the “Jews” were the ones who were sent to Egypt. What this is suggesting is the grey aliens were part of it as well. It begs the question of; were the sub gray mixed Jews not just between white and black races, but between white and the alien gray race and also black and the alien gray race?

[78] But the absence of wishing to work will unite aliens; they will leave the land of the Artificial Mountains and will settle all over Midgard-Earth. They will create their own religion and will proclaim themselves sons of United God. They will start sacrificing blood of their own and of their children to their god, in order that blood union between them and their god would exist. Will create their own religion: It is told about Christianity. Hence my belief that the bible is their story. Sub gray not willing to work? How many Jews to you see in poorer paid jobs? The construction industry, general shops is that generational teachings of how they shouldn't work in anything but finance, governance and legalese professions, as Finkelstein stated.

[79] The Light Gods will start sending to them Wanderers Mostwise, for they do not have neither spirit or conscience. Aliens will be listening to their wise words and having heard them out, will sacrifice lives of Wanderers to their god. They will create Golden Taurus as a symbol of their power and will worship it, same way as their god. Taurus is the bull, as in Papal bull, which means Father bull. Taurus is the home of the Aldebaran race that worked with the SS. They have no spirit means they are soulless creatures, in other words lab created entities.

[80] The Light Gods will send to them Great Wanderer, carrying love. But priests of Golden Taurus will martyrize him and upon his death, will declare him God. They will create a new religion, built on lie, blood and oppression and will announce that all nations are inferior and sinful. They will call them to repent before the face of the God they will have created, to ask forgiveness for deeds done and undone. Great Wanderer: Jesus Christ, but not the Jesus or the Christ of the bible. They say this story is actually a lot more complicated and would take a whole book to explain. All nations are inferior and sinful; nations mean races of people.

SANTIE 6: This next passage speaks of even graver times for the Aryans, a great war, poisoned water and food and a disconnect from the teachings and the ancient ways. The great fall began and we have yet to fully recover.

[81] Sage Svyatozar of glorious Svyatorus Kin said to Perun Evercharming: Tell us Perun-Father, what is going to be with Sacred Land of the Great Race and faith of our ancestors? Tell us Light God, if grave time will come for sons of the Great Race. Then who will be able to save the sacred land of the Great Race and descendants of The Heavenly Kin?

[82] Spoke God Mostwise these words: Be aware people that grave times will be brought by the stream of the Time River to Sacred land of The Great Race. And on this land will be left only Sages-Keepers of Ancient Knowledge and Secret Wisdom. Because humans will use force of elements of Midgard-Earth and will destroy small moon Fatta and their beautiful world. Then the Svarog Circle will turn and human souls will be horrified. The Svarog Circle will turn: In this sentence Svarog Circle means firmament. This prophecy tells about events which happened nearly 13000 years ago. When unskillful usage of Midgard's elemental forces caused the destruction of small Moon - Fatta, giant pieces of which fell to the Earth. As a result, Earth inclined its axis, thus changing the view of the firmament. Also, movement of tectonic plates occurred, which caused powerful earthquakes; volcanic eruptions; huge tsunamis; destruction of Atlantis and many other islands; process of orogenesis [formation of mountains]; changing of climate.

[83] A great Night will wrap around Midgard-Earth and a celestial fire will destroy many lands of Earth. Where beautiful flowers bloomed once, will stretch great deserts. Instead of birth-giving land, will be noisy seas and with the splashed waves of seas, will emerge high mountains covered with everlasting snows.

[84] Humans will be hiding in caves from poisonous rains, bringing death and will start eating animal flesh. Because arboreal fruits will be filled with poison and many humans will die after eating them. Poisoned water streams will bring many deaths to children of the Great Race and descendants of The Heavenly Kin, and also, thirst will bring sufferings to humans.

[85] And by advice of aliens who secretly arrived to Midgard-Earth, people will be killing each other for a swallow of fresh water, for a piece of clean food. They will start forgetting Ancient Wisdom and Laws of United-God Creator. The great disconnection will come to the World of Midgard. Only Sages-Keepers of Sacred land of The Great Race will be keeping purity of Ancient Knowledge, despite hardships and death.

[86] But the river of Time will once again bring changes in its flow and unification of Kins of Great Race will begin again. Ancient Knowledge will unite them, saved in songs and folk legends and passed on by word of mouth. Written on stones in Temples and Sanctuaries and inscribed in great Santies. Much wise

knowledges will become lost for many Kins, but they will remember that they are descendants of the Heavenly Kin. Nobody will be able to defeat them and take their freedom.

[87] Many circles of life will pass Midgard-Earth on Svarog's Way. Human children will build cities and temples anew for those Gods, whom they remember. Live righteous, and happy will return to the lands of Great Russeniya. But alien priests from temples of the Golden Taurus and priests of the murdered Wanderer, will want to destroy their world and peace, for these priests live by fruits of other's work. They are the Cohens and Khans we have covered in previous shows. Khan is the Asian word for Cohen and Cohen means priest. All perpetuated by the Koshey's that became Kosher and the Hebrew Anunnaki.

