## BLUEPRINT REPORT 03 DECEMBER 2023

The holiday season has brought many together to continue work to distribute the U.S. Blueprint and to start development of Blueprints in other countries. New Blueprints are being developed by those who live in that country to reflect their national needs. We continue to make THI books and booklets more readily available to the public.

### BOOK TEAM:

Many translations are underway, the Swedish translator is working on the Blueprint. The Bulgarian translator is working on Volume 2 of From His Story to Our Story. The Dutch translation of the Blueprint is in the proofreading stage and will be sent for formatting as soon as that is completed. The Sacred Divine Masculine and Sacred Divine Feminine booklet and the Consent booklet have been sent to the Dutch translator. The Hebrew translator is working on the Consent and Sacred Divine Masculine and Sacred Divine Feminine booklets. The German translator has created an audio-video version of the Sacred Divine Masculine and Sacred Divine Feminine booklet, complete with background music, images and the lovely voice of our translator. The Polish translator has completed the Divine Masculine and Divine Feminine

booklet. It has been formatted and it is available for the very busy and much appreciated web team. A year-end report is prepared, with several members of the team contributing. Fonts that support Cyrillic and other languages have been investigated and several have been acquired to add to the standard fonts that support the Polish and or Bulgarian languages. Short and long descriptions have been sent to the web team for the German Volume 1 From His Story to Our Story and for the English Volume 3.

#### MEDIA TEAM:

The media team are progressing well with all the accounts, they are getting attention and they continue to grow each month. We are continuing to put out memes and videos every day to keep planting the seeds. We have had a better response with the YouTube channel as members have aided us through liking and sharing the videos. We recently did a sharing of the recent YouTube Blueprint show while on the Common-Sense zoom and many of the members shared the link on their own pages or with a friend. This in turn helped the Blueprint show gain traction, so it was a worthwhile exercise, we are very grateful to you all. We post the links regularly to all the channels in the main chat and the main page for the members to engage with, you can also download the memes and videos and upload them to your own social media platforms. We thank you all of you that take the time to support. us As some members are away this month, we will do our best to keep the momentum going during this next month and we are also taking time to assess our strategy and correct course if needs be. We are always open to suggestions and to members joining us on the team.

#### YOUTH WEBSITE:

The most recent meeting was with a Web team representative to discuss the living library concept. As an interactive model for the library, a medical website designed to enable people to select a physician, schedule an appointment and get information was shown. We discussed how a simplified version of this could be created to bring the living library to life on the youTHInk Different website. We went on to review progress of the short intro videos and content for each of the five topics we feel youth will be most interested in, law & consent, food & permaculture, climate change, gender and race issues, plus job security and housing. Each topic has a primary writer who will be creating and developing the content and script for the intro videos. We have set up folders on the youTHInk MeWe page, so each prime can upload their content ready for the web team to use when they start work on the website development. An anime character idea will be pursued by a member with contacts in that field. We are hoping to have an example soon so we can develop this concept further. The idea is to create a character that is appealing, that youth can relate to. There may be some technical issues around how we utilize an anime character on the website, to be determined; however, step 1 is to create a visual so we can align our intention. We had a discussion around intent and how it is important to align our energy and intentions. We do not have to agree on what we do, it's the different ideas coming together and the healthy debate that creates new ideas from many different ideas, as that provides the catalyst. We do need align our energy and intention however and make

sure we are all rowing the boat in the same direction. Next member meeting is Friday, December 8. Please type “hey youth group, I want to help!!” on the main MeWe chat and one of us will reach out to you.

#### LAW TEAM:

The next Law zoom is schedule for Sunday, December 17, 12:00 Eastern. This will be a member roundtable discussion on the following topics: The Santes of Perun and Rita Law. Emperor Constantine’s speech from 314CE. Emperor Constantine’s articles on truth, trust and all that evil needs to flourish. The Ucadia 144-line document that defines the true rule of law and justice. The idea is to connect the dots between the Slavic/Aryan Vedas, Rita Law, plus what Emperor Constantine tried to achieve 2,000 years ago and how this all connects to the true rule of law today. We have shared a number of articles on the law MeWe page for the group to review prior to Jan 17. We hope that those attending will come ready to share their thoughts and perspectives. In order for us to be the Guardians we have claimed to be, we must unravel the fictional overlay of his-story, find the truth of who we are and our heritage, then stand in our power and claim what is ours. The recent Vedas shows have been very powerful, leading to a much deeper understanding of who we are, what it means to be human, what is life, what is love. This helps us develop a firm foundation of character so we can live in truth, in honor and develop a community of trust. We then become the living spirit of the law. The Ucadia model gives us the systems that can help us restore the true rule of law. The Vedas, Rita Law and Ucadia provide the foundations we need. The Jan 17 Zoom should be a spirited discussion as we explore these concepts and share our individual understanding and perspectives of these rich bodies of knowledge and wisdom. We are still developing the 2024 Intro to Law and Advances series of Zooms; stay tuned; we will announce dates in early January.