[88] And alien priests will come to the lands of the Great Race, under the guise of traders and narrators and will bring deceitful legends. They will start teaching unrighteous life to people of the Great Race, who won't know evil and deceit and many people will become seduced, after getting caught into nets of flattery and deceit. They will exchange World of Prav' for nine vices: Libertinism, lie, false pride, spirit lessness, non-fulfilment of duty, ignorance, indecision, laziness and gluttony. Under the guise of traders, once again revealing that is the Jewish race. Alien priests will come to the lands of Great Race: This prophecy tells about Christianization of European and Russian lands. Which tells you, those in the Vatican are not us, they are aliens and Christianity is their religion.

[89] Many people will renounce sacred faith of their Ancestors and will start listening to words of the alien priests. Which are lies unrighteous, leading human children astray from the way of Light Forces. Times of blood and fratricide, alien priests will bring to scopes of lands of Kins of The Great Race and will start converting people to their faith. Many people will renounce Sacred Faith of Ancestors: Christian missionaries-preachers called nations of Great Race not to come from unbelief to faith, but to renounce native Light Gods and Ancestors and to accept alien God. Such renunciation is called betrayal and betrayal is the worst sin. Moreover, Jesus himself said these words - I am not sent but unto the lost sheep of the house of Israel [Bible - Matthew 15:24]. Times of blood and fratricide: This prophecy tells about an ancient war strategy - divide and rule. In modern day terms divide and conquer.

[90] People of Race will be asking for help from alien priests, worshipping alien gods and the god of world of darkness. And priests of killed Wanderer with false zeal will start comforting them. They will capture their souls and riches of human children, they will declare people of the Great Race slaves of god, which they had killed themselves. They will be telling them that suffering is good, for those who suffer will behold god. Alien Gods are the Koshey's.

[91] For seven life circles darkness will wrap lands of Kins of The Great Race. Many people will die from metal and fire. Grave times will come for nations of Midgard-Earth, brother will rise against brother, son against father, blood will be pouring like rivers. Mothers will be killing their unborn children. Hunger and

spiritual void will cloud minds of many people of the Great Race and they will lose faith in justice. That is because these Koshey's took over the justice system with their book of law, masquerading as a religion. Cohen once the priest, Cohen's now the lawyers, using the reptilian language of Latin. Seven circles of life is 144×7 , which equals a familiar number, 1008. The Svarog cycle is 1008 years also.

[92] But United God-Creator and the Heavenly Kin will not allow death of the Great Race. Revival of the Great Race and awakening of Protection-Spirit of sons of the Heavenly Kin will be brought by White Dog, sent by Gods to the sacred land of the Great Race. Sacred land will be purified from thousand-year slave yoke of alien enemies, who sacrifice blood and flesh of their children and with lie and unrighteous flattery, poison the souls of children of the Heavenly Kin. White Dog: Is the name of a year from the Aryan Calendar.

[93] The Celestial Phoenix will point the Supreme Sage of Primary Fire to a son of Sage of Forest of Tri-Moon Kin, and Supreme Sage will train him to be a great wise sage, which will be assisted by Light Gods. The great sage will revive the ancient faith of the progenitors on the sacred land of the Great Race. They will build Temples and Sanctuaries, in order that all Kins of the Great Race and descendants of the Heavenly Kin would cognize ancient wisdom and righteous life. Celestial Phoenix: Is the name of a year from the Aryan Calendar.

[94] The minions of darkness will find out that their death has come and they will be lying about the Great Sage. They will be seducing his apprentices and neighbors with a glut of wealth and vicious bliss. In order that they would not reach the spiritual heights of World of Prav' and would be eternal slaves of the Dark World. They will do everything to destroy the Great Sage, in order that ancient wisdom and faith of progenitors would not be revived on the sacred land of Race.

[95] Forces of darkness will make all efforts, in order that, the Sacred Fire would never light up in front of images and idols of Gods and your sacred-wise ancestors. Aliens will start stirring up one nation against another, calling them to wars, in order that they would kill each other for possession of Earth's properties.

[96] Millions of lives will be taken by senseless wars for the sake of alien desires. For the more there are wars and deaths of human children, the more wealth would acquire envoys of world of darkness. Have more influence over minds of many people of the Great Race. Dark forces for achievement of their goals will even use the Fash-Destroyer and fire mushrooms bringing death, will rise above Midgard-Earth. Fire mushrooms are nuclear weapons. The fush or fash destroyer was even more high tech than nuclear weapons, it brought total destruction to whole swathes of regions. I suspect that weapon or the rolling cloud weapon, is what created the deserts upon this planet. These can all be seen as prophecies per se, but this is what they have done to many other worlds. A long term loop-based plan of harvesting and death. Remember most wars are started by bankers, they fund both sides, then collect the shekels. The actual war

is their form of entertainment. Many may find the last quote unbelievable; the problem is your thinking levels on evil, are way too low. That is how they prevail. WAR PIGS

SANTIE 7: This next Santie is all about the re-teaching of the ancient ways, codes, morals and wisdom.

[97] Perun spoke to Vedamir warrior of H'Aryan Kin these words: Tell us our Light Leader, will the Great Sage save sacred faith of progenitors from alien enemies? I ask this, because we are relatives with Tri-Moon kin.

[98] Answered Light God to the warrior: Listen to me, hard fate is predestined for the Great Sage. Incomprehension of people will surround him, because ancient wisdom will become unintelligible, for many Kins of the Great Race and the Heavenly Kin. His task will be to explain to people the fundamentals of ancient knowledge and the meaning of rune images, saved in the laws of United God-Creator. Ancient Wisdom will be unintelligible: Incomprehension of Ancient Wisdom by people is mainly connected with the changing of languages and the distortion of ancient truth. Remember the biblical passage; the Lord came down and changed all the languages and scattered the people to the four corners of the Earth from Genesis? 6 And the LORD said, Behold, the people is one and they have all one language; and this they begin to do: and now nothing will be restrained from them, which they have imagined to do. 7 Go to, let us go down, and there confound their language, that they may not understand one another's speech. 8 So the LORD scattered them abroad from thence upon the face of all the Earth: and they left off to build the city. 9 Therefore is the name of it called Babel; because the LORD did there confound the language of all the Earth: and from thence did the LORD scatter them abroad upon the face of all the Earth. Biblical scholars who are the minions of this cult spend an inordinate amount of time trying to cover this up. Making bizarre conspiracy claims to try and give a spin on that narrative. It is what it is, the Lord was not our friend or important as a diety either. He was an off world flesh and blood usurper with a huge anger management problem, not to mention his ego issues. The Lord of the bible was Anu, the Royal Draco King from Alpha Draconis. Who, along with his family did much damage here. His family was Inanna, Enki, Enlil, Marduk, Enkidnu and many others of that ilk. Not one of them was for our benefit. The Rothschild's clan is their modern day versions, they have the most reptilian DNA of any family or bloodline on this planet, hence why they have controlled us since the 1800's. The Draco "stepped back" in the 1800's and allowed "humans" to take control, all whilst installing their own "humans" into the prominent positions.

[99] A Great Priestess will bring new life to scopes of sacred land of Race. All Kins of the Great Race and descendants of The Heavenly Kin will cognize life-bringing Light of Ancient Wisdom, which is kept by Sages of the Great Temple of Yngliya. Happiness and righteous life she will consolidate on the whole land of Race. In order that World Light Soul of DJIVA would find shelter for itself in the heart of every human of the Heavenly Kin and the Great Race, starting from resurrected Irian Asgard. DJIVA: Is some kind of divine essence. Are they describing an attempt to bring back to the Divine Feminine?

[100] Vedamir warrior of H'Aryan Kin asked Perun: Tell us Light Leader, how will the great priestess be born? Of which Kins will be her parents? And how will Light of Ancient Wisdom illuminate the whole World of Midgard-Earth? Answered Perun to warrior of H'Aryan Kin: Listen warrior to my words: As soon as Supreme Sage of Primary Fire will finish fourteen-year training of son of Sage of Forest of Tri-Moon kin, he will declare him his successor and lead through three initiations. Fourteen years of training and yet modern shamans barely have a year, see the difference?

[101] On the day of a great holiday, Light Gods and Mostwise ancestors will summon the Supreme Sage of Primary Fire, for he will have completed his mission on Midgard-Earth. The new Supreme Sage of Tri-Moon Kin will begin his deeds, traveling from city to city, propagating ancient wisdom of faith of progenitors and healing the sick with soul and body.

[102] By return to the Irian Asgard, he will summon his apprentices and will start teaching them the fundamentals of ancient wisdom. They will start building Temples of ancient faith of progenitors of the Great Race and the Heavenly Kin. And when the time will come, daughter of the great witch of Kin of newly arrived, will be brought to the great sage, in order that she would study hidden ancient wisdom. The great sage will start teaching daughter of the great witch secret knowledge and will be training her to be the Priestess of the White Temple. The word witch in more modern times brings darker or more malevolent thoughts, I would more describe them as adepts.

[103] Her mother the great witch, will begin healing souls and bringing up children of Kins of the Great Race and the Heavenly Kin. The Supreme Sage will surround daughter of the great witch with care and love and will be guarding her from minions of the world of darkness. In order that they would not possess her soul and would not turn the daughter of the great witch to dark spiritless ways, leading souls of people to hell, lying in dark depths of the World of Nav'. Soul possession is high on the agenda in their dark ways, turning to dark spiritless ways is a big descent into their world. One potential in the modern day fell to those very traits via soul possession and dark spirit ways, the Trustee. Other potentials will follow unless they take control of themselves and open their hearts. The feminine aspect appears to me to have a more particular weakness to this type of subversion. Ego plays a huge role into it, the words of them change from us, we and our to me and my and so it becomes all about the self, not the collective. The higher the role the more the responsibility and the more you become service to others. Not exhibiting those two traits leads to the fall, it happens far quicker than the rise in status.

[104] Because minions of the world of darkness know that the daughter of the great witch, surrounded by care and love of the Great Sage, will give birth to a beautiful child which will become a new Great Priestess. A savior of sacred land and all Kins of the Great Race and descendants of The Heavenly Kin. In a sacred year should this child be born, for since that time, the future great priestess will be helped and

served by all Gods of the Heavenly Kin. Sacred Year: According to Year-Circle of Chislobog, every 16th year is considered to be sacred. Chislobog is a figure from modern Slavic paganism, especially in the Ynglist tradition. Except paganism is an overlay. He rather than a she it is said, is typically associated with time and/or numbers and his name comes from the Slavic words for number - chislo and god -bog). Chislobog's origins are uncertain, but he appears in the Book of Veles, a book which they believe to be a forgery, rather than a genuine ancient Slavic text. Despite this, he is an important figure in Ynglism and is worshipped by followers of the tradition. According to Ynglist belief, Chislobog controls the flow of time, sometimes symbolized as a river. He is also considered the protector of various Slavic-Aryan calendars, including the Daa'ri calendar. Ynglists believe that the Daa'ri calendar was used in Europe prior to the adoption of the Christian calendar. Chislobog is often depicted holding a sword in his left hand, symbolizing protection and preservation and a shield with the Daa'ri calendar inscribed on it in his right hand. The hymn of Chislobog praises him as the protector of life and the giver of understanding to humans, and asks for blessings for Ynglist families and long life. While some people have suggested that Chislobog may be female, this is not a widely held belief among Ynglists.