#### WEB TEAM:

The THI bookstore website, found at [thi-show.com/bookstore](http://thi-show.com/bookstore), has been updated with further updates from the book team and our translators as follows: FHSTOS volume 1 in German is now available; the links for the eBook and also the Lulu paperback can be found at the bottom of the bookstore webpage at THI-Show.com. A new section has been created for the new FHSTOS volume 3 in English; links for the eBook and Lulu paperback are also available. Thank you to all who contributed to make this happen.

#### RESEARCH TEAM VOLUNTEERS:

Volunteers continue to work on providing contact information on influencers throughout the world. Lists are divided by categories for distribution in small batches by the Blueprint website. Locating Influencer preferences and contact options can be time consuming, but even one hour a week of research can be effective. Not everyone has a contact email address for website distributions, but some have a contact form on their website that can be used by an individual to contact them.

## OVERVIEW:

There is a cycle to life and work that ebbs and flows. Holiday traditions provide an opportunity to gather with friends and family in love, with shadow work as an unquestionable bonus. Life is full of distractions, but knowing what's personally important maintains a rudder to manifest dreams. Scarcity is manufactured. The world will have prosperity for all once the parasitical raiding of countries for their natural resources and populace is ended. Militaries will be deployed to genuinely distribute humanitarian aid to restore goods and services to those in need. This is an opportunity to work for a better world, the one that is intended by natural law. The world is changed through visualization, cooperative effort and continued working within natural law. Everyone has something to offer. Who's ready? The [newblueprintforhumanity.org](http://newblueprintforhumanity.org) website has links to the THI show, The Peoples Club and TPC Communal Gatherings. The Action Groups are at [MeWe.com](http://MeWe.com). Groups are forming to write blueprints for individual countries. The world awaits. What will you do to be a guardian of humanity?

All fantastic stuff and things are being to flow now on a massive scale, thanks to all the contributors for that. Here is the final list of books that were posted last week, they went out to: Sergey Lavrov, Russian Ambassador. Thomas Fitton, activist and judicial watch. He has just exposed the Hunter and Joe Biden email of corruption and fraud. Gentner Drummond, attorney general. Dave Yost, attorney general. Ken Paxton, attorney general. Patrick Morrissey, attorney general. Another 20 books have been ordered and the next list is American Media outlets for either books, pdfs or social media contacting.

UPDATE: Discussions with members recently have brought up some exciting possibilities coming in the new year. It is already agreed with the book team that the whole Rus, Aryan, Slavik, Vedic and Santies shows and pieces, will all be combined, edited and all the other stages it goes through, to create Volume 4 of FHSTOS. A new idea came forward this week, of another new set of books being a potential doer next year as well. Off the top of my head the Series could be called Empowerment and life or something else. But thinking of combining the what is love, life, value, human, coming together and the last piece tonight going into a short book for general reading, which can be shown to all members friends and family. The reason being is, this is about us and would have less or none of the so-called conspiracies in it and potentially will be more open to being read. That would be Volume 1 of that series, Volume 2 which I have been promising for the past two years nearly, would be the self-empowerment show. Another idea I came up with is, to do an audio/video of the what is series, with a short version of it for social media and a longer version of it for YT and THI-show.com platform. With selected excerpts of the series, read by several members, with added music and graphics. This format could also be done with the Santies/Rus stuff as well. Those are some of the ideas for next year, but for now we have to focus spreading the seeds of the Blueprint.