[105] Mother Earth itself will be giving food to her and the Celestial Cow Zimun will be giving milk to her. Gamaun the prophetic bird, will sing to Great Priestess about saved Ancient Great Wisdom. God Vishen himself will be protecting her dreams and Lada-Mother will be guarding her from evil in the daytime. Makosh-Mother will be nursing her and God Krishen' will play pipe for her. Zimun: An Aryan constellation that almost corresponds with Ursa Minor. Lada-Mother: Probably a personification of some universal forces. Makosh-Mother: Same as Lada-Mother. God Vishen': Probably a figurative God too. I think Lada is actually Rada which is Orion. Makosh is Ursa Major. Rada, Makosh, Svati (Arcturus) and Race (Leo) where the four constellations fighting the dark forces, the Koshey's. Gamayun is a prophetic bird of Russian folklore. It is a symbol of wisdom and knowledge and lives on an island in the mythical east, close to paradise. She is said to spread divine messages and prophecies, as she knows everything of all creation, gods, heroes and man. The Gamayun is normally depicted as a large bird with a woman's head. In the books of the 17th-19th centuries, Gamayun was described as a legless and wingless bird.

[106] But the forces of darkness will gather together and will want to destroy this child, in order that ancient knowledge Runes and secret wisdom concealed in grave times would vanish. For their great objective is not to allow the birth of the great Priestess and they will make all their efforts, in order that this child would never be born. The minions of the world of darkness will be surrounding mother of the future Great Priestess with lie and great flattery.

[107] They will invite mother of the future great Priestess to great festivals, where lie and spiritual impoverishment are in high esteem, where idleness and self-admiration are standard, where meanness and depravity are deified. Dark forces will be sending to daughter of the great Witch to seducers and tempters, in order that they would slander the great sage and ancient faith of Progenitors.

[108] All dark forces will be directed to separate the great sage from the daughter of the great Witch, for dark forces know that if they will be separated, great loss and the unborn great Priestess, will lead to death of the Supreme Sage. As his mission is to train a great Priestess. But he will revive again after one Circle of Life and it will be the last time of dark forces rulership in all lands of Midgard-Earth. One wonders if this great priestess was in fact Kim Goguen, yet she fell for the seducement of money and power, plus ego every time. If it was, she will not get another opportunity to hamper the progress of humanity.

[109] The all-destructive fire of retribution of forces of Light will burn minions of the world of darkness and all descendants of alien enemies. Which were filling the whole human world with spiritual emptiness. Carrying on their banners: lie and vices, laziness, cruelty, desire for another's, lust, fear and lack of self-confidence. It will be a great end of the world for alien enemies, who came from the dark World. And it will become the end of time of darkness for all Kins of the great Race and descendants of the Heavenly Kin.

[110] Glorious Sages of Gods of the great Race and the Heavenly Kin. You Witchers silverhaired, you Sages Mostwise, remember my words. Inscribe their Runes on Santies and on stones in your temples and sanctuaries, in order that your descendants would remember about grave times. Which will be brought by Time River on its transient waves and would be ready for grave tests.

[111] If descendants of your Kins will save in memory these words and will unite many forces for defense of faith of wise Progenitors, nothing will save enemies of the Great Race and the Heavenly Kin, from destructive fire of retribution of Light Forces. For those of human children who will go on the way of forces of Light, will be saved. But those who will go on the way of forces of Darkness, will find death.

[112] By the will of God Svarog my Father, I have announced you: about eternal laws of the Universe and about great tests over the Svarog Circle. And the ninety-nine Circles of Life which will occur in the future on Midgard-Earth. This great predestination must be fulfilled by you and your descendants, in order that everything is predestined by Great RA-M-HA. On surface of shining waves of the Time River would come true and execution of which is supervised by Chislobog; who is the god of numbers. Svarog Circle and ninety-nine Circles of Life: Svarog Circle is an enormous period of time, equal 25920 years. Which is 180 circles of life, $144 \times 180 = 25920$. 99 Circles of Life = 14256. Total sum $25920 + 14256 = 40176$ years. One ponders whether the 40K years is up around this time? If it is based on the time period just before the bringing in of the other colored races, which was around 40K years ago, then we are at the end of that cycle now or just beginning a new cycle.

SANTIE 8: In this Santie they gave further warning and also the hope it and they will return to change the dark forces ways.

[113] Perun Mostwise spoke to Skifadiy, the Sage of Temple of Flower of Fern, of Russen Kin: Tell, wise teacher what forces attract aliens to leave their homes in the world of darkness and bring them to us on Midgard Earth? Answered to Sage God Mostwise: Aliens covet everything they do not possess. All their thoughts are only about power above all worlds, about capturing property and the creations of Light Worlds.

[114] The objective of aliens is to disturb harmony, reigning in the world of Light. To destroy descendants of the Heavenly Kin and the great Race, for only they can give adequate repulse to the forces of darkness. Minions of the world of darkness think that only they should possess all worlds, which were created by Great RA-M-HA. Upon arriving to blooming Earths, they seek to school human children to greed, for greed kills cognition and when cognition is killed, shame dies.

[115] And when shame is killed, truth is oppressed, with the death of truth, dies happiness too. When happiness is dead, human dies. If Human dies, then any of his riches are taken in possession of, by aliens. They consider wealth to be their rightest support and they build their world on wealth. In the world of darkness, life is only available to those who have riches. A poor human there, is like a dead in a wilderness. Is there any doubt at this point this has not unfolded here?

[116] They take away income from people, relying on the power of their deception. Knowing that if they take away from people support and faith, the purpose of life and freedom of spirit, they will destroy them. Human children in such situation in the World of Yav', choose the path of death freely and direct their weapons against alien villains. For it is better to accept glorious death in battle righteous against alien enemies, rather than to submit to the enemies.

[117] People with weak spirit will lose their minds or fall under the authority of alien-enemies. While others in thirst for hoarding, go to serve the aliens. Misfortunes of such lost people are worse than death. As death according to law, is the eternal way of the world and there has been nobody living in The World of Yav', who has exceeded death. This passage is describing need not greed.

[118] Alien enemies drive human children into madness and people losing more and more mind, accomplish cruel deeds. They end up violating blood rules in their evil deeds and for those who are guilty in blood mixing, hell opens its wide doors. If the human will not reject all of these, if he will not wake up, he will go directly to hell and Gods will not help him, for he himself chooses his path. For those who are guilty in blood mixing, hell opens its wide doors: punishment for blood mixing is degradation, degeneration and extinction of the whole branch of a Kin. After death a guilty soul goes to Hell. Gods will not help him, for he himself chooses his path: Human is given a freedom of choice and Gods help him only when he goes on the way of spiritual development. But if he chooses to go on spiritless way of material

pleasures, he thus rejects the help of the Light Gods. A somewhat harsh warning and I have to say in many ways not much different on the front from the church. But in a different context of the white race numbers dwindling, then perhaps it is better understood. Again it is all about personal choices and responsibilities.

[119] Awakening of human occurs only in cognition and the eye of cognition saves him. Having achieved cognition, the human child looks at the Vedas again, then aspiration for spiritual life becomes duty and head of all deeds becomes conscience. Listening to conscience, he hates everything evil, this makes conscience strong and human creates his happiness. In happiness human himself is created. Head of all deeds becomes conscience: When conscience becomes head of all, deeds of a human begins his spiritual development. Living by conscience, human is capable of fulfilling all commandments of Gods and Ancestors. No matter how many there are, for conscience is above all. As the human child looks at the Vedas perhaps this song is more fitting now than before. LAST IN LINE

[120] Tranquil people are always skillful in their deeds and invariable in duty before Kin. They don't imagine anything unlawful and they don't act sinfully. Dishonorable or unreasonable people, be it men or women, do not succeed in fulfillment of their duty before gods and Kin and become like aliens. Those who have conscience, honor gods and ancestors and head for immortality, but not the hellish world.

[121] Those of human children who having come from madness to rage, will be threatening. Who will come to hate good, will be called by people grey like alien and despicable. Who by instigation of aliens, in delusion and greed, seeks to take away from good people their happiness. Those not controlling themselves will not cope with anger and himself will not retain happiness for a long time. For all riches of those who have gone astray from the way of Light, will go to aliens. Grey like alien: Even though their skin is indeed grey, in the original version of this particular shlock, another word was used, a karaen. Which means, the one without light in his Soul. But during the translation from Runic language to Russian, word "grey" had to be used, because there is no equivalent in Russian for the word karaen. I wonder if that is the origin of the modern slang name of a Karen? This passage explains in overview of the word in their bible saying, we will make man in our image. That is not a creation message, but a plan to subvert all men and make us act like them.

[122] And hearts of all dark forces are filling with joy, when human children are listening to deceitful speeches of aliens, go astray from way of Light. And go by mean way, accumulating material welfare, but not spiritual, by the will of alien enemies, this way leading their Kins to destruction. Alien enemies know that all unrighteous welfare and riches taken away from good people, will cloud human mind and souls of humans will become callous.

[123] Children of human Kins, do not listen to words of aliens for they are deceitful and want to destroy your souls. In order that they would not reach the Celestial Asgard and they would be eternal wanderers in

pitch darkness. Do not allow aliens to your daughters, for they will seduce your daughters and deprave their pure souls. Spoil the blood of the great Race, for the first man of a woman leaves images of spirit and blood.

[124] Alien images of blood, oust the light spirit from human children and blood mixing leads to destruction. This Kin dies degenerating without having healthy posterity, for there will not be that internal force. Which kills all illnesses-diseases, which will be brought to Midgard-Earth by alien enemies coming from the dark World. Interesting they mention an internal force that eliminates illness and disease within the white race. Interesting also to note, them stating alien forces brought the disease with them. Yet which race of people appear to have immunity from such plagues and diseases? The Hebrew Anunnaki amongst us and their descendants.