To keep people updated and aware of the work ongoing behind the scenes per se, I decided to include this letter sent out to one of the influencers our team had selected. To Sergey Lavrov at the Russian Embassy:

Hi, I suspect you may have been the person that the Trustee Kim Goguen spoke to a few times, when I was working with her from 2016-2020. Unfortunately that partnership ended in 2020 due to differences, but I have continued my work that I was doing before working with Kim. Our show the Truth, Honor & Integrity has done much to highlight the world's ills, not just blaming politicians, the cabal or Illuminati, but the people as well. We at THI started a series called initially From Russia with Love, highlighting to the world and in particular the Western world, the true history about Russia. That is a contrary opinion both in UK where I was born and also America where I reside. We also brought to the Western world the words and teachings of Nicolai and Svetlana Levashov, who told the Rus story and again spoke about the true history of Russia. We are currently in our series going deeper into the history of the Rus, Aryans and Slavs, with our renamed series due to copyright issues with From Russia with Love to From His story to our story. We have produced three books so far that is available on Lulu.com. But these current shows are dealing with the Santies, the white race and the teachings of the ancient wisdom of the volkhvs, which will be turned into Volume 4 of our book. I am aware of the history of Russia and the role it has played in our world, but also the future role of Russia being the leader of a new world based in fairness, transparency and a much better world for the all. With that in mind, we created a blueprint book, which is American based currently, but is being transcribed in many other languages. It is all being adapted to be a Blueprint for all other countries as well. We are looking for help and support from you with this important document, all produced by ordinary people with a desire to see a better world for us all. This document will be sent into many important places and people over the coming months, all funded by myself and our members donations. We are asking you to read it closely and then make contact with us to arrange meetings and or a show as to how we can take this forward. We are requesting a private conversation with myself. I will be sending the pdf version to the Executive Branch in Russia with the hope of it being sent directly to Mr. Putin, whether it is the original or not?? We have an opportunity with the world collapsing on all levels and utter chaos will unfold on a mass scale around the world. The world is waking up and it is going to get real ugly, the people are going to get nasty, irate and violent with the amount of lies the "Order" and their army of minions have done. I am aware of the off-world influence and have been long before Kim Goguen partnership and how that should be addressed on a global scale. The book gives common sense solutions on how to manage the transition, between the corrupt old ways and implement a new system based on all being equal and fair. Every system has, is and will collapse in the near future, none more so than the financial. The Order does not have a plan, the governments do not have a plan, the old system do not have a plan, but we do. The address to the "Council" in 2016, neither the Rothschild's clan or the Black Sun had a plan, but Kim Goguen and I did. We were designated to fix this world without their and the "others" interference with the Restoration plan. Kim Goguen for whatever reason has not forwarded that plan, most of which came from my ideas of how the world should be run, since 2016. So, myself and our members took it upon us to rectify that. Is the plan radical? Yes it has to be, it cannot be anything else with every system collapsing. We have to virtually 180 degree turn the whole of this planet and it's varying races of humanoids. This is Russia's chance to lead the world onto a brighter path. It is what the Santies taught us all and we ignored. It was what Perun and the wise wizards of ancient Rus taught us how to be, how to act and how to counteract the dark forces. We all ignored it, not just Russia. We have to steer this planet onto a

better path, our old world as we knew it is finished and a new one in our image, not their image must be born. I have a vast range of knowledge that will be beneficial to you, on Governments, Financial, Military, Agencies and who really controlled the old system, which is why Kim employed me. Our plan involves no violence, in many cases no incarceration for those who committed crimes, except those found interfering with the children. It is designed to help all people recover from the mess the old world created. Our task is to build a new one in a better image. Our desire is to kick start real change and engaging all people of all walks of life, so we can all have a say and get a consensus as to how we can change things. As you will read from the document, no one is left out. A fair, equal and common sense approach in how to fix the world. Thank you for your time and hope you are able to accommodate us. I would ask you to bring this to the attention of Mr. Putin and see if we can get some dialogue going. I would love to be involved in discussions and formulating improvements to the solutions laid out, with the high level officials in Russia and be the change we all desire. I am prepared to travel to make that happen, as this is an important phase of change happening on this planet on a much bigger scale than people imagine. With “M” now gone and their other minions of that ilk too, now is our time to make the world in our image. With Russia, the Rus, the UR’s leading the way, like the Santies told us. The Guardians. Reminder, we are all Guardians of this planet, it is our responsibility and duty.