[125] Do not listen to exhortations of alien-seducers and don't become attracted by their deceitful promises. Alien enemies have no compassion, neither to human children of the heavenly Kin, nor to creatures similar to them. For each who came from the dark World or his offspring born on Midgard or other Earth, thinks only about idle life, exploiting other's work and trustfulness of human children.

[126] By deceit, ruse and unrighteous lie, aliens obtain trust of the people. Boasting about their friendship with elders of Kin, they enmesh with lie, the human children. Pervert their pure souls and school them to mean deeds. Alien enemies call their lust, pleasure and birth of children, vicious madness. They call human children to non-observance of paternal traditions.

[127] Human children of Kins of the Great Race and you descendants of The Heavenly Kin, be pure with your soul and spirit and let pure conscience be measure of your deeds. Banish from all your lands alien enemies and all their offspring, or else they will destroy your light souls with their spirit lessness. By their vicious deeds they will ruin your bodies and will use you and your descendants in their dark deeds. With your sons and daughters, they will comfort their flesh.

[128] Those of you and of your descendants who will remember all this, will banish alien enemies and their offspring from sacred land of The Great Race, are the true saviors and defenders of their Kin and of all Kins of the Great Race and the Heavenly Kin. Those who will listen to deceitful words of aliens and will give to them their women, or will take alien woman to his son, are apostates of human Kin and they will never be forgiven by light gods and the Heavenly Kin. Some very severe warnings of mating with them, even engaging them, makes one ponder on one's own thoughts of ever merging with them in any sort of peace pact. Exploiting other's work is all they have ever done, in terms of science, technology, finance, business and many other exploits. But the greatest is exploiting our ingenuity, compassion, intelligence and above all, our life force energy. Of which we criminally misunderstand, as well as our own power and we will need a major learning curve of knowledge to get it all back. One ponders now of

ET Disclosure taking a whole new course, because the trust with those beings who harmed us, is and should be an all-time low. From the patronizing space brothers and sisters spiel by the Pleiadeans, the grey and reps of Orion, the Draco of Alpha Draconis and the Hydra dragon group from Hydra Draconis, plus the Hyksos and Abraxans all played a role in the great deception of this Race. A short break before the final Santie, it had to be a nine didn't it? THE 100 SERIES

SANTIE 9: This section explains the fall of that time period. A warning from the past to the future and housed here in the now. This may well cause triggers within you, find time beyond this show to work through them.

[129] And asked Perun Thunderer, sages-keepers of tracks, which lead through Star Gates, tell us our wise teacher: What is happening in Great Svarga, and why have many Gates to Makosh/Ursa Major and Rada/Orion closed. The crystals of movement are not beaming anymore and the Zarbine Circle has faded in half a quarter, the Celestial Needles lost color. At present from many Vitemarar we don't get a response to our long call. Half a quarter: Measure corresponds to 1/8 of Circle or 45 degrees. Celestial needles: Systems of space communication and navigation.

[130] Perun Mostwise answered to them: Be advised Keepers of Star Gates, a great Assa is happening in Svarga, Makosh, Rada, Svat' and in Rasa. A great battle is occurring, in it light gods from Prav' entered brutal battle with alien warriors of hell. They are defending Great Svarga and cleaning the World, system by system from warriors of darkness from the dark World.

[131] From those spiteful enemies, who turned blooming Earths into dust, who spilled blood of innocent creatures, nowhere spared neither the young nor the old. That's why many Gates have closed, in order that alien enemies would not get to light lands of Great Svarga and that fate of Troara would not befall them. Troara which as once in Rada/Orion most bright, illuminated worlds with wise love.

[132] Now Troara is deserted without life, many gate Circle is torn apart, on many needles collapsed mountains and ashes of fire lies in seven sazhen. Same image, sad and cheerless, I saw in Arkoln on Rutta-Earth, which shined before in bright Makosh. Star Gates - fritted stone. Celestial Needles - roadside ash. Seven sazhen's: A sazhen is an ancient Aryan measure, equals 213.36 cm. 7 sazhen make around 15 meters or 50 feet.

[133] Everywhere are ruins of great sanctuaries and cities are destroyed by heavy fire, which was rising from Rutta up to the sky. There is no more life in that Earth without Sun, no plants, nor birds, nor animals. Just wind carrying dust over valleys, filling ravines of intermontane. Despondently and quietly in that world of ruins, where once dwelt life far and wide. Intermontane means on, around or within the mountains. Why always mountains? Because many of them are the station or portals from which to travel

to and from worlds. Why do you think the evil aliens amongst us are planning to block out the sun now? Because everything else failed. Black Sun and the void with no life is their agenda, that we revealed in FHSTOS 8B.

[134] The Fash-destroyer evaporated rivers, seas and the sky got filled with black clouds. Beams of light do not get through pitch-dark fog and life will never return to that world. This happened to many Earths, where had been enemies from the dark world. They were attracted by riches and minerals, which those beautiful Earths had. Having earned trust of people by flattery, they stirred up people against each other. This way, were born wars in those worlds. Where there is mining you will find them and desertification.

[135] After the end of wars, those who remained alive, were irradiated with ziran. The people lost their consciousness and will, by command of alien enemies. They were extracting riches and minerals, when those Earths went out of riches and all minerals were exhausted down to the limit, all people were destroyed by enemies. They exported everything they obtained on those Earths. But those Earths where aliens were ousted, there they sent Fash-Destroyer. A message to the EL-itist clowns is in this passage, they who are the minions of these evil Overlords. Because the recent version of this was actually this century. Marduk pulled the plug on you all, he had all the riches, most of which you gave to him in return for personal gain, via fake pieces of paper. He told you all you had the golden tickets, he lied. He told you all you were the special or chosen ones, he lied. He told you all you were part of the plan, he lied. After pulling the plug in 2007 from the Trust, it was set up here for another Fash destroyer type weapon and destroy this whole planet and all the beings on and in it, including you. Yet you all thought he was playing a game with you and he would return to save you, he didn't, outside of a controlled chip and he won't. You all sat there waiting for your savior to save you like children, that is not happening, just like the 2012 destroy Earth event never happened, just like the create a black hole to portal out event with CERN never happened. You are trapped under quarantine, there is no way out or in this time.

The next phase of this is how to repair all of the damage caused and restore things to the way they were before the catastrophic events. Except I disagree that it was better before in general, it wasn't. Endless wars, death and suffering is no different to now and we need to teach all species a better and fairer way. [136] To restore Zarbine Circle to make the Star Gate spiral beam again, extract movement crystals in part which fades in half a quarter. In place of the movement crystals of Svarga, which are on borders for Svarozhich system, install Yngliya Crystals. Outworld light manifested in Nav', will glow in Yngliya crystals and shedding powerful stream, it will restore zarbine glow.

[137] As spiral with straight radiance manifests on zarbine Circle in front of you, once again change Crystals to previous state, for outworld will be opened to you. Be advised, outworld light is harmful, it absorbs soul's radiations and mind fades in it, unable to understand what happens with Soul. False light? The life of unreasonable, soulless creatures does not go to Svarga, but goes to hell. There they pine in pitch

darkness without knowing themselves, nor what happened. Is the outworld light the false Illumination the Illuminated ones fell for?

[138] So be attentive in your deeds and don't tempt fate in vain. Many people got destroyed by curiosity, those who tried to cognize the Outworld. Outworld Rays are harmful to health and humans are unable to comprehend its nature. Life there flows by other laws, a bloody dawn rises above Earths. Strange essences, like polkans tried to destroy Vitemarar for age. Polkan or Palkan is a half-human, half-horse (in some variants, half-dog) creature from Russian folktales which possesses enormous power and speed. The chimeras in Boadingshan, China were killing and grinding up humans there.

[139] You've been living on Midgard calmly since old times, when world got established. Remembering from Vedas about the deeds of Dazhd'bog, how he destroyed the strongholds of the Kosheys, which were located on the nearest moon, Lelia. Turh didn't allow insidious Kosheys to destroy Midgard like they had destroyed Dea. Dea: Destroyed planet of our solar system. At present the remains of Dea make up the asteroid belt between orbits of Mars and Jupiter. These Kosheys, rulers of Greys, vanished with the moon in half a chast. But Midgard paid for freedom, with Da Arya hid by the great flood. Half a chast': Aryan measure. 1 chast' = 648 parts or 18.75 seconds.

[140] The waters of the moon caused that flood, to Earth from the skies they fell in rainbow colors. For the moon split and in a svarozhich array they descended to Midgard. Ancient Strings were destroyed, which stretched to distant Systems. In between world some connections were interrupted and the long call could not be heard. Many Vitemarar got lost in Svarga, until new Strings were born and their call was heard from Systems.

[141] A lot of people died in that time, those who wasn't able to lift on Vitemanas or pass through Star Gates and save themselves in The System of Bear. Which is Ursa Major and Minor. Strings of Systems are deranged again; therefore, the Celestial Needles have lost color. To make Needles beam with colors again, replace Irkama Crystals with Tara Crystals, and through Zimun restore Strings. Zimun is Ursa Minor which houses the pole star Polaris.

[142] Once again will beam Celestial Needles and Vitemarar will answer your call. Faith in the success of your glorious deeds, this is what is the most important at this time. If deeds are fastened with faith, what can hinder deeds from happening? Only in labor created by community, you will cover your Kins with Glory. Only by uniting all Kins by Ancient Faith, you will defend your beautiful Midgard. That last section is an important message to the village, once you connect the dots. But also plays out on a much wider scale.

[143] Ancient connections will be restored again and to calls of descendants, will respond the Ancestors. Aliens won't be able to prevent this, for they will be exiled to hell from Svarga. But remember people, that enemy is revengeful and just pretends that it does not care about Svarga. But actually, hiding from looks, will be maturing a weapon of revenge. They don't know about honor and heavenly truth for there is no conscience in their hearts. No integrity in essence.