What is real and what is illusion? Have we defined it? Have we understood it’s role within our lives? What is real or reality? Has reality been harsh to us, like truth and fear? What is your experience of it? What is illusion? Why has it become all so encompassing and seductive? What damage has been done embracing it? What has been your experience of it? These are all deep questions this piece will begin to unravel, as we march towards the convergence and the event horizon of a personal nature, for those who are ready. What is life, as we found out was not too well defined or understood, as we neglected to take in what was around us. Instead we immersed ourselves deeper into a pit, yet was rarely seen by those within it. Why is that? Because we neglected everything including ourselves. We have two eyes that don’ t see what was within us or what was in front of or around us. All of which led us to blind faith, which is an illusion and we neglected the true faith which should not have required the Santies to remind us. Blind faith leads us to worship and frittering energy away to anger management external gods, who sit on or in a cloud passing judgement upon us. In overview the concept is mind boggling, yet billions followed that path and neglected their own connection to Source. Then we also have ears that don’t listen to our all-powerful inner voice or the few who stand for the truth. We often close ourselves off from the narrative as it is deemed too painful to hear, but who decided that was a good thing to do? Does that not suggest a lack of caring on behalf of the self, that the pain and suffering of others is ok, as long as it doesn’t puncture your own illusion bubble? Has that served us well? Nope. You see being told about information means, it becomes your problem to face, deal with and act. Yet have we not done everything to avoid that type of interaction? First they came for the Jews, but not being a Jew I ignored it and then they came eventually for my label or bubble and there was no one left to help, aid or save me. Why? Because we ignored all the problems and if we continue to ignore the problems, the problems persist and we cannot provide solutions. That is not facing reality and preferring the so-called easier path of illusion, except it is not easier is it? The

easier path is fixing it and evading the illusion. I said in one show, there is no single entity, corporation or authority that operates on behalf of we the people. Many people will think that is absurd, because many people live for the illusion of protection. In reality land, we the people, have nothing and get nothing, certainly that is positive anyway. So, how and why have we gone this far thinking the illusion of life, love, society and governance is all fine and dandy? Because too few can see it and even fewer will do anything to correct. The dark give us what we ask for, but we never asked for anything valid, so we got given meagre rations and rank stupidity, in overview that becomes indicative. The illusion is all so seductive though, were we think we are doing well, we think we are being protected, think we are safe, in reality land we are not in all three categories. The illusion government is there to serve and protect us. (M) The illusion the church and whatever god is there to save us. (M) The illusion that school is there to educate us. (M) The illusion that banks are there to protect our money. (M) The illusion that social services are there to protect children and the elderly. (M) The illusion that doctors and nurses are there to make us better. (M) The illusion that pills, potions and creams will make us better. (M) The illusion that humanity was founded upon one book. (M) The illusion that the police are there to serve and protect us. (M) The illusion that the military are there to serve and protect us. (M) The illusion that we are the only intelligent species in the universe. (M) The illusion that charities are for the goodwill of the people. (M) The illusion that the media is telling the truth. (M) I could go on listing many more examples, but you get the drift, all of it an illusion. The illusions like the mirror needs to be shattered and reality needs to bite back. Life is but a dream they say, but it's an illusionary version, like happiness another song says. Happiness is just an illusion, filled with sadness and confusion. Reality is often in the eye of the beholder, yet too many with eyes that don't see, it becomes the illusion.

The line often repeated in these shows of there is no new technology, perhaps resonates more now with you all than back then. Many think they are developing the Metaverse world, but in reality they already have it. There is where the I am comes in, I am me and only me, the copy is the 2D illusion game. I am taken and stand in my own sovereignty, I am my own identity. This is the whole idea behind ID2020, the year people would start to see. They decided they would create a new identity for us, one of which they can stay in control of. Those not wishing to participate, retain their own identity and cannot be controlled anymore by these parasitic dark forces. The copy of the copy can be seen as twinning in overview, a merging of the one which is organic, into the second version which is inorganic. All of which confirms the separation of the overlay wave in Picture A of the When two worlds becomes three extended version. Because if that loop was not "cut" and the wave lines were not separating, why would the dark forces be trying to overlay us again on a personal level, into organic and inorganic worlds? Could it not be looked at with different eyes now, when you put all the shows just mentioned together? Merging organic with inorganic, merging non-corporal entities with corporal, merging uploaded consciousness into another vessel, a vessel hosting an avatar. All of which reveals the one becoming the two, which means it is twinning. A co-joining of the separate into the one in essence, you split the one, make the two like a cell, merge or blur the two into the one, where the one becomes disoriented and not realizing which is which anymore. A cell is also a prison room remember. Life is but a Petri dish to clowns and their lunatic

scientists. If we can't win, let's cheat, whether that is financially, scientifically, technologically or cosmologically. All a mask of what is reality.

One of the biggest illusions of life is science, astronomy and math. We are conditioned to look at the sky as a 2D object, which then does not allow for expansion or depth, which are key to 3 or higher D understanding. The flower of life is a prime example, actually it is the lotus of life, it is a 2D overlay imprinted on your brain and psyche, but where is the depth? Have we forgotten we are in 3D? In 2D or even 3D you look at the sun, in higher dimensions you look not at, but through the sun. Because after all it is a portal. But we have been mind-trained to look at things in the sky in 2D only, where is the depth? Because when you apply the depth or 3D to it, then you can really see. You are then seeing what you actually see, not a meme-ory mind view point provided to you by the system of control. I asked in a show some time back, does Australia exist? And most 2d thinkers will say of course it does, it has been in pictures, it is on the telly, been in movies and books and it is a valid response. But they are all 2D presentations are they not? So you assume it exists, but without the experience of it, it is not your full truth, only an assumption of it. So, in overview it becomes a statistical possibility or potential probability only. Logic is the same, a person comes into the house with wet hair, you assume it is raining outside and so that becomes your truth. But what if the person just washed their hair or someone threw a bucket of water over the person? They are possibilities, but statistically people will say it is raining outside. But logic applies only assumptions not based upon facts. So, until the fact is derived, you accept the illusion based on mathematical probability. But math is flawed, ask Johns Hopkins, they applied decimal with a number that has no value, the zero. Zero is not a number, 1-9 numbers are the value and so with zeroes in the equation, math becomes flawed, an illusion. But if the application of deciding whether Australia exists or not and what they present it as, as being the directive for coming to the truth, please explain the belief in god? Please explain all the mythological creatures? Please explain the mirage above a hot road? Please explain why the railway lines all come to a point? Please explain why the moon appears to be closer to us? Do they exist? Or is that what they have told you exists? But what other people have told you is, their truth or opinion, but it is not yours is it? Like the maps, clearly they have overlaid us with their Go -ogle map, well, you can ogle at it all you like, but that is not our version is it? What that means is, your view, understanding and perception of the world and everything, is formed by something or someone else. All created by 2d images, I-mages, mirror magic and supposition. A book, picture or movie are all 2D images that we have accepted as our reality in a supposed 3D world. Assumption like logic, is not fact, it is the pre-disposed positions of other people. Predispose means putting someone in a frame of mind to be willing to do or accept something. Pre means before, then dispose, so before they dispose of you, they get you in a frame of mind, to then be willing or accept your fate. You do realize that? but will you use your real eyes and come to the same conclusion, is that they have been imposing upon us a 2D world and reality. The ultimate in mind memes, the perfect form of subtle devolution, all done by accepting their views and opinions of your world. In essence they have manufactured and overlaid the world how they wish you to see it, what is worse is, we went along with it. If a picture paints a thousand words, nobody asks who is the painter? I said sometime back this planet is all about shrinking everything into smaller and smaller units.

Smaller people, animals, trees, fruits, eyesight, brains, frequencies, heart, feelings, emotions and all to make people believe and stay in the mind. The great question is; who was minding your mind? The planet of devolution not evolution is what has unfolded, let's make man in our image? Plus, is it the case of let's make man believe in our image, that we present to them? The 2D world mind meme is another of their overlay worlds and a devolution program. Now can you see? What do you see? What did you not see? The latter is the main thing. You can't see the forest for the trees, except in the Petrified Forest, there is no trees, because there is no forest. But everyone who visits there believes it is a forest, but that is their 2D mind meme overlay world perspective, because in 3D and your world, there is no forest. They are creating a movie for you, almost like the Westworld series, an image of the fake reality they wish for you to not only see, but believe in it as well. But it is not real is it? Everything is backwards, everything is upside down applies here, everything stated or produced as external when it is internal, like the blame game it is all pointing away from us. But that is not correcting the issues is it? The solution then can only be, to go within.