[144] Aliens have destroyed many Earths in different systems of Svarozhich Circle. Black envy darkens their minds. When they see prosperity of each other, envy, deception, desire for another's, that is their objective, even in hellish world. That is why aliens try to conquer everything in Svarga and the Between world. Remember people of the great Race, everything I told you in this beautiful evening. The main thing is that for your descendants, this knowledge will not be useless. CHILDREN OF THE SUN

We are the children of the sun the song says; In Theosophy, it is believed that the Seven Stars of the Pleiades focus the spiritual energy of the seven rays from the Galactic Logos, to the Seven Stars of the Great Bear, which is Ursa Major. Then onto Sirius, then to the Sun, then to the god of Earth Sanat Kumara, and finally through the seven Masters of the Seven Rays to the human race. The master of the seven rays is the overviewer, remember the drawing I showed many of you of the single point of light or information? And how you only see from one point, but when you go behind it, it becomes 7 points or rays. Sanat Kumara is regarded as the Lord or Regent of Earth and of Humanity. He is thought to be the physical incarnation of the Planetary Logos, the living being that ensouls this planet. Except the planetary Logos is a female, not male. That is explaining the fall of the Divine Feminine and being replaced by dark force aliens. Sanat spawned from the words Santa and Satan. Helena Blavatsky asserted that Sanat Kumara belonged to a group of 30 beings called the Lords of the Flame, who were from the planet Venus. In the Judeo-Christian tradition, these same beings are presented as Lucifer and the angels who fell from the Godhead to Earth. The planet Venus is not the main planet of this solar system, it is Midgard. Venus was Luciferia and female, not Lucifer. Lucifer signifies the fall of the logos in this planetary system. The Indian or Hindu version is the bastardized and dark forces version of the Vedics teachings, replete with dark forces entities. Here is an example of it. During the ceremony, and at the apex of the full moon in May, what a coincidence the solar bhardoah's were in May. Was it another coincidence that our members undertook special trips in May this and last year? When the Sun is aligned with the constellation of Taurus, it is believed that Gautama Buddha briefly descends into the valley, bestowing a blessing on those who attend and all of mankind. During this time, the Lord of the Solar System or the Solar Logos is believed to release cosmic energy to Earth in order to keep our planet's cosmic energy in balance. The Lord by its name was an imposter, like the male god of Earth and also for many centuries the Solar Logos Ra, the serpent god. Thankfully much of those dark entities have now been replaced and the Solar Logos original has returned, as has the Divine Feminine energies. This is why the clowns are panicking, they have lost their battle and are reduced to playing child level games. Adult thinking and actions have and will prevail. So, there you have it, what do you make of all of that? Sad, shame, guilt, despair of how we all fell so far

down. We all forgot the collective teachings and wisdom, we just sailed through lifetimes like a shipwreck. When calmer waters were available to us. The Time River portions of this piece bears a reminder, does go with the flow now make more sense? Ride or skim the wave also, as above so below. Is there any doubt at this point this has not unfolded here? It matters not which color skin or race you are listening or reading this piece, what matters is, will you adapt to the teachings of how to be and how to act in a much more adult-based way? Yes if you are black skinned in the modern day, the passage of non-mixing will come across as racist, but it is but mere geneticism. With the adult understanding of geneticism, those passages will make more sense. We assumed we were all the same, in essence as humanoids we are, but we were not from the same planet or even solar system. It is from that understanding and perspective the URS spoke. We are all not so different, when a black male or female brings a white partner into the fold, it is frowned upon in the community. The same applies with black and Hispanic and the Natives with other races, not to mention the Jewish race and their no mixing Talmudic Law. Why? Not because of racism, but it is genetic coded memory. Maybe the balancer in me at times reaches too far, of how I think we should all come and stick together? I fail to see why are differences cannot be set aside and became friends and working colleagues, whilst sticking to genetic boundaries. Perhaps that can only come when the all Jewish narrative falls and the truth is revealed on a wider scale, not just from THI. Our fall and decay was not from the mind, but the heart. We replaced understanding with illusion, mind memory and lies. We replaced abilities with technology and worst of all, replaced love with fear. Ancient knowledge and truth have become unbelievable to a mass of people too lazy to not learn a script given to them by their slave masters. Gods-teaching and helping people without idolatry, but with humility, truth, honor, integrity and respect, minus the anger management issues that embued all the other gods. A god is a helper and service to others, the gods of the bible were service to self, big difference. The Vedas are the path to enlightenment for us all. Whilst THI has its own blueprint of life, we are but a mere copy of the original blueprint, the Vedics. This is a show for all to study and act upon, it is not entertainment, it is how to operate in the best way in this game of life. So that you are reminded of what is contain in all of your DNA codes, but forgot. Think deeply on this last piece and observe our world of the past decade and what is unfolding now. The all-destructive fire of retribution of forces of Light will burn minions of the world of darkness and all descendants of alien enemies. Which were filling the whole human world with spiritual emptiness. Carrying on their banners: lie and vices, laziness, cruelty, desire for another's, lust, fear and lack of self-confidence. It will be a great end of the world for alien enemies, who came from the dark World. And it will become the end of time of darkness for all Kins of the great Race and descendants of the Heavenly Kin. I will repeat again, Is there any doubt at this point this has not unfolded here? This will go down as one of the great shows of THI, but it will carry so much more. A frequency of hope that the end is near, a frequency of spirals that will permeate all over the world. That puts the old world and new world on notice, the march to a better planet strives forward and it cannot be stopped by clowns, fake gods, families or their armies of minions, only by us not doing our part in it. How quick the transition is? depends solely upon us all coming together. A THI hammer of epic proportions. ODE TO FREEDOM