A song says time keeps on ticking into the future, not no more it is not, it is ticking into the past. Is not time an illusion? How can it speed up or slow down by perception, when it is a straight continuous line or line-ar? Who controls the pace of time? In other words who decided the speed of it? Did you ask? How can time speed up or slow down if it is an illusion? It can't, but you created it, so you are determining it. Why does time get lost when you are happy or on vacation? Yet slow down when you are sad or working in a non-stimulating job? Where did the time go people ask? How would I know, as you created it. You do realize, you created time and then filled it with the illusion and it works against you. If time works against you, why have you adapted to it? Life is but a dream they say, except it wasn't pleasant was it? More like a nightmare. The real dream is what you create and manifest for the future. What happens if your dream becomes your reality? Will you freak out at the strangeness of it all, ask how did that happen? Or embrace it? Recognize your own power and influence upon life? Go forward and then create new dreams, new realities and new experiences? What are you going to create and manifest?

The new age love and light program, everyone dancing merrily singing Kumbaya, was said to be the change, but it wasn't. More people going to church was said to be the answer, but it hasn't. More people being educated was said to improve intelligence, but it hasn't. Agriculture will feed us all, but it hasn't. Technology will make our lives easier, it most emphatically hasn't. Doctors, clinics and hospitals providing us with medication that will all make us better, what an illusion that has been. You thought that by capitalizing your name on forms is you, but it is not you is it? It is a dead fictional person, yet we fell for the illusion. You go into a court and state your name and you think you are representing you, but you are not you at all. Just an incompetent fictional copy. You thought that by registering your home, car, motorbike, dog and even baby, because it all belongs to you, it doesn't, you signed it all over to the state. America is the home of the free, it might be for immigrants, until they are registered, then they fall into the same category as all the rest, the illusion of free or freedom. All examples of falling for the illusion. The statements made to me of, there are lots of nice people, lots of caring and sharing people, lots of loving

people, but there clearly isn't otherwise the world would be a better place. Myself and this show has always been about reality, what is real and pointing out the illusions of life. I said the very first show, I will tell you what you need to hear, not what you want to hear. Now that said back then and even now, was radio show host suicide, but the sheer levels of bs within the CIA based Alt Media left me exasperated and the realization of, these people are not that much more awake than the bot like masses. Alt Media the illusion, THI is reality. THI is not an Alt Media show, it is a reality show, with no sensationalism, no false promises or dates. It is a working and teaching group that blames all for the mess this planet is currently in. It teaches empowerment, personal responsibility, soul development, knowledge, wisdom and so much more. It is the only show that provides solutions, all of which sadly in my opinion, makes it unique. It is not everyone's cup of tea per se, because not everyone wants to step away from the illusion. Recently I was asked to comment again on another Life Force episode, filled with bad guys being eliminated for the umpteenth time on that show and we also now have thousands of angels flying around our skies saving us. Why would I need to pass comment on that or them? They do what they do best, keep the illusion going. Not my or our fault they chose that path, they do what they do, because illusion sells more than hard work and being our own savior. We lead, the rest follow or stitch, copy and paste.

Like I have often said is, I have not ruined anything, I just shattered your own illusions. Some may not agree with that, going no, you ruined everything, who me? Is the reply. I wasn't the one who believed in the illusion of it all, you did. And people wonder why everyone is sick? Mentally or physically, because you fell for the ill-usion of it all. The greatest illusion of all is, you have no power, turn it in, you are the power, you always were. Yet life revolves around fear and scarcity, but they are both illusions also. Fear of something, is something that hasn't happened yet, is it not the case that, that is manifesting a future of poor events and happenstances? and yet everyone loves it. Scarcity? There is none, only a lack of sharing. How can anything be scarce on a replenishing planet? We are running out of resources? Re-source, like re-searching tells you, you are the Source and connected to Source and that the search is within. But you accepted the externalization of everything, when everything you needed was within. So, it is really all about what are you creating? What are you manifesting? How much effort and energy have you applied to that process? How much energy are you wasting not fulfilling that process? Which is more beneficial? What if the Blueprint was not for this world, but another one? What if you emerged on that world tomorrow, what have you created for yourself? What is your reality then? Who will build, create and manifest then? What is your external world? What is your internal world? Which is the most beneficial to you? What world have or will you create? Did you or have you thought about that? Do you still think someone is going to do it all for you? Did that work in the past? No? then change it and you. The mind is the prison and subsequently the illusion, because you thought you controlled it, no it controls you. The heart cannot be controlled because it is the connection to Source, it is the reality of life, the spark of creation. Will you embrace and integrate with it?
